

ROYAL BAKING POWDER

A cream of tartar baking powder Highest of all in leavening strength.—U. S. Government Report, Aug. 17, 1880.

The Daily Review.

FRIDAY, NOV. 14, 1890.

STATE NEWS.

Weldon News: Near Garsburg Thursday morning, about 4 o'clock, the gin house and contents, belonging to Messrs. J. W. and N. Grant, was burned. The origin of the fire is unknown. Loss about \$1,200; insurance \$600.

Wadesboro Messenger: Our Cairo correspondent gives the particulars of this week of the burning of the gin of Mr. S. C. Liles at that place last Saturday. The supposition is that some cotton that was being ginned was ignited by a match, soon burning the house and all its contents.

Tarboro Southern: It is believed by some negroes that Edgecombe county will average, this year, 900 pounds of seed cotton per acre. Many farmers have made a bale per acre when with ordinary seasons the yield would be only about half a bale. The good crops of this year have put an entirely different appearance on things generally and everybody is feeling good. Trade has never been better in a number of years.

Charlotte Chronicle: Cards announcing the marriage of Joseph Morrison Hill, of Fort Smith, Ark., to Miss Kate, daughter of Gen. and Mrs. D. H. Reynolds, of Lake Village, were received here yesterday. A letter received yesterday from Will Boyd at West Point, by George Gifford, announced the suicide there of Robert Starks, a Richmond & Danville clerk, who is well known in this city. Mr. Starks shot himself with a double barrel shot gun.

Winston Daily: Mr. Frank Snipes, a butcher of this city, has a curiosity in the shape of a three-legged hog. The animal was purchased from a farmer a few miles from town and Mr. Snipes prizes it highly from the fact that it is a pet, and a great curiosity to everybody who has seen it. It is about nine months of age and weighs in the neighborhood of 75 pounds. The two hind legs are like all other hogs, but the oddity comes in with only one front leg. The little animal is active and gets around with about as much ease as if he was a "whole hog."

Charlotte News: The carpenters of Charlotte have organized a Union. A meeting was held last in the Temple of Justice and the carpenters and joiners effected an organization with nearly forty members. The association will be known as the Carpenters and Joiners of Charlotte. A plan is on foot by which, it is believed, the auditorium of which you have heard so much talk, will be built and that too at an early day. The building will cost \$15,000, and it is proposed to raise the money by organizing a strong company and placing shares at ten dollars each.

Raleigh News and Observer: At Durham last evening, at 5 o'clock, Mr. Lucian G. Cole, traveling salesman for the Merris Manufacturing Co., and Miss Lollie Corbette, daughter of J. T. Corbette, were married at the First Baptist Church. Last night at the First Presbyterian Church, at 9 o'clock, Mr. A. C. Hinton and Miss Bessie Seawell, both of Raleigh, were united in marriage. Percy Robinson, son of Mr. John Robinson, Commissioner of Agriculture, received a painful injury at the cotton gin at his father's plantation yesterday afternoon. The injury, though painful, is not serious.

Fayetteville Observer: Cotton receipts for Fayetteville up to date number 11,593 bales against about 3,800 bales this time last year. George Fuller, colored, employed by Mr. N. B. Alexander at the Fayetteville Oil Mills, in the suburbs of the city, was accidentally caught by the belt of the machinery while at work on Tuesday afternoon, and before he could be extricated his face and shoulder were badly torn. Mr. Frank Roberts, summoned from his residence at the North to the death bed of his father a few weeks since, was prostrated with serious illness immediately after the latter's death, aggravated by mental affliction, from which the best medical skill was powerless to recover him, and his death took place on Tuesday night.

Raleigh Chronicle: Walter M. Ester, a drummer for J. Faust & Sons, of Baltimore, had finished his last trip and was returning home to Winston, having received an increase in salary for another year. Popular, jovial and promising, everything seemed bright before him and his brother waited at the depot to welcome him home. Between trains at Grainsboro he was treated to drinks, and, becoming restless, made threats of suicide, but they were not noticed. He boarded the mid-night train for Winston, and just five miles from here, while all were asleep in the car, he decided to end his life. He went through the train to the express car and handing his

grip to the agent said: "Take this home for me. Immediately he went back to his seat in the first-class car, lifted his feet above the back of the seat in front of him, placed a pistol at his right temple and fired, the ball passing through and almost out of the other side of his head. He did not move a muscle, but died without a struggle. The passengers awaking took charge of him, and instead of meeting him, Walter Hester, his brother, met his corpse. He had come home to die. Exactly twenty years ago, five miles from here, in the same direction, Hester's father committed suicide. His grandfather and aunt also took their own lives. The family is well known throughout the State and young Hester was one of the most popular and promising drummers on the road.

The Deaf Hear.
That sounds miraculous, and yet one may become temporarily deaf on account of blood poisoning setting in the ear, and then find quick relief by using B. B. B. (Botanic Blood Balm.)

John W. Weeks, Doctor, Ga., writes: "Six months ago I had a pain in my ear and in a few days it discharged matter. Then I grew deaf and could not hear at all. I began the use of B. B. B. and the running of my ear soon ceased and I now hear, while my health is much improved and I feel full of gratitude to God and to the proprietors of so good a remedy."

S. M. Ellis, Atlanta, Ga., writes: "B. B. B. cured me of most stubborn eczema. I had doctored it without success for twelve years."

W. H. Davis, San Marcos, Texas, writes: "I am rapidly recovering from blood poisoning by the use of B. B. B."

The Advantages We Offer to PIANO AND ORGAN

CUSTOMERS ARE. THAT OUR INSTRUMENTS are carefully selected by the undersigned and bought directly from the manufacturer. We have a very large stock comprising all grades and styles, to select from. All our pianos are delivered and kept in tune the first year by two competent tuners. As we are right here, we are responsible; which is not the case when you send for pianos or buy from travelling agents, for when a thing is wrong you may have a guarantee but this does not repair your instrument. By economical management we can sell you instruments at less than 20 per cent. more than you have to pay to travelling agents, for you have to help pay their heavy expenses. The instruments you buy from us are right here and consequently you do not buy the "cat in the bag." Over 300 instruments sold in Wilmington and its vicinity, proof that the public have confidence in our judgment and integrity. We sell for cash or instalments. P. V. AXELSON, 407 Red Cross street.

Scribner's Magazine

For 1890.
The publishers of SCRIBNER'S MAGAZINE also make it the most popular and enterprising of periodicals, while at all times preserving its high literary character. 25,000 readers have been drawn to it during the past six months by the increased excellence of its contents (notably the Railway articles), and it closes its second year with a new impetus and an assured success. The illustrations will show some new effects, and nothing to make SCRIBNER'S MAGAZINE attractive and interesting will be neglected.

The brief end papers written last year by Robert Louis Stevenson will be replaced by equally interesting contributions by different famous authors. Mr. Thomas Bailey Aldrich will write the first of them for the January number. Many valuable LITERARY ARTICLES will appear: a paper on Walter Scott's Method of Work, illustrated from original MSS., a second "Shell of Old Books," by Mrs. James T. Fields, and many other articles equally noteworthy.

Articles on ART SUBJECTS will be a feature. Papers are arranged to appear by Clarence Cook, E. H. Washfield, Austin Dobson and many others. An illustrated FISHING ARTICLE describing sport in the best fishing grounds will appear. Salmon, Winnish, Bass and Tarpon are the subjects now arranged. The authors are well known sportsmen.

ILLUSTRATED ARTICLES of great variety, touching upon all manner of subjects, travel, biography, description, etc., will appear, but not of the conventional commonplace sort. Among the most interesting in the list of scientific papers for the year will be a remarkable article by Prof. John Throbridge, upon the most recent developments and uses of PHOTOGRAPHY, illustrated.

A SPECIAL OFFER to cover last year's numbers, which include all the Railway Articles, as follows:
