

THE DAILY REVIEW

VOL. XIII. WILMINGTON, N. C. WEDNESDAY, SEPTEMBER 11, 1889. NO. 215.

The average of the twelve English Bishops is 76 years.

The public schools opened in New York on Monday and about 150,000 children answered to roll call.

Gen. Alger seems to be building quite a number of fences for '92. Pine is the principal material used.

The sad news of the death of Hon. S. S. Cox (Sunset Cox) has been received here. He died in New York last night.

Some of those Ohio Democrats are getting real cheeky. They really seem to think that the great Foraker will not be elected this time.

Leon Abbett was nominated yesterday for Governor by the Democrats of New Jersey. The nomination was made by acclamation.

Two widow ladies of St. Louis, who were prominent in social circles have entered convents in that city. They are Mrs. T. C. Mitchell and Mrs. Julia Rogers.

The ninth cargo of material for the Nicaragua Canal has been shipped from New York. It includes sixty miles of telegraph wire, steel water pipe and railroad material.

The revolt against Mahone in Virginia is getting to be a serious thing. He has got some of the best men in his party fighting against him and it is about time to be getting scared.

The marriage of Mr. Emmons Blaine to Miss Anita McCormick, of Chicago, will take place on Sept. 17, at 26 at Richfield Springs, N. Y., where the McCormicks have a summer cottage.

One of the largest fig orchards in the United States is about to be set out in Pomona Valley, California. It will consist of 11,000 white Adriatic fig trees and 5,000 Smyrna fig trees, planted eighty to the acre.

The cigarette habit is increasing faster than the cigar habit. Last year, taxes on 2,151,515,300 were collected, an increase of 289,789,200 over the year before. For the same period \$867,385,650 cigars were taxed, an increase of 22,658,990.

Not only Newbern, but the State at large, has lost a most valued citizen, in Maj. John Hughes. The Diocese of East Carolina in particular has sustained a severe loss. Maj. Hughes was in the 60th year of his age. He was a native of Newbern.

About thirty Maine shipyards, employing from 1,300 to 1,500 men, are in operation. The total number of vessels in course of construction is forty, of which thirty-six are schooners and three ships. Many of the schooners will be three-masted; double-decked and range from 1,000 to 1,200 tons.

Mrs. Stephen Danforth, of Manchester-by-the-Sea, is another victim of the tobacco habit. She learned to smoke in Virginia, where she was born, and though she does her own work and looks after her husband, who is old and infirm, she is rarely without a lighted pipe in her mouth. She smokes twelve pipefuls daily. Mrs. Danforth will be 97 years old on her next birthday.

Dr. H. J. Menninger, a Republican who drifted down this way after the war and was Secretary of State when Holden was Governor, died in Brooklyn on Sunday. He married, while in North Carolina, the eldest of the two daughters of Col. David Heaton, who represented the Newbern district in Congress at one time and was the father of James Heaton, at one time Clerk of the Superior Court of this county.

John M. Langston has gone to Ohio to help Foraker. He declines to say positively whether he will support Mahone. He says that the wily Will needs every colored vote in Virginia and adds in the same breath that Taswell Branch, a colored ex-Senator from Mahone's own district, has said publicly that Mahone is no friend to the colored man and that he would rather lose his vote than vote for him.

Time-tried, Truly Tested. Tried for years, severely tested, and still growing in popular favor and use, is the record enjoyed by Dr. Pierce's Pleasant Purgative Pellets—the little sugar coated laxative granules, sold by druggists, anti-bilious and cathartic.

The Signals Continued.
The Northwest storm signals were ordered continued for this city and section at 10:30 o'clock this morning. The violent gale North of Hatteras continues, with Northwest winds. South of Southport the winds were not considered as dangerous. Thus far at this place there has been no indication of a gale beyond the cautionary flag flying over the signal office.

Wiggs to Wayne.
David Wiggs, the burglar, will be sent to Wayne county for trial. They seem to have an absolutely sure case against him there and hence this move. It may not be so easy to convict him there but if he slips through the meshes of the law at Goldsboro he will be returned here to be tried on the pending indictment. Wayne county court is in session this week.

Killed Almost Instantly.
An accident occurred at Messrs. Parsley & Wiggins' mill about noon to day by which a colored man, whose name we could not ascertain in time for this issue, lost his life. The man was employed about the saw and a piece of scantling became entangled and was thrown back with great violence, striking the unfortunate man in the breast. He lived only about 20 minutes after he was struck.

We have since learned that the man's name was George Lewis and that he was between 35 and 40 years of age.

Wide Awake.
Wide Awake for September opens the new serial, "A Little Knight of Labor"—one of those stories that are enjoyed equally by young and old. The Peppers serial is full of good times. "Maria Mitchell at Vassar" is written by one of her old pupils; there is a good portrait of the famous woman astronomer. "My Dinner at Kensington Palace" is an amusing glimpse of royalty. "The Story of the 'Magic Flute'" relates a romantic incident in the young life of Mozart. Lieut. Lou don tells a bright Indian story, "The Race Between Mr. Deer and Mr. Antelope." A bit of Capadian experience is called "A Voyage on a Raft." An account of a North Carolina outing, illustrated from photographs, is entitled "Through Hickory Nut Gap." The Daisy-Pattie Letter is of importance to the girls. A unique bit of a story is "Gypsy Juno." The poems are unusually good. Public School Cookery concerns fish and eggs. The Famous Stones story is about the "Austrian Yellow." Prof. Starr has another Geological Talk, this time about "A Forest of Bouquet-Greens." The boys will enjoy the article about "swimming." The "Men and Things" pages are full of bright anecdotes and worth-while talks. Wide Awake is \$2.40 a year. D. Lothrop Co., publishers, Boston, Mass.

Forecasts.
For North Carolina, fair weather and stationary temperature. For Wilmington and vicinity, fair weather.

City Court.
There were but two cases before The Mayor pro tem this morning and these were disposed of as follows: Lizzie Scott, disorderly conduct guilty, \$10.
Jas. H. Herring, disorderly conduct, \$20.

The Ladies Delighted.
The pleasant effect and the perfect safety with which ladies may use the liquid fruit laxative, Syrup of Figs, under all conditions make it their favorite remedy. It is pleasing to the eye and to the taste, gentle, yet effectual in acting on the kidneys, liver and bowels.

Family Religion.
Rev. Dr. Pritchard, of this city, is contributing a series of very interesting articles to *Charity and Children*, published at the Baptist Orphanage at Thomasville. They are entitled "Family Religion" and in the number before us the eminent author dwells particularly upon family influence in its promotion of virtue. He pays a compliment to the chastity of the Jews, both in ancient and modern times, and very pertinently asks: "Who ever heard of a divorced Jew?" He also speaks of the difference, in a point of morality, between the Latin races of the South of Europe and the Teutonic races of the North, the French with the English, the Italians with the Germans, the Spaniards with the Scotch and the Austrians with the Danes or Swedes, all being in favor of the Northerners.

To Pull the Fire Steamers.
Mayor Fowler, Alderman Post and Morgan, the Committee on Fire Department of the Board of Aldermen, Chief Newman and Assistant Chief A. D. Cazaux, met yesterday afternoon in the Mayor's office, to arrange for procuring of horses for the Department. Chief Newman was authorized to purchase two horses for the Cape Fear engine, two for Wilmington Hook & Ladder Truck No. 1, two horses for the "Atlantic" engine, and one horse for the hose reel of the same company. After making these purchases, with the serviceable horses now on hand, the department will again be thoroughly equipped in this particular. The horses have already been contracted for and will be delivered in Wilmington in the next thirty days. They are to weigh between 1,350 and 1,400 pounds each, and be between six and eight years old.

A Terrible Storm.
There are rumors here to day of an immense destruction by the flood in New York City but they are thought to be exaggerated. One report has it that Trinity Church, which is on Broadway and about 30 feet above the level of the water at ordinary high tide, has been flooded, but this report lacks confirmation. Certain it is, however, that the lower part of the city has been badly inundated and the damage will be very great. The tide is said to be the highest ever known there, but it is expected that the flood will subside to night. Many disasters to shipping are already known and many more are probable. The storm is also very severe at other points along the North Atlantic Coast. It is probably the same storm that started down in the Caribbean sea and that was lost sight of and reported to have probably recurved. It seems to have gone out to sea and then made its way in to the coast.

The note of the prima donna is negotiable only when endorsed by the public.—Life.
