WAS NOT CONFIRMED.

tenstors Spooner and Daniel, on Opposite Sides, Made the Principal Speeches In Executive Session of Senate.

By Telegraph to the morning Star. WASHINGTON, April 27 .- The nomnation of William D. Crum to be cole or of the port of Charleston, S. C., as considered to-day in executive ssion of the Senate, lasting from 1.35 P. M. to 9:15. The failure to onfirm the appointment resulted. At he conclusion of arguments by Sena-Gallinger, Spooner, Hale and Aldrich for confirmation, and Benaors Daniel, Latimer, Gorman and Day against confirmation. Senator Cockrell suggested that the Senate sceed to legislative business, and

the suggestion was adopted. Senators Spooner and Daniel on opor no objection, and an executive sese sides of the question, made the sion. The session began at 10 o'clock ipal speeches. The former de-d the Republican policy relative in the morning and continued until 8 in the evening. Final conference reee and equal citizenship, without t to racial prejudices, and the declared that the policy of elevating negroes to high positions was contrary to the established law of centuries, that the Anglo-Saxon race is tion. Speeches were made by Mr. the chosen people to govern the

world. After the doors were closed Senator Gallinger, who had charge of the nomination, called attention to the several times the nomination had been sent to the Senate and the long period it had been prevented from coming to a vote. Senators Latimer and Gorman discussed the question of senatorial couriesy, saying that Senator Tillman, who is opposed to the nomination, is now ill at his home in South Carolina and unable to be present. Senator Spooner then contended that the Republican party should not be asked to surrender its convictions as to the rights of man; that the negro is held to be a citizen and as such is entitled to participate in the government. He said the negro had been a good citizen. had not been lacking in soldiery or in any form of defence of the country. and that it is asking too much of the Republican party to put it in the position of abandoning the policy of civil liberty which he said was the chief significance and the foundation of the party.

In reply Senator Daniel declared that the appointment of negroes to high political offices, such as that to which Crum has been named, sets the race dreaming of its rights, inconsistent with the position of negroes in society, and inflicts more barm than good on both races. He said such appointments tend to make the negro arrogant and offensive in bearing and infiame the race prejudices in the South and all places where negroes reside in great numbers.

LIOU YANG, April 27.-The Japanese troops which crossed the Yalu north of Eiutjiou (Tchangd Jiou) charged during the night of April 26th-27th the Russian position near Lizavens, village on the Manchurian bank of the Yalu. They were repulsed but their loss is not known.

Two gunboats steamed up the river to the support of the Japanese, when a Russian field battery at Amazan opened upon them, resulting in a duel which lasted for twenty minutes. The Russian fire was too hot and the gunboats were forced to turn and steam out of range.

The Japanese were facilitated in crossing by the occupation of the is-

land of Samalindo. PARIS, April 27.- A dispatch to the 'Temps" from St. Petersburg says: "The Japanese continue to cross the Yalu river in small squads. The Russian tactics seem to be not to seriously ospose these preliminary movements. "The staff of the ministry of marine gives credence to but does not positive-

By Telegraph to the Morning Star.

WASHINGTON, April 27 -- Speaker Cannon to-day ruled that the Oockran resolution for an investigation of the Dalzell charge that Cockran had campaigned for McKinley for "hire" in 1896, was not a privileged matter. In an elaborate opinion the Speaker said he was warranted in taking judicial knowledge of the fact that the offence ing set forth as charged against Mr. Cockrap, "if committed at all, was and committed while the gentleman from New York was neither a member nor a member-elect of this House." "The chair," he said, "leels justified in taking cognizance of the fact

that what is alleged to be charged constitutes no crime. "At most, "he said, "the only question was one as to the propriety of the con-duct of a private citizen." The House, he declared, could not rightfully punish him if it desired to do so. He then ruled "that the chair holds that the resolution may not be entertained

COTTON MARKETS.

By Telegraph to the Morning Star

NEW YCRE, April 37.-The cotton. market opened steady at an advance of three to five points on active covering, promoted by very firm English cables, particularly in reference to spot cotton, sales of which were reported of 10,000 bales at an advance of two points. English cables for futures, reflecting the improvement in trade conditions, were also higher than exected. Some of the home element

showed an inclination to continue the selling movement, started la'e yesterday, and their offerings for a time restricted the advanctendency. It was the first notice day in New Orleans apprehensions as to the effect of notices in that market at first seemed to restrict buying, but it soon de-veloped that the Southern bulls are taking all tenders with private wires

indicating that they were bidding for more. This started a more active demand in the local market. Spot interests seemed to be buying the Summer months and May while commission houses had buying orders for the latter positions in spite of the fact that the weather map was thought to be generally favorable. Prices before midday had been advanced to 13.75 for May, 18.96 for July and 11.50

for October, net gains of fifteen to twenty points. This level attracted more liquidation by smaller longs, however, and a renewal of selling by the room shorts who had covered early, and during the afternoon the market, while very irregular, showed a somewhat easier tendency in spite of light estimates for to-morrow's receipts at leading points and predictions for another bullish Liverpool to-morrow as a result of the bullish developments in New Orleans. Spot interests that had been buying in the forenoon were sell ing in the late market and there appears to be more bear pressure. The market was finally steady at a net ad-

THREE LIVES LOST.

The Sosp Works Fire in New York City. Property Loss \$200,000.

By Telegraph to the Morning Star.

NEW YORK, April 27.-Three lives were lost and property valued at \$200,-000 was destroyed in a fire at the John Stanley soap works here early to-day. The dead, all of whom were firemen, are Tnomas Madison, James Crean and Hugo Arigone. Madison and Crean were buried under tons of debris when the walls of the building fell and it was many hours before their bodies wore recovered. Arigone, who was caught in the same crash was still alive when released, but was so badly injured that he died at a hospital several hours later.

Many firemen who had been called out by the four alarms had narrow escapes during the progress of the fire, one great source of danger being the frequent explosions of chemicals in the building.

Besides the soap plant, the Dunbar Lumber Company's lumber yards adjoining were badly damaged.

By Telegraph to the Morning Star. WASHINGTON, April 27.-President R mevelt to-day nominated Justice J. ... C Pritchard, of the Supreme C unt of the District of Columbia, to be United Biates circuit judge of the Fourth circuit in succession to the late Judge Charles H. Simonton. The fourth circuitt includes the States of Maryland, North Carolina, Bouth Carolina, Virginia and West Virginia, and under the law the appointee had to be selected from one of these States. Justice Pritchard, who formerly was a United States senator from North Caroling, has served on the supreme bench of the District of Columbia but a short time. The Republi cans, and the country, he said, were entitled to know. He directed a specific question to Mr. Williams if he approved of Mr. Cockran's policy.

Mr. Williams remained silent. Mr. Littlefield then sought a reply people have not as yet come to fully from Mr. Clark, of Missouri. Mr. Clark set the Democrats frantic by saying that when the House

should give him an hour he would make a reply "that will knock some of you gentlemen silly." No one, he said, could reply "yes" or "no" to one hour of cheap demagogy. Screams of

approval came from the Democrats at this utterance. "The gentleman from Missouri

wants one hour to indulge in villification and vituperation," retorted Mr. Littlefield. Mr. Littlefield pressed his demand for a categorical answer from any

Mr. DeArmond said he would venture to gratify Mr. Littlefield to some extent. He was interrupted with cries of "yes" or "no"

from the Republicans. Continuing, Mr. DeArmond said that if Mr. Littlefield wanted information as to the Democratic position. he would say that the position of the Democrats was to take off or to lower the duties wherever those duties shel-

about the board. Once the conditions made favorable the carver grasps the fork in his left hand and places it in the breast of the turkey. Then the knife, held in the right hand, is laid parallel with and close to the neck just above where the left wing is joined to the body. The knife is brought down with a sweep, and the joint is disconnected. The carver continues the stroke downward and separates the leg and then the second joint from the carcass. This operation is repeated on the members of the right side of the fowl.
