Emin Pasha has been made a Ph. D. This is right. He has displayed great philosophy under adverse circumstances.

B. H. Hill, Jr., son of the late Senator Hill, of Georgia, will publish this year a volume of 800 or 1,000 pages containing his father's speeches.

Queen Victoria receives 340 or more letters a day. As they all bear the odor of disinfectants it is no wonder that the old lady is not well.

The Comte de Paris has long contemplated a visit to this country, and will probably extend the trip which is now announced so as to cover all the scenes of the civil war, of which he has written a history.

The Rev. T. DeWitt Talmage knows the value of the newspapers. "I could preach a whole sermon on the everlasting blessing of a good newspaper. A good newspaper is the grandest temporary blessing that God has given to the people of this country."

There was a man over in New Jersey who took out an accident insurance policy for \$7,000. One day, while paring his corn, he cut deeper than he intended to, blood poisoning set in, and he died. Now his widow is suing the company for the amount of the policy, on the ground that his death resulted from an accident.

Henry James, the novelist, says that he never experienced the tender passion. Well, well, what a queer man! Certainly he never put any passion into his writings. We advise Henry James to go at once and fall into love with some girl who will probably kick him. The result would be to give Henry a firmer grasp on the divine afflatus.

The indications are to the effect that Ohio has entered the Democratic fold to stay. Elections were held last Tuesday to fill two vacancies in the legislature, one in the Senate and the other in the House, and in both the Democratic candidates were elected by largely increased majorities. It is an off-year in Ohio—off with the old love.

A Petaluma (Cal.) merchant found in his papers recently a note of hand given him in January, 1860. The face of it called for \$260, with 3 per cent. a month interest, compounded monthly if not paid. He got a number of sharp accountants to figure up the present value of the note with interest. The result was startling—\$8,997,337.90.

Mrs. Davis is now engaged in preparing a life of her husband, our lamented chieftain, and it will be issued at an early date by the Bedford Company, of New York. Wishing it to be as complete as possible she appeals to those who have any of Mr. Davis' letters in their possession to furnish her with copies. She will endeavor, she says "as far as possible, to tell the story of Mr. Davis' career in his own words."

A bill has been introduced in the Maryland House of Delegates in reference to the gas question in Baltimore. It provides that the price of gas in Baltimore shall not exceed \$1.25 per 1,000 feet. All profits above a 6 per cent. dividend to stockholders, and 1 per cent. for reinvestment, shall become the property of the city. In consideration thereof the company shall be protected from competition for twenty five years.

The Democrats of Illinois will make a determined effort to carry the Legislature next Fall, and thus secure a Democratic United States Senator in the place of the Hon. Charles B. Farwell, whose term expires March 3d, 1891. General John M. Palmer, who, as a candidate for Governor, ran 10,000 votes ahead of the National ticket in 1888, will lead the Democrats, and will be elected Senator in event of the Democrats securing a majority on joint ballot. He will make an active canvass of the State, and the Chicago Herald says he "is the man for the hour, and his campaign will be a triumphal march."

I have known Dr. Bull's Cough Syrup for years as a good remedy for the diseases for which it is recommended, and have used it with much benefit in my own family. **REV. R. L. LEWIS, Heathsville, Va.**

The colored delegates who have been in convention in Washington City for the past week have issued an address to the public, and Matt Quay's fine hand is seen in every sentence. It has been a cut-and-dried affair. It is simply a Republican campaign document, with three principal ends in view, to "fire" the Northern heart, to justify the extremities to which the Republicans in Congress propose to go in passing a Federal supervisors' election bill and in preparing the way for the Congressional campaign in the North next Fall. The charges made against the white people of the South are so absurd that any man of common sense and common intelligence knows them to be false; we doubt if those who issue the address believe them but all the same they were ordered to send them out and these "free slaves" were compelled to obey the mandate of their political masters.

The REVIEW has heretofore favored in every way complete educational facilities, equal to those enjoyed by the white children who attend the public schools, but we are forced now to more serious thought than any we have yet given the matter. Here in North Carolina the white people are taxing themselves to death to educate the negroes and now we are told that these same colored children are not afforded school facilities to which they are entitled. It is a time to call a halt. If the colored school children received the school facilities to which they are entitled, and those alone, then but one child in every ten of those who attend the public schools could be admitted there, for the negroes in North Carolina pay but one-tenth of the taxes. In time past the proposition has been mooted that each race pay for the education of its own children and we have always opposed it but now, if the matter is brought up again, we may be tempted to support it, in self-defense.

A Black Friday.—That day, when a person is first seriously attacked with rheumatism, may well be termed a black one, for he will remember the same as long as he lives. If he uses Salvation Oil in time, he will, however, soon be able to speak of a "Good Friday."

The third annual fish and oyster fair will open at Newbern on Monday, the 24th inst., and continue one week. It is a novelty, this having a fair in the winter season, but that the Newbernians have made a success of it goes without saying.

The old saying is that birds mate on St. Valentine's Day, which falls due next Friday, but this year many of them have already mated, without waiting for the wedding day.

The street electric lights are in many instances badly placed. Wherever there is a hollow it seems that a light should be placed there, while the hills are left to take care of themselves.

This weather has been a surprise to the weather makers in Washington City as well as the almanac makers. It came from no one knows where and will go to where no one doth care.

Mr. T. Swann, an axeman of the Fifth Ward Hook & Ladder Co., and a gallant member of the Fire Department, had his foot badly cut with an axe at the fire this morning while in the discharge of his duty.

Attention is invited to advertisement in this issue of Mr. J. H. Ottaway, who has opened a first-class family grocery at No. 113 South Front Street, where we will keep constantly on hand a choice supply of fresh groceries, wines, liquors, cigars &c. Give him a call.

We think it was when Col. Hall was Mayor of the city that two young palmetto sprouts were placed in the park in front of the Opera House. One of these died but the other flourishes and will probably grow to a tree some of these days. Now, why not replace the plant that died, and have a pair of them?

It would be advisable to call early before these goods are sold. I. Shrier, cor. Front and Princess streets. Sign of the Golden Arm.

Mr. Pearson's Movements.

Rev. R. G. Pearson, the evangelist, left Charleston Tuesday for Baltimore, going via the Coast Line. He will remain there for a short time before leaving for a tour of the Holy Land. Of his future movements the *News and Courier* says: "He expects to visit all the chief points of Biblical interest in the East, following more especially the footsteps of the Saviour, and of the Apostles who came after him. His visit to Palestine will be necessarily shortened, as he has an engagement to conduct a series of meetings in Darlington, in this State, in November, and as it takes nearly two months to go and return he will not have a great deal of time in which to see the Orient."

The leading grocers have Porter's Vienna Cabinet and Cullinbacher in bottles. Order a case and be convinced that it is the best in the market.

Forecasts.

For North Carolina, threatening weather and rain and warmer. For Wilmington and vicinity, light showers.

And Why Not?

Can't we get up a sort of a celebration of the anniversary of Moore's Creek this year? It falls due on the 27th. The battle field is distant only about a quarter of a mile from the tank house of the C. E. & Y. V. R. R., on Moore's Creek. Come, don't all yell out at once.

Its Excellent Qualities.

Command to public approval the California liquid fruit remedy Syrup of Figs. It is pleasing to the eye, and to the taste and by gently acting on the kidneys, liver and bowels, it cleanses the system effectually, thereby promoting the health and comfort of all who use it.

T. A. Brinkly was found guilty of disorderly conduct and fined \$20 and costs—\$2.75—in all \$22.75.

Henry Nichols was charged with disorderly conduct but the case against him was dismissed.

Mahone Sues Canaday.

The Washington Post contains the following paragraph: Ex Senator William Mahone, of Virginia, yesterday entered suit at law against William P. Canaday, sergeant-at-arms of the United States Senate, to recover \$2,500. The ex-Senator says that in December, 1887, he was the owner of 10,000 shares of stock of the Gold Mining Company, which he sold to Col. Canaday for \$2,500 cash, being at the rate of 25 cents per share, and transferred the stock by endorsement on the back of the shares. Mahone has always been ready to deliver the stock, but for some reason the Colonel has never been found ready to accept. He claims that this money is due him, and hence his suit to recover.

This Morning's Fire.

The alarm of fire at 5:15 o'clock this morning, turned in from box 35, was caused by the burning of two one-story frame dwellings, corner of Princess and Twelfth streets. One of the houses, directly on the corner, was owned and occupied by Henderson Davis, colored, and the other next door, was occupied by Dan Roberts, who also owned the building. Davis was insured for \$150 in the Sun Mutual, of New Orleans, represented here by Messrs. Northrop, Hodges & Taylor, and Roberts had \$300 on his house in the Fire and Marine Insurance Company, of Virginia, represented here by Messrs. Smith & Boatwright. The fire originated in Davis' house and it had made such headway before it was discovered that nearly everything it contained was lost. In fact, he barely escaped with his family from the building. Both houses were burned to the ground.

A Safe Remedy.

When a person is sick they wish more than aught else a restoration of health. They are willing to take even nauseous medicine in order to get well. With many, however, a first consideration is whether the medicine is perfectly safe. Will it or will it not leave any evil after-effects? Now, there is one remedy known to be certainly safe. It is a botanical discovery, and is called Botanic Blood Balm, or B. B. B. It will not harm the most delicate constitution, nor will a discontinuance cause a craving for its further use. It is a sure antidote for poison in the blood. The blood becomes poisoned in various ways. Constipation, urinary difficulties and other causes of effete matter remaining in the system will cause blood impurity, or blood poison, as many call it. Symptoms of blood poison should not be neglected. B. B. B. should be taken at once. It will cure promptly, and is not bad to take, nor will it leave any evil after-effects.

J. D. Watkins, Blakely, Ga., writes: "Old sores covered my entire person and itched intensely night and day. For several months I could not work at all. I commenced the use of Botanic Blood Balm and began to grow better the first week, and am now sound and well, free from sores and itching and at work again."

Live turkeys are selling all of the way from 75 cents to \$1.50 each.

PLEASE NOTICE.

We will be glad to receive communications from our friends on any and all subjects general interest, but the name of the writer must always be placed to the Editor. State and County Conventions.

The New Hanover County Sunday School Convention will be held at St. Paul's Lutheran Church in this city on the 13th and 14th inst. The exercises on both days will be in the evening, beginning at 8 o'clock. The State Convention will be held in the First Baptist Church on the 25th, 26th and 27th.

Presidency Tendered.

Mr. Warner G. Elliott, of Norfolk, a native North Carolinian, has been chosen President of the Wilmington & Weldon R. R. He has not yet signified his acceptance. If he does accept he will remove to Wilmington and reside here. Yesterday's Norfolk *Virginian* says:

The tender of the presidency of so important a line of railway as that of the Wilmington & Weldon Company is a high compliment to the executive ability and qualifications of our fellow citizen, and we in conjunction with his many friends in this city and vicinity extend our congratulations not only to Mr. Elliott, but to the corporation that has recognized his merits in such a conspicuous manner. Our regrets are that should Mr. Elliott accept this high trust, it will cause his removal from Norfolk, and he is the stamp of a man that a community can ill afford to be deprived of.

Our prediction, however, is that this recognition of Mr. Elliott's ability is but an advanced step in the line of promotion. The circumstance that takes him from Virginia is but an additional link that strengthens the ties between this old Commonwealth and North Carolina.

At the regular meeting of the Hibernian Benevolent Association, held February 4th, 1890, the following preamble and resolutions were adopted:

Resolved, That we tender to his sorrowing wife and family our heartfelt condolence in this their greatest affliction, and we pray that God in his infinite mercy will enable them to bear up under their sad bereavement.
