

Yesterday the corner-stone for a monument to General Robert E. Lee...

The President and Mrs. Cleveland express themselves highly gratified with their recent trip west and south.

At Castle Garden, New York, on Thursday 2355 immigrants from Europe landed; Saturday, 784.

We learn from the Register that the stock necessary to the organization of the Danville & Seaboard railroad has been subscribed...

A large shark was lately captured close to the harbor of Flume. The stomach contained a pair of human feet with boots on them...

The N. Y. Herald pays the same of the North Carolina coast a compliment on their seamanship. The Herald believes our seamen are the best to be found.

The President, it is said, found no trace of Randall or Randalism in Atlanta. He had taken the back track for home before the President reached there.

The fair at Raleigh was spoiled by incessant rains last week. The Agricultural Department made a good exhibit, under the circumstances, of the resources of the State.

By the wreck on the Air Line road last week several persons were killed, including engineers and firemen. Engines and rolling stock were completely demolished.

Randall bulged like a balloon in his address at the opening of the Atlanta Exposition with the high pressure inflation of Southern speculation. Indeed he did.

The cry of monopoly and its organs against the "tariff tinkers" has become quite feeble since so many prominent Republican newspapers have demanded a substantial reform of the existing protective system.

We see it stated that a Dakota man was struck by lightning while returning home with a borrowed newspaper. It is better to subscribe yourself. Just hand \$1 to your pastor, or send by mail to us.

Although the Republicans claim negroes as their property, so far as national elections are concerned the negro is already divided and will ever be.

Teas people are a proud set. They boast that "it is a cold day when a corpse or two is not found about the city of San Antonio." Well, it does look like some people would rather die than live in Texas.

There is no better investment that the people of any live town can make than to secure first class, live papers by heartily encouraging their publishers with business. A town is judged by its papers and few outsiders will be drawn to a town where the local papers show, by the lack of well filled advertising columns, the want of energy of the people of that place.

Mr. Wade Hicks lost a barn of tobacco by fire a few days ago, and his dog with it. We presume the loss of the dog compensated in part for the loss of the barn and its contents. From our general knowledge of dogs we guess it would be well for the country if four hundred and fifty thousand in the State would share a similar fate.

An exchange paper remarks that the repeal of the internal revenue taxes would deprive the public treasury of \$120,000,000 a year. So it would. But how does that amount get into the treasury? It is wrong from the people by the most oppressive system of taxation that was ever endured in this country, and the people are getting mighty tired of it.

The trains have been loaded for a week past with people returning from the Atlanta Exposition. They report that the town was not able to accommodate the crowds, and that on Monday night many people slept in gutters and on the sidewalks, and all through a steadily falling rain. The hotels were filled from cellar to attic and people were even content to sleep in chairs.

THE PROTECTION FRENZY

The "Democrat" calls us a free trader because we concur in its own expressed belief that "there are some articles on the tariff list that ought to be lowered"...

We got our neighbor in a rather close corner when we asked him the sense of aiding an unprofitable industry by protection and why a profitable one needed any protection?

Why dodge the issue? We simply inquired that if the great "barbed wire" tariff system was such a blessing, why it was that there were such lamentations of commercial distress all over the country...

Dahl 'Charge, Chester, charge!' As our part of the show has just commenced, we can now promise a "Rowland for an Olive" every time...

Linney, poor fellow, he wanted office so bad he began to taste it, and joined the niggers. We speak his wife will sue for a divorce; ours would, we know.

A SETTING HEN. The following is from a poultry publication: "Ever hear about our little red hen? Well, sir, she was on the set for keeps."

COST OF THE WRECK. The recent wreck on the Air Line road was a costly one to the Richmond & Danville Company.

REMARKABLE OCCURRENCE Wilson Mirror. Maggie Sims, a negro girl of this place, was born deaf and dumb about seventeen years ago.

MORAL LESSONS TAUGHT IN THE LANGUAGE OF THE FROG. Wesleyan Advocate. Speaking of travelling on Sunday, I am reminded of a good thing I heard on Judge Colquitt, the father of Senator Colquitt.

REBUKING A JURY. At the Superior Court last week, a man was indicted for selling whiskey to minors.

No town can succeed long without diversified industries. They are essential to the life of the town, each assisting the other, and all giving vitality to the place.

Should Fred Grant, the "son of his father," be elected Secretary of State of New York at a salary of \$3,000 per year and conclude to devote the amount to the payment of the debts of his firm, Grant, Ward & Co., it would take one thousand years for him to liquidate the amount in full, not including interest.

Barrett's great circus shows in Danville Nov. 8 and Greensboro next day.

HE WAS GREATLY MISTAKEN. A Maryland Chemist Reasoned Without His Head. I live in the midst of the malarial districts of Maryland, near the city of Washington, and am exposed to all the dangerous influences of the impure air and water of that region.

During all this time, it must be understood that I did not neglect medical treatment. All the most powerful remedies were tried, such as quinine, arsenate of potash, valerianate of iron, mercury, bromide of potassium, chloride of bismuth, chinchidine, chinchonidine, quinine and several others.

WILEY'S GALLERY, DANVILLE, VA. OVER WADDILL'S BOOK STORE, guarantees all pictures satisfactory. Make a specialty of fine work. Call in when in town and examine pictures and prices.

HE WAS GREATLY MISTAKEN.

A Maryland Chemist Reasoned Without His Head.

I live in the midst of the malarial districts of Maryland, near the city of Washington, and am exposed to all the dangerous influences of the impure air and water of that region.

Being naturally of a strong constitution, I had frequently boasted that no chills and fever or other malarial complaint would ever trouble me.

This was my experience and the condition in which I found myself six months ago. I first noticed that I did not feel so sprightly and vigorous as was my wont to do. I felt tired and enervated.

The cold stage was marked with chattering of the teeth, severe rigors passed over me, and no amount of clothing could keep me warm. The chill was succeeded in turn by the fever, in which I seemed to be burning up, the congestion in my head produced a violent pain in the frontal portion...

I dragged myself with quinine, and obtained some relief. But my respite was of brief duration. I was now so much reduced that I could hardly walk or stand upright. My disease soon culminated in a continued malarial fever which kept me closely confined for about a week.

It was while I was in this deplorable condition that I did not neglect medical treatment. All the most powerful remedies were tried, such as quinine, arsenate of potash, valerianate of iron, mercury, bromide of potassium, chloride of bismuth, chinchidine, chinchonidine, quinine and several others.

I was while I was in this deplorable condition that I did not neglect medical treatment. All the most powerful remedies were tried, such as quinine, arsenate of potash, valerianate of iron, mercury, bromide of potassium, chloride of bismuth, chinchidine, chinchonidine, quinine and several others.

This was about the first of January, and since then I have experienced no recurrence of the malarial symptoms in any form. A remedy of such exceptional virtue for the cure of malaria ought to be commended and universally made known.

J. D. HIRD, R. A., Assistant Chemist Maryland Agricultural College. P. S.—Should any one wish to address me as to the genuineness of the above letter, I will cheerfully respond.

The Kaskine Company, 54 Warren St., New York, and 35 Farringdon Road, London.

HOUSE, SIGN, AND DECORATIVE PAINTER. PAPER HANGING, and KALSOMING. Give him a trial. July 8-11
