Heart was also affected and fluttered at the least excitement. I spent a lot of money doctoring and found no relief, until I took Dr. Pierce's Golden Medical Discovery. It certainly is a wonderful medicine. It tened up my stomach and I began to have a splendid appetite; had no trouble with my discation, and I began to pick up and set strong; soon new, rich blood flowed in my veins, and I once more felt the beauty and joy of life. I have now enjoyed perfect health for a year, thanks to Dr. Pierce's Golden Medical Discovery."

By Wire to The Morning Stat Washington, Nov. 18.—By a vote of to 5 today the board of consulting engineers of the isthmian canal commisison placed itself upon record as favoring the construction of the Panama canal on the sea level. This decision represents the outcome of nearly three months hard work. Early in September the engineers gathered from all parts of the world to assist the American engineers in the decision of the momentous question of constructing the Panama canal, at sea level or at a greater altitude involving a system of locks.
