Col. E. D. Hall returned to the city last night from a short visit to Richmond.

Maj. Duffy, of the *Star*, has gone to Winston to bring his family on with him to Wilmington.

Mr. Pembroke Jones, who recently landed in New York from Europe returned to the city last night.

Frosted feet may be cured in one or two days by the use of Salvation Oil, the great pain destroyer. For sale at all druggists 25 cents.

Four extra freight trains are run each week between this city and Florence bringing in the steely flaps.

The rates from Wilmington to Washington City during the Conclave of the Knights Templar will be only \$12.95, for the round trip.

Impurities of the blood often cause great annoyance at this season; Hood's Sarsaparilla purifies the blood and cures all such affections.

Mr. J. G. L. Gieschen received this morning a load of those fine New River oysters from the Horne farm. They are on his counter now but are rapidly disappearing. Call soon and get some.

Capt. Geo. W. Gates' family, who have been resident in Salisbury for so many years, are en route for this city, where they will hereafter reside. Capt. Gates has leased a residence on Fourth street, near the bridge.

Dr. Richard H. Lewis, of Raleigh, will make his usual quarterly visit to our city on the 10th, 11th and 12th inst., and can be consulted on those days at Dr. Wood's office for the diseases to which his practice is limited (eye, ear, throat and nose).

Br. steamship *Roseville*, Capt. Blake, which was here last Winter, is at Southport. She is from Hamburg, with kanit, and draws 18 feet. She brought this draught in over the bar. This is just six feet more than could have been brought in over Main Bar twenty years ago.

The next good thing at the Opera House will be "A Cold Day, or Laplanders." It will be presented here two nights next week, Wednesday and Thursday. It is said to be full of fun from beginning to end and that it contains more good laughs to the square inch than any other piece now on the road.

Front Fashion's Great Centre.
Miss Louise Goodwin returned from New York last night and will hereafter be found at Klemann & Thompson's new millinery store, on North Front street. During her absence Miss Goodwin has carefully studied all of the newest and latest designs in millinery and will be prepared to give her friends the practical benefit of her experience.

Frogs and Coats.
Coats in market this morning. High? Oh no. Only 65 cents a dozen. By the way, it is said that coats spring from frogs; that the millions of little green frogs seen in the swamps early in the spring turn to coats in the fall and fly. This fact, however, if it is a fact, doesn't seem to detract in any way from the financial value of the frog when he gets wings on his back and becomes a cute little coot.

City Court.
Mayor Fowler disposed of the following cases this morning:
Daniel Sheehan, keeping hogs in prescribed limits, judgment suspended.
Geo. Walker, disorderly conduct, not guilty and discharged.
Chas. Walker, disorderly conduct, guilty and fined \$5.
Robt. Davis, disorderly conduct, not guilty and discharged.
W. H. Hasty, disorderly conduct, not guilty and discharged.
Wm. Henderson, disorderly conduct, guilty and fined \$10.
Several cases were continued.

The Orton.
The Orton House is still to the fore. Great improvements are now being made and others are to be inaugurated when these are completed. The rotunda reception rooms, reading rooms, halls, &c., are to be remodeled and painted, the fourth floor is to be furnished in an excellent style and the house generally, from top to bottom, is to be overhauled. This is our antipation of what is sure to be a busy season with a large influx of visitors during the winter months. The rates of board have been reduced to \$2.50 and upwards, to meet the demand of the times.

Elle Ellsler.
"The Governess," from the pen of I. Swartz, the gifted writer, was presented to a large and fashionable audience at the Opera House last evening.
Too much cannot be said in praise of this company. It is, by far, the best that the writer has seen in Wilmington for years.
Miss Ellsler, as *Zarah Warden*, a governess, was in every way equal to the requirements of the character. The part is well adapted to her, and it gives her an excellent opportunity, which she takes advantage of, to show her excellent qualifications.

Miss Jennie Stewart, as *Mrs. Hamilton*, a rich widow; and Miss Luella La Verne, as *Chrisy Rogers*, were both well up in their respective parts. Little Gracie Sherwood was too cute for anything. In responding to the *encore*, she took the house by storm. Mr. Frank Weston, as *Jarvis Coulter*, did well, as he always does and was fully up to the standard. Mr. Orrin Johnson, as *Jack Rogers*, was good at times; but he was too impulsive. Mr. John A. Ellsler represented *Job Mooton*, a tramp; and, although advanced in years, he is still as good as in the old days. Mr. Robt. Edson, as *Jimmy Needles*, a persistent wooer,

followed out the old adage, in admirable style; if at first you don't succeed try, try again. *Adolphe Honore Segrist*, an adventurer, was splendidly overdone, by Mr. Geo. P. Sprague.

We hope to have Miss Ellsler with us again, and can assure her she will always meet a large and appreciative house.

The Goose Bone.
For the benefit of those who pin their faith to the goose bone, we give the following as the result of a Connecticut man who has already made his annual examination: "The winter will be marked by more regular weather than last year. There will not be many days during which running water will freeze. The coldest weather will occur in the latter part of January, and during that time will be several days of freezing. Christmas will be "green," but wet and cold. January's entrance will be marked with warm days, gradually growing colder. The coldest day of the winter will be January 27th. The brief spell of cold weather will be succeeded by heavy thaws, and the traditional January thaw will come in February. This month will be a disagreeable one, with heavy snows and rains. An early and decided thaw is among the promises of the bone. February will burst into March with swollen mountain streams, and disastrous floods may be looked for. There will be an early spring."

Progress.
In no way is the world's advancement more admirably illustrated than in tracing its march along the path leading from ancient alchemy to the practical and applied chemistry of today. What more interesting than to follow "through night to light," the developments from the occult to the open, plain and absolute science of the present? How different the motives actuating the sordid votary of alchemy with his magic, meromancy and astrology from the earnest delver in chemistry?—the one to increase his power and wealth, the other to discover and give to the world some new truth for the benefit of science. Knowledge gathered from the Arabian, Assyrian and Egyptian Kama coupled with honesty of purpose and a desire to benefit mankind, evolved from alchemy the modern science of chemistry. The veil of mystery was thrown aside, and to day the place of the "darkworker" of the olden time is occupied by the German apotheker, the French apothecaire, the English apothecary, and the American druggist, each full of knowledge, careful, honest and progressive, walking hand in hand with the modern physician, following the footsteps of the "scientific worker for the sake of science," promulgatory of science for the benefit of mankind. Not less wonderful than the modern American druggist is his modern drug store, and blessed indeed is the community possessed of both. Wilmington has several drug typical establishments. Our friend, Dr. J. D. Nutt, keeping step with the "forward march" of our city has metamorphosed the South East corner of Front and Mulberry streets into a genuine "thing of beauty." The old store was too small for the rapidly growing business, and has been fitted and furnished in a complete manner as a laboratory. The corner is now the "drug store," a place entirely worthy of the name—neat, roomy, airy, full of sunlight by day and electric light by night. The arrangement for the display of goods is perfect, and the prescription department is so constructed as to get the full benefit of every ray of current "daylight." For the convenience of customers, and in emergency cases a telephone has been provided, and can be used, either night or day. Dr. Nutt and Wilmington are moving in the same direction.

Yom Kipper.
The Jewish feast of Yom Kipper, the Day of Atonement, will be observed by all Jewish residents of this city, from sunset this evening to sunset to-morrow evening. For the twenty-four hours embraced in that period all of their places of business will be closed.

Don't disgust every body by hawking, blowing and spitting, but use Dr. Sage's Catarrh Remedy, and be cured.

Syrup of Figs.
Produced from the laxative and nutritious juice of California figs, combined with the medicinal virtues of plants known to be most beneficial to the human system acts gently, on the kidneys, liver and bowels, effectually cleansing the system, dispelling colds and headaches, and curing habitual constipation.

MARRIED.
