A New Truck House.
We hear on all sides compliments as to the efficiency of the new Fifth Ward Hook and Ladder Company. They are promptly on hand at every alarm of fire and do gallant and efficient service, and we are glad to learn that the city authorities will build them a new and commodious truck house. The present structure on Nun street, between Fourth and Fifth, is to be torn down and the new building will be erected on its site. The work is to be commenced next week.

The New Portner Plant.
The new-brick building erected for the R. Portner Brewing Company, at the corner of Eighth & Brunswick streets, to be used as a cold storage warehouse, bottling depot, offices, &c., has been completed and was to-day turned over by the contractor, Capt. J. S. Allen, to Mr. E. Kuhblank, the agent here. This gentleman has already moved in some of his effects but the plant will not be opened until the middle of March, as the machinery will not be received and in position before that date.

To Celebrate the Opening.
A large and enthusiastic meeting of the business men was held to-day at noon at the Produce Exchange for the purpose of discussing the proposition to have some sort of a celebration here on the opening of the C. F. & Y. V. R. R. between this city and Fayetteville.

Col. Roger Moore was called to the chair and Maj. T. D. Love was made Secretary.

It was decided that a grand excursion should be given to the merchants on the line of the road between this city and Mt. Airy, at a date to be fixed upon in a conference meeting the committee from this meeting and the authorities of the C. F. & Y. V. R. R. Those who come down to the city on that occasion will be received and entertained here by our people.

On motion a committee of twenty-five was appointed to act as a general committee of arrangements to receive and see to the entertainment of the guests. This committee, as named, is as follows:
J. H. Currie, Chm.; D. G. Worth, H. C. McQueen, J. C. Stevenson, M. J. Corbett, A. D. Brown, R. M. McIntire, Geo. R. French, F. Rhein-stein, A. Adrian, F. W. Kerchner, W. H. Sprunt, J. W. Murchison, W. E. Springer, Jos. H. Watters, F. H. Stedman, E. S. Latimer, J. A. Bonitz, J. S. James, O. A. Wiggins, W. P. Oldham, C. H. Robinson, H. G. Smallbones, E. J. Penny packer, Roger Moore, T. D. Love.

During the progress of the meeting the subject of beautifying and adorning the Encampment Grounds at Wrightsville was brought up and the committee appointed on a previous occasion, having not yet made a report, a resolution was adopted that they be requested to act at once in the matter. It is thought that the sum of \$1,800 will be required to carry out the plans as proposed.

The receipts of cotton at this port for the week ending with yesterday foot up 1,881 bales, against 1,819 bales for the corresponding week last year, a decrease of 433 bales. The receipts of the crop year to date foot up 126,514 bales, against 141,662 bales to same date last year, a decrease this year 15,148 bales.

Election of Officers.
At the regular meeting of Wilmington Typographical Union, No. 228, held last night, the following of ficers were elected for the ensuing year:
President—L. M. LeGwin.
Vice President—G. M. Manning.
Secretary—S. G. Hall.
Treasurer—J. L. LeGwin.
Sergeant-at-Arms—G. E. Jackson.

A Safe Remedy.
When a person is sick they wish more than ought else a restoration of health. They are willing to take even nauseous medicine in order to get well. With many, however, a first consideration is whether the medicine is perfectly safe. Will it or will it not leave any evil after-effects? Now, there is one remedy known to be certainly safe. It is a botanical discovery, and it is called Botanic Blood Balm, or B. B. B. It will not harm the most delicate constitution, nor will a discontinuance cause a craving for its further use. It is a sure antidote for poison in the blood. The blood becomes poisoned in various ways. Constipation, urinary difficulties and other causes of effete matter remaining in the system will cause blood impurity, or blood poison, as many call it. Symptoms of blood poison should not be neglected. B. B. B. should be taken at once. It will cure promptly, and is not bad to take, nor will it leave any evil after-effects.

J. D. Watkins, Blakely, Ga., writes: "Old sores covered my entire person and itched intensely night and day. For several months I could not work at all. I commenced the use of Botanic Blood Balm and began to grow better the first week, and am now sound and well, free from sores and itching and at work again."

Railroad Notes.
Under the above heading the Fayetteville Observer publishes some interesting items relative to the Cape Fear & Yadkin Valley R. R. and its completion between Fayetteville and Wilmington. It says:
The Cape Fear & Yadkin Valley Railway Company have just put on the road three new and powerful engines—and even this important addition to the rolling stock is hardly adequate to the increased volume of business. During a recent trip south we found the side-tracks all along the line crowded with cars, and traffic pushing transportation needed. Mr. Lake, with all his force, has his hands full unceasingly; no wonder 21 parts of oxygen out of 100 are unequal to his demands.

By the time this issue of the Observer reaches its readers the completed track of the eastern extension of the Cape Fear & Yadkin Valley Railway will be running right up to the Cape Fear bridge, and by the last of next week, at farthest, we can all take a ride down to Wilmington, and note the changes and improvements in that thriving village since we rusticated there from the cares of business.

We went through the new passenger-depot with Capt. W. E. Kyle the other day, and were much pleased with the handsome finish of the exterior and interior of the building, the excellence of construction and the completeness of all the arrangements. There are separate waiting rooms for white and colored passengers, furnished with closets and lavatories, and having convenient covered exits to the backs and omnibuses in the rear. The ticket-office, splendidly lighted, occupies the centre of the building, with the company's telegraph office and the baggage room on the west and east ends. The second floor is given up to the offices of the road, with good pitch and excellent ventilation. On the east and west wings are the rooms of the clerical force of the Gen'l Freight and Passenger Agent and Auditor, in the north centre are the offices of the Gen'l Superintendent and Gen'l Freight and Passenger Agent, and in the south centre the offices of the Auditor and Treasurer, with vault between them. The attic offers ample room for the storage of books, papers, etc. The wainscoting and stairways are of beautifully polished pine, and the depot is to be lighted throughout with gas, with a handsome equipment of fixtures.

The only important office to remain in the old structure across Hay street will be that of the Secretary, Mr. John M. Rose. Perhaps it is fitting that the venerated "father of the road" should still reign supreme on the spot where this great line of internal improvement formulated its plans, battled with its difficulties, and finally achieved its magnificent success.

For neuralgia, rheumatism, lumbago, gout, swellings, burns, wounds, etc., the best remedy is Salvation OIL. Price 25 cents a bottle.

PLEASE NOTICE.
We will be glad to receive communication from our friends on any and all subjects general interest, but the name of the writer must always be placed to the Editor. Communications must be written on one side of the paper. Personalities must be avoided. And it is especially and particularly understood that the Editor does not always endorse the views of correspondents unless so stated in the editorial columns.

A Slight Mistake.
The Norfolk Virginian says that the Wilmington and Weldon Railroad was built principally with Baltimore capital. A slight mistake. The Wilmington and Weldon Railroad was built with North Carolina capital and not a dollar of it, that we know of, came from beyond the limits of the State. It is a notorious fact that the people of Wilmington subscribed for an amount of stock in this road far in excess of the value of the entire real estate in the town.
