FOREPAUGH'S WILD BEASTS

A Cargo of Curious Animals Brought from Europe. When the steamer Mosel, of the North German Lloyd Line, put in at her dock at the foot of Third street, Hoboken, soon after 9 o'clock yester-day morning, the object which attracted most attention was a huge house on deck constructed of rough

and heavy timbers. * * * Standing on the gang-plank lead-ing from the vessel was Adam Forepaugh, Jr., and the elephant was one member of a cargo of animals that he has brought to this country to add to the attractions of his father's circus the attractions of his father's circus and menagerie for the coming tenting season. The elephant that he has been wetching been watching so carefully has a history, and is considered an especial prize, as it is the second largest in the country, being nine feet in height, or one foot less than the famous Bolivar, which Forepaugh recently purchased at the sale of the Van Amburgh menagerie. The elephant was once the property of the late King Victor Emanuel, of Italy, to whom it was presented. King Humbert had no use for the unwieldy quadruped, and so he sold her to Carl Hagenbeck, the great animal dealer of Hamburg, Germany, of whom young Forepaugh purchased her. "I was a little sick of my bargain when I went to take my property," said the young animaltrainer to a Times reporter yesterday. "You see she was in a herd of five that occupied the elephant-house on Hagenbeck's grounds, and was the ugliest one of the lot. After I'd

bought her I found there were no cars to be had on which she could be carried over the railroad from Hamburg to Bremerhaven, where the ves-WE WILL SEND, ON 30 DAYS' TRIAL, sel was to receive my cargo. So I was obliged to drive her over the plains, a distance of seventy-five Electre-Voltaic Appliances miles, and before I could do this I knew I should have to get acquaintring from Nervous Weaknesses, Genting from Nervous Weaknesses, Genting from Nervous Weaknesses, Genting from Nervous and Orner

most curious and repulsive member of the collection is the lion-slayer,

which closely resembles the orang-ou-

tang. This fellow is about four feet

in height, and has a smooth white

face, and a heavy mane of white hair as fine as silk and a foot or more in

length. In addition to the animals

brought over by the Mosel, Mr. Forepaugh secured a large saddle-

The following is one of the very many testimonials we are receiving daily:

Gentlemen:—Some three months ago I began the use of Dr. Harter's Iron Tonic, upon the advice of many friends who knew its virtues. I was suffering from general debility to such an extens that my labor was exceedingly burdensome to me. A vacation of a month did not give me much relief, but on the contrary, was followed by increased prostration and sinking chills. At this time I began the use of your Iron Tonic, from which I realized almost immediate and a found that my natural force was not permanently abated. I have used three bottles of the Tonic. Since using it I have done twice the labor that I ever did in the same time during my liness, and with double the case. With the tranquil nerve and vigorofbody,

ease. With the tranquil nerve and vigorof body, has come also a clearness of thought nover before enjoyed. If the TONIC has not done the work, I know not what. I give it the credit.

Most gratefully yours.

I have for many years closely studied the cause of neuralgia, and the nature of the nervous system, with the many diseases that it is subject to, and have found by actual experience that the true and primary cause of neuralgia is poverty of the nervous fluid—it becomes impoverished and poor, and in some cases starved, not because the patient does not eat, but what is eaten is not appropriated to the nervous system; there are many causes for this, but Dr. C. W. Benson's Celery and Chamomile Pills have in my hands proved a perfect remedy for this condition and these diseases.

Immigrants Friend Society.

H. NUTT, President. WALKER MEARES, Secretary and Treasurer. ALEX. SPRUNT, A. J. DEROSSET, B. G. WORTH, F. W. CLARK, Directors.

Believing that every interest in North Carolina would be promoted by a general and sustained effort to induce laborers and workingmen, but principally agriculturists, to immigrate into our State, an Association under the above name and title has been formed in this city, for the purpose of spreading information abroad among such classes, where there is a surplus of labor, and where there are people desirious of buying lands and settling amongst us. In order to insure success it is essential that owners of lands abould offer for sale, through the Society, such tracts as they wish to dispose of, naming the terms on which they will sell. State: First—The locality.

Second—The number of acres.

Third—Character of soil, whether light or sandy, loamy or clayey; nature of subsoll; whether timbered or cleared or improved; whether upland or swampy; whether a dwelling house suitable for occupancy is on the land proposed to be sold.

Fourth—Price per acre.

Should the title prove satisfactory and a sale be effected, a commission of 2% per cent. will be charged to the seller on limited amounts; on large and valuable tracts a lower and special rate of commission will be arranged. Such charges are necessary to meet the moderate expenses of the Society, such as advertising, printing, postage, &c. Copies of the Constitution and By-Laws of the Society may be had on application.
