

THE DAILY REVIEW

VOL. XIV.

WILMINGTON, N. C., MONDAY, APRIL 14, 1890.

NO 102.

PLEASE NOTICE.
We will be glad to receive communications from our friends on any and all subjects general interest, but
The name of the writer must always be attached to the Editor.
Communications must be written on one side of the paper.
Personalities must be avoided.
And it is especially and particularly understood that the Editor does not always endorse the views of correspondents unless so in the editorial columns.

No territory will be admitted into the sisterhood of States by this Congress unless the Republican earmarks are plainly apparent. For this reason Wyoming may not get in. It looks too much as though she might vote the Democratic ticket.

Viscount Hampden, the ex-Speaker of the British House of Commons, has gone into trade as a retail dealer in provisions. His eggs and his butter are all stamped with a cornet and a letter "H," and the cockneys now will be careful not to drop their aitches.

John James Ingalls is credited with the assertion that all is well now with the Republican party and that with the present outlook Harrison could be renominated and re-elected. Ingalls has evidently been reading up on Martin Chuzzlewit lately and patterning after the immortal Mr. Tapley.

The Republican majority in Speaker Reed's eye should tackle the majorities in the recent elections. While they are about it can't they count out some of the big majorities in New York, Ohio and Indiana? There is just as much sense and propriety in doing this as in stealing a State or a Congressional district. With them it is not the needy who steal but the stealing who need.

The Young Men's Democratic Club of Massachusetts, 275 strong, will dine at the Parker House, Boston, this evening. Congressman Wm. L. Wilson, of West Virginia, and Hon. Patrick A. Collins will "call attention to the principles of Jeffersonian Democracy as applied to the questions of to-day, and protest against the schemes of centralization and paternal government brought forward by the Republican party."

Kingston (N. Y.) Ledger: "Speaking of hides, the Republican hide will be hung up to dry in a little less than two years, and 15 per cent will not save it." And talking about Republican hogs reminds us of the old barn-burner, W. T. Sherman, talking at a G. A. R. reunion about "our glorious victories." The old bald-headed fraud! He never won a fight although he did burn a city or two. If the South had had no wiser and more valorous soldier than old Sherman to oppose her the capitol of the United States to day would be in Richmond.

Republicans claim that the result of the Spring elections in Ohio was not a surprise to them. They say that they didn't expect their voters to come out. Hindsight is much more accurate, the day after a funeral, than foresight the day previous. They didn't take Ohio this year because they didn't want it; or, perhaps, because they couldn't get it. They say that they will not fritter away their strength now but will reserve it until '92. This means that they see a good-sized contingent of Democratic congressmen from Ohio next Fall—and they won't count them out then, either.

Wanted.—A good appetite. You can have it easy enough by taking Hood's Sarsaparilla. It tones the digestion and cures sick headache.

A Pleasing Sense!
Of health and strength renewed and of ease and comfort follows the use of Syrup of Figs, as it acts in harmony with nature to effectually cleanse the system when costive or bilious. For sale in 50c and \$1.00 bottles by all leading druggists.

Mind Your Manners.
We really wish that some of the young men of the city would try and learn and observe some of the rules of decorum which belong to the House of God during divine service. They ought to know that to leave a church while the sermon or any other part of the service is in progress, unless actually compelled to do so, is a great annoyance to the congregation and a direct and gross insult to the preacher, yet we are pained to say that we frequently see such outrages upon good breeding perpetrated by young men who ought to know better how to behave themselves.

Beginning the Season.
Wrightsville, the Hammocks and Ocean Beach have begun to don their Summer attire and the healthful attractions of these favorite resorts are successfully inviting visitors from our city. On Saturday last the afternoon train on the Seacoast Railroad, consisting of four coaches, was crowded with excursionists from our city, and all seemed delighted with the ride. At the Beach the "switchback" was opened to the public for the first time this season and quite a number of the young people—and some who were young many, very many, years ago—were treated to a ride through the courtesy of those having the property in charge.

Catarrh.
Catarrh is a most disgusting ailment and yet many unnecessarily suffer with the disease. They will try local applications, which do no good whatever, but fail to try such constitutional treatment as is afforded by a use of B. B. B. (Botanic Blood Balm), which removes the mucous poison in the blood and thus eradicates the cause of the disease.

N. C. Edwards, Laupassas Springs, Tex., writes: "I was greatly annoyed with catarrh which impaired my general health. The discharge from my nose was very offensive, and I used various advertised remedies without benefit until finally the use of B. B. B. entirely cured me. I am proud to recommend a blood remedy with such powerful curative virtues."

B. C. Kinard & Son, Towaliga, Ga., write: "We induced a neighbor to try B. B. B. for catarrh, which he thought incurable as it had resisted all treatment. It delighted him and continuing its use he was cured sound and well."

Every One Will Decorate.
Bunting and Flags for Decorating can be had of I. Shrier, corner Front and Princess streets.

Warren's Sugar Plums, the latest and best out. Call and try a box; 5 and 10 cents.

THE ACME
MANUFACTURING CO.
MANUFACTURERS OF
Fertilizers, Pine Fibre and
Pine Fibre Matting.
Wilmington, - - N. C.

REPUTATION OF OUR FERTILIZERS
ACME and GEM is now established, and
the fact that three years' use in the hands of
farmers of this and other States will
bear witness to their value as a high grade manure.
MATTING, made from the leaves of our
plant, is conceded to be equal to any
imported for comfort and durability and the
price is daily increasing. It has vir-
tues to be found in any other fabric.
FIBRES OF WOOL is extensively used for
carpets, and as a filling for
mattresses is almost equal to hair, being light
and proof against insects.
Samples can be seen at our office, or will be mail-
ed on application.
