New York Sun, HARRISBURG, June 8 .- Several months ago Lafavette Rennard. aged forty-nine years, an employee of the Phoenixville Iron Works, was stricken with inflammatory rheumatism, and in about two months his case became complicated by an at-tack of heart trouble. With both diseases he suffered severely, and gradually lost his strength. The physicians said his case was a hopeess one, and on Thursday morning they left him, saying that he would die that day. In the evening, while his friends were gathered around his bedside, momentarily expecting to see him breathe his last, he gasped several times, quivered slightly, and bued himself out, and was ap-

parently dead. His wife notified all their friends and relatives, and preparations were being made for the funeral. She had a lifelong feeling, however, about being buried alive, and at this time she was suspicious of a trance, though there was no evidence about her husband that he was still alive. She refused to allow the undertaker to put the body in ice. and averred that the burial would not take place for a week, that she might be certain her husband was dead.

Yesterday the family and a few friends were standing around the board on which the body of Mr. Rennard was laid, mourning over his death. They were just drying the tears from their eyes before leaving the room when suddenly one of the weeping crowd exclaimed. "My God! he's not dead. I saw

him move." They all looked in surprise and watched the body closely, but no movements were noticed, and the hopes of the wife and friends were changed to despair. They were going out of the room when they all heard a sound in the corner of the room where the supposed dead man was lying, and they rushed back to find Mr. Rennard with his eyes wide open and his arms out of the position in which they had been put. Everybody was excited, and the wife called loudly to her husband to arise, at the same time assisting him to do so. He moved, and showed signs of life, and was finally carried to a large chair. Physicians were called, but before they arrived Mr. Rennard had so far recovered that their and was unnecessary. He spoke, telling his wife how he felt, and afterwards said that he had heard her mourning, and all the arrangements for his funeral, and knew all that was going on around him, but was unable to move a muscle or utter a sound. Mr. Rennard is now in a better condition than he was before the trance, and the prospects for his

Fortunes of Actors.

complete recovery are very good.

The order for his coffin has been can-

Dunlap's News. A great deal has been written about the fortunes of actors and most of it has been incorrect. The following is a careful estimate of twenty-five of the richest of them, made by a well known actor, a rich man himself, and one in a position to know what he is talking about. Among the actors are but two millionaires, Lotta Crabtree and Edwin Booth, and both of them are worth considerably more than a million each. Then follows Joseph Murphy with about \$600,000 and Joseph Jefferson with half a million. Maggie Mitchell he rates at \$400,000 and over, while Mary Anderson has, he says, from \$250,000 to \$300,-000, her foreign ventures making the estimate uncertain. Oliver Doud Byron is put down at \$300,000, Minnie Palmer ar \$275,000, J. K. Emmet at \$275,000, and Stuart Robson and W. H. Crane at a quarter of a million apiece. Annie Pixley, \$200,000; Mrs. Langtry, \$150,000; James O'Neill, \$150,000; Denman Thompson, \$150,-000; Herrmann, \$125,000; old John Gilbert, \$125,000; N. C. Goodwin, \$100,000; Louis Aldrich, \$100,000; Francis Wilson, \$100,000. Emma Abbott has a fortune of \$25,000, and Charles Bernard, the ex-minstrel. over half a million. Nate Salsbury has over \$175,000, Fanny Davenport \$100,000, and Mrs. John Drew over \$100,000. Actors have no rating in the commercial agencies of the country, owing perhaps to the great fluctuations of theatrical ventures, but the fortunes above named are all prudently invested and subject only to the same risks as those of any well-to-do business man.

> It Is All Right, Detroit Free Press

"I think I dropped a letter into the mail the other day without stamping it," said a man at the postoffice as he called for the chief clerk. "If you did it has gone to the dead letter office." "Has, eh? You must have known

that it was a mistake."

"And you ought to have held it for

inquiry "We have our rules." "And they are mighty impudent rules, let me tell you! The postoffice

department needs overhauling, and I'll help to see it done!" The next day the man returned. this time with a smile on his face,

and said: "You remember I was speaking about an unstamped letter?"

"Yes."

"I was much put out." "Yes."

"Well, I want to apologize. The letter was directed to an acquaintance. In it I called him a liar and a horsethief. Last night I found out that I was mistaken. He hasn't got the letter and won't get it, and so won't know anything about it. The Clerks are all right. Have a cigar and press on to promotion and increased pay."

- Mt. Holly News: We are reliably informed that a calf was born on the plantation of Mr. C. Beam of North Brook township, Lincoln county, which is a great curiosity. The head and shoulders of this township, Lincoln county, which is a great curiosity. The head and shoulders of this cualosity were those of a sheep; its hind-quarters were those of a sheep; its hind-quarters were those of a calf, while its tail was that of a pig. The head of this freak of nature was a curious sight. Besides being a sheep's head, one of its eyes and one ear were directly in its forehead and the others in the back of its head. — Mr. Frank Rhyne had a narrow escape from drowning at Pinhooker factory last week. — The recent rains have improved the crop prospects very much.

An organ finds precedent and sauction for nepotism in President Adams' appointment of his own son as Minister to Berlin by the solvice of Washington. When a President has such a relation as John Quincy Adams was, and that relative can get the original and only George Washings ton to recommend his appointment, it can be made without a word of protest. But in that precise form only will the people of this country regard nepotism with favor.—

St. Louis Post-Dispatch, Dem.

Gov. Beaver's commission had started west this morning. Their mission is understood to be the distribution of the Governor's million dollars. This morning the State Board of Health began a sanitary survey of the Conemaugh Valley from South Fork to Nineveh. A complete census of families and a report of the condition of health and living will be made.

Major Phillips' dynamiters have had Johnstown in a state of nervous terror all day, and this evening General Manager John Fulton, of the Cambria Iron Works,

Mineral Production of the United

New York Commercial Advertiser. Advance sheets of the report of Pro-fessor Day, of the United States Geo-logical Survey, on the metal and min-eral productions of the United States for the calendar year 1888, make a very remarkable showing. It will be remembered that for several years these annual estimates of the quantity and value of metal and mineral products of the United States have been regularly issued by the Government Geological Survey. In the report of 1887, Mr. Day said that nearly very mineral industry showed an in every mineral industry showed an increase over previous years, and that the tremendous aggregate estimated value of mineral products for the year, \$542,284,225, was the largest total ever reached by the mineral industries of any country. He attributed the immense production to expect the state of the st ceptional conditions in important industries, and expressed the opinion that the aggregate shown for the year 1887 would not be equaled in 1888. The advance sheets of his report for 1888, however, show that this expectation

was not confirmed, and that the total production for the year again showed a large increase, exceeding the aggre gate for 1887 by nearly \$50,000,000. The comparison of totals for a series of years, according to Geological Survey reports, as follows : AGGREGATE METAL AND MINERAL PRO-DUCTION OF THE UNITED STATES.

1882....\$456,165,489 1886....\$465 327,888 1883.... 453,240 748 1887.... 542,284,225 1884.... 413,476,748 1888.... 591,659,931 1885.... 428,713,909

If the fairness of this comparison can be relied on, the increase since 1884 is indeed remarkable; three successive years showing an increase over the year preceding by \$37,000,000, \$77,000,000 and \$50,000,000 respectively, and the production of 1888 exceeding that of 1884 by \$178,000,000. He Saw It.

New York Sun. "Sit down-sit down," replied the old farmer, as he laid down his brush hook and dumped himself on the grass. So you want to know whar Hi Perkins lives?"

"Know the family?" "Somewhat." "Can't be Hi's wife's brother?" "Cousin o' Hi's mebbe!"

"You ain't an officer with a writ to "Oh, no."
"May be going out to sell him windmill or an organ?"

"Know Hi long?" he queried, as he rubbed his sleeve over his face. "Not very."

"Ah! I see how it is!" he suddenly exclaimed, as a grin began to spread ever his face. "You live in town—doctor

over his face. "You live in town—threatened with consumption—doctor advises farm diet and outdoor exercise-going out to fix up matters with Hi. They used to come to me by droves, but I got tired of it. All of 'em now go to Hi. Guess I wasn't soft 'nuff with 'em." "How?" "Wool, it sort o' riled me to have

shap around who didn't know-the difference atwixt a bumblebee and a but I thought the insect might be a pet of his and so didn't say anything. He had just got to the point above when he uttered an awful yell, leaped clear over an old stump, fell down and scrambled up, then went tearing through the hazel bushes like a Texas steer on the rampage. I counted fourteen whoops before he ceased, and it was just twenty minutes before he returned. Well, was a it turnip patch or a

bumblebee?" I asked. "Durn my flint! but you must a seen them critters prowling around when you fust come np, and now you jist please git over into that ar' road and jog along afore I let loose! I can't abide a one lung, narrow-sonled man, and I'll be hanged if tell you what Hi Perkins or anybody else lives! A consumptive as will calmly sot down and see a bar'l of bumble-bees holdin' a convention on a man's back, which hasn't got no undershirt on, and not warn him of the coming calamity, is jist mean 'nuff to go and crawl into a fellow's barn and die there and spile three tons of hay!"

MISSOURI.

The Chippewas Again on the War Path-sucroschments of the Whites the Cause-Two Men Scalped and Two Terribly Mutliated.

By Telegraph to the Morning Star. ST. PAUL, June 14 -A dispatch from Mora, Minn., says: "The treacherous Chippewa Iudians are on the war path again, and there are grave fears of a general up-rising. Already seven Swede laborers have been massacred, and several hundred labor ers and settlers are now hurrying here for safety. Sheriff Nicolsen rode to town yesterday and gave the alarm. He also communicated with Gov. Morriam, requesting him to order out the State troops to quell the upricing. The present trouble is the outgrowth of the encroachment by whites upon the Mille Lacs reservation. Recently contract was awarded by the settler to Foley Brothers, of St. Paul, to dig a ditch for irrigation purposes from the Mille Lacs Lake, which is a point on Smoke river, near this place. When the Indiana learned that a ditch was to be dug they came to the conclusion that the intention was to drain the latter and deprive them of their fishing privileges Notice was served by the Indians upon the con-tractors, warning them that if they did not leave the territory at once they would be put to death. The contractors gave no heed to the warning, but came here and sugaged three hundred laborers, who began work yesterday morning at Mille Lacs. About noon yesterday they were attacked by a party of four hundred Chippewas, led by White Snake and Great Bear. The Inlians were in full war paint and armed with Winchester rifles and tomahawks. As soon as they saw the reds coming the laborers dropped their shovels and fled toward this place. They were pursued by the savages, who shot and killed seven. Several others were wounded, but not se-riously. The Indians scalped two men and nutilated the bodies of two others in a fiendish manner. The Indians, who have neen gathering on the south shore of Mille Lacs lake for a week or more, on Wednes day night engaged in a war dance.

GEORGIA.

The Gallows-Three Negroes Hanged for Murder. By Telegraph to the Morning Star. Macon, June 14 - A special from Bain-

bridge, Ga., saye: Alexander Henderson, colored, was hanged here to-day for the murder of Ames Jackson and his daughter, also colored. The murder was committed last spring. 'Henderson's neck was broken. and he died with scarcely a struggle. Henderson admitted his guilt. A large crowd was present, but everthing passed off n an orderly manner.

A special from Thomasville, Ga , says:

Will Dibell, colored, was hanged here to-

day for the murder of a negro named Long. last December. Dibell's neck was broken by the fall. His body was turned over to a physician, to whom he had sold it. The postoffice department is all right, his crime." special from Leesburg, Ga.,

John Pickett, a negro boy, about 19 years old, was hanged here to-day for the murder of an old negro and his wife in the early part of this year. Pickett died of strangulation, the fall not breaking his neck. About 2,000 persons witnessed the execution. Pickett confessed.

A special from Leesburg, Ga., says: frightened the town and shook houses. Half of the windows in Millvale school house were shattered, and in Prospect, just opposite, éhimneys came rattling down upon house tops. The next charge was diminished somewhat.

Adjutant General Hastings was informed to-day that the Philadelphia delegation of

JOHNSTOWN.

The State in full Charge of the Work -Fumes and Odors from Decayed Bodies Almost Unbearable-Business Men Preparing to Start Over Again-The Loss of Life by the Flood Placed at Three to Four Thousand Persons -The Total of Bodies Recovered-Gov. Beaver Advises that the Shipment of Supplies be Stopped.

By Telegraph to the Morning Star. JOHNSTOWN, June 18 -The first real work under the supervision of the State commenced this morning. At 6 o'clock, the whistle at the Cambria Iron and Steel works was the signal for men to com-mence, and about fifteen hundred started in with their picks and shovels. The carly morning was warm and cloudy, and the fumes and odors from the decayed bodies were something almost untearable. As the morning advanced the weather grew warmer, and by 10 o'clock the sun was shining brightly, and every one on the ground was hard at work.

During the morning a crowd of worthless loafers in some manner secured en-trance to the town, and wanted to inaugurate a strike among the workmen. Some of the laborers were already dissatisfied at having new bosses over them, and only wanted a chance to complain. Jas. McKnight, of Pittsburg, of the State contractors, got wind of the trouble brewing, and went among the men and informed them that he would have no kicking, and that all those who wished to quit would have to do so immediately, and about one hundred of the men left. But the loafers remained around, and Mr. McKnight went to Gen. Hastings and demanded protection for his men. A detachment of militia from the 14th regiment were detailed to the place and drove away all men who refused to work. This caused Gen. Hastings to issue an order to the soldiers not to admit any one to Johns, town proper without an order.

The business men of the town seem to have awakened to their senses, and this morning a number of them were preparing to start over again in business. Two gro cery stores were started near the Pennsylvania Railroad freight station, Both places were doing a land office business, and this encouraged other merchants to start up. and the probabilities are that inside of a week at the latest, a hundred stores will be in operation. Already two barber shops and one jewelry store have been opened.

JOHNSTOWN, June 13.-The general opinion among well posted people here is that the loss of life will be between 3,000 and 4,000. It was generally given out that Johnstown and the boroughs adjoining had a population of 35,000, but this is a very high estimate, and conservative people put the population between 25,000 and 28,000. Col. Rogers, who has charge of the registra-tion, states that from all he can learn the population only amounted to about 25,000, and this accounts for the 10,000 supposed to be lost. Reports sent out from here to the effect that from 12,000 to 15,000 people were missing were based upon the supposition that there were 35,000 inhabitants in these boroughs. Reports as to the number of bodies recovered at different points along the flooded districts are very conflicting. Supposed official reports have been sent in by different persons, and these are also conflicting, and put the number of bodies recovered anywhere from 1,100 to 1,800 Consequently there ir no telling how many bodies have been recovered.

JOHNSTOWN, Pa, June 18 .- The total number of bodies recovered to-day was 19; making a grand total of bodies recovered 1999 The mass at the stone bridge was fired this afternoon, and to-night is burning furiously. With it is destroyed all hope of recovering bodies that are certainly there

NEW YORK, June 13 -Total amount received at the Mayor's office to-day for the Johnstown sufferers was \$13,072; grand total to date \$341,107. This dispatch was received by Walter Stanton, chairman of the Transportation committee, from Gov. Beaver to-day 'From my personal inspection at Johnstown, a day or two since, it occurs to me that it might be well for the present to stop the shipment of supplies in kind to any of the points named. There are many cases of individual suffering which can only be reached by personal investigation. Food and raiment, and it may be called the points of the points of the provided. There is no immediate bodily suffering. I will ask General Hastings to communicate with you in case he should be in need of anything special which could

be better supplied from New York than from points nearer at hind. The great problem of getting people of the Cone-maugh Valley upon their feet, so as to enable them to help themselves, is one to which we must turn our thoughts, and to this the commission which I have just anpointed will give their immediate atten. JOHN: TOWN, June 14.—Rain is pouring down this morning, and has effectually stopped work of all kinds in this stricken

city, where work should go ahead as rapidly as possible. Even the soldiers have sought the shelter of their tents. The wrecksge at the stone bridge, which was fired last night, has been dampened considerably, and unless the rain stops soon that invaluable work will also come to a stand still.

HARRISBURG, PA, June 14 .- Governor Beaver has received an official report from the State Board of Health, in which the district from the railroad bridge over the Conemaugh river at Johnstown to the mouth of Stony Creek river, is declared s nuisance. The Governor now has legal machinery and a fund to apply it, and the work will be pushed without delay. The Governor this afternoon issued a proclamation, in which he says among other things that there can be little doubt that the most useful and judicious expenditure at the present moment for the entire people of the region, would be a fund which could be used for putting up simple board shanties, in which business might be commenced by courageous business men of Johnstown who have signified their intention of remaining where they are and assisting in building up the ruins which speak so elo-quently in their bubalf.

In one way the rain to-day is regarded as blessing, as the terrible stench from burning flesh which was almost unbearable last night is scarcely noticeable. A number of lumber men from the Clarion region were engaged clearing the wreekage with their hooks last night and this morning, an I their work was to effective that another detachment has been sent for. It has been decided to tear down all unsafe buildings in town and burn the wreckage. A house to house canvass will be inaugurated to morrow, to secure as near as possible an accurate list of the living and dead for State officials. The system of re gistration attempted a week ago was not effective. A peculiar feature of the flood was that of 138 saloons in Johnstown and the surrounding towns, jbut two escaped destruction. Chinese laundries were also completely wiped out, and a number of China-

men are missing.

The rain which poured down all the morning ceased at noon, and work was proceeded with, but only 700 workmen started in. A large amount of lumber is arriving to-day consigned to the State. It will be distributed to the more needy merchants to re-erect temporary structures in which to resume business.

JOHNSTOWN! PA., June 15 -Sunshine has succeeded morning showers and this is the first bright noontide Johnstown has had for a week. On the general principal that rain cannot fall perpetually several thousand men, who are anxious to clean up the ruined city, are hoping for fair weather from this on. The Conemaugh is swollen, and its rushing current serves to remind Johnstown of the day preceding the flood, The water is an advantage, however, as it carries away a great portion of the impurities lodged along the river banks.

The engineers resorted to three hundredpound dynamite cartridges to clear up that portion of the wreck known as the raft. This morning the first charge of that size frightened the town and shook houses. Half of the windows in Millvale school house were shattered, and in Prospect, just opposite, chimneys came rattling down upon house tops. The next charge was diminished somewhat.

Adjutant General Hastings was informed to-day that the Philadelphia delegation of Gov. Beaver's commission had started west this morning. Their mission is under-

Johnstown in a state of nervous terror all day, and this evening General Manager John Fulton, of the Cambria Iron Works,

dictated a forcible protest to Gov. Beaver, stating that the mills and offices of the company were being ruined by the blasts; that Adjutant General Hastings had paid no attention to two requests for its discontinuance, and that the State would be held responsible for any further damage done. The message was filed with instructions to wire it as soon as another blast was The message was filed with instructions to wire it as soon as another blast was fired. In the meantime Adjutant General Hastings had gained communication with Major Phillips, and an order to discontinue

Major Phillips, and an order to discontinue blasting went into effect.

Major Phillips has been engaged since Wednesday in blowing out wreckage in the channel of the Conemaugh above the Pennsylvania railroad stone bridge. He was anxious to have a passage for water by this evening, and to that end put in a 500-pound blast of dynamite at noon. The blast was placed under two buildings, one of which was lying upon the other, and both of them covered with logs. The explosion was terrific, and one log large enough for a mainmast, was hurled 800 feet in the sir. The next blast not being feet in the sir. The next blast not being placed so deep, was a 400-pounder. This one did all the damage. The report was awful, and the stronges houses in the city trembled like leaves. All the glass was blown out of the windows of the Odd Fellows' Hall, which seems to have stood over a stratum of the unusual disturbance. In the same neighborhood the rear wall of the half-wrecked Catholic Church fell upon the Baltimore & Ohio tracks, blocking them. Chimneys rattled down all about, and dishes were broken in houses in Kernville, half a mile away. Asked about the matter, Major Phillips said: "We have used only 2,000 pounds of dynamite to day. I have ordered several tons of it. The charges will not be so heavy hereafter. I had no idea that we were do ing any damage. So far as I know no per-sons were injured."
Soon after the last blast, which opened the channel of the river, the logs formed a gorge. A gang of lumber men were put to

work with cart hooks to clean the stream. A STRANGE CASE.

ensational Scene in Court Over a Suit for the Possession of a Child. By Telegraph to the Morning Star.

CINCINNATI, June 15 -A sensationa scene was enacted this morning in Judge Outcalt's court. He has had on hearing and under consideration for several months, an unusual habeas corpus case, where two women claim to be the mother of a child for whom the writ was issued. Miss Kate Schwalles avered that she gave birth to an illegitimate child and placed it in the hands of Mrs Humser, midwife, to dispose of, and that Miss Humser placed it in the family of W. J. White, to be adopted. Subsequently Miss Schwaller wished to recover possession of her child and applied to Mrs White, when that lady informed her that the baby she had was not an adopted child, but was her own. The testimony before the court was most con-flicting, but Mr. and Mrs. White brought many witnesses to show that the baby was theirs. They have had it in charge during the trial. To-day the jury was to render a decision, but Mrs. White appeared in court without the child. When asked by the Court where it was, Mrs. White, in a determined manner, answered, "Judge Outcalt, I was submitted to a severe examination the other day, and I understand you are going to decide against me in the case, and I have protected my child, I know the consequences and am here to abide by them, and if I have to stay in prison ten years I am satisfied, so f at the end of that time I have my dar-

This reply of course made a sensation. Her attorney promptly disdained having advised this course of action and asked that his client have time to reflect.

The court said that if Mrs. White did consequences of contempt of court, and he allowed her till noon to consider. The resolute mother for two hours was urged by her attorney and friends to produce the child, but at the end of the time she remained firm, and went bravely to jail under sentence of court for contempt. the neuntime the judge withholds his decision of the merits of the case. -

Convincing Proof.

TH MANY INSTANCES IT HAS BEEN PROVEN that B. B.B., (Botanic Blood Balm), made by Blood Baim Co., Atianta, Ga., will cure blood poison in its worse phases, even when all other treatment fails.

A. P. Brunson, Atlanta, Ga., writes: "I had 24 running ulcers on one leg and 6 on the other, and felt greatly prostrated I believe I actually swallowed a barrel of medicine, in vain efforts to cure the disease. With little hope I finally acted on the urgent advice of a friend, and got a bottle of B. B. B. I experienced a change, and my despondency was somewhat dispelled. I kept using it until I had taken sixteen bottles, and all the ulcers, rheu matism and all other horrors of blood poison have disappeared, and at last I am sound and well again, after an experience of twenty years of torture."

Robt. Ward, Maxey, Ga., writes: "My disease was pronounced a tertiary form of blood poison. My face, head and shoulders were a mass of corruption, and finally the disease began eating my skull bones. My bones ached, my kidneys were deranged, I lost fiesh and strength, and life became a burden. All said I must surely die, but nevertheless, when I had used ten bottles of B. B. B. I was pronounced well. Hundreds of scars can new be seen on me. I have now been well over twelve months."

RICHMOND, VA., April 8, 1887.

I have been suffering for years with a complication of Liver and Eidney trouble, suffering great pain in the region of the kidneys; and having my attention called to the Otterburn Lithia and Magnesia Water. I commenced to use it, and never experienced such relief from anything The very first half-gallon increased the flow of urine and cleared it up. My appetite has been restored, ann I feel that I cannot commend the Water too highly.

R. F. WALKER. We have in stock a full line of the Celebrated Centenari KID GLOVES, in Black and Colors, in

Shirtings & Sheetings

AMELIA C. H., VA., December 15, 1886.

I have been a Dyspeptic for the past fifteen years, and lately have suffered with Derangement of my Urinary Organs, evidenced by great difficulty in voiding the urine. About six months ago I commenced the use of the Otterburn Lithis and Magnesis Springs Water, and since that time there has been marked and gradual improvement in my entire condition and state of health. My digestion is better than it has been for five or six years, and the urinary trouble is entirely relieved, and has been for the past two months.

THE FOLLOWING VOLUNTARY TRIBUTE to PANACEA WATER by that Christian gentleman, the Rev. J. P. Barrett, D. D., editor in chief of the Christian Sun, is only confirmatory of similar testimonials from other reliable sources on the same subject. Dr. Barrett says: PANACEA WATER.—There are so many "quack remedies" for dyspepsia, and kindred diseases, that it is hard to get people to believe that all remedies advertised are not "quacky" and worthless. In another column will be found the advertisement of the Panacea Water, by Mr. John A. Williams, of Oxford, N. C. We have great confidence in its value, especially in cases of dyspepsia. We have used it with great benefit, and we know whereof "we speak. In a week's time its use made a decided improvement, and we have no hestiancy in commending it to the suffering. We also know that when Rev. M. L. Hurley, of Franklin, Va., had been reduced almost to a skeleton from a terrible case of dyspepsia of several years' standing, and when the medicine of first class physicians had failed to cure, or even give much relief, he tried this water as well nigh the last hope, and to his astonishment in a few days he found great relief. He continued its use for several weeks and he is a well man. We write this notice of our own accord, that we may persuade the suffering to try the PANACEA WATER.

DISTRICT COURT OF THE UNITED STATES, Wilmington. United States against 15 packages distilled spirits, said to contain 435 gallons, seized as the property of Brunhild, Simon & Co., and Wilmington, N. C.

To Leopold Brunhild and Leopold Simon, partners, trading as Brunhild, Simon & Co., and to all whom it may concern—Greeting: Notice is hereby given, that the above mentioned property was seized by W. H., Yarborough, Collector of Internal Revenue for the 4th Collection District of North Carolina, on the 4th day of Cotober, 1888, as forfeited to the uses of the United States, for violation of the Internal Revenue Laws, and the same is libelled and prosecuted in the District Court of the United States for condemnation for the causes in the said libel of information set forth; and that the said causes will stand for trial at the Court Hoom of said Court, in the City of Wilmington, on the first Monday after the function day, and if the use of Otterburn Lithia and Machiner When and where you and all persons are warned where you and all persons are warned A. Hillman, thought was Diabetes, and advised the use of Otterburn Lithia and Manner Walet. The quantity of This passed was greatly in excess of the natural secretion. and I lost forty ramas of fisch in a few months. The use of the Otterburn Water corrected this excessive flow entirely in six weeks, and I am again a well man. I tried many medicines without avail, and I attribute my oure of this troublecome and dangerous disease entirely to the use of the Otterburn Water.

R. N. BLANTON. not at the next day of jurisdiction thereafter, when and where you and all persons are warned to appear to show cause why condemnation should not be decreed, and judgment accordingly entered herein, and to intervene for their interest. Given under my hand, at office in Whiteville, this 28th day of January, 1889.

HUCHES' TONIC SURE CURE FOR CHILLS AND FEVER.

AMELIA COURTY, VA., Feb. 24, 1888.

I hereby certify that two years ago I obtained some of the Water of the Ottarburn Lithia and Magnesia Spring for my wife in a demijohn, and recently, whilst moving to another home, I found that some of the Water had been left in the demijohn. I poured it out and drank some of it; and found it to be as pure and nice as when first taken from the Spring.

G. E. CRADDOCK. FOR 30 YEARS A SUCCESS. Read this Testimony then TRY IT for Yourself. IT CURES RESUMATIC GOUT. IT CURES RHEUMATIC GOUT.

E. E. JEFFERSON, of Johnston, South Carolina, writes as follows of it:

A lady here has been entirely relieved of a severe attack of Rheumatic Gout. * * * She found such immediate relief she did not take any modicine or any other remedy at all, and while on the sixth bottle stated that she had been entirely relieved and needed no more Water; her general health also being greatly improved.

E. E. JEFFERSON. Proprietors have many letters like these. BETTER THAN QUININE.

Mr. M. M. Kesterson, Dorsey Co., Ark., says: I can certify to the fact that Hughes' Tonic is the best chili 'onic I ever tried. I consider it etter than quinine." CURES CHRONIC CASES, MARKBORO, VA., March 17 1888. Mr. H. W. McDonaid, Laurel Hill, Miss., writes: "Your Hughes' Tonic for Chills and Fever has never failed yet, and I have sold it to a number of chronic cases. It cures them every time." When I commenced the use of the Otterburn Lithia and Magnesia Water, on the 38th of January last, I had no faith in any mineral water. I had been suffering for over three years with a disease that was pronounced by a promineni physician of Richmond to be an affection of the Kidneys, after making a solentific test.

I had only used the Water one week when I was entirely relieved of pain, which before had been constant and at times acute, and I have gained nineteen pounds in flesh, with a restoration of strength and energy. I gave the Water a, fair test, using no other water and taking no redicine. **Ask for Hughes' Tonic and take No Other**
