THE CAT.

From the Detroit Free Press' Natural History Series.

"What is this?" "This is a cat. Do you see the beautiful curve to his back? If you continue to be a good boy you shall some day have a thousand cats." "Are cats a useful animal?"

"Yes, very. If it wasn't for the cat every house would be overrun with canary birds." "Are cats very brave?"

"Yes. They'll hang around a corner for four hours to get their claws into a poor little mouse, not one fourth part their size." "What food do cats prefer?"

"A \$20 mocking-bird is their first canary. It is only when suffering fore been classed as doubtful. for food that a cat will accept of a sirloin steak."

"Cats can't sing, can they?" "No; but bless 'em! they keep trying to learn how. They have got so trey can sound the first four notes on the scale, and they are determined to get the rest."

"What time do they sing their sweetest?"

"At night, between the hours of 11 P. M. and 4 A. M. You have probably read items about bold, bad men flinging boot-jacks, sticks of wood and other missiles at singing cats. Don't ever associate with such people. Cats have as much right in America as anybody else, and it is only the meanest kind of folks who will try to keep 'em from rising up in the world."

"How long do cats live?" "Nobody knows, as no cat ever had a fair show to see how many years he could put in. After he has hung around one neighborhood for 15 or 20 years some one murders him in cold blood."

"Does the fur of the cat contain

electricity?" "Yes, and it is a great wonder why some of those scientific men did not make use of the cat in searching for the clue to the telephone. There isn't much doubt that the day will yet come when a cat in Detroit, connected by a clothes-line with one in Chicago, will form a complete telegraph line."

"Do cats suck children's breath?" "They do. Mothers should let their children eat onions as a preventive. Plug tobacco will answer the same purpose."

hat Other Female Mason.

[Charlotte Observer.] Recently the Observer, after referring to the fact that the Hon. Mrs. Aldworth, is supposed to be the only female Free Mason in the world, divulged the fact that Mrs. B. B. Babington, who was at one time a resident of this State, was also a member of the ancient and honorable order. The Observer's article has brought out the Shelby Aurora to the front, and in its issue of yesterday, the editor, Mr. J. P. Babington, writes as

"Inasmuch as the lady referred to in the above article is our mother, we deem it our duty to republish it and make the necessary corrections. The story is correct with the exception of places and ages. The lady's father was a native of New York, and moved to Greenup county, Ky., where our mother was born and raised. The place where she was made a Mason was in an unfinished church room. going in at an entrance from the side, publican, is elected in the Second District and was eventually discovered while leaving her hiding place after the lodge had adjourned. She was about fifteen years old when she was made a Mason, and our father did not join the order for nearly twenty years after they were married. We do not belong to the order, but we have it from men who do that she is brighter in Masonry than a large number of men who have passed to the third degree. Our mother is still living, and is now in Boyd county, Ky., a few miles from where she was first initiated into the mysteries of that an-

The Democrats early this morning conceded the election of Washburn, but now claim that Donnelly is and Dunnell in the First. FLORIDA. SAVANNAH, Nov. 6 .- A special to the Morning News, from Jacksonville, Fla., says Duval county gives Bisbee 900 majornty. Democratic gains are reported from Alachua and Madison counties, which were formerly Republican. Hull is certainly elected in this district, and Davidson in the First. Returns come in slowly and are partial. The Legislature is Democratic in both branches.

Pensacola, Nov. 6 .- Escombia county, Fla., elects three Democratic members of the Legislature and gives the Democratic candidate for Congress 50 or more majority.

SOUTH CAROLINA. CHARLESTON, Nov. 6.-The returns coming in from all parts of the State swell the Democratic majority. O'Conner, Democrat, is certainly elected to Congress in the Second District. Charleston city gives him over 6000 majority. The election of Fillman, Democrat, over Smalls, in the Fifth District, is confirmed. The only doubtful district is the First, from which returns come in slowly, indicating so far the election of Richardson, Democrat, by a small majority.

CHARLESTON, Nov. 6 .- Incomplete returns from the counties of the First Congressional District leave little doubt of the election of Richardson, making the Congressional delegation from this State solidly Democratic. Every county in the State has gone Democratic except one, and only three Republican members are so far known to be elected to the Legislature.

LOUISIANA. NEW ORLEANS, Nov. 6 .- Complete returns have been received from but few parishes, and do not change the result as indicated by last night's dispatches. The Democrats will probably elect their entire city ticket, two-thirds of the Legislature and all the Congressmen, with the possible exception of one from the Third District and the State Treasurer, by unprecedented majorities. As usual, in this State, it will probably be some time before the official count is known.

GALVESTON, Nov. 6 .- Special dispatches to the News report the returns coming in very slowly, but show almost universal maorities for the Democratic State ticket. The following Congressmen are undoubtedly elected: First District, Reagan, Democrat; Second, Culbesson, Democrat; Third, Wilborn, Democrat; Fourth, Mills, Democrat: Schleicher, Democrat, in the Sixth and Hancock, Democrat, in the Fifth, are in doubt. The Greenbackers are polling an unexpectedly large vote, and the Fifth District may require the official count to decide.

Popular Uprising-Escobedo Liberated-Proposed International Exhibition, &c.

[By Telegraph to the Merning Star.] HAVANA, Nov. 6.—The English mail steamer from Vera Cruz brings advices from the city of Mexico to October 30th.

The uprising of the people in the city of Meridia, Yucatan, was not against the Federal authorities, as was reported, but against the State authorities, because the municipal levy was doubted. The difficulty was settled by the intervention of the officer commanding the Federal troops. Escobedo has been liberated on parole, because of his ill health.

The Fortune Bay Trouble. [By Telegraph to the Morning Star.]

TORONTO, Nov. 6 .- Advices from Newfoundland state that the Colonial Government has been requested by a cable dispatch from the foreign office at London to send a statement respecting the Fortune Bay trouble. The case has been prepared by the Newfoundland Government, showing that American crews were violating both the treaty and the colonial fishery laws, and contending that American fishermen, when in Newfoundland waters are bound equally with the Newfoundland fishermen to respect the general laws of the colony.

A special dispatch to the Mail from London says that owing to the state of affairs in India and the criticisms of the present administration there by Lord Lawrence, Sir Henry Havelock and others, there is a good deal of talk of Lord Lytton's recall. Should this talk take a practical turn, and his Lordship be summoned back to England, it is considered more than probable that he will be succeeded by Earl Dufferin, whose rame is freely mentioned in .connection with the viceroyship.
