11 and 13 So. Water Street.

**ISLAND BEACH HOTEL**  
**J. A. BROWN, Manager.**  
HAVING LEASED THE ABOVE NAMED  
Hotel, situated at the Hammocks, I am pre-  
pared to cater successfully to the wants of  
the public.  
The tables will be supplied with the choicest  
viands of the season.  
Many places of great interest in the vicinity  
of the hotel are accessible. Bathing in still water,  
the bathing facilities, unrivalled fishing, and  
excursions on the beach conducted with the  
Hotel. Mr. Miller's celebrated Band engaged for  
the season.  
**J. A. BROWN**  
MANAGER.

A homing pigeon flew from Spar-  
tanburg, S. C., to Baltimore; 420  
miles, in fourteen hours.

The discoveries made by Stanley  
show that the Nile is the longest  
river in the world, being at least  
4,100 miles in length.

Emma Abbott is the pet of Paris.  
She tells an interviewer that she  
has had offers to sing there in French  
opera, but makes no sign as to  
whether she will accept.

Geologists assert that if the conti-  
nents and the bottom of the ocean  
were graded down to a uniform level  
the whole world would be covered  
with water a mile deep.

A depression has been discovered  
in the Egyptian Desert which is all  
that remains of a reservoir con-  
structed by the Patriarch Joseph  
for irrigating purposes when he was  
Pharaoh's prime minister.

It is cold yet up in the Maine  
woods. Two Connecticut sports-  
men who have returned reported  
snowdrifts two or three feet deep in  
the sheltering places in the forest,  
and the temperature so cold that  
fishing in the lakes has been back-  
ward.

From the last annual report of the  
British mint it appears that the  
British Government has profited by the  
coinage of silver. During the year  
the coinage amounted to about \$11,-  
000,000 of nominal value, the actual  
bullion of value of which was only  
\$7,000,000.

Louis A. Duvingneaud died in  
New Orleans on Friday last, aged  
83. He was the oldest member of  
the New Orleans Bar, and by many  
years the oldest ex-Judge of the  
District Court. He was a member  
of the Legislature in 1839. He had  
held office under seven State Con-  
stitutions in Louisiana.

From noon on Friday, June 13th,  
until noon on Friday, June 20th, just  
one week, 29 bodies were taken to  
the Morgue in New York. This is  
the beginning of the summer aver-  
age, and from now on bodies will  
continue to turn up there at a slight-  
ly increased rate until late in the  
fall. Of the 29 bodies found last  
week, 15 were identified, and the  
others remained unrecognized by  
the many visitors and were buried  
in Potter's Field.

The Morrill pension bill, so far  
from appeasing the ravenous hun-  
ger of the claim agents, has but  
served to set their appetites on keener  
edge. As the Washington cor-  
respondent of the St. Louis *Globe-  
Democrat* points out: "They are  
clamoring through the *National  
Tribune* and other influences for a  
service pension, which would cost  
anywhere from \$200,000,000 to \$300,-  
000,000, and they are urging the re-  
moval of the limitation of arrears,  
which would take \$216,000,000 more."

After diphtheria, scarlet fever,  
pneumonia, or any other severe ill-  
ness, there is no better tonic than  
**Hood's Sarsaparilla.**

Messrs. Medlin and Black are in  
the city with a dozen or more fine  
milk cows which are offered for  
sale at Mr. Orrell's stables.

Mr. Hosea Shepard, of Middle  
Sound, brought into market this  
morning the first load of North  
Carolina watermelons. They sold  
for 35 cents each.

Brig Richard T. Green, Patrick,  
cleared to day for Port-au-Prince,  
Hayti, with 173,486 feet lumber, val-  
ued at \$2,518.51, shipped by Messrs.  
S. & W. H. Northrop.

The row of trees set out some  
years ago in the middle of Market  
street, from Fourth to the Eastern  
limits, are with one or two excep-  
tions, thriving beautifully now and  
already cast a refreshing shade.

Peaches will be decidedly scarce  
this year in this section and we un-  
derstand also that there will be very  
few in the interior of the State. The  
mountain sections will probably fur-  
nish about all that we have.

Farmers, we can supply you with  
Peanut Sweeps and Diggers, Scraper  
and Coiler Points. Seven different  
size wings and two size points for  
the "Boy Clipper," the most im-  
proved plow on the market. N. Ja-  
cobi Hdw. Co., factory agents.

The trip of the members of the  
State Dental Association to Caro-  
lina Beach yesterday, at the invita-  
tion of the Wilmington dentists, was  
of a most delightful nature. A fine  
pig fish supper was prepared by  
Mrs. Mayo and partaken of with  
great relish.

The fourth german of the season  
will be given at the Hammocks to-  
night. It is probable that there will  
be a large number from the city and  
these, with the guests of the Island  
Beach Hotel, will make up a bril-  
liant party. There will be a late  
train to bring back those who go  
down.

**Progress.**  
It is very important in this age of  
vast material progress that a remedy  
be pleasing to the taste and to  
the eye, easily taken, acceptable to  
the stomach and healthy in its na-  
ture and effects. Possessing these  
qualities, Syrup of Figs is the one  
perfect laxative and most gentle  
diuretic known.

**Wedding Bells.**  
Mr. R. R. Bridgers, Superintendent  
of the N. C. Division of the R.  
& D. R. R., was married in Durham  
on Wednesday to Miss Annie Carr.  
Among the attendants were Misses  
Mary Bridgers and Eliza Potter and  
Mr. Geo. Bridgers, of this city.

On the same day, in Raleigh, Miss  
Abbie Smith, daughter of Capt. W. M.  
Smith, Superintendent of the R. &  
G. R. R., was married to Mr. Thos.  
Cameron Gales, formerly of Raleigh,  
but now of Peoria, Ill.

**Drowned in the Dock.**  
A small colored boy by the name  
of Garfield Jones, aged about ten  
years, son of Stephen Jones, driver  
of the Cape Fear horse reel, was  
drowned this morning, about 8  
o'clock, at the foot of Ann street.  
In company with a companion of about  
the same age, he entered a bat-  
teau in the dock, to ride the waves  
of the Passport as she came by, and  
in attempting to push off from a  
flat Jones lost his balance and fell  
into the water and was drowned.  
Divers and druggers at once got to  
work, looking for the body, and it  
was found about 11:30 o'clock, near  
the spot where he disappeared.

**Handsome Done.**  
On Monday night last, after the  
commencement exercises of the  
Academy of the Incarnation, a num-  
ber of young gentlemen of this city,  
members of the Royal Pleasure Club,  
visited the residence of Mr. Sol Bear  
and presented his daughter, Miss  
Daisy, who was one of the graduates  
at the academy, with a handsome  
watch and chain. The presentation  
was made very happily by Mr. Sol  
Sternberger, President of the Club.  
The gentlemen remained to a recep-  
tion held by Miss Daisy and with  
feasting and music the hours sped  
all too swiftly.

**Female Weakness Positively Cured.**  
To THE EDITOR:  
Please inform your readers that I  
have a positive remedy for the thou-  
sand and one ills which arise from  
deranged female organs. I shall be  
glad to send two bottles of my rem-  
edy FREE to any lady if they will  
send their Express and P. O. address.  
Yours respectfully, DR. J. B. MAR-  
CELLI, 183 Centree St., Utica, N. Y.

**The Information Signal.**  
The yellow pennant displayed from  
the Orton House to-day is the new  
"information signal" of the Signal  
Service. The Signal Office has taken  
down its flagstaff, preparatory to  
moving into the new public building,  
hence the display from the Orton  
House. This information signal does  
not indicate a storm for this place,  
but that a storm is prevailing at a  
distance, which would be dangerous  
to shipping caught in it, and of  
which information may be obtained  
by consulting the Signal office.

This "information" will be cheer-  
fully received here. There have  
been many speculations as to the  
meaning of the signal, some con-  
tending that it signified that the  
Signal bureau was afflicted with the  
small pox and others contending  
that it was chicken pox, while chol-  
era, yellow fever and cholera infantu-  
m were spoken of by a few, with  
"baited" breath.

**Another Coast Line Projected.**  
The *Railway World* of the current  
week has an article that possesses a  
great deal of interest for our people.  
We have heretofore referred to the  
preliminary survey which was being  
made between Charleston and this  
city for a new line of railway that it  
was proposed to build and have sug-  
gested that this was probably the  
first step in the construction of a  
long coast line between Northern  
and Southern points. Our con-  
jecture seems to have been correct for  
the article we have alluded to says  
that there is a project on foot to  
build a line between Charleston and  
Norfolk, or some other point in a  
corresponding latitude, "that will  
shorten the distance by rail between  
New York, Charleston and Florida  
points to the extent of nearly one  
hundred miles and traverse a terri-  
tory nearer the Atlantic Coast than  
any existing railroad, much of which  
is either wholly or partially destitute  
of needed railway facilities."

The name of the projected road,  
says the *Age*, will probably be the  
Charleston, Wilmington & Norfolk  
R. R. Active construction, it says,  
will first be commenced on portions  
of the route leading northward from  
Charleston to Georgetown, because  
the immediate requirements for ad-  
ditional railway facilities are more  
urgent in that quarter than in more  
Northern latitudes. The Carolina  
Construction Company has been or-  
ganized to build the road, with head-  
quarters in Philadelphia, and some  
of the preliminary work has already  
been done.

"The main portion of the road,"  
says the *Age*, "will extend in an al-  
most direct Northern direction from  
Charleston, through North and South  
Carolina, States which have, for sun-  
dry reasons, received less effective  
attention from projectors and con-  
structors, in proportion to their  
area, population, and natural re-  
sources, than any of their sister  
commonwealths."

"The main line will probably have  
an aggregated length of more than  
300 miles, half of which, or about 150  
miles, will practically open up a  
country rich in native resources,  
with a breadth varying from 15 to  
50 miles, in which there is no exist-  
ing railway, and which will furnish  
for this road a field peculiarly its  
own. This territory embraces the  
regions that furnish the only exten-  
sive rice plantations ever cultivated  
in the United States; the soil that  
has yielded the main portion of the  
justly famed Sea Island cotton; a  
large section of the country from  
which resin, turpentine and other  
naval stores, as well as enormous  
quantities of timber and lumber,  
are obtainable; the natural fields for  
the first crop of early vegetables,  
fruits, berries, and all classes of mar-  
ket garden products forwarded to  
northern cities.

"Much of the southern portion of  
the line will serve pressing needs by  
opening up outlets for one of the  
most extensive virgin timber dis-  
tricts in the United States. Few  
people realize the magnitude of the  
lines built and now operated in this  
country mainly and almost exclusi-  
vely as timber railways.

"The rapid consumption of the  
products of northern timber regions  
has long been a familiar theme; and  
in the natural course of events the  
Southern States will inevitably be-  
come the main source of supply for  
many of the northern and foreign  
markets. Preparatory steps for  
utilizing Southern lumber have al-

ready assumed large proportions. It  
is stated that \$100,000,000 has been  
invested in timber lands in the  
South in the last nine years, and  
numerous large and well-equipped  
saw mills have taken the place of  
the widely scattered country mills  
of twenty years ago. The yield of  
Southern forests has been estimated  
at \$30,000,000 a year for the next fifty  
years, but it may reach higher fig-  
ures.

The new road will traverse regions  
adjacent to the Atlantic, containing  
immense quantities of timber of sev-  
eral of the most desirable varieties,  
including pitch pine, cypress, jun-  
iper and live oak. A recent estimate  
of the Forestry Division of the Na-  
tional Agricultural Bureau states  
that the forestry area of South Carolina  
is to be 13,000,000 acres, and of North  
Carolina 18,000,000 acres, while the  
same report credits Pennsylvania  
with only 7,000,000 acres and New  
York with 8,000,000 acres. There are  
good reasons for the belief that a  
large portion of the new road would  
find sustaining sources of revenue in  
the great timber interests it would  
serve, especially as large bodies of  
timber lands will form a portion of  
the assets of the projecting com-  
pany."

**Forecasts.**  
For North Carolina, fair weather  
until Sunday and slightly cooler.  
Local forecasts, from 8 a. m. to-day,  
for Wilmington and vicinity, fair  
weather.

Mr. J. R. Marshall has just received  
a carload of beautiful Florida  
water-melons. If you want some call  
quick as they are going off fast.

ures.

The new road will traverse regions  
adjacent to the Atlantic, containing  
immense quantities of timber of sev-  
eral of the most desirable varieties,  
including pitch pine, cypress, jun-  
iper and live oak. A recent estimate  
of the Forestry Division of the Na-  
tional Agricultural Bureau states  
that the forestry area of South Carolina  
is to be 13,000,000 acres, and of North  
Carolina 18,000,000 acres, while the  
same report credits Pennsylvania  
with only 7,000,000 acres and New  
York with 8,000,000 acres. There are  
good reasons for the belief that a  
large portion of the new road would  
find sustaining sources of revenue in  
the great timber interests it would  
serve, especially as large bodies of  
timber lands will form a portion of  
the assets of the projecting com-  
pany."

**Forecasts.**  
For North Carolina, fair weather  
until Sunday and slightly cooler.  
Local forecasts, from 8 a. m. to-day,  
for Wilmington and vicinity, fair  
weather.

Mr. J. R. Marshall has just received  
a carload of beautiful Florida  
water-melons. If you want some call  
quick as they are going off fast.

apl 14 1f cod

ready assumed large proportions. It  
is stated that \$100,000,000 has been  
invested in timber lands in the  
South in the last nine years, and  
numerous large and well-equipped  
saw mills have taken the place of  
the widely scattered country mills  
of twenty years ago. The yield of  
Southern forests has been estimated  
at \$30,000,000 a year for the next fifty  
years, but it may reach higher fig-  
ures.

The new road will traverse regions  
adjacent to the Atlantic, containing  
immense quantities of timber of sev-  
eral of the most desirable varieties,  
including pitch pine, cypress, jun-  
iper and live oak. A recent estimate  
of the Forestry Division of the Na-  
tional Agricultural Bureau states  
that the forestry area of South Carolina  
is to be 13,000,000 acres, and of North  
Carolina 18,000,000 acres, while the  
same report credits Pennsylvania  
with only 7,000,000 acres and New
