Chairman Calvin S. Brice, of the National Democratic Committee, calls attention to the importance of making preparation for the Presidential campaign. — President Harrison will leave Washington to-morrow for Cape May, where he will remain several days. \_ In an affray at Brierfield, Ala., B. F. Glass was shot and fatally wounded by Dr. G. B. Crowe. - Clarence Busbee has skipped from Lexington, Va., being a defaulter to a company of which he was assistant treasurer, --Employes of a large rolling mill at Cleveland, Ohio, 650 in number, struck vesterday. - Rev. Ethelbert Talbot has been chosen Bishop of Georgia by the Diocesan Convention of that State. - Secretary Blaine's physicians say his health has steadily improved since his arrival at Bar Harbor, Me. -Edward H. Green, a cotton broker of Savannah, Ga., has failed, with large liabilities. - The introduction of negro miners at mines in Washington it is feared will create trouble; miners are drilling daily, while the negroes are protected by militia. - The State Republican Convention of Iowa met yesterday; Secretary Blaine was wildly cheered when his name was mentioned. -New York markets: Money easy at 31/6 4 per cent.; closing offered at 2; cotton steady; middling uplands 8% cents; middling Orleans 8 13-16 cents; Southern flour dull and weak; wheat irregular, closing steady; No. 2 red \$1 03%@1 03% in store and at elevator; corn higher. strong, quiet and scarce; No. 2 red 68@ 68% cents at elevator; spirits turpentine dull but steady at 371/2@38 cents; rosin quiet and easier; strained, common to good, \$1 40@1 45.

Now that Uncle Jerry Rusk s iin command of the Weather Department he shouldn't allow any more foolishness there and he should also heep an eye on those cloud dyna-

A writer who has been studying up on nails says that about one eighth of all the nails made are wasted. He had probably nailed up a box under the superintendence of his wife, and took his data from

The church festival ice-cream freezer continues to get in its work. The latest report is forty-three persons poisoned at a festival at Brushton, N. Y., Saturday, two of whom have died, the others being in a precarious condition.

For the past ten days there has been a decline in the price of brimstone in Philadelphia. Since the penitentiary doors have begun to open in Pennsylvania the Republican politicians are improving in their morals, and the prospective demand for brimstone is not so great.

A Cincinnati man has died from being spurred by a rooster. This man does not belong to the 30,000 colored contingent in whose behalf the nomination of McKinley was seconded. Not one of them wouldn't have known which end of the rooster to grab without danger of being spurred.

Major Wood, Republican candidate for Governor of Kentucky has got himself into trouble with his party by changing front on the State Constitution. He is now confronted by a good deal of sharp criticism. Perhaps if Major Wood's foresight was as good as his hindsight he would have avoided all this.

The Emperor of Germany has issued an order that no person shall ride free on the railroads, unless in the employment of the company. Wm. should have read Gov. Tillman's letter to Col. McBee before he issued that order. If he had done so perhaps he might not have sat down so peremptorily on these little "courtesies."

The Minister to China pro tem reports to the State Department that at the diplomatic reception which he attended the Emperor expressed the hope that the President was well. Well, considering how Mr. Blaine is getting able to knock off two miles of country road at a dash without stopping to take wind, Mr. Harrison is as well as could be expected.

Bishop Coxe denounces riding bito Wilmington on the 18th inst., leaving cycles by women because they have on the return the next day. The comto sit on both sides of them at the panies will bring their fire apparatus same time. The Bishop is unreasonwith them, and will have a parade and able. The side-saddle bicycle has not been invented yet. There are a good be entertained by the colored firemen of this city, and a big time, generally, is many sensible people who contend that the proper way for a lady to expected.

SHOOTING AFFAIR.

At Alms, on the C. C. R. R.-Negroes In dignant and Arming.

Mr. E. L. Lathrop, of the Alma Lumber Company, who arrived in the city last night on the C. C. train, reports that Mr. C. T. Lawler, superintendent of the Alma Lumber Company, shot a negro named Sol Smith yesterday morning at about eight o'clock at Alma.

Mr. Lawler ordered the negro, who was employed by him, to do something about the mill, when the negro replied, "I'll be d-d if I do it." Mr. Lawler then told him to leave the mill, that he didn't want any such man around him. The negro turned and picked up a piece of board and started for him, when Mr. Lawler pulled his pistol and fired.

The ball entered the negro's chest

making a serious wound. The news of the shooting spread like wildfire and in half an hour nearly all the negroes in the town gathered and were making threats of revenge. The citizens, however, succeeded in keeping

Mr. Lawler left on the first train passing, for Lumberton, where he gave himself up to the sheriff of Robeson

Sol. Smith, the wounded negro, is about eighteen years old, and was a turbulent character. The physician who called to see him pronounced the wound as not dangerous.

Our Cotton Heceipts. Receipts of cotton at Wilmington the past month aggregated 617 bales; the same month last year, 124 bales. Receipts for the crop year to July 1st are 188,206 bales, against receipts of 182,754 to same date last season-an increase of 55,442

bales.

RAILROAD NOTES.

Items of Interest Concerning Railroad Movements.

- The total mileage of the railroads of the world was, in 1889, 870,193. North America leads with 182,137 miles, or nearly one-half of the entire mileage of the world, of which the United States contributes 161,364. Europe follows with 186,865 miles. Germany comes next with 35,970 miles, followed by Asia with 19,277 miles, South America with 15,418 miles, Australia 11,186, Africa coming last with 5,865. From 1885 to 1889 the increase in mileage was 22,3 per cent.

- The statement of the Norfolk and Western Railroad Company for May, 1891, shows gross earnings amounting to \$764,594.39, an increase of \$56,914.68 as compared with May, 1890; expenses, including taxes, \$510,325.06, an increase of \$25,640.52; net earnings, \$254,269.33, an increase of \$31,274.16. For the five months ended May 31, 1891, the gross earnings were \$3,575,143.33, an increase of \$293,580,08, as compared with the corresponding period of 1890; expenses, including taxes, \$2,477,856.53, an in-crease of \$195,134.86; net earnings \$1,097,786.81, an increase of \$98,448.22.

- The railroad sensation in Birmingham is the report that the Richmond and West Point Terminal Company has, through an English syndicate, secured control of or purchased outright the Birmingham, Sheffield and Tennessee River Railroad. The report, the Birmingham News says, is well founded, as negotiations have been pending for some time. The Birmingham, Sheffield and Tennessee road prove a valuable feeder to two of the Terminal Company's controlled lines. It connects with the Georgia Pacific near Cordova on the south and the Memphis and Charleston at Sheffield on the north. It will form an important link in a new route between Memphis and Birmingham, and it is believed the Terminal Company purchased it in order to get a line between Birmingham and Memphis.

ASSAULT AND BATTERY.

A Colored Woman Knocked Down and Her Son Beaten and Seriously Hurt. A colored woman named Sikes, living

on Ninth street near Brunswick, made complaint last night against a colored man named George Bowden, who she claimed had assaulted and knocked her down on Bladen street. Deputy Sheriff Sheehan and a police officer went in search of Bowden, but failed to find him. They ascertained, however, that after assaulting the woman Bowden had gone to her house and beaten her son, a cripple about fifteen years old and inflicted serious injuries. The boy had a severe scalp wound, caused by a blow from a stick; and the floor was covered with his blood. Bowden made his escape before the officers arrived at the house. The cause of the difficulty between himself and the woman Sikes could not be ascertained.

Excursionists from Fayetteville.

About six hundred excursionists came down from Fayetteville yesterday, arriving in Wilmington near 10 o'clock and going through to the Hammocks and Ocean View Beach. The surf was soon full of bathers, who seemed to enjoy the bathing very much. Unfortunately there was little breeze blowing and that was from off-shore, but notwithstanding the heat the day passed off pleasantly, no untoward accident happening to mar the pleasure of the occa-

In the afternoon a breeze sprung up and on the rising tide the surf became very fine; the breakers were high and the ocean very beautiful.

About 5 o'clock a heavy shower of rain, accompanied by thunder and lightning, drove all the excursionists under shelter.

The train left on the return trip about 6.80 p. m., the visitors having spent a pleasant day at the seaside-only marred by the heavy shower that came up in the afternoon.

ST. MATTEW'S MISSION SCHOOL Excursion to Carolina Beach-Address by

Between three and four hundred per-

sons participated in the excursion to Carolina Beach yesterday, given by the St. Matthew's Mission School of the Lutheran Church.

The day was pleasant and the trip on the river most enjoyable. The ladies of the Sunday School served refreshments in great abundance and variety, and Prof. Miller's Band discoursed fine music for the occasion.

One of the features of the day was the ecture on China and the manners and customs of the Chinese, delivered by Yan Phou Lee, a native of China, in the pavilion at the Beach. Mr. Lee was attired in the costume of his country, and his address was listened to with rapt attention by a large number of the excur-

sionists. The surf bathing was fine and many of the visitors enjoyed it.

Donation Day. We are requested to remind the readers of the STAR that to-morrow (the first Friday in the month) is "Donation Day" for the "Shelter of the Silver Cross." Don't forget this noble charity.

A COMPLIMENTARY LETTER.

What the Manager of One of the Oldest Papers in the Country Thinks of an Editorial Aticle that Appeared in the

The annexed letter refers to an editorial article headed "Robbing Ourselves," which appeared in the STAR of June 19th; and which was reproduced in a number of our exchanges. The Shipping and Commercial List, of which the, writer of the letter is Manager, is one of the oldest papers in the United States, having been established in 1795:

SHIPPING AND COMMERCIAL LIST AND NEW YORK PRICE CURRENT, NEW YORK, June 25, 1891.

Editor Star, Wilmington, N. C .: DEAR SIR:-The enclosed article is the best I have ever seen in print upon the subject, and I write to congratulate you on the great benefit it has already ac-complished in directing thought in that channel. You have hit the nail square on the head, and presented facts which cannot be denied. You have given the Southern people a kernel full of good common sense, and it remains for them to crack it and reap the benefit. The article in question should be placed in the hands of every native of the South, and the intelligence of the masses will or ought to work out the necessary reform. I speak from experience, having been through the South for several years. Fraternally yours,

A. D. FULTON, Manager. THE GROWING CROPS.

A Decided Improvement - Reported -- Cotton Coming Out of the Kinks,

The Raleigh News and Observer is informed by Commissioner Robinson, of the Agricultural Department, that the crop reports now coming in, showing the condition for the month of June, show a decided improvement of the general condition of all crops, and the farmers are more hopeful now than they have been during the entire sea-

And the Charlotte News says the farmers report a general improvement in the condition of the crops in the past week. The hot, dry weather has brought out the cotton wonderfully well, and the crop prospect is good for a fair crop, but by no means a full one. Corn is very nearly an average, and altogether, the farmers are not so much in the dumps as they were last week.

In Robeson county, the Maxton Union says, "A gentleman who has seen several of the crops in the vicinity tells us that Mr. Angus Shaw has a field of the finest cotton he has seen anywhere. Mr. Howard McNair has some corn and cotton that's not to be sneezed at by any means, and if all the crops in this section will average as good as his there will be much rejoicing this Fall if the seasons continue propitious."

WEATHER IN JULY.

Monthly Meteorological Summary of Signal Service.

Mr. F. P. Chaffee, signal service observer, furnishes the following summary of observations taken at the Wilington station during the month of June,

The mean barometer was 29. 90. Highest barometer 30. 16, on the 3d; lowest, 29. 68, on the 18th.

The mean temperature was 77°; lowest, 60° on the 1st; highest, 95° on the 27th. The mean temperature for June for the past twenty-one years has ranged from 75° to 80°.

The prevailing direction of wind was south; the total movement, 5,436 miles; the extreme velocity 40 miles, on the

The total precipitation was 3.47 inches. Total deficiency in precipitation during month 2.60 inches. Total deficiency in precipitation since January 1st 8.21 inches. There were nine cloudless days; eighteen partly cloudy and three cloudy. Thunder storms occurred on the 4th, 5th, 6th, 7th, 8th, 19th, 21st, 22d, 23d and 30th.
