Our Fire Department. The Wilmington Fire Department was never so well equipped as now. The "Howard," the "Wilmington" and the "Cape Fear," of the engine companies, and the Wilmington Hook and Ladder Company are all provided with the necessary apparatus, and everything is as good as new. Engines, hose reels and truck are all in first class condition, and when they get a "fair hack" at a fire, the fire has to be very smart to get away from

In addition to the above leading companies, there is an excellent Hook and Ladder company in the Fifth Ward, a bucket company in Brooklyn and three hose companies, all of which perform their duties faithfully. Altogether, Wilmington has reason to be proud of her Fire Department. Chief Oldenbuttel is popular with his men and takes interest in everything pertaining to the efficiency and welfare of the Department.

Mayor's Court.

The first case called was that of Charles Smith, charged with disorderly conduct and fined \$20 or thirty days below.

Nancy Hall charged with keeping an unlicensed dog, and was fined \$10 failing to appear. John Davis charged with keeping

unlicensed dog, had the case dismissed upon surrendering the dog to be killed.

Mrs. Johnson was up for the same charge as Davis, and the case was dismissed upon her giving up the dog. Ed Roderick, disorderly conduct; case continued.

Wm. Gladly, a tramp, was ordered to pay a fine of \$20 or go below for thirty days.

The Thieving Washerwoman. The colored woman, Josephine McElroy, alias Rose Nesbitt, has escaped from her prison in New York city and no trace up to the present writing has been found.

Mayor Fowler to-day received the following telegram; "Josephine McElroy escaped last

night-will notify you as soon as she H. V. STEERS, is found. "Assistant Superintendent."

Later, Mayor Fowler received another telegram which said that the baggage and child are still in custody, but the woman could not be found. Therefore there is a prospect of Mr. Covington and others recovering their effects, even if the woman

Personal. Mr. Geo. Herbert is a little better we are glad to say. Mr. E. VanLaer left this morning

for New York, and will be absent for about one month. Dr. J. T. Schonwald has returned

to Wilmington and resumed the practice of his profession.

A gentleman passing down Princess street yesterday, whispered this in the ear of a STAR representative: "Don't forget to say in the STAR tomorrow that you saw me on the street with a cane and a newspaper in my left hand." His name is H. J.

-- Anywhere in the city at Twelve

Cents per week. - Three rafts of common timber were sold yesterday.

-- Four places of business were found open last night.

- One hundred and seventy bales of cotton received here yesterday. - The engine horses had some

terday. - If your house has not been rented for the coming year, advertise

it in the STAR. - Carolina Chemical Concert Company. That's one Cahead of the Cornet Concert Club.

-Car loads of people pass through here every day on their way North from Southern summer resorts.

was found under the office of Mr. E. S. Martin and carried to the guard -- Mr. Daniel L. Butler died at

- A colored boy, name unknown,

the residence of Mr. John H. Mints, in Brunswick county, Sept. 1, in his 84th year. - Mr. James Willson, the popu-

ar manager of the Opera House, says

that the season this fall will be un usually good. - The freshet between here and Fayetteville is subsiding rapidly, but great damage has been done to the

lowland crops. -- Little Russell Foster, who has been quite sick with diptheria, in Salem, N. C., is much better and im-

proving rapidly.

-- A colored man named Gregg, who keep an eating house in "Pad dy's Hollow," was arrested last night charged with beating his wife.

- There's much talk in the papers about September being the first oyster month; but the first fat oysters will afford more pleasure than all the paragraphs.

- Messrs. Geo. Harriss & Co. cleared yesterday the schooner Bessie Brown for Philadelphia, with a cargo of two hundred and five thousand feet of lumber. - One of the needs of Wilming-

ton is manufacturing enterprises to give regular employment to the poor. besides yielding the owners a fair return on their investment. - The Enterprise Cornet Band,

(colored) of this city, returned last on the Murchison from Elizabethtown, where they had been to participate in the dedication of a church. -- The members of Mt. Zion A.

M. E. church will give an entertainment, beginning Sept. 5 and continuing three days, for the benefit of the church fund. Their church, it will be remembered, was destroyed by fire some time since.

- Tax-payers are notified that the lists are now in the hands of Tax Collector Willson. Call on "Billy" and he will take pleasure in swapping receipts for greenbacks. It's tough, this paying taxes, you know; but, like death, it's inevitable.

- A small colored girl, who has been seen walking on the street before, was carried to the City Hall last night. She calls herself Mary Ann McCary, and says she lives at the brick yard, and left home on account of ill treatment. The matter will be investigated to-day.

-- The vested choir of St. James' Church reorganized last night after the summer vacation. There was a good attendance, and "the boys" were in splendid voice and seemed to enter into the music with renewed jest after their brief holiday. The Parish of St. James is to be congratulated upon the success of this choral organization, which is said by connoisseurs to be the finest south of the Potomac.

Another Cyclone on the Gulf. The following telegram was re-

ceived at the Signal office yesterday: WASHINGTON, D. C., Sept. 2, 12.30 P. M.-A cyclone disturbance is central between Cuba and Southern Florida. Its probable movements cannot at present be indicated. DUNWOODY.

The barometer at Key West, at 7 . m. yesterday, was 29.76 inches but by 10 p. m. it had risen to 29.96 inches, showing that the centre had moved further from that point. The barometer to westward fell equally as rapidly which indicates that the storm is moving in a westerly or northwesterly upon the cat broke loose and ran. direction. The cyclone as yet is almost entirely confined to the Gulf and very little can be said as to its fu. ture. It is, however, quite safe to state from present indications that it is not likely to move in this direc-

C. C. C. The officers of the Carolina Chemical Company are: J. G. Oldenbuttel, Presiden; J. Henry Boesch, Vice-President; F. C. Miller, Secretary; C. F. Von Kampen, Treasurer; Paul M. Knoblock, Superintendent, These are among our most active and enterprising citizens and they will succeed.

River and Harbor Improvements.

Capt. W. H. Bixby has just returned from a tour of inspection in the vicinity of Morehead City. He examined Harlowe Creek, where Capt. Lord is located with a dredging machine. This machine is known as the Call Dredging Machine, and is expected to do more work than the one now used on the lower Cape Fear. It is said to be capable of digging one thousand yards of mud a day. hard pulling through the sand yes-Work will be commenced about the

first of October. Capt. Bixby also made his semi annual visit of inspection to Fort Macon and found that the late storm blew the chimney off the hospital, tore down fences and carried off all the loose wood work, but no very material damage was done. The Port has been a great centre of attraction to the visitors at Morehead City this season, and it is estimated that over one thousand people have visited it during the last three months.

The work lately done at Shackel ford point, Beaufort Harbor, in the way of revetting four hundred feet of jetty with large stone blocks weighing a half ton each protected this jetty against the recent storm and the high tides, and renders the work permanent. As a consequence of this work Shackelford point has in the last two years been extended seaward, with a breadth of over one thousand feet and a length of nearly half a mile, and there is every indication that the harbor entrance will steadily improve. There is now a depth of fourteen feet on the bar at low water, with a channel perfectly straight and twenty-five feet depth inside to Morehead City railroad wharf.

Work will also be commerced on Black river and the upper Cape Fear on October the first, and will continue until stopped by high water or lack of funds.

Capt. Bixby says on account of the freshets in the Neuse and Contentnea rivers work had to be discontinued for the present. A new light draught steamer is to be put on these two rivers to ply between Kinston and Snow Hill, and connect with the New Bern boats.

The Fire Yesterday Morning.

The alarm of fire was sounded this morning a few [minutes after eight o'clock and it was soon found out that the fire had started in a one story frame building owned by Edward Stills, colored, and situated on Dickenson street, between Rankin and Miller streets.

The fire companies were on hand promptly, the Hook and Ladder Company among first, and the Adrian was the first engine to throw

The flames spread rapidly, and the house of Henry Whitehead, colored, was soon burnt down together with a one story building in the rear, also owned by Whitehead. A one story dwelling and a stable which belonged to John Gibson, colored, was next destroyed. Much fencing and house hold and kitchen furniture was de

stroyed so rapidly did the fire spread. Other property would have been destroyed but for the prompt efforts of our gallant firemen. Nevertheless the house of Joseph Hall was badly damaged and it seems wonderful that it was saved.

It is impossible to learn the origin of the fire and of course various theories are advanced.

Hall had no insurance on his furniture and estimates his loss at \$400.

Henry Whitehead's dwelling was insured for \$800, the one-story building in his rear for \$150 and his farniture for \$350, all in the London Assurance Corporation, represented here by Messrs, Northrop, Hodges & Taylor. John S. Gibson's dwelling was insured for \$200 and his furniture for \$50, both in the Fire Association of Philadelphia, represented by Messrs. Atkinson & Manning. The total loss foots up about \$2,500, with an aggregate insurance of \$1,550.

A Fight Between an Eagle and a Cat. Mr. W. S. Warrock, who lives on the sound saw a strange fight a few days since between a cat and an eagle. It seems that the cat went out to hunt a rabbit and while hunting was pounced upon by a large eagle. who probably mistook her for a rabbit. Then commenced a curious fight. The cat clawed the eagle so savagely that it immediately soared high up in the air, burrying its talons deep into the cat's neck.

Finally, however the eagle began to tire and descended again, where-

The cat when last heard from was well and hearty, and her involuntary ride in the air seems to have benefit-

Bethel Regiment. The Fayetteville Observer says: We would like to see a reunion of the first North Carolina Regiment (Bethel), and Fayetteville would be the place to have it. Suppose some of the old members (and there are a goodly number here) meet and arrange to have it during our Fair week." All right George. The STAR office can furnish two of the original panel, and there are several others in Wilmington. **WHOLE NO. 6535**

Meeting of the Incorporators of the Standard Car Coupling Compeny-Election of Officers, &c.

The incorporators of the Standard Automatic Car Coupling Company met yesterday afternoon at the office of the Ailantic Coast Line in this city and the following Directors were elected-

T. W. Talbot, J. L. Farmer, R. J. Southall, E. J. Thorpe, W. A. Riach, F. H. Stedman, J. Bisset and J. H. Davis.

A meeting of the Directors was then held and the following officers unanimously elected for the ensuing year-

W. A. Riach, President. T. W. Talbot, Vice President.

E. J. Thorpe, Sec'y and Treasurer. R. J. Southall, General Agent. All the above officers are practical

Railroad men and are very sanguine of success. Their models have been already exhibited to many of the Southern Roads and have met with universal favor, a notable feature being that Railroad officers most familiar with couplings are the most enthusiastic as to its merits. Cars will now be equipped and full tests made at an early day, and the General Agent of the Company will travel through the different cities in the North and West giving tests of the invention to Railroad officers preparatory to the final tests to be made at the next Convention of the Master Car Builders Association.

MRS. WINSLOW'S SOOTHING SYRUP.-REV MRS. WINSLOW'S SOOTHING SYRUP.—REV STLVANUS COBB thus writes in the Boston Christian Freeman:—We would by no means recommend any kind of medicine which we did not know to be good—particularly to infants. But of Mrs. Winslow's Soothing Syrup wa can speak from knowledge; in our own family it has proved a blessing indeed, by giving an infant troubled with colic pains, quiet sleep, and the parents unwith cono pains, quiet sieep, and the parents un-broken rest at night. Most parentz can appre-ciate these blessings. Here is an article which works to perfection, and which is harmiess; for the sleep which it affords the infant is perfectly natural, and the little cherub awakes as "bright as a button." And during the process of teething its value is incalculable. We have frequently heard mothers say that they would not be without it from the birth of the child till it had finished with the teething siege, on any consideration whatever. Sold by all druggists. 25 cents a bottle.

DIED,

BUTLER.—At the residence of John H. Mints, Esq, at Shallotte, in Brunswick county, N. C., at 5 o'clock A. M., Sept. 1st, A. D. 1887, DANIEL L. BUTLER, aged 83 years 5 months and 20 days.
