axador cures Liver Complaint The Daily Review. JOSH. T. JAMES, Editor & Prop'r. WILMINGTON, N. C. FRIDAY, DEC. 27, 1889.

Entered at the Postoffice at Wilmington, N.C. as second-class matter.

There are 1.400,000 people on earth and all these, as some one computes, could be gathered in a field ten miles square or in 100 square miles of territory and every last man of them reached from one telephone. Who, exclaims the' Detroit Free Press, says the world is over-populated when one book agent may address such an audience?

The Paris exhibition having closed, Parisians are now engaged in contemplating the statistics and counting the gains. It is estimated that 5,000,000 of French people ca ue from the provinces, and that their aggregate expenditure in the capital was \$100,000,000. At least 1,500,000 of foreigners visited Paris and the exhibition, and spent \$30,000,000. Englishmen head the foreigner's list with \$80,000, Belgium coming next with 226,000, Germans third with 160.000, and America a good fourth with nearly 120,000.

A new company, like the famous East India Company, has just been chartered by the Government of Great Britain. Its powers are almost sovereign, and it is hoped that it will do for Africa all and more than all that its predecessor did for India. Its African dominion will be called Zambesia, Zambesiland, and will cover Matabelelaud, North Bechnanaland and Khama's territory, in all four hundred thousand square miles, or twice the area of France. More than half this vast region is fit for European settle ment, and the whole of it is rich in

It is interesting to know what old Tecumseh Sherman thought during "the war of the "nigger." We know the lofty sentiments he entertains now but few have any idea of his opinions in other days.
