

Beware Of the Knife.

Mr. Lincoln Nelson, of Marshfield, Mo., writes: "For six years I have been a sufferer from a scrofulous affection of the glands of my neck, and all efforts of physicians in Washington, D. C., Springfield, Ill., and St. Louis failed to reduce the enlargement. After six months' constant treatment here, my physician urged me to submit to a removal of the gland. At this critical moment a friend recommended S.S.S., and laying aside a deep-seated prejudice against all patent medicines, I began its use. Before I had used one bottle the enlargement began to disappear, and now it is entirely gone, though I am not through with my second bottle yet. Had I only used your S.S.S. long ago, I would have escaped years of misery and saved over \$150."

A Real Blood Remedy.

This experience is like that of all who suffer with deep-seated blood troubles. The doctors can do no good, and even their resorts to the knife prove either fruitless or fatal. S.S.S. is the only real blood remedy; it gets at the root of the disease and forces it out permanently. Valuable books will be sent free to any address by the Swift Specific Co., Atlanta, Ga.

ATTEMPTED RAPE.

ANOTHER NEGRO DEVIL BECOMES A CANDIDATE FOR THE GALLOWS.

Mother Murders Her Child--The School Tax Will Carry in Two Townships--Objection to Educating the Negroes.

Roxboro, N. C., Aug. 3.—(Special)—Henry Hill, a negro man, living in the northern section of the county attempted rape on a negro girl last Friday. He was arrested and jailed Saturday.

The body of a negro baby partly decomposed was found in a ditch about seven miles east of Roxboro yesterday. The child is believed to have been murdered by its mother. The coroner is investigating the matter to-day.

A large number of cases of typho-malarial fever are existent in the western part of the county. Only one death has occurred.

The people of Person county are earnestly considering the question of additional taxation for the benefit of the public school system. This measure will probably be defeated in every township in the county, except Roxboro and Olive Hill. The friends of the measure in these two townships have great hopes of its success. The prevailing objection to the tax among the white people seem to be, "We'll hav' to eddycate er little nigger, too."

MR BOONE AGAIN.

He Thinks Additional School Tax Under Present Conditions Would Only Help the Teachers.

To the Editor: It is no part of wisdom to contend with an editor in the columns of his own newspaper. The advantage of position is altogether with the editor. But with your permission and in the best of spirit permit me to add a few more thoughts to the discussion of the school tax. With due respect to the editor, I still contend that the question of good or bad execution of the school law did not, at first, enter into the controversy concerning the school tax. It was, so to speak, an after thought and was forced upon the avowed advocates of the school tax by the outspoken indignation of an outraged people. It is only within the past few days that some of the school tax champions have softened sufficiently to say that under certain conditions the people ought to vote "against schools." And, it seems to me, that such a concession is a bogging of the question. Why advocate the adoption of a law that does confessedly work a hardship upon many of the counties of the State that are helpless to avoid the wrong? Why pass a law that is bound to work disastrously to many of the best people of the State? It hardly seems right to force us to be the authors of our own misdoing that other people may enjoy the benefits that will accrue to them from taxes in the general fund of the State, that have been wrung from us.

There is great stress laid upon the extension of the school period, but some things have been lost sight of in that sentiment too. The people, who are expected to be most benefited by a longer period of public schools, are not in a condition to avail themselves of the privileges offered under the old law. This deponent knoweth whereof he speaks. The people are in such straitened financial conditions that they are unable to employ labor and are compelled to keep their children at home to make the necessities of life. During the agitation of this question time and again this writer has been told by both white and black that they were not in a condition to dispense with the labor of their children even as much as four months. So a longer school period, if it means an advantage to any class of men, must only mean the betterment of incompetent teachers to doze in the shade of ill ventilated school rooms and blink at a baker's dozen of lazy boys and girls. Mark this. If you extend the school period and hope to reach the masses you must get the State to vote money for books, food and raiment and pass a compulsory school law. The present school law, on providing for the centralization of schools, must, of necessity take the schools, in sparsely settled districts, away from a large number of children and thus decrease the number in attendance. Our brethren of the towns and cities seem to have forgotten the condition that everywhere exist in the country and hold to the Utopian scheme of a graded school in every magisterial district of the State. Come out from the shadows cast by brick and granite walls—eat with the common people their corn pone and middling meat and learn some practical common sense ideas on the school question. "It is a condition and not a theory that confronts us." There is much reason to suspect that two very antagonistic elements have joined hands to fight for the local school tax with different ends in view. The advocates of State aid, and they are found everywhere, hope to distract the attention of the people from the battle royal that has been, much against their will, forced upon them and thereby postpone if not entirely relieve themselves from the opposition that will not down at their bidding. The anti-State aiders, and their number is increasing daily expect so to burden the people with increased taxation for public schools—that the people will openly revolt against an increase of their burden and demand a cessation of the horse leech cries of "give"—"give." A true hearer on for some time, but already mutterings of the coming storm have been heard—a day of reckoning between these two discordant elements will come and then look out to see the fur fly. Both parties, having done their best against our interests, we shall not care how the fight ends and may well content ourselves with the thought that "when rogues fall out honest men get their dues."

THE GRANDEST REMEDY.

Mr. R. B. Greeve, merchant, of Chilhowie, Va., certifies that he had consumption, was given up to die, sought all medical treatment that money could procure, tried all cough remedies he could hear of, but got no relief; spent many nights sitting up in a chair; was induced to try Dr. King's New Discovery, and was cured by use of two bottles. For past three years has been attending to business, and says Dr. King's New Discovery is the grandest remedy ever made, as it has done so much for him and also for others in his community. Free Cure For Men.

A MICHIGAN MAN OFFERS TO SEND HIS DISCOVERY FREE.

Claims to be a Benefactor to Weakened Mankind.

There is always more or less suspicion attached to anything that is offered free but sometimes a man so overflows with generosity that he cannot rest until his discovery is known to the world, in order that his fellow men may profit by what he has discovered. It is upon this principle that a resident of Kalamazoo, Mich., desires to send free to mankind a prescription which will cure them of any form of nervous debility; relieves them of all the doubt and uncertainty which such men are peculiarly liable to and restores the organs to natural size and vigor. As it costs nothing to try the experiment it would seem that any man, suffering with the nervous troubles that usually attack men who never stopped to realize what might be the final result, ought to be deeply interested in a remedy which will restore them to health, strength and vigor, without which they continue to live an existence of untold misery. As the remedy in question was the result of many year's research as to what combination would be peculiarly effective in restoring to men the strength they need, it would seem that all men suffering with any form of nervous weakness ought to write for such a remedy at once. A request to H. C. Olds, Box 1622, Kalamazoo, Michigan, stating that you are not sending for the prescription out of idle curiosity, but that you wish to make use of the medicine by giving it a trial, will be answered promptly and without evidence as to where information came from.

The prescription is sent free, and although some may wonder how Mr. Olds can afford to give away his discovery, there is no doubt about the offer being genuine. Cut this out and send to Mr. Olds that he may know how you came to write him.
