A WICKED LITTLE SCHEMER.

Charles Algernon Smith, financial Cash Terrace, was in love with Mabel Denslow, pretty, industrious, but poor. Jessie Roland, daughter of a retired merchant, rich, notional and strong, minded, was correspondingly situated in regard to a young man she had met once by chance, who had rescued her from beneath the wheels of a recklesslydriven comilsus, and with a polite bow, deprecatory of thanks, had disappeared without even telling her his name The love of the financial agent was a realty, that of the capitalist's daughter a memory, yet she cherished it all the more fondly, and the resence grew mere intense when circumstances led

He descanted enthusia teally over the old time friendship, over the honored Smith name, and over the valuable Smith political and financial influence, and evidently believed he was giving Je sie a delightful surprise when he informed her that Jabez had a son, a that in no manner could the old family from her lips, friendship be maintained so pleasantly and constantly as by Jessie's becoming Mrs. Charles Algernon Smith.

Mr. Reland's precipitate haste prevented an explanation upon the very threshold of his plan to please his old friend. Shown into the drawing-room of the Roland mansion the next morning, Charles Albion Smith found himself confronted by a blustering, goodnatured old gentleman, who shook his hand warmly, enthusiastically referring to his friendship for his father, and in the same breath whispering in the young man's amazed ear, that "Jessie was bashful, but the marriage would delight two old, fondly-foolish hearts." the broker mentally discussing the sanity of his strange host.
