On motion of Mr. Gudger, also notifying the Senate of the amendment by the House of Senate resolution proposing to adjourn *sine die* on 22nd inst., by the insertion of the 15th instead of the 22nd. A long discussion here took place in which the House was accused of filibustering upon the subject of adjournment.

The resolutions as amended by the House were adopted.

Mr. Todd reported from committee on Enrolled Bills.

UNFINISHED BUSINESS.

The Railroad consolidation bill after some discussion the friends of the bill not having had time to mature and perfect the bill, it was agreed to pass it over informally for the present.

Message from the House transmitting bill for the relief of the Sheriff of Pasquotank county. The Clerk having failed to find up an abstract, the Sheriff could not audit his accounts. The bill gives him until the 1st of January to settle.

On motion of Mr. Grandy the rules were suspended and under the operation of the previous question passed its several readings.

Mr. Gudger opposed the bill and offered an amendment which was rejected.

On motion of Mr. Humphrey, the unfinished business of yesterday was taken up, to-wit: the bill to consolidate the Western, Atlantic and North Carolina railroads.

The question was upon Mr. Norwood's amendment requiring advertisement in two papers of the largest circulation in Raleigh, of any sale of the State's interest in the North Carolina railroad. Adopted.

The question then recurred upon Mr Love's amendment, reported yesterday.

Mr. Worth offered as amendment to Mr. Love's amendment, providing that the issue of mortgage bonds shall not exceed two millions until the road is finished to Asheville.

Mr. Humphrey spoke against the amendment of Mr. Worth. He said it would be fatal to the sale of the bonds; that brokers who dealt in such securities would not take hold of them unless they could control the sale of the whole.

Mr. Worth argued that his amendment was a necessary guarantee against fraud; that the sale of two millions was sufficient to finish it to Asheville, and money should not be accumulated until needed.

Mr Humphrey explained that it would require the sale of several millions to purchase the stock of the private stockholders to the North Carolina Railroad and pay off the debt now pressing the W N C R R. He explained that the company expected to reach Asheville from the western terminus before they could finish the tunnelling of the Blue Ridge, and that contracts would be given at both ends.

Mr Love opposed the adoption of Mr W's amendment and argued against its adoption.

Col Morehead with some slight changes regarded the Worth amendment as a very proper one; was willing to allow the sale of twenty-five hundred thousand dollars of mortgage bonds.

Here a compromise was made by Messrs Humphrey and Worth.—Mr W withdrawing his original amendment and accepting instead an amendment authorizing the sale of thirty five hundred thousand dollars of the bonds for all purposes, of purchases of stock, payment of debts and building the road to Asheville. Adopted.

Mr Love's amendment reported in yesterday's proceedings was adopted.

Mr. Troy offered an amendment requiring registration of all the bonds provided for in this bill—in a book to be kept by the Treasurer. Not adopted.

Mr. Waring proposed to amend by requiring three directors to countersign the mortgage bonds. Adopted.

Col. Morehead proposed an amendment, requiring the new company to pay any dissatisfied stockholder in the N. C. R. R. the full amount of the value of his stock to be ascertained by an assessment to be made by three disinterested parties.

Mr. Troy offered an amendment that the non-payment of interest on the mortgage bonds shall not work the maturity of the principal of the bonds. The amendment was discussed at some length by Messrs. Troy, Humphrey, Morehead of Rockingham, Dr. Murphy and Mr. Waring. Not adopted.

Mr. Cowles said that the bill had been so often amended that it was now impossible for the Clerk to read it correctly; for one if he was forced to vote now, he would certainly vote against it. He would not vote blindfolded upon a measure of so great importance. He wanted time to examine the amended bill. He therefore moved to print the bill and make it special order for 1 o'clock to-morrow.

Col. Humphrey, Col. Welch and Dr Murphy proposed an immediate vote.

Mr. Cowle's motion was adopted.

Col. Welch obtained leave to introduce a bill providing for a Commission to survey and mark the State line between North Carolina and Tennessee. Referred.

On motion of Senator Gudger the Senate adjourned until 11 o'clock a. m. to-morrow.

For the Sentinel

NEAR RALEIGH, Nov. 30, 1873.

MR. EDITOR: I hope you will allow me through your valuable paper, to call the attention of those concerned to the condition of our public roads. The one leading by the old "Rock Quarry," known as Smithfield road, is now nearly impassable and has not been worked since the county was laid off into townships. I dislike to complain, and I am sure the authorities are not advised as to the real condition of things in this locality, but if it is not worked very soon I shall feel compelled to interview the grand jury at our next court on the subject. I have some acquaintances with the roads in and out of Wake, and do not recollect ever to have seen at this season as bad a road. The people on this line must be a good-natured set.

ONE WHO KNOWS.

THE GREAT PHILADELPHIA CENTENNIAL Will be held in spite of the croaking of Hon. Mr. Bigelow, of New York, who by virtue of his having found in Paris a manuscript copy of Franklin's autobiography, thinks he must take charge of the American Revolution and its memorials. And it must prove a stupendous success! for Labor will unite with capital "to a man" to bring about the grand result, and with local and National interests so closely interwoven, it would be the supreme folly to predict otherwise. So good by Mr. Bigelow—*au revoir*, Biggy—*au bey!* whilst we hurry up the fixings for the World's exposition and "tot out our hobby"—the renowned "Barley Sheaf" Cooking Stove improved—a Philadelphia manufacture, that will assuredly astonish and delight the assembled millions on that National occasion! Write to Messrs. Stuart, Peterson & Co., the manufacturers, for their "Centennial ideas."

PERNICIOUS PURGATIVES.—The brilliant idea of half a century ago that the weak and ailing could be bled, blistered and salivated into a condition of health and vigor is happily exploded; but violent and prolonged purgation is still, to some extent, in vogue. We have imposters who are daringenough to offer to the world, as tonics and restorative, the most destructive cathartics, unmodified by a single stimulating, soothing or restorative element. Compare the operation of one of these terrible nostrums with that of Hostetter's Stomach Bitters in which are combined the three great curative elements—a tonic, an alterative, and an aperient. The former completely paralyses the vital forces, so that nature can make no resistance to disease; the latter sustains the strength of the patient, while it restores the suspended functions of the secretory organs and relieves the bowels without violence or pain. It is simply a choice between restoration and prostration.

THE HUMAN KITCHEN AND ITS USEFUL WATERS.—The body is supplied with aliment by means which compare the stomach and its auxiliaries with the vegetable system, and so to speak, perform the office of dumb waiters in a restaurant. In other words, these media of communication between the animal kingdom and its dependants supply to each member and organ, tone or renewal, the quantity and kind of sustenance required to keep it going. When the stomach is thrown out of its duty, or the dumb waiters inert or obstructed, it is the peculiar province of Hostetter's Celebrated Stomach Bitters to strengthen and regulate them. Hence its marvelous cures of chronic indigestion and the emaciation, debility and languor which are generally its concomitants. It is, moreover, a powerful alterative and corrective, and the rapidity with which it checks irregularities of the liver and bowels, and frees or invigorates the nervous system, is a marvel, not only to the general public, but to professional men.

HEINBOLD'S BEER is still in the ascendancy in its popularity. Gothe'sstandard among the classics of Dr. Heinbold, the celebrated midwife is still manufactured at the laboratory at Philadelphia, and is sold by all respectable druggists. It is warranted to all diseases of the kidneys and urinary organs. Be ware of all counterfeits. Genuine has proprietor's private stamp. John F. Henry, New York, sole agent. nov 30-eod1w.

PERUVIAN SYRUP.—This valuable medicine has been silently making its way into public favor by the numerous remarkable cures it has performed. Its singular efficacy is owing to the *protoxide of iron* which in this preparation remains unchanged, and is the only form in which the vital element of healthy blood can be supplied.

Many new styles never before seen in this city. If you want anything good that's nice, something perfectly reliable, go to Blydet & Bain. They keep at the Candy they sell, and warrant it all pure and fresh. Try their salmon Cream Taffy and you will be delighted.

HOME AFFAIRS.

A Good Chance.

A new Howe Machine for sale at a low figure for cash. Apply at this office.

Fine.

The *Fayetteville Gazette* says the entertainments of Hartley, the elocutionist, at that place, were very fine.

Patrick McGowan, Esq.

We were glad to see our old friend on the streets, after three weeks severe illness. His attack was pneumonia.

Regular Meeting.

The regular monthly meeting of the Mechanics' and Working-men's Association this (Friday) evening for the purpose of electing officers and transacting other important business.

By order of the President.

Carolina Military Institute.

The Senior returns thanks for a copy of the circular of this military school at Charlotte, under the charge of Col. J. P. Thomas, assisted by Gen D. H. Hill and other competent gentlemen. We referred at length to this institution some weeks ago.

Wrong Mr. News.

The Petersburg *News* is mistaken in stating that the Senior Editor of this paper has not been to church in five years. He has not been a stranger to Raleigh in that time. His residence is Hillsboro' where he attends the Church.

Apologetic.

Our local editor being absent we have not been able to keep up these columns latterly. The proceedings of the Grand Lodge and the Federal Court have not been reported *in extenso* on that account. After the adjournment of the Legislature we will be able to devote more time and labor to news around town.

Who Runs the Paper.

A gentleman came into our office with a communication soon after the *News* started. It was all about Swepson and McAden, and the Railroads West. We declined to publish until he would take it to the *News*, and we laid a wager the *News* would not publish it. The *News* refused as we said he would, an I the communication was published in the SENTINEL.

The President's Message.

The full text of the President's message has been received, but as we have already published a synopsis of it, we are not yet determined whether we will publish in full or not. It is a long document, but not as long as Gov. Caldwell's message. It is a plain, unambitious production, containing some things worthy of praise, and other things to which exceptions might be taken. We may hereafter enter upon an analysis of it.

House Robbery.

Thieving and robbing of houses seem to be the rage just now in Raleigh. Mr. Watson's house was robbed a few nights since. On Wednesday night the house of Mr. W. N. Jones, a reputable printer, in the Eastern Ward, was entered and robbed. His loss is some $75, including new clothing, a watch and $12 in money. Mr. Burt's house in the same locality was robbed also, but we have not learned the extent of the damage. Where are the police?

Nothing New Under the Sun.

Mr. Jordan Stone is not entitled to any credit for his pretended discovery, that Josiah Turner, Sr., borrowed of Swepson in 1868, when he was President of the Raleigh National Bank five thousand dollars to purchase the SENTINEL. We have stated time and again in 1868-'69. We could not take up the whole paper with a reply to the Stone-McAden card. We shall do so by instalments. In the meantime, with a Squire, a plain Justice of the Peace, we will prove all we say of Mr. Jordan Stone and the Ring.

Federal Court.

The body was engaged in trying C. D. Upchurch for perjury and embezzlement, on several counts. In the former he was cleared as he had never taken any oath. Hon. W. N. H. Smith spoke first in the embezzlement case in defence and was followed by Mr. Badger for the Government. Mr. Strong spoke for the defence also, Col. Ed Graham Haywood made his objections to the indictment in the opening of the case. The jury after a brief while brought in a verdict of not guilty. There are still several other indictments to be tried.

Chill.

Through genuine ignorance and not through inadvertance, we neglected to notice till now, the sudden demise of the "*Nanny Medina*" alias *Workingman's Journal*, of this city, which we are grieved to state is now dead—yes! it has died twice, let six weeks ago, 2d only last week. It now may be lamented as really and truly deceased—Whitaker was the undertaker, and Dr. Argo, late of Orange, gave the doses, and if any payer or patient could survive them both—it must have become in time, and after a long time, for the leading genius is now out of Roanoke.

Alas! alas! for the poor "Nanny Medina!" It mouthed with glee, and mouthed with those,
Received many kicks, but got many blows,
Was ugly to look at, and worse to endure,
Refused to pay debts—was sickly and poor,
Refused to pay printers—was cursed and abused
