YATES' BOOK HOUSE.

More than two thousand farmers have applied to the agricultural department for seed of the sugar beet.

Gen. Mahone has recently purchased 20,000 acres of coal lands for a Northern syndicate in Northwest Virginia.

In the Senate, Nevada and Wyoming, with only 30,573 votes all told, will have double the power of the great State of New York, which has 1,300,000 votes.

For the nine months ending April 1 the desertions from the army numbered 1,578—a decrease of over 16 per cent compared with the corresponding months of the previous fiscal year.

A story comes from Germany that the serflike affection under which the Emperor suffers has broken out with a renewed violence. It is said that the leading medical authorities of Germany give him but ten years of sanity or life.

John B. Curtis, of Portland, Me., has made \$1,000,000 in the manufacture of chewing gum. He is said to have more girls working for him than any other man in the country, to say nothing of those whose jaws are continually grinding the gum.

The rage for decoration grows in New York. Wealthy families leasing expensive apartments often put many thousands of dollars upon the walls. A tenant with a five years' lease in the Dakota flats has spent \$5,000 in decorating the walls of his apartment.

In the event of the European outbreak Great Britain would be able to send to sea at a month's notice forty four battle ships and belted cruisers, to cope, in case of necessity, with France's twenty-three, Russia's fifteen, Germany's twelve or Italy's ten; so that no possible combination of any two of the great powers would place England at a disadvantage.

There are over 200 men in Chicago worth \$1,000,000 or more, the average possessions of each exceeding \$2,000,000. Marshall Field and P. D. Armour head the list with a fortune of at least \$25,000,000 each, and Geo. M. Pullman comes next with \$15,000,000. And yet there are to-day men, women and children in Chicago on the verge of starvation.

The new disease, alleged to be a successor to the grip and called La Nona, is said to be a form of the pellagra and to be caused by the use of mildewed corn flour, which is consumed in North Italy in the shape of polenta. The victims sink into a peaceful sleep and die unconscious instead of sneezing their heads off and living, as in the grip.

Victoria Woodhull has issued a circular in London denouncing Queen Victoria because she appeared at a recent "drawing room" wearing the great Koh-i-noor diamond as a brooch and otherwise dressed out like an Indian squaw. The American Victoria insists that the English Victoria should drop vulgar, barbaric display and set her subjects an example of motherly simplicity.

The annual catch of fish on the European and North American coasts is computed by a German statistician to amount to \$150,000 tons. A ton of fish corresponds with twenty-five sheep in weight, and with twenty sheep in nourishing power. Therefore the total European and North American catch equals in number 42,000,000 sheep, and in nourishing power 30,000,000.

It would be singular if the first long distance electric road should be established in far away Russia. Such a thing, however, seems more than probable for a project is now on foot to connect St. Petersburg with Archangel, a distance of 500 miles, by an electric railway. The enterprise, with which the name of Siemens is connected, is backed by Archangel interests, and the estimated cost of the road, including rolling stock, will be \$15,000 per mile.

The funeral services over the remains of the late Mr. H. H. Gieschen will take place to-morrow morning, from the residence, thence to St. Paul's Evangelical Lutheran Church. The interment will be in Oakdale Cemetery. The members of the Christian Association of St. Paul's Church, of Howard Relief Fire Engine Co. Not to Return.
Mr. J. G. L. Gieschen and his wife will not return from New York to attend the funeral of Mr. H. H. Gieschen to-morrow. They were both unwell when they reached New York and to return here in time it would have been necessary for them to take the train yesterday afternoon and this they were physically unable to do. There is nothing left for them to do now but to proceed on their journey.

Flowers for the Festival.
The chairman of the Ladies' Executive Committee for the Light Infantry Festival to be given Thursday, Friday and Saturday next, at the Champion Congress, requests all ladies who will contribute flowers and plants to send the latter to the compress to-morrow (Wednesday) and cut flowers to Mrs. H. New Buildings Proposed.
St. John's Lodge and Concord Chapter, of this city, propose to dispose of the Masonic Lodge building now owned by them and to erect a handsome new structure in another part of the city. With this end in view they have, in connection with the Y. M. C. A., secured an option on the P. K. Dickinson property, corner Front and Chestnut streets, for \$30,000, one-half cash and balance in one, two, three and four years, with interest. The committee for the lodge and chapter consists of Messrs. W. H. Chadbourn and John C. Chase and Dr. W. E. Storm. The property is 140 feet on Front street and 182 feet on Chestnut street and the proposition is that the Y. M. C. A. build on the Southern corner of the lot and the Masons on the Northern corner. The buildings, if erected, will both be handsome, substantial structures, elegantly furnished and fitted with all modern conveniences. The option will expire May 21st.

To the University Alumni.
The Centennial Alumni Reunion at the last Commencement was so refreshing to the hearts of all present, so honorable to the University, and so creditable in its results, that it is clearly essential to the welfare and growth of the institution to have an annual reunion of the Alumni at each Commencement. Feeling the inspiration of that great occasion, the Association unanimously adopted the following resolutions:
1. That an Alumni Reunion and Banquet shall be held at each Commencement and that a committee be appointed to arrange the programme for 1890.
2. That the Alumni Association should have an organic connection with the University and some voice in its management.
3. That a Chair of History in the University should be endowed, and that a committee of twelve be appointed to take steps for its endowment.

The President of the Association, Hon. Walter I. Steele, in compliance with the first of the foregoing resolutions, appointed the undersigned committee. The Trustees fixed Wednesday of Commencement week as Alumni Day, and directed the Faculty to make the necessary arrangements for its celebration. The Philanthropic Society, to whom belongs the choice of the orator to deliver the literary address on that day, is courteously and loyally co-operating with the Alumni Association, and it has united with us in selecting Col. W. H. S. Burgwyn as the orator of the day.

It gives us a very great pleasure to state that Col. Burgwyn has consented to deliver the address. His subject will be "The Necessity of Preserving the Memorials of the Past and of Transmitting to Posterity a Just and Faithful History of North Carolina."
Historical investigation is occupying just now, more of the thoughts and energy of scholars and patriots than almost any other line of study. There is much in the history of our State to excite our admiration, stir our hearts and kindle our love, and there is enough of untruth and of want of fairness in the current and accepted histories of the day to stimulate us to set forth fairly and impartially the history of our State and its people.

Please inform us whether you can come, so that we may provide suitable accommodations as to lodging, and make proper arrangements for the banquet and reception.
We beg leave to add, in justice to ourselves and to the occasion, that the Memorial Volume of the Proceedings at the Centennial Celebration in 1889 has been delayed in its publication by causes beyond our control. The volume will be ready by commencement, and copies may be obtained from W. T. Patterson, Bursar, or from members of the
