

Writing to change your address always give former address as well as full particulars as to where you wish your paper to be sent hereafter. Unless you both classes can not be made.

Have you received a bill for subscription to the WEEKLY STAR recently? If so, is it correct? If correct, why not pay it? Is there a man on earth who can print a newspaper for nothing and pay the postage besides? Can a farmer give away his corn, and cotton, and wheat, and chickens, and eggs, and keep out of the poor-house? If so, let us have the recipe. It will be valuable to us just now.

THE CHANCES AGAINST THEM.

The Republican party managers have long been noted for their trickery and for the readiness with which they adopt any policy which gives promise of making votes, regardless of the fact whether they had previously opposed it or not. We have a striking illustration of this now in the awakened interest the Republican leaders are showing in the silver question and the change of front that some are advocating on the tariff question.

WREAKING VENGEANCE.

The assassination of President Carnot on the streets of Lyons, France, Sunday night, in the presence of thousands of people who were giving him an ovation as he rode along in his carriage, dreaming of no danger, was one of the boldest assassinations on record, and must remove the impression, if any such existed, that the Anarchist organization was either broken up or intimidated.

FROM HELLFAX.

Train Runs into a Box-Car at Weldon-Engine and Mail Car Damaged. [Star Correspondence.]

WELDON, N. C., June 27. Passenger train No. 35, from the North, due here at 9:28 p. m., ran into a box-car just before reaching the depot shed last night. The tender and the mail car were damaged and one side of the engine-car was torn off. No one was hurt. It seems that some one had left the box-car on one of the side-tracks too near the main line. Our railroad here are competent and careful, but such accidents will sometimes occur.

Make This a Success.

The STAR has discussed the germ of another "small industry." It is proposed to establish here a factory for the manufacture of buckets, tubs, baskets and other products of wood. The correct thing now is to keep the plan moving. There's money in it, and the capital required is comparatively small. Who will take some stock in this enterprise? Only a few thousand dollars more needed. Further information may be had at the STAR office.

Crops in Pender.

The STAR received yesterday through Capt. Ward of the steamer Daggett, a cotton bloom from the plantation of Mr. D. J. Corbett, of Cantuck township, Pender county. Mr. Corbett writes that the corn and cotton crops in that section are excellent; the finest in years.

Sixth Judicial District.

The Democratic convention of the Sixth Judicial District (which includes New Hanover) has been called to meet at Morehead City, July 26th. Only a candidate for Solicitor is to be nominated. Mr. O. H. Allen is the present incumbent, and if he desires a re-nomination is very likely to get it.

Fifteen Parts of the "Famous Paintings of the World" are now ready.

There will be five more parts to complete the series. Save coupons now if you wish to order the entire twenty parts at once.

RIVER AND MARINE.

Oak Island Range Lights to be Discontinued.

A press dispatch to the STAR last night says: "The Light House Board gives notice that on or about July 31, 1894, Oak Island range lights, on the south side of the easterly end of the Cape Fear river, North Carolina, will be discontinued. They have ceased to be useful as aids for crossing the bar."

NOTICE.

By order of the Democratic Executive Committee of the Sixth Judicial District, the Convention for nominating a Solicitor for said district will meet at Morehead City on Wednesday, July 26th, 1894.

The Demand Rapidly Increasing.

Mr. E. J. Madden, Damascus, Miss., writes: "It is astonishing to note the rapidly increasing demand for Hughes' Tonic; to sell one bottle of it is a much larger sale. We pronounce it by far the best medicine we handle for chills and fevers."

THE CAROLINA CENTRAL.

What the Bondholders Think of the Default in Interest—The Meeting Expected to Devise Some Means Looking to a Reorganization. Additional to what has heretofore appeared in the STAR, the following from the Baltimore Star of yesterday will be found interesting:

The action of the Seaboard and Roanoke Railroad in declining to pay the July interest on the bonds of the Carolina Central Road was much discussed among bankers and brokers yesterday.

The meeting of bondholders called for Saturday at the Maryland Trust Company is expected to devise some means looking to a reorganization of the property. The bonds of this road are largely held in Baltimore. The bondholders complain of the action of the Seaboard and Roanoke management in declining to meet the interest on the bonds.

According to the Chicago Herald there are 236,000 voters in that city who do not vote. Chicago claims a population of about 1,500,000. On the usual ratio of votes to population this leaves about 1,280,000 who have no representation in the ballot box, which would put out about 44,000 votes. There must be some groggy figuring done by the Herald.

A London chemist has discovered that a hair-restorer which is having a run in that town at 50 cents for a two-ounce bottle, is composed of common water, with a little salt and some sage extract. This innocent fraud on the bald-headed man has at least the merit of being harmless.

How many thousands you hear people say, spelling an unfamiliar word, "That doesn't look right," but they let it go because there is no dictionary at hand by which to refresh the memory.

The American Encyclopaedic Dictionary, which is offered to every one of our readers on the liberal terms set forth in another column of the STAR, Twelve Parts may now be ordered. One coupon and 17 cents (which includes postage) for each Part.

Infants Riches in a Little Room—Something for You to Consider.

Take an acorn. Plant it—an oak! Fell the oak, split it, boards—a ship, a house, a desk! The ship was a battle, in the house a child is born, on the desk pearls of thought and words of might are penned! A child's mind—educate it—a general, a poet, a statesman! Let it alone, a ninny; half educate it—a common place mortar. "The woods are full of them."

A Dictionary—Even a poor one has its value. But the best—"Infants Riches in a Little Room," and this is the American Encyclopaedic Dictionary.

This is the way to get it: Send to the STAR one coupon and 17 cents (which includes postage) for each part. Twelve Parts are now ready. Remedy an announcement in this paper for particulars.

HEAVY RAIN—Crops Injured by Drought.

[Star Correspondence.] TAR HEEL, N. C., June 22. A severe storm passed over this place last Tuesday, doing much damage to trees, fences and crops. The top of the warehouse which stands at the river was taken from the building and carried about seventy feet and deposited on the top of a log house. Large swamper trees were twisted off at the top and carried across the river.

There was a very heavy rainfall, which was very much needed, as all crops have sustained serious damage on account of the drought.

KILLED ON THE RAIL.

A Colored Man Run Over by the Local Freight Between Weldon and Kinston. [Star Correspondence.] WELDON, June 25.—The local freight train between Weldon and Kinston ran over and killed a negro near the town of Greenville last week. It seems that there were some cows on the track which obstructed Engineer P. R. King's view until he was within a few yards of the unfortunate man. When he saw him he reversed his engine, applied the brakes and did everything in his power to avoid killing him, but could not; he was too near when first observed. The train was composed of twelve cars, six of which were loaded with lumber and all were on tight. The coroner's jury thought Conductor W. L. Jones was guilty of negligence and he was required to give bond for \$1,000 for his appearance at court. He and Mr. King are most excellent gentlemen, perfectly sober and very reliable, and we know that the accident was unavoidable.

DWELLING BURNED.

Cap. T. W. Battle's Home Near Rocky Mount. Editor Wilmington Star.—Capt. Turner W. Battle had the misfortune to have his dwelling at Coal Springs burned Sunday morning about 9 o'clock—a good deal of furniture saved—extent of damages not known. It was an old family home and the Captain has many sympathizers—if any insurance, not known how much.

Guaranteed Cure.

We authorize our advertised druggist to sell Dr. King's New Discovery for Consumption, Coughs and Colds, upon this condition: If you are afflicted with a Cough, Cold or any Lung, Throat or Chest trouble, and will use this remedy as directed, giving it a fair trial, and experience no benefit, you may return the bottle and have your money refunded. We could not make this offer, did we not know that Dr. King's New Discovery could be relied on. It never disappoints. Trial bottles free at R. R. BELLAMY'S Drug Store, Large size 50c. and \$1.00.

THE CAROLINA CENTRAL.

The July Interest—Meeting of Bondholders Near Saturday—Earnings Show a Considerable Deficit. In reference to the July interest on the first mortgage bonds of the Carolina Central, briefly mentioned in the STAR of yesterday, the Baltimore Star has the following:

Alexander Brown & Sons have called a meeting of the first mortgage bondholders of the Carolina Central Railroad in Baltimore for next Saturday. The call is issued because the management of the road has decided to pass the July interest on \$2,350,000 first mortgage bonds. It is said the passing of the interest payment is made necessary by large and unexpected cash expenditures which have become necessary to put the Carolina Central in a condition to be safely and economically operated. The meeting will take whatever action the bondholders deem desirable under the circumstances.

The meeting of bondholders called for Saturday at the Maryland Trust Company is expected to devise some means looking to a reorganization of the property. The bonds of this road are largely held in Baltimore. The bondholders complain of the action of the Seaboard and Roanoke management in declining to meet the interest on the bonds.

THE CAROLINA CENTRAL.

The July Interest—Meeting of Bondholders Near Saturday—Earnings Show a Considerable Deficit. The Carolina Central has always been regarded as part of the Seaboard and Roanoke system, because it has been operated in the interest of and under the same management as the properties in that system. Mr. R. Curzon Hoffman, president of the Seaboard and Roanoke, said yesterday that it should be distinctly understood that any failure of the Carolina Central would have no effect on the properties and obligations of the Seaboard and Roanoke.

THE CAROLINA CENTRAL.

The line of the Carolina Central extends from Wilmington to Rutherfordton, N. C., 287 miles. The property was foreclosed May 31, 1890, and was reorganized. It then passed under control of the Seaboard and Roanoke and Raleigh and Gaston Railroad Companies. The earnings of the company for the year ended June, 1893, which was the year before the general business depression commenced, showed a considerable deficit. The net earnings are given at \$98,196.30 on bonds, \$128,115; on debt, \$10,453.32; other earnings, \$110,070.06; total, \$157,647.27. Deficit, \$48,011.79. Receipts, \$90,070.06. Deficit as shown by balance sheet to June 30, 1893, \$138,093.15. The deficit has since been considerably increased by the operation of the company bear interest at 6 per cent. a year.

DEATH OF COL. HEDRICK.

A Gallant Confederate Soldier Who Served Through the War from the Beginning to the Close. Col. Jno. J. Hedrick died at his residence in this city last Sunday evening at 8 o'clock, after a long and lingering illness, in the 71st year of his age. Nearly two years ago he had a stroke of paralysis, and since then had been an invalid, helpless, almost speechless, and a constant care to his devoted wife and children.

Col. Hedrick was a gallant Confederate soldier and served through the war, from the beginning to the close, with distinction. Before the outbreak of hostilities between the North and South he organized a company known as the Cape Fear Artillery, and when the first gun was fired at Charleston, S. C., with a portion of his command, on the 8th or 9th of January, 1861, took possession of Fort Caswell and Johnson at the mouth of the Cape Fear river; but a few days afterward, on the 12th of January, by order of Gov. Ellis, through Col. Jno. J. Cantwell, commanding the 80th regiment N. C. State militia, the forts were evacuated by Capt. Hedrick and restored to the United States authorities. On the 18th day of April, following, by order of the Governor of the State the forts were seized by the volunteer companies of Wilmington—the Wilmington Light Infantry, Capt. W. L. DeRosset; the German Volunteers, Capt. C. Cornelison; the Wilmington Rifle Guards, Capt. O. P. Meares, and the Cape Fear Light Artillery, Capt. Jno. J. Hedrick—all under command of Col. Jno. L. Cantwell. The Cape Fear Artillery was one of the companies selected to take charge of the Johnston's works in Wilmington. Captain Hedrick and his company were ordered to Fort Caswell and thence to Zeke's Island. Soon after, Captain Hedrick was appointed Major of Engineers, and sent to Smith's Island, where he built and commanded Fort Holmes. He was then made Colonel of the Fifth regiment (Third artillery) and was in command of the Fort Fisher for a time. In January, 1865, he was transferred with a portion of his command to Fort Anderson. When the Federal troops and fleet attacked Fort Fisher, in 1865, with five companies of his regiment he withstood the attack until he found the fort untenable, and spring his guns and blowing up the magazine, he fell on Wilmington. With his regiment he was in the engagement at Kingston, at Averasboro, and at Bentonville—the last battle of the war—where he was wounded. Col. Hedrick was born in Wilmington in 1825. He married a daughter of the late Capt. Ben. Henry, and his wife and sons survive him. He was for many years engaged in the dry goods business here, and as senior member of the firm of Hedrick & Ryan, transacted a large and profitable business.

The funeral of the deceased took place yesterday afternoon at 3 o'clock from St. Paul's Episcopal Church, Rev. Mr. Skinner, the rector, conducting the services. The pall-bearers were Active—Messrs. W. H. Hovey, Geo. P. Bell, J. W. Toomer, E. O. Toomer, John H. Beery, R. J. Beery, James A. Fore and Benj. Bell. H. Harral—Col. E. C. McHenry, Col. E. D. Hall, Mr. W. F. French, Capt. W. C. McLintie, Dr. W. W. Harris, Mr. W. I. Gore and Col. Jno. L. Cantwell.

JULY WEATHER.

The Weather Bureau's Observations at the Wilmington Station For the Past Twenty-Three Years. Mean or normal temperature, was 80 degrees; the warmest July was that of 1873, with an average of 84 degrees; the coldest July that of 1888 with an average of 76 degrees; the highest temperature during any July was 103 degrees on the 18th, 1879; the lowest temperature during any July was 58 degrees on the 11th, 1890.

Precipitation—Average for the month 5.71 inches. Average number of days with .01 of an inch or more, 18. The greatest monthly precipitation was 21.12 inches, in 1886; the least monthly precipitation was 1.95 inches, in 1875. The greatest amount of precipitation recorded in any 24 consecutive hours was 7.33 inches, on July 15th, 1886.

Clouds and Weather—Average number of cloudless days, 7. Average number of partly cloudy days, 17. Average number of cloudy days, 7.

Wind—The prevailing winds have been from the southwest. The highest velocity of the wind during any July was 45 miles on the 23d, 1881, and on the 25th, 1889.

The Ladies.

The pleasant effect and perfect safety with which ladies may use the California liquid laxative, Syrup of Figs, under all conditions, makes it their favorite remedy. To get the true and genuine article, look for the name of the California Fig Syrup Co., printed near the bottom of the package.

KILLED ON THE RAIL.

A Colored Man Run Over by the Local Freight Between Weldon and Kinston. [Star Correspondence.] WELDON, June 25.—The local freight train between Weldon and Kinston ran over and killed a negro near the town of Greenville last week. It seems that there were some cows on the track which obstructed Engineer P. R. King's view until he was within a few yards of the unfortunate man. GRAIN AND PROVISIONS.

Wheat Weak and Lower—Corn Quotations Dull and Unchanged—Pork Products Easy and a Trifle Lower. By Telegraph to the Morning Star. CHICAGO, June 27.—It is taken for granted that the majority of July contracts in wheat have been entered closed, and that the transfer of wheat into September, and that the trade is awaiting authentic tidings of the harvesting before acting in the market to any extent. The situation is very unsettled, and a brief spell of activity at the opening, and one or two little spurts during the session, but further than that a settled call by the pit. A full half cent was lost overnight, and during the first few minutes additional declines were made, but subsequently there was a slight rally, owing, no doubt, from generation of too much rain, especially in the Southwest. Everything that was received favored the early weakness. September wheat opened at 60 1/2c, closing at 61 1/2c. Cash wheat was about 58c lower.

Corn.—With a range of but 1/4c, it can easily be seen that it is hardly possible that there could be much if any feature to this market. There was the lightest kind of a trade and the opening and closing prices were the same, showing a slight depression from yesterday. The stock opened at 41 1/2c, sold between 41 1/2c and 41c, closing where it started.

Oats were dull and weak. There was a little changing over into September from July, but there was very little interest taken in the market. July and September each closed 1/4c under yesterday.

Provisions were dull and easy. There was very little offer or disposition to trade, the pit being deserted most of the session. Lower prices and the Pullman strike gave tone of easiness to the market. At the close September pork and lard had each lost 1/4c from yesterday. September ribs closed unchanged. Very little inquiry was heard for produce.

SPO'S AND FUTURES.

The New York Sun's Review of the Situation in Cotton. By Telegraph to the Morning Star. NEW YORK, June 27.—Cotton declined one to two points, recovered this morning, and closed at 12 1/2c. Closing steady. Sales, 130,000 bales. Liverpool declined two to three points and closed quiet; spot sales, 12,000 bales at 11 1/2c. The market was nearly supported. In Manchester yarns and cloths were quiet. New Orleans declined two to five points but rallied later. No July notices were sent out at New Orleans. September rice closed quiet and steady. Sales, 520 bales for spinning. The Southern spot markets were dull. Most of them showed no change. New Orleans—September 1,350 bales; St. Louis 500 and Memphis 435. Port receipts 928 bales, against 1,175 this last week and 1,415, against 1,339 this week and 848 bales, against 6,359 this far this week last year.

To-day's features: A decline in Liverpool caused a slight decline here early in the day. But the small amount of advance was made, owing to support from strong houses, some of which stopped the July notices, while those who sold in the first few months of the year are needed in Texas, and drought complained of in parts of Tennessee. The price of cotton is low, and there is a steady demand for spot cotton. There was more interest in the market, the under tone was firm and bears were cautious.

AN ILLINOIS LYNCHING.

Wm Pinkerton Beaten to Death by a Mob. By Telegraph to the Morning Star. SPRING VALLEY, ILL. June 27.—There was a sensation in Justice Wiley's Court yesterday afternoon, followed by a mad rush on the part of about three hundred enraged foreigners upon the prisoner, Wm. Pinkerton, who was on trial for an assault on Anna Baraski, committed last Friday. Pinkerton made a leap out of an open window, but was soon overtaken and beaten to death by the mob. The accused was taken to the jail, and his body was buried in a shallow grave. The justice and lawyers made no effort to cover up the outrage committed by Pinkerton inciting his friends and neighbors to avenge the wrong. The justice and lawyers made no effort to cover up the outrage committed by Pinkerton inciting his friends and neighbors to avenge the wrong.

A NEGRO LYNCHED.

He Had Assaulted Two White Women and Paid the Penalty. By Telegraph to the Morning Star. SAVANNAH, June 25.—Fayette Franklin, a negro seventeen years of age, was arrested in Milledgeville yesterday morning, charged with felonious assault on two white women in Decatur and Mitchell counties. When Sheriff Harts was at the office on Anna Baraski, the negro's victims he chained the prisoner to the buggy in which he was taking him to jail. While the sheriff was taking two hooded men took the negro into the woods and he was lynched since. He was undoubtedly lynched. The accused was identified by one of his victims.

Brain workers will find Johnson's Aromatic Compound Liver Oil, with Iron, Quinine and Strichnia, a nerve and brain tonic of unusual merit; medical science produces no better. J. HICKS BUNTING, J. H. HARDIN.
