FORTY-FIFTH CONGRESS.

WASHINGTON, Jan. 14.—SENATE.—In the Senate during the morning hour Mr. Anthony submitted a resolution providing, that at 1 o'clock Friday 9th, the Senate will proceed to consider the bills on the calendar not objected to, to be discussed under the five minute rule. Agreed to.

Mr. Butler, of S. C., submitted a resolution directing the Secretary of the Interior to inquire and report to the Senate what Railroad company, individual or individuals, are constructing or building a Railroad across the public domain in the territory of Arizona, and by what authority such road is being constructed. Agreed to. At the conclusion of the morning business, Mr. Davis, of West Va., called up a resolution submitted by him early in the session, to promote the agricultural interests of the country, and spoke at length

upon that subject. House .- The House by a vote of yeas 112, noes 105, determined to postpone the Geneva award bill, and is now in committee on a bill for the payment of pensions to the survivors of the Mexican and other

Congressional Committees, WASHINGTON, Jan 14.-At a meeting of

the House Military Committee this morning the sub-Committee reported that the facts in the communications laid before them in regard to the charges against the management of the Soldiers' Home at Hampton were insufficient to warrant Congressional inquiry.

On motion of Representative White, the sub-Committee was instructed to examine the matter more fully, and submit their conclusions to the full Committee on

The Potter Committee to day examined H. Birch, one of the Presidential Electors at large of Louisiana. His testimony was to the effect that he signed the second set of certificates having been advised that there was informality in the first set. He knew nothing of the forgery of the signatures except what he had learned from newspapers and conversations. It was quite true that he forged no signature.

Witness Kelly was re-called from Saturday, and after much pressure stated positively that the name of Jeffrion was forged, but was not quite sure as to that of Levisse. The Committee took a re-

The Senate, Finance Committee heard and Boston, in opposition to the House bill which provides for reducing the rate of taxation on tobacco. The Committee adjourned without acting on the subject, but will hold a special meeting to dispose F. C. Christophers. of it within the next few days. The House in Committee of the whole

considered the Mexican pension bill. The Appropriation Committee was instructed to appropriate to the widow of the late: Representative Hartridge an amount equal to the remainder of his salary as a member of the 45th Congress.

The House Committee on Commerce agreed to report Mr. Smalls' bill extending the collection district of Beaufort, S. C., eastward to South Edisto River, so as include the waters of the Combahee River and the sounds and inlets on the coast between the Edisto and Black River

The House Committee on Postoffices and Post Roads authorized its chairman (Mr. Waddell) to report the bill prepared by him for the classification of mail matter as a substitute for the bill heretofore report ed, and which is now on the House calendar. This bill has been very generally published, but as agreed upon by the Committee, It is amended so that letters mailed with insufficient postage will be forwarded and deficiency collected from the addressed. It provides also for the issuance of the new stamps to be used for that purpose as heretofore published.

Foreign News.

London, Jan. 14.—A Berlin dispatch says: "The Parliamentary punishment bill continues to be the chief topic of con versation in all political circles. The opin ion of the foreign press is largely quoted in comparison with articles in the journals here which seems to yield the curious result that abroad there is more opposition to the Chancellor's scheme than in Germany itself. There is certainly great opposition here to the bill, though to the English mind it is somewhat surprising to find so much unconcern reigning in view of the fate which seems to threaten freedom of speech and the liberty of the press. The Nord Deutche Allegemeine, Zeitung and Post defend the Chancellor's scheme.

The Koenz Zeitung, though admitting the necessity of some restraint on the Parliamentary speech, thinks with the Liberals, that the bill in its present form is inadmis sable, for the reason that it changes several articles of the Constitution, which cannot be done without a special resolution by the Reichstag to that effect. / In parliamentary circles the question is being discussed as to whether the bill, in view of certain articles of the Imperial Constitution, might not be rejected a lamine. That might doubtless be done if a majority of the House would only resolve to do it, but many persons here believe that Bismarck, despite the present opposition, will ultimately succeed attyring to changes.
