SEED & CO.—Furniture
MENDS BROTHERS—Druggists
SCHEDULE—Carolina Beach steamers
JNO B HANKS—Patent Medicines, etc
C W YATES—Noted men on the Solid South

There will be lively times at Wrightsville this week.

Mr. N. Greenwald, of Richmond, is here on a visit to his son.

There was a large crowd of people at Wrightsville yesterday, mostly colored.

There was a fine rain this morning, in the early hours, and more during the day.

Mr A. David went North Saturday night for the purchase of new Fall and Winter goods.

Hood's Sarsaparilla is in favor with all classes because it combines economy and strength. 100 Doses One Dollar.

Fifty first-class hands wanted to make Pants, by the day or piece. Apply at 123 Market street.

There is talk of another hot wave, moving from the West. By the accounts given it ought to be here tomorrow.

Rev. Mr. Beaman, of this city, will preach at Masonboro Baptist Church on Sunday afternoon, August 17th, at 4 o'clock.

Keep dry and you will keep healthy. Umbrellas, rubber coats, &c., at I. Shrier's, S. E. corner Front and Princess streets.

A dealer was asking a cent a pound for his watermelons to-day. He had one that weighed 40 pounds and wanted 40 cents for it.

I am Manufacturer's Agent for Barbed and all kinds of Wire, Combination Wire and Iron Fences. Orders solicited. James I. Metts.

The thermometer could not climb any higher than 85 to-day but the excessive humidity of the atmosphere made everybody uncomfortable.

With "Regal" Paint on your house and "Plastico" on your walls, your house will be beautiful and your family happy. Sold by the N. Jacobi Hdw. Co. factory agents.

Mr. Jere Hewlett and his crew of 18 men from Masonboro Sound went to their fishery this morning, on Masonboro Beach, with a seine 300 yards long to begin the fall fishing.

Congress has decided for Hunter to sell and deliver to any part of the city quart bottles of fresh Beer. Put up only to order, for 10c a quart, at Hunter's Beer Saloon, No. 4 North Water street.

We are informed that a young lady, while bathing in the channel at Wrightsville Sound, a few days since, fainted and but for the timely assistance of a few gentlemen she would have been drowned.

The big gate that spans the Seacoast R. R. at Wrightsville was partly torn down last night. The rollers to the gate failed to work and it had to be pulled down so as allow the passage of the 8 o'clock train.

The Greensboro Patriot says that Joe James, the young man from this city so badly cut Tuesday evening, is doing very well and the indications are that he will recover. His wife arrived Friday night and is carefully nursing him.

New Push and Pull Blind Hinges. Locks the blind when opened or closed. Saves labor and cost of putting on inside fastenings, which are not needed with these hinges. Carpenters, it will pay you to examine and use same. N. Jacobi Hdw. Co.

We have it now. A Pump that is always primed, never requiring a tub of water to start it. It is the bright invention of a North Carolina genius and is pronounced by all to be the best pump on the market. See it and you will have no other. N. Jacobi Hdw. Co.

Mr. W. H. Stokley, of Wrightsville, had the misfortune to lose 55 fine pigfish from his coop in the sound last Saturday night. The coop was found yesterday morning turned bottom upwards and not a fish was found in it. It is thought that some scoundrel stole them and turned it bottom upwards.

DON'T GET LEFT. Shrewd people are buying Rough on Dirt Soap.

Dr. A. D. McDonald, who has been sick and absent from the city, has returned here and resumed his practice and we are glad to know that he has recovered his health.

The proposed new cornet band is to be organized in a meeting to be held in the Mayor's office on Wednesday night. It is expected that it will be composed of 18 pieces at the start.

The Grove did not go down to the Blackfish Grounds to-day, to the disappointment of many. It was concluded late Saturday evening to abandon the trip for the present. It is well enough that she did not go out to-day as the wind has been from the East and the catch would probably have been small.

Judge McKee Withdraws.

Hon. Jas. C. McKee, whose name was to have been presented before the State Democratic Convention as a candidate for Supreme Court Justice, has published a card withdrawing from the contest. Judge McKee was undoubtedly actuated by the highest and purest motives for doing this but his friends will regret his decision as they had hoped to secure for him the nomination and it is needless to say that they could not have centered upon a better man for the place.

Cast Up by the Waves.

Mr. S. VanAmringe had in his possession this morning a queer fish which was picked up yesterday on the beach at Ocean View. Only one person has been found who had ever seen anything like it before and he pronounced it a trunk fish. It is evidently a stranger in these waters. It is about a foot long and five or six inches in diameter and is triangular in shape. It has a head something like a hog and a short horn over each eye. There are three distinct colors on the body, blue, yellow and green. Mr. VanAmringe will preserve it in alcohol.

Weekly Weather Crop Bulletin.

The reports of correspondents of the Weekly Weather Crop Bulletin, issued by the North Carolina Experiment Station and State Weather Service, co-operating with the United States Signal Service, show that heavy rains continued throughout the State until the 30th of July, the remainder of the week ending Saturday last being warm and bright. Fears have been entertained that the heavy rains of the past two weeks would cause serious damage to crops, but the injury done is far less than might have been expected. Cotton has been shedding badly in some places, but the plants are so well advanced and full of blossoms and fruit that the present loss is not sufficient to justify any gloomy anticipations. In a majority of counties the rains have been just what was needed, and the general prospects for cotton, corn and tobacco continue excellent. The weather during the week has greatly benefited upland corn, but injured crops on low ground. Mr. J. W. Morrow says that Pineville township can show cotton lapping in five foot rows and five to six feet high.

EDITOR REVIEW—Dear Sir: Do you know B. F. Grady? An article in yesterday's issue of the REVIEW prompts the question. Had the writer of this been in at the Clinton Convention his vote would have been cast for McClammy from the first to the last ballot; still he feels, as do several others with whom he has spoken, that the article in question does Mr. Grady an injustice, by inference. We of Pender regret the loss of the gallant Major but we feel that we are not sorely in need of the sympathies of outsiders as we know we have secured a man who without disparagement of McClammy is his peer in every respect.

With no pretensions to being a lawyer he is to-day a better constitutional lawyer than one half of the judges who wear the ermine; he is well versed in international law and parliamentary tactics and possesses in a marked degree all the qualities necessary to make him a power in the halls of Congress in which, when he takes his seat, he will have no superior. PENDER Rocky Point, July 31st, 1890.

Bucklen's Arnica Salve.

The Best Salve in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chilblains, Corns, and all Skin Eruptions, and positively cures Piles, or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box.

For sale by Robert E. Bellamy, wholesale and retail druggist.

The Ladies Delighted.

The pleasant effect and the perfect safety with which ladies may use the liquid fruit laxative, Syrup of Figs, under all conditions make it their favorite remedy. It is pleasing to the eye and to the taste, gentle, yet effectual in acting on the kidneys, liver and bowels.

The Encampment.

The Second and Fourth Regiments of the State Guard will go into camp to-morrow evening at Camp Lattimer, on Wrightsville Sound. They will remain there one week. The troop trains will arrive here to-morrow evening and will go direct to the Sound. The Wilmington Light Infantry will go down to-morrow afternoon, leaving here at 3 o'clock. It is expected that a much larger number of troops will be present at this encampment than were there week before last, when the First and Third Regiments unbuckled their knapsacks.

Harbor Master's Report.

From the books of Capt. Joseph Price, Harbor Master at this port, we get the following report of the arrivals of vessels at this port during the month of July:

American—Eight steamships with a tonnage of 6,583; 9 schooners with a tonnage of 2,035. Total number of American vessels 17, with a total tonnage of 8,618.

Foreign—Eight barques with a tonnage of 3,906; 1 brig with a tonnage of 247. Total number of foreign vessels 9, with a total tonnage of 4,153.

Total number of American and foreign vessels, 26, with a grand total tonnage of 12,771.

Selected Readings.

The selections and continued stories noticed below are to be found at the rooms of the Wilmington Library Association, on Market street: Commonplace, I. G. Meredith. Rebecca's Ma, Fred W. Loring. She Writes, Elise Polko. A Point of View, H. James, Jr. The Rudder Grangers in England, F. R. Stockton. Happy Island, E. E. Hale. The Haunted Man, Dickens. Parson Turell's Legacy, O. W. Holmes. Ilka on the Hilltop, H. H. Boyesen. An Irish Heart, T. W. Higginson. The White Cat, a Fair Tale for Grown Folks, Miss Thackeray. Jean-Ah Poquelin, G. W. Cable. The Spectral Mortgage, F. R. Stockton. Signs and Seasons, John Burroughs. Anastasia, H. H. Boyesen. The Silverado Squatters, R. L. Stevenson. Impressions of a Cousin, H. James, Jr. Mrs. Knollys, J. S. of Dale. Mrs. Pinlay's Elizabethan Chair, Octave Thanet. Marse Chan, T. N. Page. The Women of the Bee-hive, H. H. Braxton's New Art, W. H. Bishop. The Rise of Silas Lapham, W. D. Howells. An Adventure of Huckleberry Finn, Mark Twain. Hodson's Hide-out, Maurice Thompson.

We Didn't Do It.

A correspondent at Rocky Point, whose communication is published elsewhere, has placed us in the peculiarly unpleasant position of explaining something we did not say. He objects to an article published by us on Wednesday last as being, "by inference," unjust to Mr. Grady, the candidate for Congress in the Third district. The truth of the matter is that there was no injustice to Mr. Grady, or any one else, in that article, either directly, by implication or "by inference." We wanted to say a few good words—every one of which was true—of Maj. McClammy and we tried to make our readers understand that we did this without prejudice to Mr. Grady. Our correspondent is evidently suffering with the jaundice (or perhaps the distemper) or he would never have read praise of one gentleman to mean censure for another, especially where any such an interpretation was disclaimed.

As to the "sympathies of outsiders" we will simply say that we are not an "outsider." New Hanover is more nearly allied, in every way, to the Third district, of which she was for so long an integral part, than she is to the Sixth. We are away from home and feel like strangers and aliens in the Sixth. Our neighbors, our friends, our companions, are largely in the Third and so, if the truth must be told, are our sympathies. Our readers are made up largely in the counties composing the Third and we feel that we are

W. M. CUMMING.
17 PRINCESS STREET

no more an "outsider" in all that pertains to the interests of the people of that district than is our correspondent, although he votes in the Third and we in the Sixth.

Transfer of Freight.

The large scow constructed by Capt. Skinner for the C. F. & Y. V. R. R., to be used in transferring loaded cars from the company's wharf in this city to the depot at Point Peter, was successful launched about 12 o'clock on Saturday night. It was intended to drop her into the water at midday but there was a hitch somewhere. She slipped down about ten feet and then stuck hard and fast and would not budge. The job was, however, safely and successfully accomplished twelve hours later.

The scow is 32 feet beam and 140 feet in length and is to be fitted with a double track, each of which will hold three freight cars. As the cars are 33 feet long this will give about 20 feet space on deck at the bow and the stern. The cars can be loaded on the scow at any stage of the tide as Mr. Jos. H. McRee, the resident engineer, will construct an ingeniously devised track wharf, moving on pivots, which can be raised or depressed at will. The loaded cars will be taken direct from the train to the scow and brought over to this side, where they will be unloaded and reloaded while lying on the scow at the wharf. This will save an immense amount of trouble and labor in handling freight and will ensure more prompt dispatch and delivery.

MANUFACTURERS OF

Fertilizers, Pine Fibre and

Pine Fibre Matting.

Wilmington, - - N. C.

THE REPUTATION OF OUR FERTILIZERS

THE ACME and GEM is now established, and the results of three years' use in the hands of the best farmers of this and other States will attest their value as a high grade manure. The MATTING, made from the leaves of our native pine, is conceded to be equal to any wool carpet for its softness and durability and the demand for it is daily increasing. It is virtuous not found in any other fabric. The FIBRE or WOOL is extensively used for upholstering purposes, and as a filling for mattresses is almost equal to hair, being light elastic and proof against insects. Certificates from reliable parties using our goods can be seen at our office, or will be mailed upon publication. Jan 4 11
