## WEATHER.

For North Carolina—Local showers, probably followed by fair in western portions Wednesday evening; southeasterly winds.

For Raleigh and vicinity: Showers Wednesday, followed by clearing Wednesday afternoon.

Weather Conditions.—The pressure continues high over the Atlantic States with threatening weather and considerable rain-fall, from New York to Florida. The storm in the west has moved northward to the upper Mississippi valley, with rain in that section and considerable in northern Texas, though the southern part of the State continues clear and dry. The heaviest rains were, 3.48 inches at Dodge City, 2.08 at Atlanta, and 1.48 at Oklahoma. The temperature is below the normal, especially in the east.

At Raleigh (from 8 a. m. Monday to 8 a. m. Tuesday): Barometer 30.22; maximum temperature 86, velocity of wind 6 miles per hour; rainfall .52.

## CITY IN BRIEF.

Sheriff Jones, of Warren county, yesterday brought one new convict to the penitentiary—a negro—for eight months for larceny.

The weather promises to be fine for the Tabernacle picnic at Occaneechee on to-morrow (Thursday), and doubtless a large crowd will go. The round trip is only 75 cents.

Two old buildings on Fayetteville street—the Lumsden and I. Rosenthal stores—are being remodeled. When completed they will add much to the general appearance of the street.

It is said that Dr. H. B. Battle will establish a phosphate factory at Winston, and that Prof. Irby, late of the Agricultural and Mechanical College, will be associated with him.

The condition of Capt. Fuller at the Soldier's Home is giving his friends uneasiness. It was at first thought that his fall from the church was only painful. It is now believed that his hip bone is broken.

A special meeting of the Board of Directors of the Institution for the Deaf, Dumb and Blind was to have been held yesterday afternoon, but a quorum could not attend, so the meeting was postponed.

To-day is the time for the regular meeting of the penitentiary board. But it is likely that the meeting will be postponed until August 18th. There is no important business to be transacted just now and in August it is proposed to turn out the remaining Democrats, whose service cannot be dispensed with now.

Commissioner Mewborne, of the Agricultural Department, has gone to Washington for the purpose of trying to have the quarantine law in this State changed and also to have the Bulletin mailed as a second class matter, is possible. Mr. Mewborne is accompanied by Mr. J. C. L. Harris, attorney to the Board of Agriculture.

A negro, said to be a railroad employee, got gloriously drunk yesterday and became very disorderly near the court house. A policeman tried to arrest him, but he refused to go, lying down in the rain and mud and declaring he would not move a step. But he did move; the officer summoned three men to help him, and one took hold of each foot and one seized each of his hands and carried him this way, his back every time he struggled to get free, getting a good washing in the puddles along the street. And after they got him into the station house he made things lively for awhile with his yells and curses.

Salem, Mass., July 20.—The Naumburg Cotton Mills here have decided to close for a number of weeks and the 2,000 operatives have been so notified. The mills have been running on a 42 hour per week schedule for some time. The curtailment is due to an unsatisfactory market.

## The Store That Sets the Pace

ALL THE PEOPLE,  
NOT SOME PEOPLE.

All Values and all Bargains for all the People.

Distinctions are unbusiness like as well as unfair. The people include everybody. We know no classes. For everybody the best value, we know no second quality. In a word, our business is doing the best we know how for everybody. It was never hard to do. We began that way and it came natural. We began business, not for a few years, but for a life time. We laid the foundation of our success in solid rock, with no intention of ever abstracting one block from the structure of character we built. We attracted attention, not to ourselves, but to our principles. They have made us. They are principles the people use and believe in.

## The Keeley Treatment

AT GREENSBORO, N. C.

Mr. Geo. E. Holt, a well-to-do merchant of Mebane, N. C., who graduated in '95, says in a letter to W. H. Osborn, of April 25th, 1897:

"I have no desire to take a drink. I am thankful to tell you the Treatment I received at the Keeley Institute and the effect it has had upon me, has been the means of making a sober, industrious, Christian man of me. I am a member of the Presbyterian church at this place. I am always ready to tell anybody the good I received from your Treatment, and advise them to take it. I know what the Institute is. I speak from experience. If I had not gone there when I did, I would have filled a drunkard's grave in six months time."
