The STAR from the very beginning has favored a radical reduction of Governmental expenses, and afterwards a radical overhauling and reduction of the tariff, and a reduction of the internal tax, as much as the necessities of an economical Government would authorize. It has favored a complete change in the manner of collecting the internal tax and a consequent abolition of the whole Revenue Ring. The more we see and the more we reflect the more assured we are of the wisdom and propriety and absolute justice to all of our position. Retrenchment in Governmental expenditures; Reform in the Civil Service, and Reduction of both forms of taxation-Tariff and Internal Revenue—is a plank in our platform. When the Democrats in National Convention assembled shall in their judgment reject these important principles, as we regard them, we shall then cease to advocate them for a reason. But until that is done we shall still maintain the three R's.

Funeral of the Late L. M. Williams. The funeral of the lamented Lewis M. We could not but remark the great proportion of aged men and women who were present to pay the last sad honors to one who had over-stepped the allotted bounds of "three-score years and ten," and whose death leaves such a vacuum in our midst. The services were conducted by Rev. Frank H. Excitement on 'Change-Depression in Prices of Wheat and Grain-More

CHICAGO, June 28.—The market on 'Change suffered another bad break this morning, and the forenoon session was marked by uneasiness and at times great excitement. The depression in prices extended to provision and grain, as well, but were more especially felt in pork and wheat. Pork has shown a steady and heavy decline for the past three days, and this morning tumbled 424@50c. Lard declined 71@171c., making the quotation for July option less than that touched on the day of the failure of McGeoch. Wheat, which has displayed weakness for a week past, dropped 111@21c. per bushel in addition to-day. These declines renewed all the uneasiness of the past two weeks. The announcement was made at noon that O. Kenian & Co. and John Sinclair had succumbed. They have been dealing in grain, but were not rated as very extensive dealers. One cause assigned for the universal weakness displayed by the market is the bad showing made by the firms of McGcoch, Everingham & Co. and M. S. Nichols & Co.—particularly the latter firm, from whom a better report as to assets had been anticipated.

neither of the men was struck.

Beirne, the challenger, demanded a second

shot, which was granted, and the bullet from his pistol imbedded itself in the upper

part of Elam's right thigh. Beirne was un-

touched. Elam fell to the ground, and

Beirne, raising his hat to his fallen oppo-

nent, was hurried into a carriage and

driven rapidly away. Subsequently he

took the Shenandoah Valley train at Cri-

tending him. It was found that the ex-

word "one" both pistols were discharged in

quick succession, but without effect. The

same programme was then repeated, both

reports being almost simultaneous, and just

at the word "one." As Elam staggered

under the effect of the shot his second ran

forward and assisted him to the cushions

which had been laid on the ground. The

wounded man was under the impression

that the ball had penetrated both legs,

and insisted that such was the case.

When assured by the surgeon that it

had not even gone through one leg,

and that the intense pain in the other

was from sympathy, Elam expressed regret that he had not demanded another

shot. He was perfectly cool and collected,

and gave directions in a strong, composed voice. Beirne also acted with deliberation,

and although pale, seemed perfectly cool.

He was taken away by his second, after it was discovered that Elam could not again

stand. Elam was then placed in an ambu-

lance, which started for the residence of Lt.

distant. It was doubtful what the effect of

virus to be sent to the threatened points. The President to-day made several modi

ting to the consolidation of internal revenue districts. The counties of Vance and Pender, in North Carolina, were added to the Fourth district, as constituted by the recent order. These counties were only recently created, and were accidentally overlooked when the question of reorganizing the districts was first considered. In the original order the districts of Montana, Utah and Idaho were consolidated, and Orlando J. Hollister, collector of the present Utah district, was designated as collector of the new district. This was changed to-day by the designation of Thomas P. Fuller, col lector of the present Montana district, as collector of the new district, vice Hollister, dropped. The change was made because
