The New York Times has kept a record of the accidents on the railroads of the United States that have been noted in four newspapers during the month of June, and finds the accidents numbered 64. the deaths 77 and the injured 190; so that if we take these figures as a basis for the year we have 750 accidents, nearly 1,000 people slain and over 2,000 injured. A large proportion of these accidents were undoubtedly preventable, and public opinion, if properly exercised, might exert some influence in lessening their number. But it is, says the Philadelphia Records when some great disaster occurs that the people are awakened to the dangers of railroad travel, and even then the feeling that something should be done to prevent a repetition of the horror soon passes away.

That conservative, independent paper, the New York Commercial Advertiser, says of the Elections bill pending in the House, that "the people of the North would not consent to national supervision in Northern Elixir and am now a well man. elections. For them to enforce a National supervision at Southern elections is clearly a blow at a section which is inspired by sectionalism. Nevertheless, we do not fear the bill. We believe that it will ultimately win for the Democratic party in the North more Congressmen than it will lose them at the South. It will produce a reaction and put an end to the frenzy regarding the 'suppression of the negro vote.' It is this frenzy which, in the West, keeps living issues from her experience below: coming to the front. While inspired by sectional feeling, the measure may result in putting down sectional feeling."

The popular interest in Miss Winnie Davis, who is usually referred to as the daughter of the Confederacy. has extended into social circles, says the New York Sun. Since the re tirement of the renowned New Orleans belie whose name no longer appears in the papers, and the marriage of Miss Anderson, Miss Davis has been the most popular representative in the North of Southern womanhood. Her engagement to a Northerner has called out a great amount of feeling in the South, but it has become pretty well recognized at this stage of the world's history that women in America no longer marry for patriotic reasons. Her beauty is of a delicate and gentle type, and it is in marked contrast to the somewhat assertive manner of the New York society women. Her sojourn will be short, as she is booked to visit Newport, where a great deal of her time will 'spent, as the guest of the Whitney's.

Chicago's experience with its late hot spell not yet entirely overwas about as bad as any American city has ever encountered. We have had sunstroke epidemics in this country before, New York and St. Louis suffering badly from them, but never quite as bad as "the Lake " that City." The actual number of pros AFIL YON GRAFF THEICHER OF FIRST trations by the heat during the past week is placed at 1,200, with about TOUR REGULAR COURSES OF STUDY, 120 deaths directly due to sunstroke. The mortality on Monday, June 30th, ran up to 184, and for the week will be 800 or over, or at the rate of 40 per 1,000, which is more than twice the average mortality of the city and almost as bad as an epi demic. This, however, represents only the fatal cases; a prominent physician of Chicago gave the number of persons suffering from the heat, that is, actually sick from it, as 20,060 at one time. All out-door work was suspended, in many es tablishments a large number of employes failed to report for work, and even horses and dogs died in large numbers. In two hours in one day forty-one horses were reported as lying dead in the streets.

If you have made up your mind to buy Hood's Sarsaparilla do not be induced to take any other. Hood's Sarsaparilla is a peculiar medicine, possessing, by virtue of its peculiar combination, proportion, and preparation, curative power superior to any other article. A Boston lady who knew what she wanted, and whose example is worthy imitation, tells

To Get

"In one store where I went to buy Hood's Sarsaparilla the clerk tried to induce me buy tneir own instead of Hood's; he told me their's would last longer; that I might take it on ten days' trial; that if I did not like it I need not pay anything, etc. But he could not prevail on me to change. I told him I knew what Hood's Sarsaparilla was. I had taken it, was satisfied with it, and did not want any other.

Hood's

When I began taking Hood's Sarsaparilla I was feeling real miserable, suffering a great deal with dyspepsia, and so weak that at times I could hardly stand. I looked, and had for some time, like a person in consumption. Hood's Sarsaparilla did me so much good that I wonder at myself sometimes, and my friends frequently speak of it." MRS. ELLA A.
