Geatlemen:—Some three months ago I began the need of Dr. Harter's Iron Tonio, upon the advice of many friends who knew its virtues. I was suffering from general debility to such an extent that my labor was exceedingly burdensome to me. A vication of a mouth did not give me much relief, but on the contrary, was followed by increased prostration and sinking chills. At this time I began the use of your Iron Tonio, from which I realized almost lumediate and wonderful results. The old energy returned and I found that my natural force was not permanently abated. I have done twice the labor that I ever did in the same time during my illness, and with double the case. With the tranquil nerve and vigor of body, has some also a clearness of thought never before enjoyed. If the Tonic has not done the work, I know not what. I give it the credit.

> Cotton. New York Commercial Bulletin. COTTON EXCHANGE,

TUESDAY EVENING, Nov. 29, 1851.

Nearly all recent developments have tended to show the strength of the "bull" element, and there is little doubt that the mass of operators believe in higher cotton, and are working plans to lead to this result. The current movement of supplies and general statistical position to date, coupled with the very positive relarge area of the South, have, in combination, formed a stimulating basis, upon which a large percentage of the investors are quite willing to take their stand; and while the advancing tendency has met with an occasional rebuff, it was only of a temporary character. In fact, while sudden raids of the combined "bear" forces would occasionally make some showing of success, the reaction was generally quick, and with resistance at all slack, cost tended upward without special aid. It is understood that some of the Wall street dealers on a good margin for profit have been sold out; but the "outsiders" con-tinue as buyers, with numerous orders from the South and West, and the "insiders" are the resisting force. The latter, however, appear more demoralized than a week or so ago, and confine themselves closely to the protection of outstanding engage-

Considerable irregularity has prevailed on the contract market for the day, but the undertone was strong, and the buoyant tendencies have again overcome all opposing influences, with values generally showing a further improvement, There does not appear to have been any really new features developed either in the foreign or home advices, though it is possible that the run of receipts at the ports are not quite up to expectations, and some buyers may have been caught by the more recent frost reports from the Carolinas. Whatever the stimulus, however, the demand has certainly been forthcoming for all the offerings made, and as prices strengthened the bidding seemed to .increase in spirit. Local operators, such as the general run of small speculators, and a portion of Wall street, still give evidence of siding with the regulars as they have for a day or two past, and either selling out "longs" or putting out a few "shorts" on each advance, but on the other hand there has been much covering on small deals and a large influx of orders from the West. The latter, in fact, appeared to be inexhaustible, and even some of the most pronounced "bulls" expressed surprise at the continued liberal buying capacity of the market. While buyers were a little lax at the opening rates were crowded off some 4@5 points, and from this the advance was some 7@8 points, the close standing 2@3 points above last evening, with tone very firm. Spots present the stereotyped features, a moderate demand prevailing, with buyers cautious and unwilling to exceed immediate wants, but holders offering somewhat indifferently and looking for full former rates all around.

NEURALGIA, Nervous Irritability, Sciatica and all painful Ner vous Diseases.-A treatise by a well known physieian, a specialist on these subjects, concludes as follows: "Neuralgia is one of the most painful of diseases, and is attended with more or less ner-vous irritation. Sciatica is also a form of neuralgia, and all painful nervous diseases come under that name. Neuralgia means nerve ache, and therefore you can suffer with neuralgia in any part of the body, as the nerves are supplied to

part of the body, as the nerves are supplied to every part."

I have for many years closely studied the cause of neuralgla, and the nature of the nervous system, with the many diseases that it is subject to, and have found by actual experience that the true and primary cause of neuralgla is poverty of the nervous fluid—it becomes impoverished and poor, and in some cases starved, not because the patient does not eat, but what is eaten is not appropriated to the nervous system; there are many causes for this, but Dr. C. W. Benson's Celery and Chamomile Pills have in my hands proved a perfect remedy for this condition and these diseases.

Immigrants Friend Society. H. NUTT, President.

WALKER MEARES, Secretary and Treasurer, ALEX. SPRUNT, A. J. DEROSSET, B. G. WORTH, F. W. CLARK, Directors:

BELIEVING THAT EVERY INTEREST IN North Carolina would be promoted by a general and sustained effort to induce laborers and workingmen, but principally agriculturists, to immigrate into our State, an Association under the above name and title has been formed in this city, for the purpose of spreading information abroad among such classes, where there is a surplus of labor, and where there are people desirious of buying lands and settling amongst us. In order to insure success it is essential that owners of lands should offer for sale, through the Society, such tracts as they wish to dispose of, naming the terms on which they will sell. State: First—The locality.

Second—The number of acres.

Third—Character of soll, whether light or sandy, loansy or clayey; nature of subsoil; whether timbered or cleared or improved; whether upland or swampy; whether a dwelling house suitable for occupancy is on the land proposed to be sold.

Fourth—Price per acre.

Should the title prove satisfactory and a sale be effected, a commission of 2½ per cent. will be charged to the seller on limited amounts; on large and valuable tracts a lower and special rate of commission will be arranged. Such charges are necessary to meet the moderate expenses of the Society, such as advertising, printing, postage, &c. Copies of the Constitution and By-Laws of the Society may be had on application.
