Sixteen years ago this month work was begun on the Hudson River tunnel. At the present time 2,285 feet has been completed from the New Jersey side and 150 feet on the New York side.

The total length of the tunnel between its terminals is to be 5,600 feet, so that the work is about one-half completed.

This, however, is on one single track tunnel only, which at the present rate will be completed in about two years. Work will then be commenced on the second tunnel. Up to eighteen months ago, when the Hudson River Tunnel Company was reorganized with English capital, \$1,100,000 had been expended upon it.

It is estimated, says the New York Sun, that nearly a million more had been expended since that time, making a total cost of the tunnel up to the present time about \$2,000,000.

Since the work began twenty lives have been lost, all on that memorable day in July, 1880, when the shaft plates gave way and flooded the tunnel.

The Philadelphia Record of Wednesday says: "The sensation of the hour in Republican circles is the way Senator Quay has turned his back on State Chairman Andrews and brought in outside help to endeavor to save Delamater. Collector Thomas V. Cooper has been called in, and he is now practically running the Republican machine. Cooper has magnanimously overlooked the way in which he was turned down as State Chairman two years ago and Andrews put in his place, and he has turned in for the ticket with all the energy and shrewdness for which he is noted. Cooper is raising money from Philadelphia merchants and manufacturers for the State Committee. Cooper is directing the secret work of the campaign. Cooper is advising Delamater on the course he should pursue under fire, and Cooper, in short, is Senator Quay's personal representative in the management of the fight."

The New York Sun says of Dr. William Everett, whom the Democrats have nominated against Henry Cabot Lodge: "If he consents to run there will be a halcyon and vociferous campaign. We don't know how the workingmen of Lynn and Chelsea and Malden will vote, but they and everybody else who like to hear a good speech will be glad to hear Dr. Everett. He is one of the most original characters in New England, and the flavor of eccentricity and quaintness in his composition makes him only the more interesting. A son of Edward Everett, he was a scholar from his cradle. When he was a boy in roundabouts he could repeat the Odes of Horace word for word, and at the American and English Cambridge he became a distinguished classical scholar. He has studied law, theology and, perhaps, medicine, has been a preacher and a professor, has written spirited books for boys and more than a lerable poetry. He is liked by boys, although they may make a little fun of some of his peculiarities, and boys are pretty good judges of character."

Very often the shoemaker's first resort is the last—Yonkers Gazette.

The Vermont Legislature is in session. The Democrats had a hand in electing H. R. Start, of Barkersfield, Speaker of the House. Mr. Mann had 90 votes on the first ballot and 101 on the second, while Start had 61 on the second. Mann, had the House been in session for another ballot, would probably have won, but R. J. Humphrey, of Poultney, a Democrat, moved to take a recess, and by a light vote the motion was carried. At the afternoon session a third ballot was as follows: Start, 122; Mann, 98; Thompson, 10; scattering, 3. The Democrats had voted in mass for Start and he was elected.

Recently it was stated on the floor of the Senate that 400,000 applications for pensions had been made under the new law. According to the latest bulletin the number was 445,018. They come in at the rate of 15,000 a week. They are figuring on 150,000 more, or about 600,000 in all, and this number may be swelled to 750,000. Senator Plumb was probably well within the mark when he said that the annual charge on account of this bill would be \$50,000,000, and he would not be surprised to see it reach \$100,000,000. And even this is not enough. In the last hours of the session Senator Ingalls by request introduced a service pension bill, calling for no man can tell how many millions more, but probably not less than \$100,000,000 a year. Among the incidents of the dependent pension act it may be stated that the doctors will get \$200,000 and the claim agents will clean up a matter of \$5,000,000.

The Pulpit and the Stage.

Rev. F. M. Shront, Pastor United Brethren Church, Blue Mount, Kan., says: "I feel it my duty to tell what wonders Dr. King's New Discovery has done for me. My lungs were badly diseased, and my parishioners thought I could live only a few weeks. I took five bottles of Dr. King's New Discovery and am sound and well, gaining 25 lbs. in weight."

Arthur Love, Manager Love's Funny Folks Combination, writes: "After a thorough trial and convincing evidence, I am confident Dr. King's New Discovery for Consumption, beats 'em all, and cures when everything else fails. The greatest kindness I can do by many thousand friends is to urge them to try it." Free trial bottles at R. R. Bellamy's Drug Store. Regular sizes 50c. and \$1.00, wholesale and retail.

WHAT IS SCROFULA

It is that impurity in the blood, which, accumulating in the glands of the neck, produces unsightly lumps or swellings; which causes painful running sores on the arms, legs, or feet; which develops ulcers in the eyes, ears, or nose, often causing blindness or deafness; which is the origin of pimples, cancerous growths, or the many other manifestations usually ascribed to "humors," which, fastening upon the lungs, causes consumption and death. Being the most ancient, it is the most general of all diseases or affections, for very few persons are entirely free from it.

How Can It Be CURED

By taking Hood's Sarsaparilla, which, by the remarkable cures it has accomplished, often when other medicines have failed, has proven itself to be a potent and peculiar medicine for this disease. Some of these cures are really wonderful. If you suffer from scrofula, be sure to try Hood's Sarsaparilla.

"My daughter Mary was afflicted with scrofulous neck from the time she was 22 months old till she became six years of age. Lumps formed in her neck, and one of them after growing to the size of a pigeon's egg, became a running sore for over three years. We gave her Hood's Sarsaparilla, when the lump and all indications of scrofula entirely disappeared, and now she seems to be a healthy child." J. S. CARLISLE, Naught, N. J.
