This institution offers to the Student every facility for the acquisition of a thorough medical education.

Through the liberality of the Legislature, at its last session, in appropriating the sum of Thirty Thousand bollars in aid of the College, these facilities will be greatly extended. A new Hospital is now in course of crection, in immediate proximity to the College, which will much enlarge the field for Clinical instruction. All needful repairs and alterations of the College building will be duly accomplished, and large and important additions are being made to the apparatus and illustra-tions for the Lectures in every department. Ample facilities will be afforded for the prosecution

of Practical Anatomy.
Instead of the "Warren Prize," of One Hundred Dollars, heretofore offered to the graduating class, Two Prizes, of Fifty dollars each, are now offered—one for the best Essay on any surgical subject, and the other for the best Essay on any subject pertaining to the Theory or Practice of Medicine.

FEES: Ticket of Each Professor Matriculation Graduation Demonstrator's Ticket

Physicians in China. - In China there is free trade in physic—a principle which has not yet led to all the desirable reforms in that art. A dose THE 18th Session of the School at my house will commence the 1st day of September next, under the about the size of half a pound of moist sugar, and care of Miss L. G. Jerome, a lady who taught for us successfully and satisfactorily eight years ago, and who has been regularly engaged in teaching, since that time, in the South. Therefore, from a previous acquaintance. unlike a small cake of blacking. These are all boiled together, and a good half-pint of the decoction is to be taken quite hot as a dose. The lowest fee for a visit is about two pence, and the coolies of the sedan have also to be paid. The fee advances by two pence at a time, so that 4d, 6d. 22 50 8d., 10d., &c. are the rates, according to celebrity.
10 00 Very seldom, however, is a single visit charged by more than six pence. When you consult a physician his mode of proceeding is this: He lays your hands on a soft cushion; feels your pulse at the wrists, asks your age and the symptoms of your indisposition, looks you attentively in the face, sapiently strokes his moustache, and then writes his prescription—perhaps "one hundred and fifty pills twice a day."—Exchange paper.

[NO. 941.]

Milking by Machinery.—Not exactly by a steam engine, nor by water-power, though that is in favor with milkmen, but by a machine driven by hand-power. In short a hand-pump, moved by two handles, like the hand-bellows, and performing the operation by the principle of an airpump suction. The machine is attached to a pail, and set on a stool under the udder, the four teats inserted in four tubes, and the pump operated, and the milk drawn and conveyed by a conductor into the pail, the inventor says, in a marvellously short time, say three minutes for an ordinary cow milking entirely clean, and without injury to the cow; in fact, he says, to her advantage, as it is beneficial to have the work done quickly; and the machine is intended to do it quicker than it is possible by hand. It is said also that cows stand this machine milking more gently than by hand. At any rate the contrivance is an ingenious one, and we have no doubt will work. Its practical utility we cannot vouch for. We only chronicle the fact of the recent invention of a Milking Machine. The manner of its construction is simple enough It consists of two diaphragm pumps made of time and India rubber, so arranged as to be easily taken apart for washing. The teat cups are made tapering to fit any size, and attached by flexible joints, so as to be spread apart to suit wide-spreading teats, or those more contracted. It is possible that it will prove a very useful invention. so, we presume that farmers will hear more of it

The Meteor of Friday .- Scientific observers at Yale, Union and Troy Universities variously compute the height of the meteor above the earth at from 50 to 80 miles. Its speed, relative to the earth, is computed to have been from five to eleven miles per second. Its course was in the same direction as that of the Earth, which, so to speak, it overtook and passed. This would make its absolute velocity in space somewhere between get a bargain, as I shall remove from the State, and am as far as we can yet learn, throughout the whole

gos arrived in Liverpool, reports as follows: "A volcanic eruption of the mountain Myrdis Gokel, tations on Deep River, to-wit: the Bingham place, spoken of in Dr. Emmons' report. The Coal on this spoken of in Dr. Emmons report. The Coal on this property has been dug from a well on the premises, and found in numerous places where pits have been sunk, so a month, and could be seen at a distance of one as to justify the opinion expressed by Dr. Emmons, that almost the entire plantation is underlaid with Coal. most remarkable, an eruption occurred one hundred and five years ago on precisely the same date,

Curious Facts .- It was stated in the recent debates in the French Corps Legislative, that out of the 36,000,000 souls in France, 20,000,000 never saw woolen goods of any sort. It has also been recently asserted that 25,000,000 of people there never eat meat oftener than once a week. Also, a HOUSE and LOT in the suburbs of Pittsboro'. Paris annually consumes 268,000,000 pounds of

destroying every thing for miles round."

"Like a meteor cleaving through the elements of space, like a gleam of the descending guillotine. as it severs from its trunk the head of some deserted Girondist, the red bolt of disunion has rent in twain a once happy and united family; whilst its presaging wrath has startled the most apathetic into the wildest consternation and dread. Fearfully has it performed the mission on which an avenging spirit sent it; deep and ghastly is the chasm which now separates a brotherhood whose time-honored principles were consecrated by the LL persons having NEGROES for sale, will do well blood of our forefathers, but despite the "slanght-A to address the subscriber at Cliaton, Sampson county, as he is determined to buy and pay as liberal ourselves on the side of the Union, and invoke the friends of liberty to re-unite on that old and time-honored platform. To consummate this glorious object, we have selected the name of Stephen A. Douglas for our next President."

olishing the fixtures, windows, &c.

works are wicked, and all his wicked works are brought to light!"

It is singular that party journals should be so

E. J. HALE & SON.
