OUTLINES.

A delegation from Winchester, Va., has gone to New Hampshire to attend the celebration of a veterans' association. -More slight shocks of earthquake have occurred in Charleston; they caused no slarm; the Relief Committee have issued over a thousand forms of application for assistance in rebuilding or repairing houses. - Thirty-seven thousand persons have died in Japan from Cholers; in Corea the epidemic is still raging; in Stoul, in July, 48,000 died out of a population of 250,000. - Knights of Labor tried at St. Louis, Mo., for conspiracy during the late railroad strike, were acquitted. - Attention is directed in Charleston, S. C, to the character of the mortar used there in rebuilding, consisting largely of yellow sand, and it is said the City Council will probably take action on the subject. - One of the largest coal mines in Missouri, after being idle over five months, is to be worked on the cooperative plan; the miners to pay a royalty of one cent per hushel. -Tue miners' and mine laborers association \$1,000.

of the U.S., a branch of the Knights of Labor, are in session at Indianapolis, Ind. - Dempsy Loftin killed John Wyatt at a funeral in Marshall county, Ky. -Cholera returns from Italy show 65 new cases and 25 deaths since last reports. Nineteen persons were killed in a railroad accident at Silver Creek, N. Y. - A saw mill at Chippewa Falls, Minn, was struck by lightning and destroyed; loss \$250,000. - A large rock rolled down the side of a mountain in Jackson county. W. Va., and demolished a dwelling and barns; four persons were fatally injured. - New York markets: Money 4@6 per cent; cotton s rady at 9 5.16@91c; wheat, No. 2 red 85te; southern flour quiet and

steady; corn, No. 2, 49@491c at elevator; rosin quiet at \$1 00@\$1 071; spirits turpentine firm at 36c.

WILMINGTON, N. C., FRIDAY, SEPT. 17, 1886.

According to Speaker Carlisle the ber 1st, and will be published by Messrs.

A. Cullum, of Greensboro, and J. B. Burk, Democrats saved \$17,000,000 between 30th June, 1885, and 30th tween 30th June, 1885, and 30th
June, 1886. They will also save, he
thinks, \$6,500,000 in the current fiscal year, which is their second in Washington and still others think that there power. He thinks the revenues will exceed the expenditures by \$35,000,-000, and if so the Treasury estimate of a deficiency was a very singular boy near New Bern was bitten a few days ago by a rattlesnake, and as medical aid blunder.

A brave engineer, George E. Baldwin, met his death at his post in Massachusetts. He saved his train but lost his own life. Some scoundrel broke a switch lock and opened the switch by which an excursion train ran into a lot of freight cars. Baldwin could have saved himself but preferred to save others. Honor to the memory of such a hero. He ought to have a monument.

The papers, North and South, are saying very handsome things, and very deserving things, of Captain Dawson, editor of Charleston News and Courier. He showed himself a hero. All honor to him and his faithful and effective Staff and the brave and enduring Typos that stood by him. The News and Courser has done a noble work for Charleston.

We overlooked two generous contributions from Baltimore. Mr. A. S. Abell, owner of the Sun newspaper, sent a check for \$1,000, and Mr. Robert Garrett, the railroad millionaire, sent a check for \$3,000. Mr. Joseph Pulitzer, of the World, is another liberal contributor to the Charleston sufferers. He also gave

The outrages in Ireland continue Some women beat a bailiff badly. Some moonlight raids were made right under the nose of Gen. Buller. They broke into houses. James Greene, occupying a farm from which a tenant had been evicted, was shot and dangerously wounded. He will probably die.

Great as Carlyle was it is now certain that the people of his native Ecclefechan had no appreciation whatever of his rare genius and splendid works. A prophet is not without honor save in his own neighborhood or community. It was so in the Master's day and it is often so now.

Wilkes county, was thrown from his wagon, had a rib broken, and was terribly bruised about the head, as we learn from the Winston Daily.

- It is rumored, the Durham Recorder says, that there will be a called meet-ing of the disgruntled citizens of Durham county, to meet in Durham Saturday week. This is called the fourth party.

-- Col. F. M. Parker, deputy revenue collector for Halifax, Northampton and Hertford counties, has been changed to Halifax, Bertie and Martin counties, while Halifax and Bertie will be in charge of W. W. Long. - North Carolina has sent over

\$100,000 to Charleston.—Exchange. [A big error that. The total received at Charleston is less than double that sum. Perhaps North Carolina has sent \$20,00 - Durham Recorder: A most re-

markable revival is in progress at the Christian Church in Morrisville, Wayne county. — Tobacco, as far as we have heard, is curing well. The crop, from present indications, will be bright but light in weight.

- New Bern Journal: A colored ago by a rattlesnake, and as medical aid was out of reach the boy must have surely died but for the thoughtfulness of his companions. They dug a hole in the ground and placed both legs in it up to near the hips and packed the mud securely around him. The poison was entirely extracted and the boy is now about well.

- Goldsboro Argus: It is expected that the break and wash-out in the Raleigh road bed near Clayton, which has been causing so much delay on that road for the past several days, will be completely repaired to-day. — The present term of the Superior Court, that is now going on in this city, is about the dullest we have ever seen thus far, both for lawyers and spectators.

— Lenoir Topic: Last Tuesday Mr. C. B. Howell got up a petition asking for aid for the Charleston sufferers, and in a few hours he had collected \$40 for this laudable purpose. — The Topic's circulation is now 1,840. Of course a good many of these are campaign subscribers, but its home-spun, everyday subscription list is not to be sneezed at, being about

- Asheville Citizen : Our old friend, Mr. G. N. Hawkins, met with a painful accident yesterday. The Democrats are solid for Thos. D. Johnson for Congress, and the Republicans generally are for John G. Heap. The 'Majah' will be found wanting in Yancey.

- Concord Register: A man at Gold Hill, who was 700 feet down in the mine, says that he did not feel the earthquake. A squad 400 feet down said there was a terrible racket where they were, and they called to be drawn up. After they were drawn up the man at the bottom was called to come to the surface, as there was an earthquake prevailing and the mine was about to cave in. The wan from the lower regions replied, "Go to h-l; there's no earthquake down here. If you like earthquakes, stay up there, but I don't want to get acquainted with anything of the sort.

- Raleigh News-Observer: Last evening the "Two Tramps Abroad," Mr. E. G. Harrell and Dr. W. A. Lodge, returned after a tour in Scotland and England and a flying trip to France. They are both exceedingly well. Their return trip was a rough one. For four days there was a dreadful gale and the vessel was half-seas under two-thirds of the time. Thus far \$1,050 has been privately contrib uted by the citizens here to the Charleston relief fund. The Masons, Odd Fellows, Knights of Pythias and other orders have made separate contributions. - Mr. Omega Foster, who is certainly an enter-prising man, will establish a cotton compress here, and has now gone North to purchase the machinery. The Cotton Exchange has officially endorsed the plan.

— Wm. Durrell, formerly of company K., 4th N. C. Infantry, C. S. A., died in Chicago Aug. 4th last. He left a wife and three children. -Summer weather has not all gone yet. The temperature yesterday would have done credit to July. De Voe, the Hackensack weather prophet, predicts THE RICE CROP.

Planters Busy Harvesting-A Good

Yield of Excellent Quality Promised. Rice planters are busy harvesting their crop, for which the weather so far has been favorable. Despite the heavy rains in the early part of the season the summer on the whole was a propitious one for rice planters, and the general outlook now is for a good crop and of fine quality, in the

Cape Fear section. The crop in South Carolina is also in good condition. It is later than usual, and is not such a heavy crop as was harvested

The Louisiana rice crop is reported remarkably good in condition also, and the estimated harvest is put down at 800,000 sacks of rough rice, if not more. The receipts at New Orleans the past season comprised 889,212 sacks of rough and 57,923 barrels of clean rice. The amount of the new crop received thus far this year comprises 112,807 sacks of rough and 8,127 bbls of clean. The market for Louisiana rice opened one cent lower than it did last year.

Northern dealers say the difficulty now among rice men is to get a supply of inferior rice. It is all good, Some dealers have determined to put old rice forward as chesp grade and use the new for prime. An interesting subject to Southern rice growers is the foreign rice trade. Ground foreign, by the well known tariff inequality, is permitted to be entered as a twenty per cent. duty, while the same thing whole is dutiable at nearly one hundred per cent, This rice is ground in Liverpool, England. and has a good sale. Among certain industries it is almost indispensable. Owing to the amount of starch contained in it, bakers buy a poorer class of flour, and by mixing it with this rice, in certain proportions, they may raise the quality of the flour to that of the finer flours. It is also used by the manufacturers of yeast powders. Brewers use some grades of this rice. It is more effective than either corn, wheat or potato starch, because it is pure rice, simply ground up, and the others are treated to numerous chemical processes. Considerable effectiveness is lost in these by the process of fermentation. The powdered rice is very popular among confectioners also, who use it as a body for their product, and for sizing it has a large use among bleacheries, cotton mills and print works, and is becoming a distinct branch of the

Robeson County Democrats. The County Democratic Convention that assembled at Lumberton on the 15th inst. was the largest since the war. The following ticket was nominated:

Representatives-H. McMillan, D. Clerk-C. B. Townsend. Sheriff-F. J. Floyd. Treasurer-W. W. McDiarmid. Register-S. W. Bennett.

Another Runaway. A spirited horse ridden by a small white boy, got frightened at a wheelbarrow standing in the middle of the street near the corner of Second and Nun yesterday afternoon, and dashed off at break-neck speed. The boy managed to cling to his steed until the corner of Second and Church was reached, where the horse threw his ride and dashed up Church street. No bones were broken.

Before Justice Millis. John Bright, a colored man who drives an ice cart, was arrested yesterday on complaint of his wife, Mary Jane Bright, and was required to give bond in the sum of fifty dollars to keep the peace until the first day of December. Bright was also charged with beating his wife, and in this case, under a warrant for assault and battery, judgment was suspended upon the payment of

MRS. WINSLOW'S SOOTHING, SYRUP.—REV. SYLVANUS CORE thus writes in the Boston Christian Freeman:—We would by no means recommend any kind of medicine which we did not know to be good—particularly to infants. But of Mrs. Winslow's Soothing Syrup we can speak from knowledge; in our own family it has proved a blessing indeed, by giving an infant troubled with colic pains, quiet sleep, and the parents unbroken rest at night. Most parents can appreciate these blessings. Here is an article which works to perfection, and which is harmless; for the sleep which it affords the infant is perfectly natural, and the little cherub awakes as "bright as a button." And during the process of teething its value is incalculable. We have frequently heard mothers say that they would not be without it from the birth of the child till it had finished with the teething slege, on any consideration whatever. Sold by all druggists. 25 cents a bottle.
