Weekly Weather Crop Bulletin. The reports of correspondents of

the Weekly Weather Crop Bulletin, issued by the North Carolina Ex periment Station and State Weather Service, co-operating with the United States Signal Service, show that the weather during the week ending last Friday has been very favorable and that the condition of crops continues usually good. The days have generally opened bright and warm, becoming cloudy and threatening in the afternoon with showers, in some places nearly every evening. The normal rainfall for each week in June is 1.12 inches. The average for the State during the week was 1.18 inches, but was badly distributed. Heavy local rains did some damage in Robeson, Bladen, Mc-Dowell and Johnston counties. The heaviest amounts reported are 3.63 inches on two days at Lumberton, 3.25 inches at Gibson station, and 2.38 inches at Dallas. The tempera-The track-layers crossed the Tiger | 15th; Cheraw, S.
