VOL. XIII.

WILMINGTON, N. C., THURSDAY, OCTOBER 3, 1889.

NO 234.

PLEASE NOTICE
We will be glad to receive communications from our friends on any and all subjects of general interest, but the name of the writer must always be furnished to the Editor.
Communications must be written on but one side of the paper.
Personalities must be avoided.
And it is especially and particularly understood that the Editor does not always endorse the views of correspondents unless so stated in the editorial columns.

A canal 250 miles long is to be built for navigation purposes in New Mexico. It will be 30 feet wide.

Lenawee county, Michigan, is at present paying out something like \$12 a day in bounties on dead sparrows.

Corn struck a very low notch in New York on Monday. It was quoted on the floor of the Exchange at 39½@39¾ cents for prompt delivery and 40 cents afloat and November delivery. The cause of the decline is the immense crop reported.

The Maryland Legislature, which is to be elected in November, will choose a United States Senator. Among the candidates for the position are Senator Wilson, Governor E. E. Jackson, John Brown, James Alfred Pearce and Henry Page.

The Wise family in Virginia seem pretty well divided on politics this year. John S. Wise repudiates Mahone and his brother, Dr. Dick Wise, will stick to him. The two brothers had a very wordy dispute on the subject on the streets in Richmond the other day.

The King of Denmark has knighted Capt. Knudsen, commander of the Danish steamer Danmark, which was lost in the Atlantic, her crew being rescued by the English steamer Missouri, and has presented to him and the officers pieces of plate, and to the men sums of money.

It is not generally known that there is a gradual increase in the number of sisterhoods among the reformed bodies of Europe. Statistics published in Germany show that there are fifty seven religious houses not owing the Roman obedience, and 7,129 sisters, of whom 2,593 are serving their novitiate.

The Lead Trust now controls 97 per cent of all the white lead put in the United States; the remaining 3 per cent is produced by three establishments in Pittsburg, Philadelphia and Boston, respectively, and negotiations are pending to incorporate them with the trust. A director of the Lead Trust is authorized for the statement that the trust is now earning 4 per cent on its \$83,000,000 of certificates.

California engineers have accomplished the difficult task of lifting Feather River, a fast flowing stream, fifty feet, and carry it for more than half mile in an artificial bed at that height above its old channel. It has been accomplished in a little less than a year. The object was to drain the river near Oroville in order to reach the very rich gold deposits believed to exist in its bed. The promoters of the great enterprise are chiefly Englishmen.

Probably the most valuable parrot in Atlanta is one owned by W. W. Dunlap, a conductor on the West Point Railroad. It is worth \$400. Mr. Dunlap has been offered that price for his bird, but refused to take it. The parrot is a fine African grey and is an excellent talker. When you go about him he first regards you critically, cocks his head to one side, winks one eye at you slyly, and says: "I'm a \$400 bird." Mr. Dunlap paid \$10 for his parrot, and taught it to talk.

Don't disgust everybody by hawking, blowing, and spitting, but use Dr. Sage's Catarrh Remedy and be cured.

A Severe Sprain.
We are sorry to learn that Capt. E. L. Grant, Superintendent of the National Cemetery here, is suffering with a severe sprain in his left ankle. It puts him in a bad fix as his right leg is always weak from a severe wound received at Cold Harbor and it is difficult for him now to move even a few steps. However, we hope it will be all right in a few days.

Our Little Ones.
The October number of *Our Little Ones and the Nursery* is at hand. As usual it is filled with excellent matter for the juveniles of very tender years and is handsomely and profusely illustrated. The present issue closes the ninth yearly volume. It is a cheap publication, only \$1.50 a year, and is issued by the Russell Publishing Co., 36 Broomfield street.

The Ball Last Night.
The ball given by the Germania Cornet Band, at the Adrian Hall, was a grand success and was thoroughly enjoyed by all who were present. There were just two dozen couples on the floor during the entire evening. The committee made it exceedingly pleasant for their guests and did all in their power to make the affair enjoyable and we must say that their efforts were singularly successful.

Laying of Corner Stone Postponed.
On account of the advent of the busy season and the courts being in session all over the State, the Masonic Fraternity could not get out their prominent men, and the orator selected for the occasion not being able to attend at this time, the members of Fifth Street M. E. Church have concluded to postpone the ceremonies of laying the corner stone of their handsome new church building, until a more propitious season, when the public will be notified. The walls of the building are going up rapidly, and Mr. Porter, the contractor, says they will be completed in about two months. This will be one of the finest churches in our city.

The party will leave here on the 12:05 a. m. train on Monday morning, so as to be in full time for the grand parade on Tuesday. The North Carolina contingent will probably be under the charge of Mr. Porter, of Asheville, Grand Commander for the State. Mr. Jas. W. Monroe has received a specimen of the handsome badge which will be worn by all of the Knights in attendance at the Conclave.
