THE ÆSTHETIC HAT.

A WILDE WAIL IN THREE SOBS

O hat! With margin too extensively extensive. Of felt and feathers doubly comprehensive, I see

Seven plumes on thy broad expanses, Lie hid in murky portals; The furry, fuzzy beam entrances Forever the view of mortals, Everywhere,

п. Oh, seat!

Within the theatre, too jammedly jammed, Where sound and clamor and judiciously calmed, I sit.

Like roses blown before the wind My frame is wafted to and fro. Trying thee, mighty hat unkind, To dodge; my vision hid-high, low, Everywhere.

III.

Oh, girl! On whose head this hat most depravedly depraved,

Sits like the storm-whipped foam upon the wave,

I say; Black, double black, would its future be Lanked and limped its feathers seven, If at that hat was vouchsafed to me A clutch! Then eternity heaven! Anywhere !

-Baltimore American.

THE GREAT OVERFLOW.

A Further Rise in the Waters Anticipated-Vigorous Efforts Being Made for Protection-Eighty Thousand People Thrown on the Charity of the Government-Condition of the Levees Above New Orleans-Disastrous Crevasses in Louisiana-Spleudid Districts of Country Threatened With Overflow.

[By Telegraph to the Morning Star.] MEMPHIS, March 5 .- The river at this

point declined one inch to-day, and now indicates 35 feet 8 inches above low water mark. Commissioner Morgan, of Ark., sent supplies this afternoon by steamer, to the needy at Laconia Circle and up the White

river. A Helena, Ark., special says the river has risen over four inches within the last twenty-four hours, which brings it up to within five inches of the late rise. It is thought that by Monday the waters will be above the highest point reached this season, and the river is expected to continue rising until about the 12th inst. The citizens are thoroughly aroused, and will make a hard fight to save the front levees. The backwater in the city is rising at about the same rate as the main river, but will rise faster when the levee below gives way, which

gauge of the river was 36 feet above low water mark, showing a rise of four inches since yesterday morning; doubtless caused by local rains which fell in torrents all yes-terday afternoon and last night throughout lay afternoon and last night through terday afternoon and last night throughout the entire country tributary to Memphis. The telegraph wires between Memphis and Helena are down and nothing can be heard from that point. Great fears are enter-tained that the rains of yesterday have caused serious danger at that place, as the rise was unprecedented, and must have been fully aix includes a full the been fully six inches at Helena. All the streams between here and Cairo were pour-ing out floods this morning, and greater disasters to the country below must necessarily be the result.

MEMPHIS, March 6 .- At 7 A. M. the

**Delta-The Whole Country Flooded** -The Public in a Sore, Stricken and Demoralized Condition-The Loss of Stock Almost Total-Goverment Aid Urgently Demanded.

[By Telegraph to the Morning Star.]

NEW ORLEANS, March 7.- A special from Greenville, Miss., says the backwater is still rising and spreading. It is now from six inches to one foot higher than in any overflow since the country was first settled. There will be very little land above water from the river front places to the hills beyond Yazoo river. Greenville is secure from any possible overflow, though the low points were at one time threatened. Refu-gees from the overflowed plantations are congregating here, and our resources to feed and shelter them will be severely taxed. So far the relief agents have not communicated with our local authorities. Our Board of Supervisors has asked that some government rations be sent here. The need is immediate. The sheriff of Bolivar county has lodged his prisoners in jail here. He re-ports very few plantations in his county, with even a strip of land above water, con-sequently the loss of stock there will be almost total. The levees are thronged with negroes and stock, whose condition is most deplorable. As its extent becomes known this calamity begins to appal. A tax sufficient to rebuild the levees above would be almost insupportable, but that is only an item. Laborers have lost their stock and movables, and are in a sore stricken and demoralized condition. Could

transportation be secured there would be an exodus from here to the hills. The despondency of the planters and merchants is deepening. At first this blow was regarded as a disaster involving losses and hard times, but now it is assuming graver and greater proportions. The most despondent, as well as the most sanguine, look upon it as a

disaster greater than has ever before befallen the bottom country. It will almost destroy the feeling of security with which our local capacity to hold the levees was becoming regarded. Upon this reliance was based the railroad and other movements of capital towards the Yazoo delta and if it goes all possible prosperity of this section goes with it. The correspondent does not believe that confidence or hope can be restored without national help to rebuild the levees.

## COTTON. New York Commercial Chronicle.

NEW YORK, March 3,-The movement of the crop, as indicated by our telegrams from the South tolight, is given below. For the week ending this evening (March 3), the total receipts have reached 51,-980 bales, against 60,160 bales last week, 72,031 bales the previous week, and 86,779 bales three weeks since; making the total receipts since the 1st of September, 1881, 4,058,488 bales,

against 4,670,086 bales for the same period of 1880-81, showing a decrease Appalling Accounts from the Yazoo since September 1, 1881, of 611,598 bales. The exports for the week ending

this evening reach a total of 108,562 bales, of which 62,178 were to Great

Britain, 1,637 to France, and 44,747 to the rest of the Continent, while the stocks as made up this evening are now 1,013,284 bales.

On Monday, however, reports of failures at Calcutta and unfavorable advices from Manchester, together with better weather at the South, caused a decline. Tuesday there was a fresh advance, owing to a storm in the Carolinas, the advance being continued, through the arts of manipulation, during Wednesday, causing some demand to cover contracts. On Thursday, however, there was a sharp reaction toward lower prices, due to sales to realize, dull accounts from Liverpool and better. weather. To-day the decline of yesterday was fully recovered. We have been in daily receipt of accounts of what must be regarded as a very

serious overflow of the Mississippi river, and these, with the bad weather on the Atlantic coast, gave, on Tuesday, a great impulse to the speculation in the summer and autumn months; but the best opinion is that the next crop is not as yet threatened with injury. Cotton on the spot has been quiet and unchanged until to-day, when there

was an advance of 1-16c., middling uplands closing at 11%c. Dr. C. W. Benson, of Baltimore, Md.

## EDUCATIONAL JOTTINGS.

- Harvard has decided to accept a fund for the medical education of women.

- Columbia College owns, including the old and present sites, and the Botanic Garden (Murray Hill) property, New York, real estate worth \$6,089,000, from which an income of \$332,133 is derived

- By the late census it appears that the men in the United States outnum. with sales as offered. ber the women by 890,000. The last Eng-lish census shows that in the United Kingdom there are almost as many more wome than men.

- According to President Porter's annual report the income of the Academi-cal Department of Yale College during the year was \$151,572.15 and the expenses \$146,732.52. The endowments for profes-sorships are lacking, while an increased scholarship fund is needed.

- Since the publication of the late report of President Elliott sufficient money to endow a new professorship in the Har-vard Law School has been presented to the university, and it is understood that the new position will be filled by Oliver Wendell Holmes, Jr. The amount is said to be \$90,000.

- R. L. Stuart, Esq., of New York, has made another rich gift to the Princeton Theological Seminary: a plot of ground 185 feet square, costing \$5,000, for the erection of a house for Prof. Patton, and a deposit in the New York Trust Company of \$12,000 for the erection of the house itself.

- The late E. B. Morgan's bequest of \$100,000 to Wells' College, Auro-ra, N. Y., has been accepted by the trustees. The college has now a permanent en-dowment fund of \$200,000, all of which, besides upwards of \$75,000 in buildings and other property, has been the gift of the same benefactor.

- Greek and Latin are coming into favor again at Wisconsin University Six years ago there were 120 studen taking the scientific course, while the ancient classical course was taken by thirty nine students and the modern classica course by twenty-six. Since then the scientific course has steadily lost and the others gained, until now the numbers are nearly equal.

## TWINKLINGS.

- There are now ten murderers in the Tombs, New York.

- An exchange has an article on the decline of man. If the man is Grant we don't believe it .- Elmira Free Press.

- The accounts of the Paris World's Fair of 1878 have been submitted to the French Chambers, showing a deficit of \$6,285,000 between the receipts and exnenditures

- Paris advertisement: "For sale -a monkey, a cat and two parrots. Address Mme. X-, Rue - As the lady is about to get married she has no further use for these animals."

will be about Monday.

VICKSBURG, March 5 .- According to the last information received, the dimensions of the crevasses above are given as follows: At Easton's, 100 to 125 yards wide; at Catfish Point, 50 feet on the 27th ult., and widening rapidly; at Clay and Bagot's, 100 yards; at Hugh's, 60 yards; at Mills, two breaks—widths not known; at Riverton and Concordia the breaks are very wide, but the exact widths are not known.

MEMPHIS, March 5.-The river at this point is about stationary, but will doubtless begin rising again to-night, as heavy rains have fallen to-day throughout this region. In an interview to-night, Commissioner L. H. Morgan, of Arkansas, said that in the counties of Mississippi. Crittenden, Lee, Poinsett, Cross, Craighead, St Francis, Desha, Chicot and Monroe, in Arkansas, he had information of about twenty thousand destitute people, who would have to be fed by the Government for at least forty days. These counties do not include those bordering on Red river, where great suffering is said to exist. Commissioner W. L. Hem-ingway, of Mississippi, said the inhabitants of Coahama, De Soto, Quitman, Boliver, Washington, Insoquena, Zazoo, Talbotaceive gov chie and Sunflower counties, in his State to the number of fifteen thousand, were in a like suffering condition. These counties in Mississippi are all above Vicksburg, and there are other counties below that city which have suffered by the floods.

NEW ORLEANS, March 5.-Representa-tives of the Times-Democrat, having made examination of the levees for a distance of one hundred and fifty miles above New Or-leans, report that the levees are generally in good condition and able to stand more water, but report several hundred weak places where road-ways have been made and rice-flumes built. In case of high winds and rains these places are dangerous unless promptly strengthened. The *Times*-*Democrat* caused inspectors from the State Engineer Department to be sent out to-day from New Orleans, Donaldsonville and Baton Rouge, at the paper's expense, to exam-ine the entire line of levees for one hundred and fifty miles above New Orleans and warn the authorities and planters. A crevasse on the west bank of the Mississippi river, below Baton Rouge, would in-undate the rich sugar parishes of Teche.

growing more desperate. WASHINGTON, March 8.—The Secretary of War has received the following dispatch NEW ORLEANS, March 6 .- The levees or New OnLEANS, March 6.— The levees of West Baton Rouge cannot stand much greater pressure, and the authorities appeal for help from the districts which will be overflowed in case of the destruction of the levees. The country protected by the above levees annually produces about 122,000 hogsheads of sugar, hesides molasses, cot-ton and vice. ton and rice.

LAFOUCHEE, LA., March 6.—At 10 A. M. yesterday, at Pittsman Place, about three miles below here, the left bank gave way and there is now a sweep of water thirty feet wide and ten feet deep. Three large plantations are already under water. On the left, the Morgan track from the 44th to the 46th mile posts, the water is within eighteen inches of the track. Efforts have been made to stop the break, lumber, sacks and two hundred men having been ordered there.

NEW ORLEANS, March 6 .- There another serious crevasse about one and a half miles from here, which started at the same time. It is on the west side of the bayous on Legarde's place, and is sixty feet wide, by eight feet deep, and is increasing. They are at work on it now. This covers the J. J. Joy and Lagarde places already. Mr. Pardels, Superintendent of the Morgan Railroad, who has been here, has ordered all section hands available to this point. The water has fallen in the bayou one foot on account of the breaks.

Continued Rains and Increased Apprehensions-Telegraph Wires Down

ted by an unknown person. They lived about seven miles from here. The assassin **MEMPHIS**, March 8.—The river continues stationary, with thirty-six feet on the gauge, the highest point reached this season entered the little cabin about midnight and There is no cessation of the reports of great suffering by the people in the overflowed districts.

FINANCIAL.

New York Stock Market-Decline in

Prices.

—is almost demotished, the water being twenty feet deep all around it. Several store houses and dwellings were washed away and carried half a mile. The loss of stock continues, and the situation is hourly NEW YORK, March 8, 11 A. M.—The Stock market opened weak and 1/@3 per cent. lower than yesterday's closing prices, Nashville & Chattanooga, St. Louis & San Francisco preferred, Louisville & Nashville and Norfolk & Western preferred being the most prominent in the decline; while Illi-nois Central opened 1 per cent. higher. In the early dealings there was a decline of 1/@21 per cent., Louisville & Nashville and Nashville & Chattanooga being the most prominent therein. Subsequently the mar-ket again sold down 1/@2 per cent., Nash-ville & Chattanooga, Louisville & Nash-ville, Denver & Rio Grande, Texas Pacific and Erie being the most prominent in the NEW YORK, March 8, 11 A. M.-The of War has received the following dispetch from L. H. Mangum, commissioner for Arkansas, at Memphis, Tennessee : "Have issued 100,000 rations throughout the over-flowed country in Arkansas to about 15,000

sufferers. It will last seven or eight days. Affairs are very alarming and suffering on the increase. Will continue so from forty to fifty days, under the most favorable cir-cumstances. There are not less than 20,000 and Erie being the most prominent in the decline. At 11 o'clock Nashville & Chattadestitute sufferers from the overflow in nooga recovered 1 per cent.

Arkansas." Also, the following from Wm. L. Hem ingway, commissioner for Mississippi, at Memphis: "Eighteen thousand persons are without supplies or means for procuring them. The number will increase rapidly during the overflow. The rations issued will be exhausted by the 15th inst." Gov. Hawkins, of Tennessee, has tele-graphed to the Secretary of War as follows: "I have appointed H. W. James Commis-sioner for Tennessee, to receive and receipt for stores at Memphis, Tenn. Other points in Tennessee will be supplied from that place. The number of Tennesseens made destitute by the overflow is estimated at from 3,000 to 5,000." Work on a New Railroad Commenced. GALVESTON, March 8 .- A Loredo special says the Rio Grande and Pecas Railroad charter was filed late on Friday, with Gov. Alex. Hunt, of Colorado, ex-Gov. J. W. Throckmorton and Albert C. Wilcox, of Texas, as incorporators. The road is projected from Brownsville, near the mouth of the Rio Grande to El Paso, on the western boundary. The road, it is contemplated, is to be built along the valley of the river. The principal office is to be located at Loredo, where work has already been The Secretary to-day telegraphed Gov, Hawkins as follows: "Twenty thousand rations have been ordered to be sent to begun.

COTTON MARKETS. [By Telegraph to the Morning Star.]

New ORLEANS, March 2.—No further disasters to levees are reported, but the people are thoroughly aroused and are strengthening points all along the line. A heavy south wind to day produced a swell in the river, the water at times breaking over the levee at the head of Canal strengthening to the Morning Star.] March 8.—Galveston, steady at 11‡c—net receipts 1,177 bales; Norfolk, firm at 11‡c —net receipts 1,624 bales; Baltimore, steady at 11‡c—net receipts 45 bales; Boston, quiet at 12c—net receipts 1,037 bales; Philadel-phia, firm at 12c—net receipts — bales; Sa-

THIRTY YEARS' EXPERIENCE OF AN OLD NURSE.—Mrs. Winslow's Soothing Syrup is the prescription of one of the best Female Physicians and Nurses in the United States, and has been used for thirty years with never falling safety and success by millions of mothers and children, from the feeble infant of a week old to the adult. It corrects acidity of the stomach, relieves wind colle, regulates the bowels, and gives rest, health and comtort to mother and child. We believe it the Best and Surest Remedy in the world, in all and comtort to mother and child. We believe it the Best and Surest Remedy in the world, in all cases of DYSENTERY and DIARRHCEA IN CHILDREN, whether arising from teething or any other cause. Full directions for using will accompany each bottle. None genuine unlessible fac-simile of CUETIS & PERKINS is on the out-side wrapper. Sold by all Medicine Dealers. & cents a bottle. THE LUCK OF A DENVERITE.—In the lively city of Denver, CoL, resides one Sebastian Loh man, a wood worker, at No. 998 Larimer st. In a recent interview, published in the Denver News, of the 19th ult., he describes himself as a native of Baden, aged fifty-four, a resident of Colorado for over two years, and hence he is not a tenderfoot. He also tells how he bought a ticket, No. 19,006, in the January drawing of the Louisiana State Lottery, for \$2 sent to M. A. Dauphin, New Or-leans, La., and on January 10th he drew \$10,000. It is a simple story, but seems to resemble many similar occurrences all over the country. The 1430 Grand Monthly Drawing will take place un-der the sole management of Generals G. T. Beauregard, ef La., and Jubal A. Early, of Va., on March 14.
