

LOCAL RECORDS.

Read a new notice of land sale.

All persons who have left deeds or mortgages with our Register for registration are requested to call on him and get them, as they may be lost or mislaid in being removed from his office when the court-house is torn down.

Read the advertisement of Shaw & Harris who are receiving their stock of new goods just selected by the senior partner with much care and good taste in the northern markets. They take pleasure in showing their goods because they feel assured that you will buy after seeing them.

Bynum & Headen have just returned from the North, and will soon have in store a beautiful lot of Spring and Summer Goods at bottom prices. Our Millinery department will be under the supervision of Mrs. Laura Horne, where she will be pleased to have a call from her friends and customers.

The Spring has opened at last and London's new Goods are arriving. It will pay you to come to town just to see them. They are beautiful, and the prices are very low. He has a Tremendous Stock and can suit any taste. He says his Calicoes are prettier this Spring than he has ever had, and his stock of Clothing is splendid—would do credit to any city.

Ladies are out now looking at the pretty things at London's! You would say anything about hard times if you could see how they are buying those beautiful dresses, &c. He has Dress Goods as low as five cents per yard. Any one can now have a nice dress. He has some of the prettiest ladies' and children's slippers and low-quarter shoes ever seen in this market. He says he has the best lot of shoes he has ever had. Three hundred and twenty-five sacks of Guano just arrived.

A Cat Suckling a Squirrel.

Mr. John Chapin, of this county, informs us that some four or five weeks ago he found a young squirrel in a nest in the woods and carrying it home he placed it with the kittens of an old cat, which has suckled it and takes as much care of it as if it was one of her kittens.

Dwelling Burnt.

On last Thursday a dwelling house on the plantation of Mr. Junius A. Alston, of this county, was accidentally burnt. The fire originated from a defective chimney. The house was a large two-story building, formerly occupied as a residence by Mr. Alston, but latterly occupied by a tenant, and was valued at not less than a thousand dollars. There was no insurance.

An Owl Poisoned.

Mr. J. B. Guthrie, of this county, has recently had several geese killed while they were setting, and one day last week he found one goose partly eaten up, and placing some strychnine on it he placed it back on the nest, and next morning found a large owl lying near it that measured four feet and a half from tip to tip across its wings. If all chicken thieves met such summary treatment fowls would be safer.

The Blackberry Crop.

We notice in several of our State papers that the severe cold weather of last winter has killed the blackberry bushes in many sections. We have made inquiry of several persons in this county and are pleased to learn that the blackberry bushes here were not injured, and that we are likely to have our usual full crop of the berries. The blackberry crop of Chatham is no small item among our products and its destruction would be a serious loss.

County Assessors.

At a special meeting of the county commissioners held on the 16th inst., the following persons were appointed Assessors of the different townships of this county:

Albright Township—W. A. Lineberry; Hadley Township—J. E. Perry; Baldwin Township—T. B. Farrar; Williams Township—C. R. Scott; New Hope Township—J. K. Gibson; Cape Fear Township—W. S. Gunter; Oakland Township—A. W. Wicker; Gulf Township—W. M. Thomas; Matthews Township—J. A. Houston; Bear Creek Township—J. W. Calder; Hickory Mt. Township—J. B. Gutkrie; Centre Township—J. A. Womack.

Our County Bonds.

As will be seen from an advertisement published in another column our county commissioners give notice to all persons desirous of investing in our county bonds to inform them at or before their next meeting, on the first Monday in May, what amount they will want. These bonds will bear six per cent interest, which will be paid promptly on the first day of March every year, and one-tenth of the principal will be paid annually for ten years. All these bonds ought to be taken by citizens of this county, and we hope will be, so that all this money will be kept in circulation at home and not be carried out of the county. The bonds will be issued in denominations of one hundred and five hundred dollars.

These bonds will be a better investment than loaning money at a higher rate of interest and taking a chattel mortgage on a steer, as is the custom with so many of our small capitalists. If therefore any citizen of Chatham desires to securely invest, at a fair rate, one or more hundred dollars, let him buy our county bonds.

District Conference.

The annual session of the Hillsboro District Conference of the M. E. Church South, will be held at this place, beginning on Thursday, July 7th. A large attendance is expected and it behooves our citizens to put themselves in readiness for the proper entertainment of the delegates. The last time the District Conference was held here was in July, 1875.

Easter Monday.

Last Monday being Easter Monday was, as usual on that day, observed as a general holiday by both white and black, and many were the fishing parties and picnics enjoyed by all the young folks. The weather was all that could be wished for, being more spring-like than any day this year, and of course this added greatly to the enjoyment of all.

Carried Over a Dam.

We learn that, on the 14th inst., Thomas Campbell and Jasper Moody, of this county, attempted to cross Rocky river in a boat at Brooks mill pond, and were carried by the current over the dam and washed some two hundred yards down the river, where they caught an overhanging bush or tree and succeeded in getting out without any serious damage, but in rather a moist condition. It is said that, after so narrowly escaping a watery grave, they announced themselves in favor of prohibition.

Orange Presbytery.

The 22nd session of the Orange Presbytery was held last week at Chapel Hill, Rev. C. M. Miller presiding as Moderator. We learn from a member of the Presbytery that the session was remarkably pleasant, and the delegates were most favorably impressed with the hospitality of the citizens of the village and with the gentlemanly deportment of the University students. The next session will be held at High Point, beginning on the 28th of October. We are pleased to learn that Rev. P. R. Law and Junius A. Alston, Esq., of this county were elected as two of the four commissioners or delegates to represent this Presbytery at the next General Assembly to be held at Staunton, Va., on the 19th of May.

The Match Game.

For some time past the members of the Sylvan and Pittsboro baseball clubs have been anxiously looking forward to the match game that had been agreed to be played by them on Easter Monday. Both clubs had been diligently practicing, and both no doubt were hopeful of success and yet fearful of defeat. Quite a large crowd of men, women and children assembled to witness the game, to many of whom it was something entirely new. After six innings had been played the score stood eighteen for the Pittsboro club and three for the Sylvan. On the seventh inning the Sylvan boys went to the bat and made two runs, and after the Pittsboro boys had made one run the playing was stopped, and the game decided in favor of the latter. There were some excellent players in each club, and the game was watched with much interest.

State News.

Kinston Journal: The "Stock Law" for falling creek township and a portion of Kinston township is now in force. We confidently predict a prosperous future for the farmers in this section.

Farmer & Mechanic: In Little River Township Wake county, on the farm of C. M. Horton, there is a chinquapin tree 19 1/2 feet in circumference, two feet above the ground, and another 1 1/2 feet in diameter and 55 feet high.

Winston Leader: Among the arrivals at the Winston Hotel recently was a newly married couple, from Mecklenburg county. The young groom came to place his bride in the Salem Female Academy. She is now attending that institution.

Winston Leader: A colored man by the name of Jerry Snow, living near Germantown, has feet that are of some dimensions in this county. His shoes are 14 1/2 inches long and 1 1/2 inches in the instep. He would make a splendid stump speaker—he would cover so much ground.

The Hickory Press tells of a lady who died a short time since, and says: "She was born on Sunday, married on Sunday, her oldest and youngest children were born on Sunday, and she had long had a presentment that she would die on Sunday. She was a most estimable lady. She was about 82."

Tarboro Southerner: Last week the residence and outhouses of Mrs. Lem Aldredge, about eight miles from Kinston, were consumed by the fire demon. The dwelling caught from a spark and the fire was communicated to the other buildings. The loss is about \$3,000. No insurance.

Charlotte Democrat: It is very remarkable that a man who lives eighty-five years should die in the same room in which he was born. The Fayetteville Examiner says that was the case with Col. Samuel T. Hawley, who recently died in Fayetteville. He was a good and upright man in all his ways.

Robesonian: Meredith Gaddy, a colored man, residing about 7 miles from town came in some time ago after a load of corn, (10 bushels) driving a diminutive specimen of a quadruped bull. On the way home the ox gave out several times and when within about two miles of his destination, Meredith becoming impatient, took the animal out, and adjusting the yoke to his own neck drew the load to his home. Though his wife has already borne 21 children it would seem that there is life in the old land yet.

Franklin Times: The dwelling house of Mr. Woodlief, of Youngsboro, this county, was destroyed by fire on Thursday night of last week. His family came near being burned, as it was in the dead hour of night when the fire was discovered. Nothing was saved, except two feather beds. Loss about \$2,000 with no insurance.

Southern Home: During our visit at Union Court, at Monroe, we noticed a bale of cotton, in front of the Court House weighing 810 pounds, put up by Mr. W. W. Walkup, and pressed by the recent invention of Mr. R. P. Davis. The bale was one-half foot less than an ordinary size 450 pound bale, 9 1/4 feet around the tie, and pressed by one small mule.

Fayetteville Examiner: The two Steam Boat Companies which navigate the Cape Fear River between this place and Wilmington, have taken the contract for the transportation up the river of the iron which is to lay the track of the C. F. & Y. V. Railway between Egypt and Greensboro. This with the usual business will give full employment to all the boats this Spring.

Moore Gazette: We learn that down about Blue's Crossing and Keyser the eagles are proving a perfect pest. They are to be seen in numbers, of large size, and are not only destroying the birds and rabbits, but are playing havoc with pigs and young lambs. The habits of the eagle are to dwell in the desolate pine regions in that section, and thence swoop to some settlement or habitation for his prey.

Charlotte Observer: An engineer had to get off his train near the Trade street crossing of the North Carolina Railroad yesterday, and remove a man from the track who was so drunk as not to know where he was. He stood stupidly staring at the approaching train, making no efforts to leave the track, and must have been run over before the train could have been stopped, had it not been running at a slow rate of speed.

Granville Free Lance: Information has reached us of another awful death caused by overindulgence in alcohol. It seems that one Sidney Falkner left Henderson on Friday evening last for his home in Franklin county, with a load of guano. He was said to have been very much under the influence of liquor, and when about six miles from Henderson, was thrown from his wagon, the wheels running over his head and fracturing his skull, besides inflicting other terrible wounds. He was killed almost instantly.

Raleigh Visitor 15th: The election in accordance with the provisions of the act to establish the county of Durham, took place on yesterday. The result is as follows: Total vote cast 2,031, of which 1737 were given for the county and 294 against it. The portion of Wake included in the new county voted 282 for and 47 against it. The county of Durham is now an established fact and we stand ready to "shake hands across the bloody chasm" and exclaim with Rip Van Winkle "here's health to yourself and families."

Newbernian: There are now twelve inexhaustible artesian wells in this city. We learn it is the intention of our authorities to double this number. The Irish potato crop in this section bids fair to be by far the largest that was ever housed. Hundreds of acres planted in potatoes, and the indications now are, that the yield will be enormous. Fish are becoming a little more plentiful in our market than they have been of late. Shad are still a little scarce as compared with other seasons, but plentiful is no name for herrings. The seines are catching all that can be wished, while each incoming boat is loaded to the gunwales.

Raleigh Visitor: We announced on yesterday that little "Jessie," eldest daughter of our esteemed fellow citizen, M. T. Norris, Esq., had a peanut which she was eating, to lodge in her windpipe. Since that time the child has been suffering the most intense agony accompanied with the greatest difficulty in breathing. All the efforts of some of our ablest physicians proved fruitless to dislodge the nut, and finally an operation of a painful character was undertaken as a last resort, but without favorable result. The child lingered until about 1 o'clock this morning when death put an end to its suffering.

Fayetteville Examiner: At Smiley's Falls, on the Cape Fear River, twenty miles above Fayetteville, is one of the largest water powers in North Carolina. The whole volume of water in the river runs rapidly for three miles down an inclination, creating by its fall a power, estimated by Professor Kerr, to be equal to that of 15,000 horses. By canalizing around the Falls this power may be utilized for manufacturing purposes, and we are informed on good authority, that the topography of the place is extremely favorable to this object. The total power employed at Lowell and Lawrence, Massachusetts, is estimated by Professor Kerr at 9,000 horse power.

Statesville Landmark: It is said in Washington City, that our fellow-countryman, Col. T. N. Cooper, will not get the Marshalship of this district, but that if Douglas is turned out, his place will be given to Col. Oliver H. Dockery. Judge Cloud wants a post-tradership or something so, away out West in Wyoming or Indian Territory. He doesn't know exactly what he wants, and indeed, doesn't care much; what he cares most for is the locality, and he doesn't altogether know where that is. He has some kind of a vacancy "somewhere out there" that he is plenty of bars and black tail deer." If there is really any kind of a vacancy in any such inviting country his ex-honor wants it and wants it bad.

Charlotte Observer: About eight months ago Winfield, the little six-year old son of Mr. John A. Young, Jr., suffered a severe attack of membranous croup and only recovered from it to lose his power of articulation to such a degree that he could not speak above a whisper. The family were very much troubled about the little fellow's misfortune, but had at length become resigned to it, when the other day he was having a romp in very high glee, and, upon making a jump from a high table to the floor, broke out in a fit of loud laughter, at which he himself was very much frightened. He followed up the discovery of his regained faculty of his own accord, however.

News and Observer 17th: Yesterday the sale of the National Hotel and its contents was begun. The hotel with that portion of the square on which it stands, fronting an Edenton street 210 feet, and on Salisbury and Halifax streets 188 feet, was purchased by the State of North Carolina, the sum paid being \$13,000 and was bought for the use of the Agricultural Department. There will be, besides, ample room for the accommodation of the Supreme Court, and probably the State Library, whenever it shall be deemed advisable to transfer them from their present cramped quarters in the capitol.

Durham Recorder: Last Sunday, Mr. J. S. Carr, Supt. of the Methodist Sunday School, announced that there was a chinaman in N. C. who had been converted and wished to be educated, and sent back to China as a Missionary to his people; and he proposed that the Sunday School should educate this man and send him back. Mr. Carr stated that Trinity College would take him for his board, and a collection was taken up, when the school responded to the tune of \$101.00, each class giving so much. This is already sufficient to school one year and a half.

Statesville Landmark: Mrs. Bettie Lackey, of Sharpe's township, Alexander county, has a turkey hen that is a wonder in the way of egg-laying. She commences laying in the spring and continues until she has enough eggs to set on, and while she is setting her nest has to be watched every day to keep the newly laid egg from spoiling. After she hatches, and while raising her brood, she keeps right on laying until the feathers all come off her, and in the dead of winter has to be wrapped up to keep her from freezing to death. The truth of this story is vouched for by Mrs. Lackey and by persons of the neighborhood whose veracity can not be questioned.

Wilmington Star: Intelligence was received here yesterday of a very distressing occurrence at Whiteville, Columbus county. On Sunday morning last, about 9 o'clock, Capt. W. J. Stanley, a prominent lawyer of that place, requested his wife to leave the room in which they happened to be at the time, and she complied, soon after which she heard the pop of a cap in the room she had left. She hurried to the door and tried to open it, when she found that it was locked from the inside, and while vainly endeavoring to unfasten the bolt she was shocked by the report of a pistol in the room where she had just parted from her husband. She gave the alarm and a crowd soon collected, when the door was forced open and Capt. Stanley was found prostrate upon the floor, weltering in his blood, which was flowing freely from a wound in the temple; and, upon examination, it was found that he was quite dead, while a large navy pistol was lying by his side. Capt. Stanley is represented to have been a man of some considerable means, was in no wise pressed financially, his domestic relations were of the most pleasant character, and the only cause that can be assigned for the desperate deed is the course of dissipation upon which he had entered, particularly during the last two or three years of his life.

Rich Darkey Dead. (New York Herald, 15th.) "Uncle Thomas," the veteran brush boy of the Grand Pacific Hotel in Chicago, who died last Thursday leaving an estate valued at from \$30,000 to \$50,000, was yesterday buried with simple honors at Oakwood. He was born in Virginia some time about the opening of the present century and has been a well known character in Chicago since the war times.

Advertising Cheats. It has become so common to write the beginning of an elegant, interesting article and then run it into some advertisement, that we avoid all such cheats and simply call attention to the merits of Hop Bitters in as plain honest terms as possible, to induce people to give them one trial, as no one who knows their value will ever use anything else.—Providence Advertiser.

DIED. ROGERS—At Lillington, N. C., on the 11th inst., GEORGE W. ROGERS, in the forty-second year of his age.

TILLEY—At Rockingham, N. C., on Friday, 15th April, at a man, Miss LAURA E. TILLEY, daughter of Rev. John Tillit, of the North Carolina Conference M. E. Church.
