

OMINOUSLY CLOSE TO ACTUAL WAR. Secretary Hay's Reply to Li Hung Chang Closed the Negotiations.

THE ADVANCE ON PEKIN. There Will Be No Bargaining in Advance of Concession by Chinese Authorities for Free Communication with the Ministers.

WASHINGTON, August 2.—Secretary Hay's reply to Li Hung Chang has closed the negotiations with China, unless the old viceroy is able to secure the full acceptance of our terms relative to the foreign ministers, and that at once. No orders, therefore, looking to a relaxation of the preparations for the advance on Pekin have gone out from Washington, for, as the situation is described by one of the leading members here, "there will be no bargaining on our part until we have secured the concession by the Chinese authorities for full and free communication with the foreign ministers."

There is, moreover, a note ominously close to actual war in the Chinese declaration that the conduct of the Chinese government is "unfriendly." That kind of language is extreme in diplomacy, and there is only a narrow step between it and open hostilities.

The impression prevails here that the Chinese government, if it is not absolutely bereft of power to act in defiance of the Boxers, will accept our terms, and some such action is looked for very soon. Possibly a battle, not more, it is believed than one at most, will be required to bring the imperial government to terms with us, and whether the original conditions would be regarded as still open to acceptance, if the Chinese government now accepts, however, the United States government will be face to face with one of the most delicate and momentous diplomatic tasks ever undertaken. It is an attempt to redeem its promise to its good offices in the East, and in the present temper of some of the European powers the greatest difficulties may be expected to arise in the prosecution of the attempt. It is the confident expectation of the officials here, however, that if the Chinese government actually and in good faith meets all of the four conditions laid down by the Emperor in his reply to the Chinese Emperor's proclamation, that at least a majority of the powers now represented in China will accept that as a proper basis upon which to enter into negotiations and open negotiations for a settlement. The decision of the majority in such a case without doubt would receive the acquiescence of the minority, also an important consideration.

Secretary Root said this afternoon there had been no developments which would necessitate any changes in his instructions to General Chaffee, or which would change the intentions of the government in the least. A cable message was sent to General Chaffee by Secretary Root to-day which contained additional instructions, but which were not intended to change the instructions already given. Since the last message was sent him at Nagasaki. The message contained no additional instructions, but merely information which he may use as a guide.

"It is not believed at the War Department that an advance has been made as yet from Tien Tsin. It is explained that the last dispatches indicated that the delay in sending the troops and before any advance can be made the troops must have all their equipments and transportation for them. The indications are that the plan being matured at Tien Tsin contemplates a rapid advance when the movement begins, for it seems to be understood that there will be carried with an army a sufficient quantity of supplies to maintain the troops on their march to Pekin and return, if a return should be advisable.

The fact that no reports were received from General Chaffee during the day was not surprising to the War Department officials, who said that the general was busy preparing for the campaign, and moreover communication between Taku and Che Foo is uncertain.

The Correspondence. WASHINGTON, August 2.—The State Department has made public the following correspondence between Li Hung Chang and the State Department, regarding the abandonment of the campaign on Pekin.

Teleg. sent to the United States Government in Berlin, London, Paris, Rome and St. Petersburg, and to the United States Minister at Tokio: "State Department, Washington, August 1, 1900.—In reply to a suggestion of Li Hung Chang that the ministers here be sent under safe escort to Tien Tsin provided that the powers would engage not to march on Pekin, the Secretary of State replied on the 30th of July.

"The government will not enter into an arrangement regarding the disposition or treatment of legations without first having free communication with the Minister Coder. Responsibility for their protection rests upon the Chinese government. Power to deliver at Tien Tsin presupposes power to protect and open communication. This is insisted upon as a condition."

"This message was delivered by Mr. Godnow on the 31st to Viceroy Li, who then inquired whether, 'if free communication were established between the ministers and their governments, it could be arranged that the powers should not advance on Pekin pending negotiations.' To this inquiry the following reply was sent August 1st: 'I have developed the proposition of Earl Li to the powers. Free communication with the representatives in Pekin is demanded as a matter of absolute right, and not as a favor. Since the Chinese government admits that it possesses the power to give communication, it will be followed by an unfriendly attitude by denying it. No negotiations seem advisable until the Chinese government shall have put the diplomatic representatives of their respective governments and co-operated all danger to their lives and liberties. We would urge Earl Li earnestly to advise the Imperial authorities of China to place themselves in friendly communication and co-operation with the relief expedition. They are assuming a heavy responsibility in acting otherwise.

"You will communicate this information to the Minister of Foreign Affairs."

MR. BRYAN'S CAMPAIGN.

It Will Be Conducted Largely Under His Own Management—Plans to Be Formulated.

By Telegram to the Morning Star. CHICAGO, August 2.—The Record to-morrow will say: William Jennings Bryan in a large measure will be his own campaign manager this year. Directly after the notification ceremonies at Indianapolis, next week, the Democratic candidate for President will return to Chicago and will practically manage the campaign. Mr. Johnson said he would be back with the party leaders formulate plans for the campaign. According to the programme, as outlined by J. G. Johnson, chairman of the national executive committee, Adlai E. Stevenson will come back with Mr. Bryan to this city, and the two will have a large share in arranging the lines for the coming political fight.

Johnson was told by Mr. Bryan, over the telephone, of his intention to return to Chicago from Indianapolis to help in arranging the programme for the campaign. Mr. Johnson said the candidate would probably be here three or four days. Practically the full roster of Democratic leaders will go to Indianapolis for the notification, and they will return here with Mr. Bryan for a session that will determine the broad lines of the campaign to be conducted. It is said at headquarters that Mr. Bryan is not dissatisfied with the way the campaign has been run thus far, but he feels that he has learned a good deal of politics since he was a candidate before and he wants to put it to practical use.

TRIED TO KILL THE SHAH.

Attempt to Assassinate the Persian Ruler in Paris—Would-be Murderer Arrested.

PARIS, August 2.—An attempt on the life of the Shah of Persia, Muzaffer Ed Dip, was made this morning, but luckily it resulted in no harm to his majesty. A man broke through a line of policemen as the Shah was leaving his apartments and tried to mount the royal carriage step. He held a revolver in his hand, but as soon as his intention was divulged the police disarmed him before he was able to fire. At the police station he expressed regret that he had been unable to carry out his intentions. He said: "This is an affair between me and my conscience."

The Shah did not appear to be excited by the attempt on his life and when the man had been led away he re-asserted himself in his carriage and quietly spoke in Persian to the grand vizier. Then he said to the coachman: "Drive on," and the carriage proceeded to the Alexandria III bridge, where a boat was taken for the Shah's residence.

The pistol carried by the would-be murderer was of the Bull Dog type, loaded with five cartridges. When the police seized the man he tried to break away and cried: "Vive! Children! Freedom!" Then he quieted down and submitted.

When the knife was found on his person the officer remarked: "You also had a knife, to which the man made no objection, to some precautions." "Why did you attempt to assassinate the Shah?" the officer asked. "Because," was the reply, "I pleased me." To all other questions the prisoner remained dumb.

Up to midnight nothing regarding the would-be assassin or his connections had been learned that was not known within half an hour after his arrest. He maintains absolute silence. The peculiarity of his accent, although he speaks perfect French, mystifies the officials.

YELLOW FEVER IN FLORIDA.

Officially Reported by the State Board of Health—Two Cases in the City of Tampa.

By Telegram to the Morning Star. KEY WEST, Fla., August 2.—Dr. J. Porter, Florida's State Health Officer, who is now in this city, received to-day from Dr. Weedon, medical representative of the board at Tampa, a message announcing two cases of yellow fever in that city, and saying that he believes the infection to be general.

Dr. Porter at once wired Weedon to place quarantine restrictions on all travel to and from Tampa until his arrival there. Dr. Porter also wired his secretary in Jacksonville to notify the State health officer at the Gulf Coast and railroad agents between Jacksonville and Tampa. It is believed that the disease can be confined to Tampa through the energetic action of the State Board of Health.

MONTGOMERY, Ala., August 2.—The Governor having received authentic information of the existence of yellow fever in Tampa, Fla., has issued a quarantine proclamation against that place, covering persons, personal baggage and household furniture.

A HUGE PLOT. Discovery Made in Rome in Connection with the Assassination of King Humbert.

By Cable to the Morning Star. ROME, Aug. 3.—According to declarations made to the Milan police by persons who witnessed the assassination of King Humbert, and especially the King's footmen, four or five persons, wearing around their necks black kerchiefs, such as Bresci wore, were seen around the royal carriage at the time of the crime. After it was committed they began shouting, evidently to increase the confusion and to help Bresci to escape.

Il Corriere Della Italia says the police have discovered that a huge plot was formed in America to murder King Humbert and that his assassination was to be followed by similar crimes throughout Europe. Another discovery is that Bresci, last Sunday, entered the royal chapel of the villa during mass, evidently with the intention of assassinating Humbert if he were there. A man suspected of being an accomplice of Bresci was arrested yesterday at a railway station here. He had recently arrived from the United States and will be sent to Monza for inspection.

MOVING ON THE CITY OF PEKIN.

The Allied Forces of the Powers Begin Their March for Relief of the Ministers. Completely Wiped Out a Christian Town, Killing Priests and Ten Thousand Native Christians—Eight English Women Beheaded.

LONDON, August 3, 3.45 A. M.—No word comes this morning regarding the fortunes of the comparatively small body of troops believed to be forging their way toward Pekin. The silence is probably due to diligent censorship rather than to any lack of developments. A Shanghai special announces the receipt of an official telegram from the Tsung Li Yamen, asserting that the Chinese government would forcibly expel them from the State. Do you mean that you feel it your duty to forcibly expel me from the State, or do you mean that some one else should do it? Do you mean that one man should undertake it, or that a cowardly, lawless mob should do it?

"Now if you think I should be expelled from the State, I suggest that you undertake the job yourself. You are one man, and I am one man. If you mean what you say, and have any courage, (except when you have a mob of red shirts behind you) I suggest that you proceed to Raleigh, and begin the expelling business at once. If you have not the courage to undertake this job, then I suggest that you have the decency to keep your mouth shut."

Of course those who heard Mr. Bellamy's speech know that he used no such language as that attributed to him by Butler, but he is not denying or apologizing for it, either. He received Butler's missive of puerile poppycock at 10 o'clock yesterday morning and at 2 P. M. he mailed the following reply:

WILMINGTON, N. C., Aug. 2, 1900. Hon. Marion D. Bellamy, Wilmington, N. C. Sir—Your insolent letter does not deserve a reply, as I shall not befool myself by having a controversy with the most despised and contemptible creature in this State.

In a signed article published in yesterday's Baltimore Sun, Butler in furnishing to that paper his reply to Mr. Bellamy, concludes "This is very plain language and is a personal challenge."

Raleigh Post: "Governor Russell will not go to his home in Brunswick to vote. He had intended doing so, but it is asserted by his friends that he thinks it is his duty to remain here in the event of any election disorder or rioting. The Governor prefers to assume the responsibility for ordering out troops, if such action is necessary."

It certainly gratifying to the public to know of one concern in the land who are not afraid to be generous to the needy and suffering. The proprietors of Dr. King's New Discovery for Consumption, Coughs and Colds, have given away over ten million trial bottles of this great medicine; and have the satisfaction of knowing it has absolutely cured thousands of hopeless cases of Asthma, Bronchitis, Hoarseness and all diseases of the Throat, Chest and Lungs surely cured by it. Call on R. R. Bellamy drugist, and get a free trial bottle. Regular size 50¢ and price refunded. Every bottle guaranteed, or \$1.00.

Mr. Bellamy's statement in the House of Commons yesterday, placing Great Britain on record as unalterably opposed to the partition of China, is being received by all the morning papers which, for lack of other news, chiefly devote their comments to Dr. Morrison's remarkable message to the Times.

SHANGHAI, August 1.—It is reported that fifty missionaries have been massacred in the Shan Si province. Admiral Seymour, on board the British boat Alacrity, started for Nankin to-day to consult with Liu Kun Kuan, the viceroy of Nankin. Admiral Seymour wired the viceroy of his intended visit, and Liu Kun Yi, replied: "I am unwell and cannot see you."

Admiral Seymour insisted upon making the visit, and the viceroy responded by wire: "I am instructing a warship to proceed down the river to escort the Alacrity to Nankin in case of misunderstanding in passing the forts."

Tien Tsin, August 2.—By Shanghai. General Sir Alfred Gaselee arrived to-day and assumed command. Advancing on Pekin. SHANGHAI, August 1.—The allies advanced towards Pekin to-day. It is estimated that the expedition numbers 20,000 men of all arms, with 170 guns. It is hoped to reach Pekin August 10.

Admiral Alexief has gone to New Chang, where the position of the Russians is regarded as serious. Chinese Troops at Pekin. ST. PETERSBURG, August 2.—The Chinese minister Yang Lu, on behalf of the other Chinese ministers at European capitals, has called the Governor of Shang Tung a demand that the members of the legations be permitted free telegraphic communication with their governments and that they be sent to Tien Tsin under a Chinese escort.

Advices received by the Russian general staff from Tien Tsin intimate that there are 50,000 trained Chinese troops in Pekin, in addition to a large force of Boxers, whose strength is not yet broken. In the opinion of the general staff, to march to Pekin before the end of the rainy season would be risky, the climate being changeable.

Li Hung Chang. PARIS, August 2.—The French consul general at Shanghai telegraphs to-day as follows: "Li Hung Chang has stated to the United States consul that the ministers will be put in communication with their respective governments if the allies agree to permit them to secure a reply to the message in his care to M. Picheon (the French minister in Pekin) as the Tsung Li Yamen will not consent to the forwarding of cipher messages for the ministers."

It is asserted that the foreigners within the imperial city and their consular corps have decided to entrust the defence of the legations to the international naval forces.

GLORIOUS VICTORY.

New Hanover Contributed Liberally Toward Making White Supremacy Permanent.

THE ELECTION YESTERDAY. Was Quiet As the Sabbath and White Men Did Nobly—Contest Close for White Supremacy Banner—Incidents of the Election.

The election in Wilmington and New Hanover yesterday passed off just as everybody expected—quietly and without an untoward incident; the fact is there was simply no opposition to the white man's ticket and only two votes were cast against it, as will appear from the detailed vote published in tabulated form in another column.

The polls were opened at sunrise and a majority of the vote was cast before mid-day. Men appeared eager to vote and the full strength of the ticket was more nearly polled than in any former election in many years. There were active canvassers at each precinct and the friends of the Amendment were on the alert. The keenest interest was manifested in the way the contest was being waged in other Eastern counties and from every source that similar conditions to those in New Hanover county were existing elsewhere brought gladness to every heart, for Wilmington people and the Democrats in general have counselled peaceable methods, notwithstanding the vile measures adopted by Butler and his vile henchmen in Eastern counties, especially at Southport yesterday a report being current that a number of negroes would be imported there and that they would arrive on the steamer Buck in the afternoon. The boat was met at the landing by determined red shirts who would allow the perpetration of no such crime against their rights.

Capt. Ward, master of the boat, assured the people that he had no negroes aboard nor would he think of allowing their passage on his craft for such a wicked purpose. News from Brunswick was very meagre yesterday. Much interest attached to the contest for the Legislature between Dr. McNeill and Mr. F. M. Moore. Upper townships in the county, it is said, went solidly for Moore, Republicans and Democrats alike voting for him. His friends confidently predict his election.

The bitterest partisan cannot lay at the door of Democracy the least substantiated charge that intimidation was in evidence at the polls yesterday or during the period of registration. The negroes, stripped of unscrupulous leaders, positively declined to take any interest whatever in politics.

The news of the great victory in the State, though expected from the very outset, was received joyously by Wilmingtonians and the STAR office was thronged with anxious inquirers until mid-night, some even remaining until after that hour.

An interesting feature of the election in Wilmington was the contest between the various wards for the elegant White Supremacy banner offered by the Executive Committee to the ward casting the largest percentage of its registered vote for the amendment and that the trophy was earnestly striven for as attested by the fact that to which ward it belongs is still in doubt. The First, Second, Third and Fifth wards all lay claim to the distinction of receiving this testimonial of their valiant work and it appears that each of them has a very logical basis for its contention. The Second ward cast 443 out of 450 registered votes; the Third, 522 out of 524 and the First and Fifth wards did equally as well.

News from Faison was anxiously sought yesterday in view of the special telegram published in the STAR yesterday morning telling of the attempt to burn the town night before last. Last night no arrests had been made but citizens were patrolling the streets to guard against a repetition of the offense.

An enthusiastic admirer of Governor Aycock last night telegraphed congratulations as follows: "A-cock for Governor makes us all crow. Accept heartiest congratulations."

Chairman Simmons was also the recipient of many congratulations from Wilmington upon the brilliant campaign he has closed with such signal success.

New Hanover's majority for the amendment, gathered from unofficial sources but regarded as correct, is 2,907.

OPENING THE WAY FOR WHITE SUPREMACY.

WILMINGTON, N. C., July 30, 1900. WAIRSAW, Star.—Your correspondent attended the Democratic rally at Kenansville last Thursday, 26th ult., and it was verily a great gathering of white people. Determination to win through the Governor's hand, the people are fully ready to their duty, and will vote on for all this great battle now waged for "White Supremacy." Upon this issue it was but "fitting" that it should be led by the present chieftain, Hon. Charles B. Aycock, and chosen unanimously. No man need fear to vote for him whatever his previous condition or politics may have been, for he will indeed be the Governor of all the people, the rich and poor, the learned and ignorant alike, except perhaps the poor and unlearned, for such as these, his sympathy knows no bounds. I say this because I know him from years of association, and of a truth it is not why not (like the immortal Vance) he through the Governor's chair, to a higher place to serve the people? He is worthy and the people do trust him.

But, to return to the issue of "white supremacy." After the landslide in 1894, and Democrats felt almost overpowered, enthusiasm almost gone, many were studying the conditions, and waiting for some ray of light or some issue that would unite again the white people, so that on November 30th, 1897, I then being a member of your Democratic Executive Committee for the State, offered the following resolution before that body:

"Resolved, That all white electors who intend to vote with us in the next election, and who desire the re-establishment of Anglo-Saxon supremacy and honest government in North Carolina, are cordially invited to participate in all our primaries."

Many of the older and perhaps wiser members thought the time was not ripe, or the issue would inure as of yore. Still, after five hours debate, it passed the committee, and on the morning of December 1st, 1897, was published in all the daily papers, and by them kept constantly before the people, in the homes and in the hands and hearts of every household, and these sent a message, by the delegates to the State convention, that the issue is now settled—"White Supremacy. Did it succeed? All know the result; how the white people responded, and before the campaign was over they demanded that the issue which brought such a splendid victory should be written in the organic law and forever vouchsafe to the whole people peace, good will and an honest government."

The magic words "Anglo-Saxon" written in that resolution, in the committee room on the night aforesaid, went out to the people, who responded, as they ever will, that white people shall be free. When I look back over these few days and know that I sowed the seed that has grown so rapidly and successfully in this full grove of purity and whiteness, I do indeed feel gratified, and if I am personal my excuse is that a misapprehension is removed and an error corrected. Very truly,

H. L. STEVENS.

It is the same old story of a child with an oil can attempting to start a fire; the ignited, the can exploded and she was burned to death before help could reach her side.
