Whatever may have been said against the whiskey tax in the South in the days of Republican misrule, there is no general sentiment in favor of the abolition now that it is faithfully collected and goes into the National Treasury. Without this tax and the restraints it throws around the manufacture and sale of intoxicating liquors it is safe to say that the debauching effects of rum would be ten times greater throughout the country than they they are to day.

The ruin wrought by the indulgence in intoxicating liquors by the lower classes is great enough as it is. Were whisky untaxed it would soon be so cheap that the poorest vaga-bond would be able to keep under its influence more or less all the time, and the consequent debauchery would have a ruinous effect on whole communities, and would prove a great drawback to the prosperity of the country.

The poorest grades of liquor, such as now retailed in most low groggeries, can be "manufactured" for a few cents.

But suppose liquors were harmless when used every day, and were comparatively inexpensive, it would be the poorest political economy in the world to free it of tax expressly to burden and enhance the value of the necessaries of life. The people see this, and they are no longer to be misled. The free whiskey people might as well see it also and save themselves from a waste of energies in pursuing a puerile policy on this question.

There is a demand for cheaper blankets, cheaper clothing, cheaper manufactured articles for every day consumption and use, but there is no demand worth considering for cheap. er whiskey.

The Farmers' Gathering-An Immense Crowd Present-Earnest and Practical Speeches-Base Ball Matches-Ex hibits at the Fair.

(Special Star Telegram)

MT. HOLLY, VIA CHARLOTTE, Aug. 10. -The biggest farmers' gathering ever held in the State is now in progress. By actua count 719 farm wagons were on the grounds miles from Moscow. An enormous crowd before noon and numbers arrived later. The gathering is a combination of frolic and instruction. The farmers have had for interment. A heavy rain was falling good grain crops, and see their corn, cotton and vegetables promising fairly, and feel they have earned the right to enjoy them-French Ambassador to Sweden, while visitselves, and they are doing so.

The speeches to day were earnest and practical, drawing large crowds. Major Finger, State Superintendent of

Education, opened the ball. His address was a candid representation of the benefits farmers derived from education. It ought to be published verbatim and placed in the bands of every North Carolinian. Other speakers were Dr. H. B. Battle, who discussed the subject of home-made manures, in a masterly fashion; Col. Julian Allen, of Statesville, who gave an intensely funny account of his early experience as a northern immigrant, trying to be a Tar Hed farmer; Col. L. L. Polk, who gave an impromptu address full of sound wisdom; Hon. E. R. Stamps, Col. W. L. Steele, and Dr. J. W.

The address of A. P. Butler, of South Carolina, was read by Prof. Ludwig. Secretary of the State Grange. To-night the grounds are brilliantly

illuminated and crowds are dancing in the pavilion and hotel parlor. In a baseball match the score was thirteen for Charlotte to six for the Raleigh

club. The tournament and the range rifle

match each attracted crowds. By Telegraph to the Morning Star. CHARLOTTE, August 10 .- The greatest farmers' gathering ever held in North Carolina finished its second day's exercises at Mount Holly to-day. It will continue un-til Friday night. More than 2,500 people

are in camp-1,900 went on excursion trains from this city—and the total attendance to day exceeded 5,000 It will be more than double that to-morrow. To-day's speakers at the Farmers' Institute were Dr. J. W. Lewis, Dr. H. B. Battle, Col. L. L. Polk, editor of the Progress sive Farmer, Col. Julian Allen, a Northern man and Union veteran, and for twelve Hon. S. M. Finger, Superintendent of Ed-ucation; Hon. Walter L. Steele, and Hon. E. S. Stamps To-night the grounds are brilliantly illuminated and throngs are

dancing. The most remarkable exhibits at the fair are cereals from Buncombe county, in-cluding rye nine feet high, and timothy more than six feet. CONSUMPTTION CURED.

300 bbls.

An old physician, retired from practice, having had placed in his hands by an East India missionary the formula of a simple vegetable remedy for the speedy and permanent cure of Consumption, Bronchitis, Catarrh, Asthma and all Throat and Lung Affections, also a positive and radical cure for Nervous Debility and all Nervous Complaints' after having tested its wonderful curative nower in the presents of cases, has fait it his piaints after having tested its wonderful curative power in thousands of cases, has felt it his duty to make it known to his suffering fellows. Actuated by this motive and a desire to relieve human suffering, I will send free of charge, to all who desire it, this recipe, in German, French or English, with full directions for preparing and using. Sent bymail by addressing with stamp, naming this paper W.A.Noves, 149, Powers's Block, Rochester, N. Y.

WHO IS MRS. WINSLOW!—As this question is frequently asked, we will simply say that she is a lady who for upwards of thirty years has untiringly devoted her time and talents as a female Physician and nurse, principally among children. She has especially studied the constitution and wants of this numerous class, and, as a result of this effort, and practical knowledge, obtained in a lifetime spent as a nurse and physician, she has compounded a Soothing Syrup for children teething. It operates like magic—giving rest and health, and is, moreover, sure to regulate the bowels. In consequence of this article Mrs. Winslow is becoming world-renowned as a benefactor of her race; children certainly do has up and bless her; especially is this the case in this city. Vast quantities of the Soothing Syrup are namy sold and used here. We think Mrs. Winslow has immortalized her name by this invaluable article, and we sincerely believe thousands of children have been saved from an early grave by its timely use, and that millions yet unborn will share its benefits, and unite in calling her blessed. No Mother has discharged her duty to her; suffering little one, in our opinion, until she has given try it, mothers—TRY IT NOW.—Ladies Visitor, New York City. So the all druggists. 25 cts. a bottle

The Press Club's Reception to Henry Watterson-The Cable Rate War. By Telegraph to the Morning Star.

New York, Aug. 10 .- The Press Club of this city gave a reception to-day to Col. Henry Watterson, of the Louisville Cou-rier-Journal. John A. Greene, president, welcomed Col. Watterson to the club. Col. Watterson gave an interesting disserta tion on newspapers and newspaper men, and the incompatibility of journalism and politics. "The politician," he said, "has to keep his path divergent from the ways of verscity; whereas, the journalist on the other hand is always trying to tell the truth, and tell it before any one else does." Brief addresses were also made by Gen. Horatio C. King, Col. John A. Cockerell, of the World; Paul A. Dana, of the Sun; and Erastus Wiman, and others. It is officially announced that the Commercial Cable Company has notified other cable companies that unless rates are advanced to forty cents a word within one week, that it will make another cut, and ten days from now take messages at 12 cents a word.

Great Britain..... 34,000 27,000 New York Rice Market. N. Y. Journal of Commerce, Aug. 9 At some points South old crop rice is hard to get, as the holders are somewhat inclined to think that the damage to the new crop may be material, and that the old crop will go out at higher prices. The new rough lots while arriving slowly have little attention because of the light selling of the clean lots. At this market there is no difficulty in marketing old stock at full late prices, with considerable firmness. Cuticura.

Our little son will be four years of age on the 25th inst. In May, 1885, he was attacked with a very painful breaking out of the skin. We called in a physician who treated him for about four weeks. The child received little or no good from the treatment, as the breaking out, supposed by the physician to be hives in an aggravated form, became larger in blotches, and more sand more distressing. We were frequently obliged to get up in the night and rub him with sods in water, strong liniments, etc. Finally, we called other physicians, until no less than six had attempted to cure him, all alike failing, and the child steadily getting worse and worse, until about the 20th of last July, when we began to give him Curicura Resolvent internally, and the Curicura, and Curicura Seap externally, and by the last of August he was so nearly well that we gave him only one dose of the Resolvent about every second day for about ten days longer, and he has never been troubled since with the horrible malady. In all we used less than one half of a bottle of Curicura Resolvent, a little less than one box of Curicura, and only one cake of Curicura Soap.
