 OPERA HOUSE—Ingomar
 H. M. McINTIRE—For Sale
 MUND'S BROS.—Pharmacists
 JOHN F. GARRELL—Fine Meats
 CROSLY & MORRIS—Auction Sale
 C. S. GARRELL—Kansas City Beef

C. M. Bower, of 1,322 Main street, Richmond, Va., is the possessor of the shaving cup and razor presented by General Robert E. Lee to Justice Aspinwall, April 14, 1865.

William Richards, aged 24 years, was "larking" with his sweetheart when she happened to scratch his thumb. The scratch, which festered, resulted in blood poisoning, and he died from it.

The certificates of the American Cotton Oil Trust, of which some have not been deposited under the plan of reorganization, have been stricken from the unlisted department of the Stock Exchange.

Since October 1st over half a million dollars' worth of horses have been sold in four counties of Kentucky alone. Kentucky easily leads all the other States in the business of raising blooded horses.

An inventory of the wardrobe of Queen Elizabeth, made in the year 1,600, recently published, show that the Queen then had 99 robes, 126 kirtles, 269 gowns, 136 "foreparts," 125 petticoats, 27 fans, 96 cloaks, 83 safeguards, 75 doublets, and 18 lap mantles. The gowns all appear to have been of the richest materials.

The Ohio Board of Pardons, which was appointed under the administration of Governor Foraker, has been subject to much unfavorable criticism because of the number of cases in which pardons were granted prisoners known to be habitual, and in at least one case the charge was made that the pardon was sold. A committee of the Legislature is now at work investigating the board at the suggestion of the House, and it is likely the whole board will be abolished.

Professor John Henry Comstock, the eminent naturalist, begins in the New York Ledger, of March 1, a series of six articles on the study of insects, in which he describes, not only those insects which are useful to the farmer, but also those which destroy entire fields of grain, cotton and rice, and ravage orchards, gardens and vineyards. He demonstrates how it was scientifically determined that an average annual loss of \$30,000,000 has been occasioned in the South by the cotton-worm alone; and that an average loss per year, of nearly \$2,400,000, has been brought about in the apple crop of Illinois by the ravages of the codlin moth.

Bids for the construction of a light house on Diamond Shoals, off Hatteras, have been advertised for. This is the light for which Senator Ransom got through a bill in the Senate, appropriating \$500,000 for the work. He spoke but five minutes and Senator Joe Brown, of Georgia, congratulated him on the fact that he had got \$100,000 for each minute he talked. These shoals lie 7 1/2 miles distant from the point of the cape and are a terrible menace to navigation. Gales from the East are frequent and the loss to life and property there has been immense. It is the most dangerous point on the Atlantic coast. Nothing that can be anchored will stay there. Whistling buoys have been tried without avail. At low tide the reef is covered by about twenty-four feet of water, the rise and fall of the tide at the site being about one and a half feet, and the current velocity is estimated to be about four knots per hour after rough weather. The proposed lighthouse is to be an enclosed structure, which must stand vertically and be 150 feet high from the low water mark to the focal plane of the lantern. The foundations are required to be solid and massive to withstand the impact of the waves. The first floor of the structure must be thirty feet above high water mark and large enough to contain thirty tons of coal, six cords of wood, eight thousand gallons of fresh water and three lifeboats. The whole structure must be fireproof and the stairways so arranged that should fire break out on one floor it could not be communicated by them to any other floor.

"The east wind will blow, and we shall have snow—and what will we children do then, mamma?" "You'll wrap yourselves warm and play in the barn—for haven't I got a big bottle of Dr. Bull's Cough Syrup?"
 Myrtle Grove oysters, in the shell, sold to-day at 70 cents per bushel.

THE NORTHEAST CAPE FEAR.

Capt. Bixby's Report, Recommending an Appropriation for its Improvement.
 We have before us a printed copy of Capt. W. H. Bixby's report on the examination and survey of the Northeast Cape Fear river, as it has been submitted to Congress, through the Secretary of War. Capt. Bixby regards the improvement as of importance and recommends for this purpose an appropriation of \$30,000. He has gone over the whole ground carefully and his report contains matter of much interest to the people of this city and section. "The Northeast Cape Fear," he says, "rises in the extreme northern part of Duplin county, flows in a general southerly direction through Pender and New Hanover counties, and empties into the main Cape Fear river at Wilmington, some thirty miles from the ocean. It has a total length of about 130 miles (70 miles in a straight line) and of about 1,600 square miles of drainage area. "Over its lower 50 miles this river is tidal, with a depth of at least 6 feet at all stages of tide and water, and easily navigable by small steamers, even when carrying two small flats abreast. Over the next 40 miles (from near Bannerman's Bridge to near Hallsville) this river has a depth of about 3 feet at ordinary stages, flows between banks of moderate height, has a gentle slope, and is suitable to navigation by small stern-wheel 30 ton to 50 ton steamboats such as are now in use on similar streams in other parts of the State. Over the next 13 miles (up to Kornegay's Bridge) the banks become lower, the streams shallower, narrower and crookeder, and suitable for the use of pole-boats and rafts. Above Kornegay's Bridge the streams may be used by pole-boats, but to less advantage.

"Between Kornegay's Bridge and its mouth this river receives several tributaries: Burncoat, Panther, Goshen, Grove, Persimmon, Limestone, Maywell, Muddy, Cypress, Island, Oakley, Rockfish, Angola Swamp Canal, Fishing, Hollyshelter, Burgaw, Harrison, Island, Holly, Sturgeon and Lillington, bringing in a moderate amount of water at all times of the year, and large quantities during freshets, and used during a large part of the year by small boats, pole-boats and rafts.

"Along this part of the river, and at intervals from 6 to 10 miles, are several settlements: Kornegay's, Sareata, Hallsville, Clinquepin, Washington, Croom's, Murrayville, Bannerman's, Rocky Point, Harrison, Castle Hayne, at most of which are stores, turpentine stills, cotton gins, grist mills and saw mills.

"This portion of the river is crossed by seven county bridges and one railroad bridge, of which the railroad bridge and the upper three county bridges are without draws.

"A small steamer of about 5 feet draught makes bi-monthly trips at present over the lower 48 miles of river to Bannerman's Bridge. More frequent trips are not made because the present blocked condition of the upper river prevents navigation and the descent of commerce, except during freshets. Another small steamer has lately succeeded in getting up 88 miles, to Hallsville, being troubled more by snags and trees than by want of depth and breadth of channel.

"The lands on both sides of the river are good, agriculturally, and well adapted to the culture of grains, grasses, vegetables, cotton and to the raising of live stock. What they most need, especially on the eastern side of the upper river, is cheap transportation facilities. Cotton, naval stores (turpentine, tar, rosin), and timber are the most important products. The timber lands are extensive, and embrace a large variety of pine, oak, hickory, cypress, juniper, gum, bay, cedar, willow, beech, birch, walnut, cherry, mulberry, persimmon, poplar, maple, elm, etc. For the last eight or ten years much of the finer timber has been shipped to Holland and Brazil. The farm products of this region include tobacco, corn, oats, rice, wheat, rye, peanuts, Irish potatoes, sweet potatoes, etc."

"If you don't want to disgust everybody with your offensive breath, cure your Catarrh upon which it depends. \$500 reward is offered by the proprietors of Dr. Sage's Catarrh Remedy for a case of Catarrh which they cannot cure. It is sold by druggists, 50 cents.

Shad sold this morning at 50 cents a pair for buck and \$1 for roe.
 Mr. John Biddle is very sick at his residence on Myrtle Grove Sound.
 The cold wave got here on time but it did not amount to much, after all.
 Stump Sound oysters sold in the market this morning at 50 cents a gallon.
 Boys! we can sell you a Bracket Saw, with frame, for 10 cents. N. Jacobi Hdw. Co.
 Nothing more has been heard from the *Demoiselle*, reported yesterday in distress off Frying Pan Shoals.
 Mr. F. P. Flynn, one of the substantial citizens of Pender county, resident at Viola, was in the city to-day.
 We are sorry to hear that Mr. H. M. Bowden, Cashier of the First National Bank, is sick and confined to his house.
 Hood's Sarsaparilla has the largest sale of any medicine before the public. Any honest druggist will confirm this statement.
 When ready to build, paint or repair you will find it to your advantage to buy your material of the N. Jacobi Hdw. Co.
 Every week from now we make up new and handsome styles of Flannelette Shirts at 25 cents at our Shirt Factory, 122 Market St.

"It pleases me so I shall use no other," is what the farmer said when asked about the Boy Clipper Plow, sold by the N. Jacobi Hdw. Co. †
 We are glad to see that Mr. Aaron Hewlett, who has been quite sick, has recovered and was able to appear on the street this morning.
 Paint your Buggy for 75 cents, "6 bits," with Detroit car. Paint, a varnish and paint combined. Guaranteed to give satisfaction. Sold by the N. Jacobi Hdw. Co. †
 Mr. C. S. Garrell is now located at Mr. T. H. Johnson's old stand, in Front Street Market, and will hereafter sell Kansas City beef at from 3 to 10 cents a pound.
 Reserved seats for the presentation of "Ingomar" at the Opera House on Monday night, by the Adele Frost Company, will be on sale at Yates' to-morrow morning.

Swed barque *Carmelita*, Jacobson, cleared late yesterday afternoon for Glasgow, with 2,550 bbls. rosin, 1,500 bbls. tar, valued at \$4,085, shipped by Messrs. Paterson, Downing & Co.
 Steamship *Benefactor*, somewhat overdue, arrived here this morning from New York, safe and sound. She encountered head winds and heavy seas, and was thus detained on the passage.
 "Birthington's Washday" falls due here to-morrow. It is a legal holiday and the banks, postoffice and other public buildings will close. But it is bad to get in a public holiday on Saturday.

In our report of the new house erected by Mr. Williams, on Fourth street, published a few days ago, we should have stated that Mr. J. C. Stout was the contractor for the work on the interior.
 Mr. John F. Garrell will make a fine display of native North Carolina meats, beef, veal, mutton and pork on his stalls to-morrow. Call and see it. Nothing but native meat will be sold there then.
 Schr. Orlando, Clark, cleared today for Port au Prince, Hayti, with 130,000 feet lumber, 15,000 shingles, 2 casks spirits and 10 bbls. pitch, valued at \$2,019.33, shipped by Messrs. S. & W. H. Northrop.

Saturday, February 23d, being a legal holiday, the Postoffice will be closed. The carriers will make one delivery, in the morning, and the General Delivery and the carriers' window will be open from 9 to 10 a. m., as on Sundays.

NEW ADVERTISEMENTS.

FOR SALE!
 ONE LOT ON MARKET ST.,
 Between Ninth and Tenth streets, South side, 35 x 150 feet to Alley. Also,
THREE LOTS ON EIGHTH STREET,
 Between Dock and Orange streets, East side.
 Apply to
R. M. McIntire.

Mattresses for Sale!
 17 PRINCESS STREET.
OLD MATTRESSES!
 RENOVATED AND RE-MADE.
 NO. 17 PRINCESS STREET.
W. M. Cumming.

Forecast.
 For North Carolina, colder and fair weather. For Wilmington and vicinity, fair weather.
The Violin Concert.
 Don't forget the violin concert at Luther Memorial Building to night. There will be some excellent music there on the occasion and all should go and hear it. The following young ladies and gentlemen will take part in the concert: Cornetists—Prof. J. H. Rehder, Prof. S. A. Schloss. Pianists—Misses Eliza Adrian and Maggie Peschau and A. Adrian, Jr. Vocalists—Misses Annie and Kate Stolter, Linda A. Peschau and Norma Foster, and Messrs. J. H. Rehder and E. Schuklen. Violinists—Misses Alice Thorburn and Maie Southerland.

Bright's Disease.
 This insidious ailment, if too long neglected, will undermine the strongest constitution and bring the victim to a premature grave. Heed the timely warning, and regain health at once by a use of the proper restorative, that great strengthener of the urinary and digestive organs, B. B. B. (Botanic Blood Balm).
 David Runkel, Cullman, Georgia, writes: "I used a hundred dollars worth of medicine for Bright's disease, but it did me no good. I then took B. B. B., which relieved me. My appetite is restored and I urinate without pain."
 J. A. Maddox, Atlanta, Ga., writes: "I had great trouble in passing urine which was filled with sediments. My back and loins gave me much pain and I lost my appetite, strength and flesh. I became nervous and unable to sleep soundly. Two bottles of B. B. B. gave me entire relief."
 Thomas Williams, Soddy, Tenn., writes: "I was troubled with severe kidney complaint and confined to my bed. Six bottles of B. B. B. made a well man of me."

A Week of Drama.
 The Adele Frost Company will open here on next Monday night, in *Ingomar*, and will play during the entire week. They come to us highly recommended. They have an excellent repertoire and fine costumes and they are a patient, painstaking troupe, who spare no effort to please. Miss Frost is well supported, the leading man being Mr. Edmund Collier, an actor of well known and admitted merit. The troupe played in Charlotte last week and won there a harvest of acclamation. Our cotemporaries in that city speak highly of them while there. As Parthenia, in *Ingomar*, which is to be presented on Monday night, Miss Frost is said to be peculiarly attractive. Low prices have been adopted and we hope that the troupe will meet here with the appreciation to which their merit entitles them.

Nothing but superlative intrinsic merit can account for the phenomenal reputation achieved in so short a time by Salvation Oil. It kills pain. Price twenty-five cents a bottle.

PLEASE NOTICE.

We will be glad to receive communications from our friends on any and all subjects general interest, but
 The name of the writer must always be given to the Editor.
 Communications must be written on one side of the paper.
 Personalities must be avoided.
 And it is especially and particularly understood that the Editor does not always endorse the views of correspondents unless so stated in the editorial columns.
