WACO, TEXAS, May 9, 1888—Gentlemen: The wife of one of my customers was terribly afflicted with a loathsome skin disease, that covered her whole body. She was confined to her bed for several years by this affliction, and could not help herself at all. She could not sleep from a violent itching and stinging of the skin. The disease baffled the skill of the physicians who treated it. Her husband began finally giving his wife Swift's Specific, and she commenced to improve almost immediately, and in a few weeks she was apparently well.
