Charlotte Democrat It is reported that the State offices for 1880 are already being apportioned by manipulators at Raleigh. It will not amount to much. The Democratic State Convention last Summer nominated a "bolter" (but a very good man) for Supreme Court Judge, and the Democratic House of our State Legislature has just elected a "bolter" for Speaker; and who can now consistently denounce "independents" who may run in 1880.

Senator Dillard.

Our Senator Mr. Dillard is proving himself worthy the trust of his constituents. His first two bills have begun at the root of retrenchment and reform. Washington Pest. There are now two strong Presidential movements under full headway inside the Radical political organization. One is in the interest of U. S. Grant, and the other of John Sherman. They possess many points of similarity. On one point, however, they widely differ. The originotors and chief supporters of the Sherman movement are Republicans who think the nomination of Grant in 1880 would seriously imperil the existence of their party, and by

Grant and Sherman,

some strange metamorphosis imagine that John Sherman is the man with whom to oppose him. The Grant managers for the eventual nomination of their candidate depend upon the vote of the Southern States in convention and the influences of the Money Power. The leaders of both movements confidently claim the suppert of the Money Power; Grant's man- chines and anything in the line of small agers on the ground that the ex-Presia dent has always had it heretofore, and Sherman's on account of his alleged from a distance will receive prompt ateminent services in bringing about re- tentian. All work warranted. samption. Tais phase of the subject is destined to provoke the main contest. The Money Power is the ruling influence in the Radical party. It defeated Blaine at Cincinnati three years ago. It renominated Grant in 1872. It will name the Radical candidate in 1880 in

spite of all outside machinations. ----
