Rev. Dr. Peyton H. Hogs, of the First Presbyterian Church, returned to the city this morning from Lincolnton, where he had been to visit his family.

The fishing excursion given on the *Bessie*, to the Rocks yesterday, was a grand success, nearly everybody that stopped at the Rocks caught a fine string of fish.

## Forecasts.

For North Carolina, rains and stationary temperature. For Wilmington and vicinity, fair weather.

## The Ladies Delighted.

The pleasant effect and the perfect safety with which ladies may use the liquid fruit laxative, Syrup of Figs, under all conditions make it their favorite remedy. It is pleasing to the eye and to the taste, gentle, yet effectual in acting on the kidneys, liver and bowels.

## Carpenters Wanted.

Elizabeth City must be on a building boom. The last issue of the *Economist* says: "Carpenters are in great demand in this town now, which is an unmistakable evidence of progress. Therefore we would advise any person who can handle a hammer, a jack plane and a hand saw to come here and there is a chance for him."

## Hope They Will Accept.

The Durham *Sun*, in speaking of the invitation extended to Col. A. M. Waddell and Col. T. C. Fuller to address the Confederate Veterans Association of Durham, at their barbecue to be given the 5th of October, says: "We hope these gentlemen will find it convenient to accept. They will regale our people with something admirable and we will all be delighted to hear them. We anxiously await their replies to the invitation. Both gentlemen have a warm place in the hearts of Durhamites and their coming among us would be hailed with pleasure."

## The Ladies Regatta.

At night there will be a dance at the Club House for members only and their lady friends.

A Simple Relief for Lung Troubles.  
For the benefit of those of our readers who suffer from the effects of weak or diseased lungs, we publish the following, which is clipped from the *Scientific American*:

It has long been known that pine needle pillows would alleviate persons afflicted with lung troubles, and a Florida editor relates an incident in support of the fact as follows: During a visit to the home of a most estimable lady living on Indian River, this editor was told of a discovery that had been made which may prove a boon to sufferers from lung or bronchial troubles. This lady having heard that there was peculiar virtue in a pillow made from pine straw, and having none of that material at hand, made one from fine, soft, pine shavings, and had the pleasure of noting immediate benefit. Soon all the members of the household had pine shavings pillows, and it was noticed that all coughs, asthmatic or bronchial troubles abated at once after sleeping a few nights on these pillows. An invalid suffering with lung trouble derived much benefit from sleeping upon a mattress made from pine shavings. The material is cheap and makes a very pleasant and comfortable mattress, the odor of the pine permeating the entire room and absorbing or dispelling all unpleasant odors.

Don't hawk, hawk, blow, spit, and disgust everybody with your offensive breath, but use Dr. Sage's Catarrh Remedy and end it. 50 cents, by druggists.

A cyclone, apparently moving North, is reported North of Hayti.

## Advice to Mothers.

MRS. WINSLOW'S SOOTHING SYRUP should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as button." It is very pleasant to taste. It soothes the child, softens the gums, allays the pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhoea, whether arising from teething or other causes. Twenty five cents a bottle. July 6th 1889

## Some North Carolina Enterprises.

It is very gratifying to read of the great number of improvements that are being made and of the new enterprises that are springing into existence every day or so in this State, and to give some idea of what is going on among us we publish the following from the *Chattanooga Tradesman*:

"R. B. Miller, proprietor of the Laurel cotton mills, Shelby, writes that he has put in 600 twister spindles and is supplying his factory with fire pump, hydrants, etc."

"The canning factory at Rutherford, is now in full blast. About ten hands are employed, and the average is about 300 cans per day. Three thousand cans are now ready for market."

"C. W. Hunt, Burlington, writes that W. H. Turrentine has built and equipped a hoop factory for making barrel hoops; also that T. P. Moore has built and equipped a factory for hard wood and will make shuttle and bobbins and anything else, of such wood as dogwood and persimmon."

"Arthur, Coffin & Co., Bryson City, are enlarging their wood working machinery. Are now cutting large quantity of walnut, square, and turning locust, and will also add insulator pin machine and will want to buy them. Will also put in large saw mill and other wood working machinery. They are now sitting a large saw mill near that place when they expect to cut some ten million feet of popular lumber."

"Dr. W. A. Lash, Walnut Cove, writes that the Walnut Cove Lumber Company was formed several months ago with a paid up capital of \$10,000 to erect a sash, door, blind and tobacco box factory. The company has now a building erected and most of the machinery in place. Will commence operation in five days. They will increase their stock to \$30,000 in thirty days and will have the capacity to consume about 25,000 feet of lumber per day. Also that A. I. Fair has the house erected and is putting in machinery for a steam flouring and grist mill. A. I. Taylor is building a tobacco warehouse here. Cahill & Binford are receiving to day 40 horse power boiler for a saw mill plant."

"J. W. Pumple, Mayor of Salisbury, writes that a Minnesota wool working firm will move its plant to Salisbury. The Yadkin Railroad Co. will build a line down the Yadkin river, 45 miles, via Gold Hill and Albermarle to Norwood in Stanley county. This opens a way into an undeveloped timber and mineral country. The R. & D. Railroad Co. will connect Mocksville with Salisbury by way of Cleveland, thus opening Davie county to the Salisbury trade. It is understood that the Salisbury cotton mill will enlarge its plant to the extent of at least a hundred thousand dollars."

"Mr. W. A. H. Schreiber, Webster, contemplates developing valuable deposits of kaolin and china clay. The largest deposit is situated along a river, with plenty of water power and only three and one half miles from railroad depot. The quality of clay has been sufficiently tested and pronounced second to none. Some very fine porcelain or china has been made from it. A large syndicate is being formed to purchase all the nickel or chrome deposits, over 1,000 acres, in this section and manufacture various products from the ores. A newly invented process is expected to be put in operation. Bi-carbonate of potash and chrome paint of very superior quality have been produced by an experimental plant with satisfactory results. Several corundum deposits have lately been found and are being developed with the view of selling them. Ammanthus, a fine grade of asbestos, has been discovered. The extent of it will be known soon."
