Hotchkiss's Vertical Water Wheel.
THERE are several hundred of these Wheels in operation in different counties in North Carolina. For proof of their great advantages over the common flatter wheel, or any other where the Turpentine runs in a regular wheel now in use for saw mills, we confidently refer to those who have applied them to their mills. We can recommend them particularly for their superiority in cases of a low head of water, or lack of water.
We will keep a supply of Wheels, suitable for different heads of water, at Wilmington, Newbern, Washington, Edenton and Fayetteville. The wheels may also be had of E. A. Brevard, Lincolnton; Uriah Wells, Petersburg, Va.; and of our own works, at Fayetteville, N. C. Persons wishing to obtain the right to use the wheels, will be served on application to D. McNeill & Co., Fayetteville, N. C.
