WILMINGTON, N. C.

Calvin S. Brice has been duly elected U. S. Senator from Ohio.

Mr. Walker Blaine, eldest son of Hon. James G. Blaine, died at Washington City last night, after a very short illness, of pneumonia. He was Solicitor of the Treasury at the time of his decease.

So far as we know not one of the newspapers in North Carolina which have approved the Blair bill has had the fairness to publish the bill itself and give its readers a chance to see just what it does provide.

There seems to be no decline in the progress of 'la grippe' in New York and other large cities. Cincinnati is now in the horrors. As was premised by us the disease seems to be taking Horace Greeley's advice and to be going West.

A boy 18 years old, up in Pennsylvania smoked six packages of cigarettes a day and the consequence is that he has become a howling maniac. He tried to run his daddy out of the house at the muzzle of a shot gun but the old man didn't quite fancy that method of procedure and called in help when the cigarette maniac was secured.

It is said that la grippe is generally the precursor of cholera, and some seem to think that this country will be afflicted this year with the Asiatic scourge. In this event we need not feel afraid here as we have been told that it has been demonstrated that the cholera does not visit a yellow pine country. It was in 1834, we think, that the plague visited this country and we have been informed by a medical friend that the pine woods were then a sure refuge from the disease.

A very interesting pension case was developed recently in South Carolina. A colored woman, 47 years old, claimed to be the widow of a veteran of the Mexican war. The claim was of course allowed, but some enterprising individual, with a little longer nose and a keener scent than any yet developed in the Pension Bureau, made a little investigation and the thing was found out to be a fraud. There were of course no colored troops in the Mexican war. The pension papers were recalled and the woman and two accomplices are being prosecuted.

Some genius proposes to introduce paper shirts. This might do for Japan, but would prove a "big thing" for the doctors, because rheumatism, etc., would become frequent. If, however, people would keep Salvation Oil convenient, paper shirts might still be a success. It costs only 25 cents.

The steam yacht *Bessie* will be provided with a new boiler which will be put in either to-day or to-morrow and she will probably be ready to resume her trips on Saturday.

We got the egg market in a bad fix yesterday and a panic was averted only by the coolness and forethought of the dealers. We wanted to say that they were selling for 15 cents a dozen and were expected to drop to 12 in a few days, but we didn't—no, not by a long shot.

Last midnight was one of the warmest ever known in January.

Yesterday was not a good day for shooting loons, as we saw a gentleman who went down to Ocean View in the afternoon shoot at one twelve times without touching him. He then gave it up as a bad job.

It may be an unnecessary suggestion, but in curing pork a free use of coarse Turk's Island salt is not an unsafe thing to use with finer salt on fresh pork when first salted. Ice water will also take out the animal heat.

"Let dogs delight to bark," &c., but when a cultured and "early Englished" and well-dressed dude takes to it, it is then he needs a friend to lend him a quarter to buy a bottle of Dr. Bull's Cough Syrup.

The sawdust which Mr. Kuhblank is having laid to the new Portner Brewing Co.'s works, at the corner of Eighth and Brunswick streets, is being put down on Bladen street, this having been found to be the most convenient approach to the works.

The Ladies' Concordia Society gave an elegant entertainment last night in Concordia Hall. It was largely attended and was greatly enjoyed. The Italian band furnished the music and the dancing was kept up with much spirit until an early hour this morning.

Some of our friends from the country scoff at the idea of there having been so much meat spoil by the warm weather. They say that here and there a farmer has killed his hogs but that a majority of them have continued to hold back, waiting for the cold weather that has not yet come.

Mr. Jno. F. Garrell received to-day another car load of Western N. C. beef and a drove of some of that good, old-fashioned stall-fed Sampson beef cattle. Some from both lots will be on his stalls to-morrow and Saturday. In this connection Mr. Garrell assures us that he will hereafter have native North Carolina meat on his stalls every day during the season.

The Fire This Morning.

The alarm of fire at 5:30 o'clock this morning, turned in from box 31, was caused by the destruction of Mr. Charles Schulken's stables, corner Fourth and Swann streets. The building was a total loss, but everything contained therein was saved. There was no insurance and the cause of the fire is unknown.

More Daylight.

The days have been gradually growing longer by an increase of sunlight both morning and afternoon. The sun sets now at 6 minutes past 5 o'clock, against 4:46 a month ago and it rises at 7:10 against 7:11 two weeks ago. There has therefore been a gain of 24 minutes and the days have already begun to lengthen, both the morning and the evening, instead of waiting until "after-to-morrow," "as one of our city contemporaries has it."

The World Moves!

Don't disgust everybody with the offensive odor from your catarrh just because some old fogey doctor, who has not discovered and will not believe that the world moves, tells you it cannot be cured. The manufacturers of Dr. Sage's Catarrh Remedy have for many years offered, in good faith, \$500 reward for a case of nasal catarrh, no matter how bad, or of how long standing, which they cannot cure. They are thoroughly responsible financially, as any one can learn by proper enquiry through druggists (who sell the medicine at only 50 cents), and they "mean business."

Requiring no extra room, having no capital invested, nor interest or insurance on the stock, no remnants, no old stock or patterns left over, reducing the profit, we can afford to send for and get you any pattern you may select, at a cheaper price than you could buy the same, were you in New York yourself.
