### CITY.

**JOB PRINTING.**—We are now prepared to execute, at this office, all manner of Job Printing.

**TO OUR READERS.**—Subscribers will notice that the cross on their paper denotes "time out" and we would be pleased with prompt renewal of subscriptions.

**CHEAP ADVERTISING.**—All our friends are cordially invited to send notices for this column at the exceedingly low price of 10 CENTS A LINE.

The Republican County Nominating Convention will meet in this city on Saturday July 17th, 1869.

The building association is a success. Let us have another.

Professor Pool gives notice to the public of the fall session of the University.

An umbrella is advertised and the finder will please Post it directly to this office.

Mr. A. M. Alderman won the silver cup for fast and graceful riding in the "rink" Friday night.

Friend Heinsberger has "some more" of those new and delightful summer books. See advertisement.

Our worthy Post Master tells of a pleasant trip to "de old plantation," and speaks of some "mighty tall corn."

Mr. Meares' body was recovered, and buried Friday. The unfortunate young man was so disfigured by alligators that his recognition was difficult.

**FIRST WARD.**—Our gallant Eagles is determined to win his "Eagle"—perhaps a star—by carrying the first ward away from "scamp" Larkins and company.

The Judge of the Special Court has been censured for "instructing a jury." It is his duty under the law to "instruct" and inform the jury of the law in every case.

We were pleased to see our friend Senator Galloway in town yesterday evening. He is well and brings encouraging news from the upper part of the State.

In the case of King against Abrams for an assault. The jury continued to disagree, and as the "assault" was not punishable as a rape, the absurdity of the whole affair is but too apparent.

**THE EXPLOSION.**—We have been shown the Inspector's certificate of the unfortunate Brandt. It is evident that she was thoroughly inspected, and as her small boat was in constant use, the only explanation of its unseaworthiness is that the steam injured, or a piece of iron knocked a hole in her bottom.

The *Carolina Farmer* comes to us looking as fresh and vernal as any agricultural product of the country. It is published by W. H. Bernard, and is well worth subscription price, \$2 per year.

Mr. Price should not let Mr. Larkins write so many cards for the *Star*. Poor "George" is a sad tool in the hands (and such hands!) of "Captain" Larkins. "Brothers in life; in death let them not be divided."

The virtuous Price, and the pure minded Larkins, say they are not the tools of the democrats. Let Cols. Moore and Hedrick tell all they know! We are sorry for "George"—"And he so young!"

The friends of Mr. Eagle desire his name to be presented as a candidate for election to the Legislature. We are always pleased to oblige the friends of any respectable citizen and so make way for Mr. Eagles.

Mr. Eagles is well known in our community as a man of good character, and respectable standing. He was a good soldier and is a good city officer. The highest compliment we can pay him is to say that "he has done his duty."

Mr. Price states in the "bolter's journal" that he was "elevated" by suffrages. He means he was "elevated" by whiskey when he permitted himself to sign the trashy Larkins diatribe published in the *Star* as an "address to Democratic (Republican) voters."

A DESERTER CAUGHT.—It would seem that "misery loves company" and why not deserters. Messrs. Price and Larkins are both accused of the pleasant little episode—called deserting. One from the Confederate volunteer service—the other from the Union. How is this "George"? A Senator declares that at Beaufort a certain United States sailor "cut his stick" and run away from the service of the United States and that sailor was George W. Price, Jr.!

**MENDACITY.**—The monstrous mendacity of Mr. Price, who seems under the influence of the foul fiend "Larkins"—or any other—The absurd stretches of imagination that even the most glib of his auditors have to say "coming it too strong," Mr. Price. Even this does not deter our idiotic misrepresentative, and the shocked and outraged community have but one favor to ask, "Mr. Price, resign." You are declared "ineligible" by reason of "monstrous mendacity."

**SHOWERS.**—We had three separate and distinct "showers" yesterday, and the water God, "Pluvius" as he was called in our school books—must have commenced and then reconsidered his determination to water with his tears our dry gardens and thirsty wells. It is to be hoped that the "change in the moon" will bring about all the prophecies prayed for—"rain," and thus "let all the people" continue to do lest we become Arabs—living in deserts—"where no green thing can abide."

**CAPTURE OF AN ESCAPED JAIL PRISONER.**—Constable Carr captured William Washington, a colored prisoner that escaped from the jail in April '68. Washington was charged with robbing from the store of Mr. R. S. Waldron on the night of the "big fire." He escaped before trial, and has been at large ever since. He was recognized on the streets by Constable Carr, who promptly seized him, and, having procured the proper authority, committed the scamp to jail, where it is thought he will remain until his appearance is called for by the Superior Court.

**A SHELL ROAD TO WRIGHTSVILLE.**—A joint stock company is being organized in our city for the purpose of constructing a shell road to Wrightsville Sound. It is calculated that \$15,000 will be required for the enterprise, \$3,000 of which has been already subscribed. The par value of the shares is \$100. The road, if built, will be constructed in an air line via Ann or Nun street, from Front, and terminating somewhere in the vicinity of Mr. C. C. Morse's place. We trust that this enterprise will succeed, and think it will pay. There would be quite enough driving on such a road to afford income sufficient for a handsome dividend to stockholders. The subscription list is with Col. J. R. Davis, at the Purcell House.—*Journal*.

**MARKET DAY.**—Saturday is a sort of "market day" all over the world, and the songs and stories founded on the meeting of rustics on these happy occasions would make many volumes. Yesterday was a sort of "market day" and the numbers of watermelons devoured by thirsty and melon-loving individuals was something fearful to contemplate. For ourselves we care little for the huge watery article so cherished by the laboring population, and the temptation of all youngsters who ever lived in the country. Acquaintance with our Northern markets makes us long for the sweet crisp high flavored "nutmeg" melons—or "cantalopes" as they are called. In hopes of seeing some of these we will rest until another "market day" draws us from our sanctum; when we hope some of our gardeners will gladden our editorial eyes with a melon fit to charm away the blues, and at prices all can reach—even editors.

**EXCURSION.**—An excursion party from Weldon, consisting of the pupils of the school of the Misses Hooper in that town and their friends arrived in the city by a special train on the Wilmington and Weldon Railroad Friday, and embarked on the steamer General Howard for Smithville and the forts, where the day was spent.—This arrangement is due to the accommodation of Colonel Fremont, and we hear the excursionists enjoyed a most delightful trip.

**MEETING AT MIDDLE—HARNETT TOWNSHIP—SOUND.**—Yesterday the Republicans in pursuance to a notice assembled in mass meeting at "Gardner Place" for the purpose of nominating township officers, and electing three delegates to attend the County Convention. Mr. Benj. Galloway presided. A committee consisting of Messrs. Lewis Nixon, Jesse Brown, Edwin McKay, Reuben Sneeden and Alex. Moore, were appointed a committee on nominations. After an absence of quarter of an hour the Committee made the following report:

Magistrate—J. Reubin Sneeden.  
Justice of the Peace—Ed. McCabe.  
Constable—Samuel Sneeden.  
Town Clerk—A. H. Moore.  
School Committee—Jesse Brown, Daniel C. Davis, Lewis Nixon.  
Delegates to Convention—George Williams, Lorry Davis, Benj. Galloway.

No young lady can be too well instructed in anything which will affect the comfort of a family. Whatever position in society she occupies, she needs a practical knowledge of household duties. She may be placed in such circumstances that it will not be necessary for her to perform much domestic labor; but on this account she needs no less knowledge than if she was obliged to preside personally over the cooking stove and pantry. Indeed I have thought that it is more difficult to direct others, and requires more experience than to do the same work with their own hands.

Mothers are frequently so nice and particular that they do not like to give up any part of the care of their children. This is a great mistake in their management, for they are often burdened with labor and need relief. Children should be early taught to make themselves useful; to assist their parents every way in their power; and to consider it a privilege to do so.

**A PUZZLE.**—Here is a question for young arithmeticians, and others, who like to crack an arithmetical nut now and then, to try their wits upon:

Two Arabs sat down to dinner and were accosted by a stranger, who requested to join their party, saying "that as he could not get provisions to buy in that part of the country, if they would admit him to eat only an equal share with themselves, he would willingly pay them for the whole." The frugal meal consisted of eight small loaves of bread, five of which belonged to one of the Arabs, and three to the other. The stranger having eaten a third part, and each of the two Arabs a third part of the eight loaves, arose and laid before them eight pieces of money, saying: "My friends, there is what I promised you; divide it between you according to your just rights." A dispute, of course, arose respecting a division of the money; but reference being made to the cadi, he adjudged seven pieces of the money to the owner of the five loaves, and only one piece to him who had owned the three loaves. Yet the cadi decided justly.

**CUT THIS OUT.**—The following are excellent rules for young men commencing business:

The world estimates men by their success in life, and, by general consent, success is evidence of superiority.  
Under no circumstances, assume any responsibility you can avoid consistently with your duty to yourself and others.  
Base all your actions upon a principle of right; preserve your integrity of character, and never count the cost.  
Self-interest is more likely to warp your judgment than all other circumstances combined, therefore look well to your duty when your interest is concerned.  
Never make money at the expense of your reputation.  
Be neither lavish nor niggardly. Of the two avoid the latter. A mean man is universally despised, but public favor is a stepping stone to preferment; therefore generosity is politic as well as proper.  
Say little, think much, do more.  
Let your expenses leave a balance in your pocket. Cash is a friend in need.  
Keep clear of lawsuits. If you gain your cause, you generally lose money.  
Avoid borrowing and lending.  
Wine and tobacco impair health, mind and pocket, and waste time.

**STORMY TIMES AHEAD.**—Our scientific correspondent communicates the following: We have now entered a season which there is reason to believe will be marked by extraordinary storms of rain, wind and electrical phenomena, the most certain periods being about the second Sunday in the months of July and August next, and the first Sunday in September and October next. There will be intermediate storms of less severity about the time of or just after full moon in each of those months. The conditions prevailing at the time specified are not unusual or extraordinary in their character, but are periodical and unvarying. The storms

anticipated are such as usually prove very destructive to canals and railroads, and sweep away bridges, etc. It we can pre-calculate such events some of the perils of such storms may be averted, by careful preparations to meet them. A few weeks will suffice to test the truth of these predictions. The storms here referred to are not local, but general ones, prevailing over a large space of territory at or nearly the same periods of time. On the seventh of August next there will be a total eclipse of the sun, and, according to the statement of an English astronomer, a comet is now visible. What effect these circumstances will have upon the weather I am not prepared to say, but have reason to believe the tendency will be to increase the severity of the weather.

**THE RECORD.**—The report of the proceedings in the House of Representatives, March 17th, 1868, as published in the *Raleigh Standard*, verifies the statement that Geo. W. Price, Jr., favored removal of disabilities—the report says: "Mr. Price spoke against the reference and in favor of the adoption of the resolution. He said the men who fought against his rights and the rights of men should be made friends of the government by the removal of disabilities." Mr. Hudgins asked if he would still have his rights if Seymour and Blair had been elected.

Mr. Price said he knew he had his rights, and could not be deprived of them.

Mr. Justice of Rutherford would do all in his power to secure the removal of the disabilities of any man who recognized this government, and asked to be pardoned in good faith, but when men called this a bogus government, a bogus Legislature, and the Governor a bogus Governor, and the Congress of the United States a usurping unconstitutional body, he would rather his tongue would cling to the roof of his mouth than vote for the removal of their disabilities.

Mr. French did not ask these men to say they were sorry for what they had done; but he would ask them to recognize the government, accept the situation, and ask pardon, before their disabilities should be removed.

### LETTERS FROM THE PEOPLE.

Letter from Gen. Rutherford.

WILMINGTON, July 9th, 1869.  
EDITOR OF THE POST:—As the public have apparently the impression that I am a candidate for the Legislature in consequence of certain articles that have appeared in the newspapers, and the efforts of personal friends to bring me forward, I take this opportunity of saying that I am not and never have been a candidate for the position, and should under no circumstances accept it. I have repeatedly stated that I was not a candidate, and am now compelled to adopt this public means of denying the report to save myself the annoyance of making a personal statement to every man I meet. Thanking yourself and other friends for the complimentary remarks and kind manner in which my name has been mentioned, I am very respectfully,  
ALLAN RUTHERFORD.

WILMINGTON, N. C., July 10, 1869.

MR. EDITOR:—We would call the attention of the voters of New Hanover county to the names of J. S. W. Eagles or A. J. Denton, as candidates for the Legislature.  
MANY CITIZENS.

**To the Planters and Farmers, Agriculturalists and Mechanics of Eastern North Carolina.**

The Executive Committee of the Cape Fear Agricultural Association have so far completed their arrangements as to announce to the people of the fifteen counties of Eastern Carolina, that are represented in the Association, as well as to the people of the State at large, that they will hold their first annual Fair at their extensive Fair Grounds (of 120 acres), near the city of Wilmington, about the middle of November next, (the exact days to be announced in due time).

Every accommodation will be afforded the public, within their enclosed grounds, to exhibit their stock, agricultural and mechanical products, of every kind—including that of the flower-garden and needle-work of the ladies, &c., &c.—on the most extensive scale desired. A race track for the trial of horses will be in readiness. The Committee have nearly ready for publication, a very extensive list of premiums, for all articles that are likely to be offered at any State Fair, especially to farmers, gardeners, nurserymen, vegetables and fruit growers and stock raisers.

The Committee earnestly call upon their fellow-citizens of every honorable pursuit, to co-operate with them in making this, their first Fair, an entirely successful one. The Association has for its object "the promotion of Agriculture, Commerce and the Mechanic Arts in that section of country of which Wilmington is the commercial centre."

And the Committee confidently expect that its members in the several counties,—and especially the Vice-Presidents for the counties,—will use due diligence in getting up large an exhibition of the products of their counties as possible. To do this, early assurances, that the Fair will be held, are deemed necessary.

The Committee are assured that the railway companies will make their rates for the transportation of persons and things so low

that no one will be prevented from attending with their specimens.

S. L. FREMONT, President.  
Executive Committee Rooms Cape Fear Agricultural Association, Wilmington, N. C., July 10, 1869.

### STATE.

Our river is so low now that boats can hardly run.—*Fayetteville Eagle*.

The Elizabeth North Carolinian calls upon the farmers of the State to raise timothy and clover.

An old lady in Guilford county, with the assistance of her children, last year, picked and dried blackberries enough to bring her in nearly four hundred dollars; and this year she expects to do better.

The Board of Public Charities appointed at the last session of the Legislature, have held a meeting and prepared circulars to be sent to almshouses, asylums and prisons throughout the State, for the purpose of obtaining information upon which to act.

At a meeting of the Supreme Council of Friends of Temperance, held last week at Louisburg, N. C., the following officers were elected for the next two years:

President—Maj. Daniel T. Hill, Louisburg, N. C.  
Associate—Rev. Dr. Dame, Danville, Va.  
Chaplain—Rev. Jno. N. Andrews, Wilmington, N. C.

**COUNTRY CULTIVATORS.**—To persons driving over the country roads the bad condition of the little plank bridges is a source of constant apprehension. There is danger to man and horse, and many a fine animal has been ruined by the accidents happening in the removal of a plank or a broken one. Supervisors should at least give the bridges more supervision.

Judge Brooks has appointed special terms of the United States District Court to commence at Salisbury on the first Monday in August next, and at Morganton on the second Monday in August next. This will be a great saving of time and expense coming over to Raleigh; and witnesses and clients will thank the Judge for the arrangement.—*Fayetteville Eagle*.

A special term for Guilford county is now in session, Judge Tourgee presiding. No cases of interest have been tried up to Thursday. The case of Going, from Randolph, for murder, was to be called Friday. The opinion prevails that Judge Tourgee makes about as good a Judge as we have under the New Constitution. It is thought that court will hold two weeks.

The Land and Lumber Company at this place have succeeded in securing the active co-operation of some energetic and responsible Philadelphia capitalists, and are making arrangements for the speedy erection of a large Steam Saw Mill and other machinery for the manufacture of lumber. This will prove one of the most important enterprises in the State.—*Elizabeth North Carolinian*.

At the suggestion of Col. Wm. Johnson, a meeting of railroad presidents and superintendents on the inland line from Washington to New Orleans will be held in Columbia on the 15th instant. At this meeting important matters will be considered—among others an entire change and material reduction in the through schedule. "The longest pole reaches the persimmon," and the shortest schedule will take the through passengers. The through line goes over the North Carolina Railroad and the Raleigh and Gaston Railroad, and will add greatly to their business.—*Raleigh Standard*.

Mr. Julius A. Bonitz, proprietor of the Daily and Sunday Messenger, will begin on the 14th of August, prox., the publication of a German newspaper. The object had in view is the encouragement of immigration and the fostering of German interests in North Carolina. It is to be effected by posting large numbers of the most desirable kind of emigrants.

A correspondent writing to us from McDowell county, says: "I am happy to say there have not been so fine wheat crops raised in Western North Carolina in fifteen years. Corn is rather small, but growing rapidly, and promises an abundant yield." Referring to the political condition of the country, he adds: "Rebellion is about to be numbered with the things that were. Republican stock is above par.—*Standard*."

We learn that crops in Richmond and Robeson counties are better than they have been for several years. The wheat crop was very good. We learn, also, that crops in Arkansas are unusually promising; and, notwithstanding the excessive warm and dry weather, corn and cotton in this and adjoining counties seem to be coming out rapidly; and, with several refreshing rains, there will be an abundant yield.—*Wadesboro Argus*.

**A WHITE MOCKING BIRD.**—On Saturday last, we saw at the store of Messrs. H. W. Thomas & Co., a white mocking bird. It had just attained its feathers, which are perfectly white. Its eyes are pink, and its appearance otherwise similar to the sweet songster, so common to this country. It was captured near the depot of the M. & A. Railroad and was the only one hatched in the nest. It remains to be seen whether this albino mocking bird can warble the sweet notes of its species.—*Federal Union*.

An association of practical mechanics is making arrangements for the building, in this city, of a complete establishment, with steam power and the most approved machinery, for the manufacture of doors, sash and blinds. We have steadily urged the formation of co-operative associations among men of small capital, and are glad to see every enterprise of the kind succeed. This factory, located at this central point, will command the trade of an extensive country, after supplying the demand of the city and its immediate vicinity; and under the control and direction of intelligent and skillful men, who themselves will own and run it, success is well nigh certain.—*Raleigh Standard*.

**THE N. C. REAL AND PERSONAL ESTATE AGENCY.**—We learn that this company is in a flourishing condition, and that it has gained the confidence and well wishes of the people of the State. This is proved by the fact that it has had offered to it over \$500,000 of real estate to be disposed of by the lottery plan. Many of the owners of the property thus offered are of the best and oldest families in the State—men whose character for honesty and enterprise are widely known. The large amount of property thus offered to the company proves to what an extent it possesses the confidence of the business men of the State, and how admirable is its plan of disposing of property. By its real and personal estate which would otherwise be sold at a heavy loss brings full value and purchaser and seller are equally benefited. The gentlemen composing the company are men whose integrity cannot be questioned and whose names are sufficient to guarantee fairness.—*Raleigh Standard*.

**THE RESIGNATION OF SHERIFFS.**—We understand that several of the Sheriffs in this section of the State are seriously considering the propriety of resigning their offices before commencing upon the collection of the recently assessed taxes, owing to the fact that it will be a matter of impossibility for these officers to comply with the requirements of the law in the matter, the ingenious law makers in the late sitting of the Legislature having enacted a law imposing a heavy fine and imprisonment upon both the Sheriffs and their deputies should they fail in a complete return of these taxes by the first of December. This law leaves no means of escape, and yet, if we understand it aright, it places them somewhat in this predicament: the fall term of the Superior Court for this section will be held during the months of October and November, there are certain taxes which, to be made, requires an order of the Court, some week or more must elapse before the property is properly advertised, and thirty days' notice is required, carrying the matter over into the middle or the last of December before the taxes can be made by law—and yet the Sheriff is required to make a return of them to the State department by the first of December, or lay himself liable to the fine and imprisonment ordered in the case.
