### Administrator's Notice.

HAVING QUALIFIED AS ADMINISTRATOR on the estate of Benjamin Ashe, deceased, all persons indebted to the said estate are notified to pay to the undersigned immediately, and all persons having claims against the said estate are notified to present them for payment within time prescribed by law or this notice, which will be closed on the 11th day of April, 1890. ADAM BROWN, Administrator.

A new evening daily is projected for Raleigh.

The Panama Canal scheme seems to be dead. It has been thoroughly ditched at last.

"The old Massachusetts Hoar slandered the South" says a Sunday morning's paper. You shouldn't talk about such people on Sunday.

Gov. Campbell, of Ohio, it is said, "refuses all railroad passes." Whoever wants a railroad pass, therefore, should not apply to Gov. Campbell.

How about the Gulf Stream and the cold weather? It is in order now for somebody to explain the explanation relative to its influence on the weather this Winter.

The Supreme Court of the United States has just decided the constitutionality of State legislation fixing a tax on loans. It thinks a State can go it alone, as it were.

The holders of claims against Henry S. Ives & Co. have agreed to settle for five cents on the dollar. This was the "young Napoleon of finance" in New York a few years ago.

Wonders will never cease. An association of wool-growers has been organized in the highly protected city of Boston to demand a reduction of the duties on wool. The best way to get this reduction is to vote the Democratic ticket in '92.

The Sub-Committee on Agriculture have reported to the full committee a bill defining and taxing compound lard. This is simply another blow at Southern industry, as cotton seed oil, as pure a product as hog lard, enters into the manufacture of compound lard.

English capitalists have invested in a big gas combine in this country. It is currently reported and believed that contracts will be made with Ingalls and John Sherman, Blaine, Reed, Foraker and Charley Foster to shoot off their mouths a little less frequently so as to somewhat enhance the value of the crude product.

An English traveling harpist has been discovered cheating the railroads by carrying his little girl done up in the green bag with his harp. He had gone all over England and never paid fare for the child, which was not fair to the railroads. He should be fearlessly tried and made to fare sumptuously on prison fare for a while. That would be only a fair way to end the fare affair.

"A stitch in time saves nine," and if you take Hood's Sarsaparilla now it may save months of future possible sickness.

## LOCAL NEWS.

INDEX TO NEW ADVERTISEMENTS. W. M. CUMMINS—Mattresses. J. M. MCINTIRE—Dress Goods. HADRIK—Easter Dress Goods.

Southerly winds and pleasant Spring weather to-day.

Katie Putman is expected to play here next Wednesday night, the 26th inst.

Call at R. M. Gilbert's, No. 27 So. Front Street, for notions, Indian and Japanese goods &c.

When ready to build, paint or repair you will find it to your advantage to buy your material of the N. Jacobi Hdw. Co.

"It pleases me so I shall use no other," is what the farmers said when asked about the Boy Clipper Plow, sold by the N. Jacobi Hdw. Co.

Recent rains have greatly improved and fattened the New River oysters. They are better now than they have been at any previous time this season.

Ger. brig Carl Johann, Schwarz, cleared to-day for Old Dock, Eng., with 2,696 barrels rosin, valued at \$3,524, shipped by Messrs. Williams & Murchison.

"Our Old Chief" is the name of our new and improved White Wamsutta Shirt. Wait for it; will have it ready in a few days. Wilmington Shirt Factory, 122 Market St.

The Sanford Express says: W. H. Smith, the contractor of the government building at Wilmington, has twenty-five hands here quarrying brown stone for the building. The stone is said to be of excellent quality.

Paint your Buggy for 75 cents, "6 bits," with Detroit carb. Paint, a varnish and paint combined. Guaranteed to give satisfaction. Sold by the N. Jacobi Hdw. Co.

Chairman Bagg and Commissioners Worth and Montgomery, of the Board of County Commissioners, went out to the Poor House to-day to make some investigations but had not returned at our close.

Don't—If a dealer offers you a bottle of Dr. Bull's Cough Syrup without wrapper or labels, or in a mutilated condition, don't touch it—don't buy it at any price, there is something wrong—it may be a dangerous or worthless counterfeit. Insist upon getting a perfect, unbroken, genuine package.

Forecasts. For North Carolina, fair weather, followed to-night or Wednesday morning by a light rain and warmer. For Wilmington and vicinity, fair weather, followed to-morrow by light rain.

City Court. The following cases were disposed of by the Mayor to-day: Asa Horton, disorderly conduct, \$20 or 30 days.

John Moore, disorderly conduct, judgment suspended on payment of costs.

J. E. Moore, resisting officer, \$50 fine.

A Rising Songstress. Miss Annie Stolter, who, although quite young, has developed remarkable vocal powers, has been invited to the position of leading soprano in the choir of the First Baptist Church, and we are glad to learn that she has accepted the invitation. Miss Stolter has a pure soprano voice of large compass, rich in tone and pure in quality, which bids fair to place her in a few years in the front rank of the many sweet singers of Wilmington.

The Cause of Pain. An ache or pain is not of itself a disease, it is but a symptom, and warns the sufferer that there is something the matter with his physical organization. Weak kidneys, bad blood, and nervousness are frequently the source or cause of the many mysterious aching sensations that afflict the body. You can remove the cause of such distress by using C. H. Roberts, Atlanta, Ga., writes: "My kidneys were disordered and gave me excruciating pain. A single bottle of B. B. B. helped me wonderfully."

Wm. N. Nelson, McDonough, Ga., writes: "B. B. B. has benefited my daughter very much. She was afflicted with severe nervousness. I think it the best family medicine."

W. R. Ellis, Brunswick, Ga., writes: "I have tried B. B. B. and find it a great thing for the blood. It also cured me of rheumatic pains."

By the Commissioners. At a meeting of the Board of Commissioners of Navigation and Pilotage, held this day, it was ordered that to remedy the evil complained of by shipmasters, that on approaching the bar they are not boarded by the pilots as promptly as they should be, another deck boat be stationed near to and just outside of the bar for such vessels as may pass the offshore boat. It was further resolved that there has been no evidence before the Board to show that the loss of the British barque *San Antonio* was caused by any neglect or inefficiency on the part of the pilots.

Stockholders' Meeting. The stockholders of the Wilmington Seacoast Railroad met in adjourned session to-day. A plan of reorganization was proposed and discussed but no decision was reached. An amendment to the by-laws was made, reducing the number of the Board of Directors from nine to seven and the following gentlemen were chosen for the ensuing year, viz: Messrs. E. S. Latimer, B. G. Worth, H. M. Bowden, Wm. H. Chadbourn, Jas. H. Chadbourn, Jr., Geo. R. French and G. H. Smith.

Mr. H. M. Bowden resigned the position of Secretary and Treasurer and it was thereupon tendered to and accepted by Capt. J. R. Nolan, who will assume the duties of the office together with those of his present position.

Refreshing and Invigorating. Delicious Soda Water as drawn from Munda Brothers' magnificent new soda fountain at a temperature of 34°. Purest Fruit Syrup, Milk Shakes and Natural Mineral Water.

Commendable. All claims not consistent with the high character of Syrup of Figs are purposely avoided by the California Fig Syrup Company. It acts gently on the kidneys, liver and bowels, cleansing the system effectually, but it is not a cure-all and makes no pretensions that every bottle will not substantiate.

Little Lord Fauntleroy (Suit) Can be Seen at F. Shrier's. I. Shrier, who is always ahead in introducing new novelties, will sell this week the Lord Fauntleroy and Alfonso (King of Spain) suit. Also a full line of children's Kilt Suits at the lowest price for cash only. I. Shrier, corner Front and Princess streets.

Sights of London. There was a good audience present last night at the Opera House at the stereopticon lecture on "The Sights of London," and it was a delighted one. We are glad to see the encouragement which has attended Capt. Bixby's efforts to furnish matter of instruction as well as entertainment to the people. The views were very fine and the illustrated lecture very interesting. The next lecture will be on next Monday night when the tourists will be taken on a trip up the Rhine.

Criminal Court. The following cases were disposed of in this Court to-day:

State vs. A. Roder, for selling liquor on Sunday. Three cases. Submitted. Fined \$50 in each case and to pay the costs.

State vs. Washington Howe, assault and battery. Not guilty.

State vs. Owen Bizzell, larceny. Guilty.

State vs. Tom Davis, larceny. Guilty.

State vs. John Gibbs, larceny. Guilty and sentenced to 16 months in the Penitentiary.

State vs. James Nash, larceny. Judgment suspended on payment of costs.

State vs. John Cotton, false pretences. Not guilty.

The Poor House Burned. The alarm of fire last night, about 12 o'clock, was caused by the destruction of the County Poor House and House of Correction, situated a short distance North of the city. The main building and the insane department were destroyed, as also a part of the stockade. The engines and trucks turned out but were sent back when it was found that the fire was beyond the city limits. It is not known at this writing how the fire was started, but it is supposed that it caught from a defective flue in the main building, where the fire was first discovered. Fortunately, through the strenuous exertions of Mr. S. Hill Terry, the Superintendent, all of the inmates were gotten out safely and nearly all of the furniture was saved. Mr. Terry and a hired man were the only ones injured. Both were burned about the hands, the former pretty severely in trying to save the furniture, after the inmates had been removed. The actual value of the buildings we could not ascertain but there is insurance enough, it is thought, to nearly cover all of the loss. From Mr. H. A. Bagg, Chairman of the Board of County Commissioners, we learn that this amount in all to \$3,340, of which Messrs. Smith and Boatwright had \$2,200 in the Liverpool, London & Globe, and Mr. M. S. Willard \$1,140 in the Northern Insurance Co. This was all that the insurance companies allowed.

The buildings were all of wood, and but one story in height. They were all erected since the war. They will be replaced, of course, as soon as possible and it is probable that substantial structures of brick will soon be erected on the site of those destroyed last night.

After the above was in type we learned that there is a strong suspicion of incendiarism in connection with the fire. It was first discovered in a part of the main building where it is alleged that there has been no fire in twelve months. The loss will probably exceed the insurance by \$1,000 or more. The Commissioners smile not unpleasantly when you tell them that you are glad the old shells have been safely made away with and that you hope the county will now see its way to erect handsome and substantial brick buildings there.

Audit and Finance. The Board met yesterday in regular session.

A communication from the Board of Aldermen concerning petitions for the release of J. H. Bornemann, Aug. Deumelandt and C. Mugge from rental of certain stalls in Front Street Market, referred to this Board, was read, but no action was taken in the matter.

Consideration of the action of the Board of Aldermen in appropriating \$3,000 for cleaning out and repairing Jacob's Run sewer, was on motion deferred until the next fiscal year.

Bills were audited and approved as follows: Current expenses, \$503.37. The County Commissioners of New Hanover appeared in a body before the Board and through their Chairman, Mr. H. A. Bagg, submitted a proposition to have a re-survey of the city made and new block books prepared, for the purpose of facilitating the assessment of property and collection of taxes; the county to bear one half the expense of the survey, and the city the other half. The Board deferred action, awaiting consideration of the matter by the Board of Aldermen.

THE NEW ORGAN. An Excellent Instrument—The Largest in the State—Elegant and Ornate in Design and Pure, Sweet and Powerful in Tone.

The worshipping congregation of the First Baptist Church are to be congratulated upon the acquisition of the new organ, which has just been placed in position in their house of worship. It is certainly an excellent as well as elegant instrument, pure, rich and powerful in tone, without a shadow of harshness, as is too frequently the case, in any of its notes or combinations.

Some description of this magnificent instrument may be of interest to our musically-inclined readers; hence, we give a synopsis of its principal features: It is of black walnut and is 21 feet in height, 16 feet wide and 8 feet deep, with 25 stops and 1,219 pipes; four mechanical registers and five different pedal movements; two manuals of 61 notes each and 30 pedal notes. The following are its more particular features:

GREAT ORGAN—Compass, C to three-line c.—One 16 ft Bourdon; one eight ft open diapason; one eight ft dulciana; one eight ft melodia; one four ft octave; one three ft twelfths; one two ft fifteenths, three ranks mixture and one eight ft trumpet.

SWELL ORGAN—Compass, C to three-line c.—One eight ft open diapason; one eight ft viola; one eight ft stop diapason; one four ft flauto traverso; one four ft violina; one four ft flautino; one eight ft cornopean; one eight ft oboe and one eight ft bassoon.

PEDAL ORGAN—Compass, C to one-line f.—One 16 ft open diapason; one 16 ft Bourdon; mechanical register; swell to great coupler; great to pedal coupler; swell to pedal coupler and bellows' signal.

PEDAL MOVEMENTS.—Forte combination; great organ piano; combination piano; reversible pedal, to operate great to pedal coupler; balanced swell pedal and tremulant.

The organ is gothic in structure and the pipe ornamentation is in green, red and gold colors, giving a subdued, but chastely unique appearance to the instrument, which can hardly fail to have a pleasing effect upon the beholder. It cost \$3,000, but, in the opinion of an accomplished organist who tested its possibilities, it is superior in tone to many much more costly organs upon which he has played in the North. It will be publicly used for the first time on the night of the 25th inst., at which time a grand vocal and instrumental concert will be given at the church. Miss Annie Chasten, a thoroughly accomplished musician, will preside at the organ. Several other excellent organists will also assist; at the same time testing its powers and special qualities, while the choir will have the vocal assistance of some of the best amateur talent in the city, besides the invaluable aid of Mrs. C. D. Jenkins, daughter of Rev. Dr. Pritchard, whose glorious notes have more than once made glad the hearts of a Wilmington audience. The programme for the occasion is not yet fully made up, but enough is known to be assured that all the selections will be excellent and peculiarly adapted to the occasion.

PLEASE NOTICE. We will be glad to receive communications from our friends on any and all subjects of general interest, but the name of the writer must always be attached to the Editor. Communications must be written on one side of the paper. Personalities must be avoided. And it is especially and particularly understood that the Editor does not always endorse the views of correspondents unless so in the editorial columns.

The Pine and Its Fibre.

Quite a large party of gentlemen, among whom were representatives of the New York World, the Charleston News and Courier, the Philadelphia Record, the New Orleans Times-Democrat, the Baltimore Sun and the Atlanta Constitution, went up yesterday afternoon on a special train on the Carolina Central R. R. to visit the American Pine Fibre Company's works at Cronly. The city press was also represented by reporters from the morning papers, and the REVIEW would also have been represented in the person of its editor but for a slight attack of sickness which interfered with our intentions.

The fibre factory was found to be in full operation on the arrival of the party and Mr. A. Scott, the general superintendent, was on hand to explain all of the operations. The works are now exclusively engaged in the manufacture of pine fibre bagging, a great many orders being in already for the next season. It has been sufficiently demonstrated that the fibre makes an excellent article of bagging, as well as matting, light, strong and durable, and almost non-combustible, but the difficulty has been heretofore in making it at prices low enough to secure the market and at the same time afford a reasonable profit on the outlay. This difficulty has been overcome, and the company are now putting forth an article weighing two pounds to the yard, equally as good as jute in many respects and superior to it in others, and which can be put on the market at a lower price than is demanded for the jute bagging. The capacity of the present plant is 2,000 yards per day. The green pine needles are first thrown into large vats, where they are thoroughly treated in alkalies for twelve hours, and then, after being thoroughly soaked, are passed by machinery through successive stages of rubbing, wringing, carding, weaving, calendaring, &c., until the article is completed and ready for use. There are various uses to which this fibre is put as well as the manufacture of bagging, such as matting, an excellent article, equal in many respects to the cocoa matting, carpet lining, pine wool for mattresses and pillows, &c.

The company is now known as the American Pine Fibre Company, with a capital of \$1,000,000, and with headquarters in this city. The stock is largely owned here but much of it is held by parties resident in Georgia and Mississippi. The stock has all been taken up and it is understood that the company will establish other mills in various sections through the South, at points where the yellow pine grows freely. It is hoped that, in process of time, they will handle a large part of the bagging demanded for the cotton crop, if not all of it. One thing is sure, and that is that the pine fibre is already proving a formidable competition to the jute bagging.

There is no danger, as some have apprehended, of a wholesale destruction of the pine forests throughout the South in the manufacture of this fibre. It has been sufficiently demonstrated that there is no loss in this respect. The leaves are simply such as in the process of time would decay and fall to the ground, to make way for the new needles every Spring. The trees are not injured and the supply is therefore simply inexhaustible. The company utilize a material which had never previously entered into the manufacture of anything but had simply gone to waste.

Cronly, where the works are located, is a pleasant little village of about 300 inhabitants, located on the C. C. R. R., 17 miles from Wilmington and about a mile and a half from Brinkley's on the W. C. & A. R. R. It was named in compliment to Mr. M. Cronly, of this city, who was largely instrumental in the establishment of the plant. It is a live, progressive, growing little town, with a highly moral community and a population drawn largely from some of the best elements in this city.

An intelligent person when hurt will at once procure a bottle of Salvation Oil. It is the best thing to cure swellings, burns, or wounds. All druggists sell it at twenty-five cents a bottle.

Boys! we can sell you a Bracket Saw, with frame, for 10 cents. N. Jacobi Hdw. Co.
