AMERICAN ANARCHISM.

We are in the habit of discussing Anarchism in Europe and moralizing on it and its causes, forgetful of the fact that we have in this country an Anarchism which asserts itself more holdly than the Anarchism of Europe does, for there it assassinates and flees from authority, while here it defies authority. About the only difference between the Anarchism of Europe and this country is that while the Anarchists over there have recourse to the bomb and the dagger to carry ou! their plans, the Anarchists in this country proclaim boy cotts and shoot down officers of the law who undertake to interfere with them. They call it striking or boycotting, but it is Anarchy just as much as that proclaimed by the bomb-thrower or dagger-wielder, the difference between them being simply a difference of methods in the agencies employed to enforce their con

Anarchy means rule without law. the destruction of law, and ultimately the rule of the boldest or strongest, for that is what anarchy would eventually result in -a despotism of brute force. Anything which destroys law or defies it and overrides it with brute force is anarchy in all its essential features, whether they who believe in this go so far as to advocate and utilize the dagger or the bomb or not.

No reflecting person can for a moment doubt that the spirit of Anarchism has made notable progress to this country within the past few years and that it has spread even to the rural districts where no one would think of looking for it. We do not asseit nor believe that every one who obeys the mandate of a presi dent of a secret organization, or of a lieutenant acting under orders, would, of his own volution, endeavor to bring on a condition of chaos, but when any man surrenders his individual judgment and his freedom of action to the guidance or command of any body of men drawn together in a spirit of antagonism to other bodies of men, men, and of an arbitrary despotism which only needs a bold and resolute spirit to make it fearful. The rank and file of these striking bodies may not be Anarchists in intent, they may believe that they are exercising a right which is theirs for mutual protection, but we have not the slightest doubt that the leading spirits are all imbued with the spirit of anarchy, and have caught much of the contempt for law which they display from communing with imported Anarchists and from studying

In the late coal strike where the mob in certain localities in Pennsylvania made the military arm necessary to suppress it, large quantities of anarchistic literature was found in the houses where arrests were made. And this is not surprising for we have left our gates stand open for the admission of all of that kind who chose to seek our shores when they found life on the other side under too much restraint. We have the imported Mosts, Schwabs and other incendiaries of that kind through tongue and press publicly proclaiming their creed of destruction, and glorifying the dagger that struck Carnot down. They have advocated defiance of law and authority for years and do not hesitate to advise recourse to the bomb or the dagger when an offensive per sonage is to be removed. The bomb was used in the recent coal troubles, in some instances with horrible results. How long would it roads, and insultingly defies the law which protects him and others, to become, if foiled and angered, a bomb thrower, thus wreaking vengence on his presumed enemies? When he is worked up to the pitch of defying the law, all he lacks to become a bombthrower is sufficent incentive to go to that extreme. While the other side do with the stealthy dagger or destructive bomb, there will be no motive to resort to assassina-

MINOR MENTION

The great strike is spreading East-

ward and Southward and what might

have been checked and kept within narrow bounds by firm and timely action has now got almost beyond control, and where it will require extraordinary efforts to suppress it. Instead of dealing with it resolutely in the beginning the authorities of the city of Chicago dallied with it while the strikers were every hour becom ing more assertive and aggressive, encouraged by the seeming indifference or the cowardice which feared to speak out in a commanding voice. These same authorities, who now are compelled by the frenzy of the mob to take action which they ought to have seen from the first was inevitable, put on brave airs, talk about suppressing the riot with an iron hand, and strut with assumed indignation at the so called unwarranted interference of the U. S. Government in a family row, instead of operating with the U. S. Government as they should do. It is not a mere State affair, for these strikers are making war not only on the railroads entering Chicago, but on the people of the United States. There is hardly a family in the country which has not felt its effects more or less already, while the denizens of the large citles in the West and in the North are dependent to a large extent for the food they eat daily on the will of the few man who are directing the strike. Even the milk trains which supply the inhabitants of these cities with milk, run by permission of these autocrats. In protesting against the action of the United States Government to prevent this state of affairs, this throttling of commerce, sup-

gogue, and not the detender of State sovereignty, who speaks. Republican and Populist demagogues are trying to make political capital by charging all the distress in the country, the industrial depression through which we have been passing, the embarrassed condition of the Treasury, the low price of farm products, &c., to the present Democratic administration, and the policies inaugurated by it. But the fact is that these are all an inheritance from the preceding Republican administration, which is shown in the following terse, comprehensive extract which we make from the Philadelphia Record, and which we commend to those who are finding fault with the Democratic party for

pression of industries, and threat-

ened starvation of cities, which

may be followed by the horrors of

conflagrations lighted by the torch

of the incendiary, it is the dema-

not doing impossibilities: "For the fiscal year ended June 30 become the pliant tool of designing men and of the Government was \$408,980,883. For the fiscal year ended June 30, 1894, the revenue was \$395,000,000-a falling off of over \$100,000,000. To better illustrate the workings of McKinleyism the following figures showing customs and internal revenue receipts for the four past fisca years are given :

> Fiscal Year 1891.....\$229,688,585 \$142,606,706 1892..... 219,522,305 145,686,249 177,452,964 153,971,079 *132,000,000 *145,000,000 *Estimate.

It will be observed that while there has been a falling off of over \$97,000,000 in customs, there has been an increase standing the business depression.

"At the same time that the Billion one hand it enlarged expenditure with the other. When Harrison surrendered office to President Cleveland the Treasury was bankrupt; but fixed expenditure had been swollen to terrific proportions. In 1889, when Harrison went into office, the total ordinary expenditures of the Government, exclusive of interest on the public debt, were \$299,288,978. For the fiscal year ended June 80, 1892, the ordinary expenditures were \$365,773,905-an increase of over \$66,000,000. The Billion Dellar Congress brought ordinary expenditures up to a million dollars per

President Debs, of the A. R. U who has sprung into such sudden no- be duly qualified to vote in the election toriety, is quoted as saying, when to be held in this State on the 6th day speaking of the outlook for the strike, and the interference of U.S. troops, that "the police and State militia could and would put down take the man who seizes rail- the rioting if let alone." "I regret," he said, "the disturbance, but we cannot govern the lawlessness." Neither can a man who fires a building govern the conflagration that may follow. Mr. Debs knew when he ordered this colossal strike, embracing many railroads reaching in strikers can accomplish with num- all directions and covering many bers what the Anarchists on the thousands of miles, that it would result in lawlessness and that this very act itself was the beginning tion and it will not be done, but the of the lawlessness, for he knows the spirit of Anarchy is there all the history of strikes well enough to

leaves no doubt of its presence and lessness, in the destruction of property and in the loss of life. If he regrets "the disturbance" let him call off his strike, and give no further encouragement or excuse to the lawless element, which always takes advantage of such disturbances to wreak vengeance or secure plunder. Debs is a public enemy who should be suppressed without ceremony.

The Fleming tamily in this country is in no immediate danger of becoming extinct. It has an organization numbering 13,000 (which does not include all) who are descendants of four brothers who came to this country in 1680. They will have a family re-union in Henry county, Indiana, some time next month. These with the Smith and Jones families could make quite a respectable turn

The city of St. Louis is well satisfied with the tests made of vitrified brick as a street paving material, especially for residence streets, where they are durable and not objectionable on account of noise as stone

ANOTHER A C. L. TRIUMPH.

a Short-Cut Between Remini and Den mark Completed-Quickest Line From North to South.

The Columbia State of yesterday gives the following interesting particulars concerning the completion of the new Short-Cut of the Atlantic Coast Line:

Yesterday the following self-explanatory letter was received by the State To the Railroad Commissioners of South

We have finished laying the rails or our extension of the Manchester and Augusta road, from Remini to Denmark. We wish to open the road from Remini to Orangeburg on the 15th instant. We propose at present simply to run local freight trains. I will be glad if you will appoint a day to inspect the road. Any date that will be convenient to the comoners we will arrange for.

J. R. KENLY, Gen. Mgr. The commission has not yet fixed the The Coast Line commenced work or this short cut last Winter. The completion of the branch means the forging of the short link which was needed to put the Coast Line system on a footing with all competitors. It will greatly reduce the run from North to South, and divert from Charleston much through travel from North to South. The short cut just completed starts from Remini in Sumter county, and runs via Orange hurg, where it crosses the Colum bia division of the South Carolina and Georgia Railway, to Denmark, where it connects with the Au gusta division of the same road and the main line of the Florida Central and Peninsular for Savannah and the South The Coast Line people, if they arrange with the F. C. & P. road to handle their last through trains from Denmark on to Fiorida and divert them over this route will perhaps have the quickest line from North to South ever known. By the time

the winter business begins the matter will have taken permanent shape. The new line of road is a handsome piece of work. The grading has been done with unvsual care and the track is

DEMOCRATIC PRIMARIES.

Election of Delegates to the County Con vention Wednesday, the 18th Instant.

The Democratic Executive Committee of New Hanover county met yesterday at noon in the court house in this city. There were present Messrs. W. R Kenan (chairman), Thomas Quinlivan, Wellington Banks, Walker Taylor, John D. Bellamy, Jr., E. G. Parmele, F. A. Montgomery, J. P. Walton and E. W.

Capt. Kenan called the meeting to order. He stated that he had a petition, signed by a number of citizens, requesting an early call of the primaries, which petition was presented by Col. Thomas W. Strange and Capt. W. P. Oldham; that he had stated to these gentlemen that a meeting of the Executive Committee had been called for Saturday, the Dollar Congress cut down revenue with 7th, to issue a call for the primary elec-

On motion, reading of the petition was dispensed with.

On motion, the secretary was in structed to advertise a call for primary elections, to be held on Wednesday, July 18th, and the County Convention on Saturday, July 21st following:

Voting places will be opened in each of the several wards and townships at 6 o'clock a. m., and will remain open until 7 o'clock p. m., Wednesday, July 18th, and every Democratic voter residing in said wards or townships who will vote at said primaries.

Every Democratic voter shall have the right and privilege of voting for the number of delegates to the County from one to three bands. Convention to which his ward or township is entitled, for five persons to constitute the Executive Committee of his ward or township, and also to vote for his choice for the following county officers, to-wit: Sheriff. Clerk of Superior Court, County Treasurer, Register of Deeds, and Coroner, and also for two members of the lower house of the General Assembly, and in each township for township constable.

On motion, chairman W. R. Kenan, Mr. Walker Taylor and Capt. E. W. Manning were appointed to fill any vacancies which may occur by the failure same, and asserts itself in a way that know that they always result in law- form his duties on the day of election. of New Hanover county. CARLYLE'S ENDORSEMENT.

THE PRIMARY ELECTIONS. They Will Be Held July Eighteenth-A New Plan - Its Fairness Connot Ba

It will be seen by reference to the official call, printed in the STAR to-day, that the Democratic Executive Committee has taken a new departure as to the method of holding the primary elections.

For some reasons, the STAR would have preferred the old plan, but a careful reading of the new one must lead to the conclusion that on the ground of absolute fairness there can be no just cause of complaint. Now, every Democrat in New Hanover can go to the place designated in his ward or township and cast his vote for the number of delegates to which such ward or township is entitled in the county convention. He can also vote for the men of his choice for all the county offices, for members of the Legislature, and for members of the County Executive Committee.

The polls will be open from 6 o'clock

m. until 7 o'clock p. m., giving every voter ample time and opportunity for depositing his ballot. There can be no fear of "packed" meetings nor of "cut and dried" resolutions, for under the new plan, there can be none. Every Democrat in the county can cast his vote, free and untrammelled, for delegates to the county convention, for Sheriff, for Clerk, for County Treasurer, for Register of Deeds, for members of the Legislature, for Township Constable. and for ward or township members of the County Executive Committee, The delegates elected will assemble in county convention and ratify the action of the people. This convention will also appoint delegates to the State, Congressional and Judicial Conventions.

Under the new arrangement the Democratic party may be brought into unity and harmony preparatory to the great political battle to be joined in November. The STAR urges all Democrats to go to the primaries, to make a manly fight for their favorites, and then submit to the verdict of the people.

THE SHOE-STRING DISTRICT.

A Forecast of the Result for the Nomina tion-It Is Based Entirely on Inform tion Known to Be Reliable.

In the Sixth Congressional District the outlook is less obscure than it was ten days ago, and forecasts may now be taken with some degree of correctness. It would seem now that, although Hon. S. B. Alexander has a considerable following in some parts of the District, the old two-term limit will be successfully used against him, and that he will be laid aside for a new man.

The fight between LeGrand and Mc-Neill has become somewhat acrimonious, both being from the same county, and it does not seem likely to improve the chances of either for the nomination. Lockhart, of Anson, is making an

active canvass and will probably make a fair showing on the first ballot. He will be backed solidly by his own county and will receive fractional votes from two or three other counties.

But Bellamy's chances seem far better than those of any other candidate. In addition to the conceded fact that New Hanover is fairly entitled to the nomination, it is unquestionably true that he is the second choice of a large proportion of the friends of the other candidates, and it is more than likely that on the second or third ballot he will receive votes from every county in the District. His vote from Mecklenburg will be a urprise to those who are not posted as to the progress of the campaign, while his support from the Wilmington end of the "shoe-string" will be almost solid. This forecast of the STAR is based entirely on its own information, received from the several counties of the District, and it believes the result will show

that it is not far out of the way. Maxton Against Raleigh.

Maxton, so long noted for the skill of its checker players, is all excitement now over a contest in progress between Mr. A. F. Bowen, of Raleigh, and Mr. H. C. McNair, of Maxton, for the State champlonship. The former claimed that honor, through the New York World, and Mr. McNair challenged him. They have been playing ten games by correspondence, but this series has not yet

Bowenigrew impatient, however, and went to Maxton to spend "the Fourth," where he and McNair "stripped for the fight" (metaphorically speaking, of course,) and held an exciting contest "across the boards." They played twenty of the forty games agreed on for the championship, which resulted in a victory for Maxton, the score standing 8 for McNair, 6 for Bowen and 6 'draws." The return contest will take

place at Raleigh soon. The fact is all the McNair brothers are "powerful shifty" on checkers, and it would be hard to find three players in North Carolina who can beat Howard C., Walter S. and Murphy McNair.

The Pythtan Encampment. A Washington telegram says: At estimate of the maximum number o visitors to Washington during the Knights of Pythias Encampment in August has been placed at 150,000. This now appears to be a reasonable conjecture, as from a letter received by Mr. G. E. Emmons, secretary of the citizens' committee, Major General Carnahan reports that 11,650 of the Uniform Rank have already applied for places in the camp, and each organization will bring

CAPT. J. A. MUSGROVE.

WELDON, N. C., July 6. EDITOR STAR:-Capt. J. A. Musgrove, for the past eighteen years the polite, efficient and obliging agent of the Atlantic Coast Line at this point, has severed his connection with the road here very much to the regret of his friends, and they are legion. I have known him intimately for fifteen years and never heard one unkind word uttered against him by employe or patron.

- Capt. Louis S. Belden announces himself a candidate for Sheriff

"May blessings be upon Cadmus, the Phoenicians or whoever it was that invented books," Thus spake Thomas Carlyle. Blessed be the dictionary! Blessed be the encyclopædia! But thrice blessed be the both-in-one that is handy, compact and does not take our

precious time away from us!

Such an one is the American Encyclopædic Dictionary. A dictionary and en-cyclopædia in one, and better adapted o popular requirements and needs than any dictionary or encyclorædia ever published. A SOCIAL EVENT:

Marriage at Point Caswell-Miss Juli Kelley and Mr. M. O. West,

[Star Correspondence.] POINT CASWELL, July 8 .- The most nteresting social event at this place for netime was the marriage in the Baptist Church on last Sunday night, the 1st inst., of Mr. Mat. Oswald West, of Wilmington, and the much admired Miss Julia Ann, daughter of the venerable Daniel Kelley.

The officiating clergyman was Rev. Frank W. Wooten, who united the couple n the most impressive and affectionate manner. They are now bound by "the silken tie which binds two willing

The decoration of the church was of the most tasteful and fitting kind, due to the skillful oversight of Miss Mollie Volers, who, an accomplished pianist, also played the wedding march with perfect touch. The entire appointments were without a blemish. The ladies, bride and maids, were lovely (I'm not "Jenkins" enough to describe their costumes), and the ushers and groomsmen were dignified. The ushers were: Capt. D. Joseph Black and C. Henry Zibelin. The at-tendants: Mr. Lewis Vollers, Miss Salie Ward, Mr. Wash Malpass, Miss Kate Sherman, Mr. John Sherman, Miss Hat-tie Malpass, Mr. Charles Wets, Miss Alice Kelley. After the services at the church, the

prominent actors returned to the "Laavette" House, the late residence of the bride, where, together with few invited friends they enjoyed an excellent supper. The following morning the couple left quite early on the (Great Eastern) W. T. Daggett for Wilmington, apparently

much pleased with each other and "the rest of mankind." Yours, Q. THE 34-PUZZLE.

WILMINGTON, N. C., July 4.

EDITOR STAR :- In to-day's STAR under the heading of "The Latest Craze" see that the "34-puzzle" troubles the brains of curiosity-seekers. I think that you would confer a great benefit on your readers by informing them that the solution of the puzzle may be found in the Encyclopædia Britannica vol. xv, p 215. Do you not think that the Chicago inventor of the puzzle owes his "origi nality" to this great work? It looks very much as if he had been plowing with somebody's heifer.

CHARLES J. MENDELSOHN.

The August numbers of the Paris Album of Fashion and La Mode de Paris are out, and are jewels of artistic execution. For gorgeousness of illustration and neatness in finish these publications are unequalled. The figures, colored and plain, give at one glance a correct idea of the styles, while the patterns with the descriptions, and lessons in dress-making are all that any dressmaker needs. Huckleberries and blackberries sold at 5 cents per quart; strawberries, 10 cents; apples, 10@15 cents per quart.

In the vegetable market there was an new weight with its use; pale cheeks abundance of cabbage at 5@10c; corn, gain color, and the skin, undoubtedly the best index of health, is cleared up 10@15c per dozen; cucumbers, 3@5c; and freed from the disfiguring signs of potatoes, 5c per quart; onions, two the bad humors that are in the blood. bunches for 5c; tomatoes, 5c per bunch: egg-plant, 10@15c apiece; okra, 5c per

quart; lima beans, 10c per quart. The fish market was supplied with flounders at 10@15c per string; mullets, 10c; blackfish, 10@15c; pigfish, 10c; sand perch and trout, 10c; shrimp, 15@20c per quart; clams and Sound oysters, 121/ @15c per quart.

Spring chickens sold at 12 to 20 cents piece, according to size; grown fowis 25@30c; eggs, 121/2@15c.

NEW ENTERPRISES In the South Reported by the Manufac turers' Record. By Telegraph to the Morning Sta BALTIMORE, July 5 .- The Manufac

turers' Record, in its weekly review of Southern business conditions, says: The first week in the second half of the year shows more activity in the organization of new enterprises in the South, and in general a most satisfactory outlook than could reasonably be expected considering the depression in other sec tions and the strikes in the West. The coal strike in Alabama, like that in Maryland and West Virginia, has been settled, and at the present the entire South is practically free from all labor

Important enterprises reported during the week include a \$40,000 cedar penci factory, ice plant, flour mill and shoe factory in Tennessee; a \$50,000 drug company, ice factory and corn mill in Alabama, a \$100,000 tanning company, \$25,000 machine company, \$10,000 telehone company and tobacco factory in Virginia; a \$50,000 drug company, machine shops, water works and phosphate mines in Florida; a knitting mill \$25,000 printing company, \$34,000 building company, etc., in Georgia; several lumber mills in Mississippi; a 5,000 spindle cotton mill and water works in North Carolina. A number of new buildings were also announced, including four or five important schools: a \$23,000 college in South Carolina \$12,000 college in Alabama; \$35,000 university in North Carolina.

New Railroad Route. The News and Courier says of a new through route to New York:

"The South Carolina and Georgia Railroad will to-morrow inaugurate a new through route to New York via the Charleston, Sumter and Northern Railroad, connecting at Hamlet with the Seaboard Air Line, via Weldon, Richmond and Washington, thence by the Pennsylvania road into New York. The figures of the entire schedule cannot at this time be given, but the leaving time from Charleston will be 4 p. m., Preg-nall's 5.20 p. m., leaving Hamlet at 10.20 . m., with a through Pullman sleeper to New York, making the run in about 23 hours. The time returning will be as follows: Leave New York at \$20 p. m., arriving at Hamlet at 7.54 a. m. for breakfast, arriving at Charleston at 2.80 . m. A complete schedule will be pub-

Have you recevied a bill for subscription to the WEEKLY STAR recently? If so, is it correct? If correct, why not pay it? Is there a man on earth who can print a newspaper for nothing, and pay the postage besides? Can a farmer give away his corn, and cotton, and wheat, and chickens, and eggs, and keep out of da; very fine crop and is beginning B. F. Baker was arrested a day or two the poor-house? If so, let us have to tassel. Tobacco is budding out at the recipe. It will be valuable to us just now.

ished in the Sunday News to-morrow.'

trying to elude his pursuers, and had taken to the woods in the mountains. - Raleigh News and Observer: It was with deep concern that our community heard yesterday that our esteemed citizen, Mr. Andrew Syme, was at the point of death with lock-jaw. One day last week while experimenting with a bicycle, Mr. Syme fell and broke his arm in two places. He suffered greatly until Wednesday, when lock-jaw set in and from that time on his condition continued extremely critical. His suffering was aggravated by erys pelas, and yesterday all hope of his recovery was abandoned. Mr. Syme passed away at his residence at the corner of Person and North streets at 9.18 o'clock last
