Card from Col. Waddell. WILMINGTON, June 29, 1881. To the Editor of the Star:

In the STAR of Sunday morning last there is a paragraph copied from the Asheboro Courier, without comment by you, announcing that I am canvassing the State against Prohibition. This statement is without the least shadow of truth, and I wish you would so state in your paper. I received an invitation to canvass for prohibition and declined it, and I should also decline one to speak against it, if tendered, which has not been done. have not spoken and do not intend speak on the subject, and the newsaper reports connecting me in any vay with a discussion of the issue ave been without any authority hatever from me, or any knowledge

Yours respectfully, A. M. WADDELL.

m my part, and against my wishes.

republican Address on Prohibition To the People of North Carolina; Legislation enacted without the consent of the governed for the purpose of making our State government and the municipal governments thereunder absolutely undemocratic, by taking power from the people and bestowing it upon a limited number of citizens who are not responsible to the voting masses for their positions of honor, trust, and profit, is in direet opposition to American ideas of Representative government. Republicans have bitterly opposed the ento the genius and spirit of a free people. This opposition will not cease until this funguf growth on our Constitution and in our laws has been torn up by the roots. In approval, of past attacks upon

the rights and privileges of the people, the Legislature at its recent ses sion passed a bill to prohibit the manufacture, purchase and sale of spirituous and malt liquors in this State, and submitted the ratification rejection of said bill to a vote of he people. This bill is in fatal conflict with section seven of the bill of Rights of our State Constitution, hich declares that-

In the teeth of this section this bill roposes to take the liquor traffic rom the many and create a monopoy by putting it in the hands of a few ersons as described in the bill. Class egislation of this kind must be oposed and beaten down at every step.

here is no middle ground. This bill is also in conflict with secon 1, article 2, of our State Constiution, which declares that-

"The legislative authority shall be ested in two distinct branches, both dependent on the people, to wit: a Senate and House of Representa-

This bill is a cowardly effort on the art of the late General Assembly to emove the responsibility imposed upon them by this section of the Contitution to the people en masse. It s a dangerous precedent. Whenever egislatures hereafter shall be afraid o assume the constitutional responsipility of some doubtful political quesion, they will cite legislative action pon this bill as a precedent, and then hift the responsibility attaching to bem as the custodians of supreme egislative power, and submit the uestion to a vote of the people, his will be a growing evil, and will oon change our American system of epresentative government, which has endered possible, with universal sufrage, the protection of life, liberty and property and the permanence of overnment, to such Democracies as ave fallen one after another under his new system, and which, in that n despotism and empire.

They can only market their surplus grain by converting it into spirits. It will take away this vast industry from our own people and transfer it to

other States of the Union. Wherever this system of legislation has been tried it has been proved a lamentable failure and an injury to

before the people at the election of last year, and no such radical revolution as proposed by this bill in our system should have been pressed upon the people before it had been thoroughly canvassed by their candidates for the Legislature.

The manufacture, purchase and sale of liquor is legalized by the United States and all the States of the Union. North Carolina people have been taught to believe that the right to manufacture, purchase and sell liquor, is not to be infringed upon repressive legislation. Every

Congress has been importuned to remove the tax on brandy and to lessen the tax on whiskey, because our people would be pecuniarily benefited thereby. Sumptuary restraint by legislation is contrary to Republican principle. The abuse of liquor must be remedied and corrected by moral influence and police control-not by legislation. The general govern-ment with a large number of revenue officers and stringent laws cannot entirely suppress illicit distillation. That which leaves a man free to exercise his judgment, and then convinces his reason, will speedily and tho-roughly attain the end sought. But legislation which says-"you shall not"-and substitutes force and compulsion for reason and moral influence. is in opposition to our governmental system, and must be opposed by all legitimate means, and promptly re-

For these reasons this committee cannot refrain from opposing the rati-

fication of this bill. The question must now be decided at the polls. Republicans in every township must organize and poll a full vote against this bill as the only means of condemning class legislation and to prevent the creation of a powerful monopoly of druggists, apothecaries and physicians, which is always dangerous in a government like ours, and should be prevented at grafting of these principles on our the outset. When this has been done, Republicans will be ready to aid in regulating the sale of liquor in such Total receipts to this manner as will remedy and correct as many abuses growing out of the use of liquors, as can be remedied and corrected by legislation; abuses not remedied or corrected by this means being left to those influences of society which are more powerful and more effective of moral purposes than a thousand pages of repressive statutes, bristling all over with fines and penalties, for statutory misdemeanors which have been and always will be winked at and condoned by the general public as one species of violation of law which owes its criminality to frailties incident to human nature. Bill smith has One Word to Say to the Republican Executive Committee, PRINCETON, N. C., June 20, 1881. Hon. H. A. Gudger, Chairman, Raleigh, N. C .: DEAR SIR:—My opinion is that the Republican Executive Committee

has neither the power nor the authority to bind Republicans to vote for or against prohibition. Republicans and Democrats voted for the prohibition bill regardless of party in the Legislature, and will do the same in the coming election. And now for the Republican Executive Committee to issue a bill against prohibition, thinking it can gain a temporary advantage by joining the devil against the Democratic party, is a copartnership that older heads would never have consented to. Any attempt that the Republican committee may make to prove the Democratic party a temperance party will be a failure, as it has a national reputation to the contrary, and no one in the country will believe such glorious news even from the Republican committee. I for one am opposed to the Democrats having the honor of being the father of the prohibition bill, and wish the honors to be divided evenly upon this

MRS. WINSLOW'S SOOTHING SYRUP.—Rev Sylvanus Cobb thus writes in the "Boston Christian Freeman":—We would by no means recommend any kind of medicine which we did not know to be good—particularly for infants. But of Mrs. Winslow's Soothing Syrup we can speak from knowledge; in our own family it has preved a blessing indeed, by giving an infant troubled with colic pains, quiet sleep, and its parents unbroken rest at night. Most parents can appreciate these blessings. Here is an article which works to perfection, and which is harmless; for the sleep which it affords the infant is perfectly natural, and the little cherub awakes as "bright as a button." And during the process of teething its value is incalculable. We have frequently heard mothers say they would not be without it from the birth of the child till it had finished with the teething siege, on any consideration whatever.
