OUTLINES.

There was a great torchlight demonstration in Macon, Ga., Thursday night, in honor of ex-President Davis; Gen. Henry Jackson, ex-Minister to Mexico, delivered a speech to the Confederate veterans, in which he claimed that they fought for a just cause, and that the day of final triumph would yet come.

Mr. Dickens is not a success as a reader. He was received by a brilliant gathering of hearers at Chickering Hall, N. Y. "Nym Crinkle" says in the World:

The Boston Journal of Education gives the origin of some English words: "Mercy and commerce are from the same root. Attach and attack are etymologically identical."

Charles Dickens is not a success as a reader. He was received by a brilliant gathering of hearers at Chickering Hall, N. Y. "Nym Crinkle" says in the World:

Mr. Dickens is a young man not above the medium height, with a round, intelligent face, utterly devoid of the foppishness that characterized his father when he first came to America.

The Times has a long article upon him. We copy a sentence or two: "Mr. Charles Dickens, if his name happened to be John Smith, would not be a formidable rival of any one of the public readers and eloquentists now popular at Chickering Hall and in the rural lycæums."

We regret to know that lectures of the high kind do not take in the South. This is particularly the case in North Carolina.

Mr. Davis is much esteemed in South Carolina as its press bears witness. We find in the Charleston Daily Sun extracts of a letter from a Charlestonian to his daughter.

Miss Fanny Hunt D'Alma is the name of the young prima donna flatteringly spoken of in public prints. The Louisville Courier-Journal says:

The Rev. Robert Strange has decided to accept the call extended to him by the Vestry of St. James Church, and there is no doubt that his acceptance will be a source of gratification, not only to the congregation of St. James, but also to his many other friends in this city.

Mr. W. H. Humphrey, cotton stalks with bolls, one hundred of which he claimed to produce in 1887.

Mr. Swinson's thirty-nine articles of farm produce were also to speak in eloquent tones for a diversity of crops.

Mr. W. H. Smith, of Goldsboro, had some potatoes of immense proportion.

These are a few of the articles which attracted the eye in passing through. There was a little diversion in the afternoon, in the form of a running race—one half mile.

In Floral Hall, there was a vast throng of strong men and fair women, which in itself was an exhibit of which any country might well be proud.

Miss Jennie Wilson, with great kindness, showed your correspondent the articles under her care, among which were noticeable a pair of slippers of their erection some hand-painted lambrequins and patchwork tidies, afghans, crocheted quilts and fascinatons.

It ought not to seem invidious when we hope to those who had prepared and drawings to exhibit were fortunate to have had them placed in the care of Miss Mary Dewey. To her your correspondent is indebted for a very pleasant half hour spent in looking at the pictures in her department, which in number and merit far exceed anything of the kind ever exhibited here, which under the intelligent direction and description of Miss Dewey assumed new beauties.

Our 124 cent BLACK HIBBED HOSE, which we find growing to a considerable length, and we are not half around the ball. We will reserve the rest, however, for another day.

None but a corrupt man would attempt to bring a nominating convention. None but a shameless and very desperate man would choose as his agent in such an enterprise Maurice B. Flynn.

It seems that Mr. Blaine has forgotten his blarney while bob nobbing with aristocrats abroad and has ceased to be enraptured with the "sweet Irish brogue."

Our esteemed and kind contemporary the Danbury Reporter, edited by one of the best educated men in the State, says:

"We remember to have heard the Attorney General of Ireland quote in Parliament Ralph Waldo Emerson as having written, 'Consistency is the bug-bear of little minds.'"
