

LOCAL RECORDS.

The summer is over half gone. Go to the auction next Saturday, and buy yourself rich.

The young folks about here have recently had some very pleasant picnics.

The beautiful moonlight nights are much enjoyed—especially by the courting couples.

We are indebted to Mr. A. G. Roberson for a lot of the largest beets that we have ever seen. One would be enough for a large family.

You are being some of these good bargains being offered by Eason. He is offering great bargains than ever seen in this place for cash, and he is selling them so cheap, you need anything you had better get soon. Read his advertisement in this paper and profit by it. He has a FINE STOCK and they must be sold at once.

An Auction will be held at the store of J. B. Harris on next Saturday, the 21st. The auction in the morning (from 9 to 1 o'clock) will be exclusively for ladies and in the afternoon for men. Here is a fine opportunity to get splendid bargains. The stock of goods is still large and well assorted, and must be sold.

Just to think you can get a nice pair of gloves at London for 10 cents. Linen Handkerchiefs at 75 cents per dozen. Towels extra large, for 10 cents. Tea, Coffee, very cheap. Ladies if you need any more sleeping goods, you had better go to London for a week. A lot of these cheap shirts left. Remember the shirt has dropped out of goods at London. Bring the money with you if you want to buy cheap.

The Dry Farm.—This is the name that tradition says was given by the Indians to the country immediately around this place, and was thus called because it is between two rivers and Rocky river and in the summer season is always drier than any other part of the county. This country has certainly deserved this name, for while in other portions of the county there have been refreshing rains every few days in this country we have not been so favored, on the contrary the crops and vegetables of all kinds are suffering greatly for the want of rain.

A Flourishing School.—We have received a recent copy of "The Bulletin" published at Raleigh, Tenn., in which appears a very complimentary notice of the flourishing exercises of Cooper Falls Academy, of which Prof. E. A. Frazier is the accomplished principal, and who is well known to many of our readers, having removed from this section to Tennessee several years ago. While we regret that any citizen of our county or State should emigrate, yet where, yet if they will go, we are always pleased to hear of their success in their new homes.

The Inferior Court.

The semi-annual term of the inferior Court of this county began on last Monday, and all the business was finished yesterday. There was quite a stir attending even on Tuesday the crowd being so large and there were no cases of interest or importance tried. The following are the cases disposed of:

- State vs. John Wolfe—Larceny—verdict pronounced.
State vs. Lucien Williams—Renewing crop—verdict.
State vs. William Falls—Larceny—submitted and judgment suspended on payment of costs.
State vs. J. O. Oatham—Renewing crop—verdict of not guilty.
State vs. Charles Ekins—Assault and Battery—submitted and judgment suspended on payment of costs.
State vs. G. W. May, Sr., Walter D. Moore, H. M. Cowan, G. W. May, Jr., Albert Moore and Ben May—This indictment was for the offence that took place here at the last election. All the defendants, except G. W. May, Jr., who was acquitted by the jury, admitted and judgment was suspended on payment of costs.
State vs. Amos Brewer and John Webster—Affray—dismissed for want of jurisdiction.
State vs. Charles Hill and Ross Hill—Assault and Battery—verdict of not guilty as to Ross and guilty as to Charles; judgment, a fine of \$5 and costs.
State vs. Bryan Barrroughs—Sci. Fa.—Dismissed.
State vs. T. C. Denson—Assault and Battery—submitted and judgment suspended on payment of costs.
State vs. Elias Bryan and others; defendants allowed until next term to pay costs.
State vs. W. R. Mitchell—Trespass—verdict of guilty; judgment arrested and defendant discharged.
State vs. Rufus Lassater—Disturbing Religious Congregation—dismissed.
State vs. G. W. Oatham—Selling Mortgaged Property—dismissed.
State vs. Dave Johnson—Carrying Concealed Weapon—verdict of not guilty. The defendant in this case is a well known colored man of this place, and has the reputation among the colored people of being a conjurer. He did not employ any lawyer but argued his own case, and it is suggested that he "conjured" the jury.

Planting Wheat.—The most profitable wheat that we have heard of is one called "The Golden Wonder," which yielded 1700 bushels. This was grown upon the farm of Mr. H. A. Burns, of Hickory Mountain township, who has sent the bunch of stalks and the wheat to the Raleigh museum, where the inventors can see for themselves the truth of the statement.

We are informed by Mr. W. H. Brown of another profitable yield of wheat. He says that Mr. G. C. Combsman of Moore county, sowed 1 quart of Amber spring wheat and gathered therefrom 19 quarts, and used it for feed.

Secure Victims.—In addition to the victims to our town, whose names we recently published, there have been within the past few days the following arrivals: Mrs. Katie Deane of Georgia; Miss Kanna White of Mississippi; Mr. A. B. Reid of South Carolina; Mrs. Est. Winst and children of Franklin; Miss Nettie Marshall of Raleigh; Mrs. Thomas and Mrs. Wardell of Pitt County; Miss L. J. Gantt of Virginia; Mrs. L. J. Gantt of Virginia; Mr. G. W. Williams of Georgia; and Mr. Tobias Williams and family and Miss Dora Gowan of Cleveland county.

A Turkey Taken.—Some days ago Mr. J. Q. A. Lamb of this township, missed a brood of 23 young turkeys, and while the ladies of his family decapitated some that had stolen them, he was inclined to think it was a borrowed thief and went to a neighbor to get his pack of hounds. In a short time the dogs were on a trail and after an exciting chase caught an old fox, who he thought had been tracking on the young turkeys. An other gentleman of this township informs that he had two or three of his hounds and lost a large number of young chickens, but finally they succeeded in catching the thieves, who were very tame.

As a Consequence of Home.—On last Sunday afternoon a colored boy named Jack Gibson was accidentally killed by Bates McKee, a son of Mr. M. H. McKee, one of the most respected citizens of this county. From all the information that we can gather, it seems that Mr. McKee was absent from home with all his family, except his wife and two young children, who with the deceased was playing about the house and in sport picked up a gun which he supposed was empty and which he thought he would fire as a joke. The gun, however, was loaded and the bullet had passed through Jack's head, causing his instant death. It is a very unfortunate and sad case and much to be regretted.

Wilson Advances.—Mr. John Finch, saved 3000 pounds of clover from three farms of an acre, by the first cutting. —E. S. Sheriff, Cochran, of Nash, has left for parts unknown. He was behind in his account \$5,100. His bond is good and the bondsmen will have to make good the losses. —The fastest time ever made on the W. & W. R. R. was made by the fast mail on Monday night by Tom Lawther, of Orange, number thirty four, running the distance of 102 miles, in 3 hours, and 30 minutes. To give our readers an idea of the speed, we may mention that the big driving wheels made 236 revolutions to the minute.

Margaret Montainey.—The celebrated criminal Hobbs, St. Peter, who murdered his wife and child in this county some years ago, and who was tried and convicted and then sent to the asylum on the plea of insanity, was last Wednesday brought back to Marion and lodged in jail at that place. It will be remembered that he escaped from the asylum at Raleigh and was arrested on a charge of cattle stealing under the assumed name of Thos. Mefflin. On a requisition from Gov. Jarvis he has been turned over to the North Carolina authorities. He still retains insanity and is very violent. It can be established that he is not insane he will be sentenced and hung, as he has already been tried and convicted, and execution was stayed on account of his alleged insanity.

Alamance Glenora.—John Perry son of Ben Perry, about 12 years old, was drowned at Glenora factory last Saturday. The mill is stopped at noon for dinner, but on this occasion the wheel could not be stopped so the headgears had to be let down and the water shut off from the water house. When the water had run out of the water house the boy was found caught in the wheel, having one leg and one arm cut off. He was missed about 9 o'clock, but no serious alarm was kept about him. The water house is kept locked and besides the door there is only a small opening large enough for one to go through. A coroner's inquest was held which said that the boy came to his death by accidental drowning.

Greenville Reflector.—A severe storm visited Greenville and the immediate vicinity last Friday evening. The wind was very high and considerable damage was done. Trees were blown down and buildings were severely damaged. A tree in the yard of Mr. J. J. Harris was blown in two by the wind and fell across his parterre, smashing the house and breaking his residence. About the same time another tree in the yard of Mrs. Elizabeth Goughlin, Mr. Harris next neighbor, was blown up by the roof, and fell across her parterre, severing it in the same manner. Lightning struck the steeple of Mr. R. C. Patrick, who lives about two and a half miles from here and killed a bull. The storm extended an area of about three miles around the town and lasted about twenty minutes. A heavy fall of rain was poured the while.

Saltbury Waterworks.—A water mill now being opened on R. A. Lander's property, 3 1/2 miles east of Saltbury. The water is harnessed in a very judicious manner. Old dams are being thrown down, and the best thing they have discovered in the country. It is getting to be quite a common thing of late to hear of cases which give from 1 to 2 gallons of milk per day, and yielding from 5 to 8 pounds of butter per week. In this case the "steers of the stock law." —Mr. W. A. Lipscomb sustained a severe injury to his leg last week, by being run over by a high speed train. He is now in bed, and the wound is very serious. The accident was caused by the train being out of its regular track, and Mr. Lipscomb's leg was run over by the engine.

Abbeys Couriers.—Frank Pugh of Columbia Township, accused of having killed his father 12 or 15 years ago, was arrested and lodged in jail, one day last week. —When all of the new laws are in the hands of the courts, they will have over 1000 indictments filed in operation. This is a fine showing and shows everything in the State. There is not another factory in the State that can employ 50000000 in operation.

Biblical Recorder.—The Baptist church at Pittsboro is yet without a pastor. Here is a field for some good preacher. The church there, in connection with other churches, can pay a man now, about \$500 in money, and he would not be allowed to suffer for anything. This would be but a beginning. In a few years a good man could build up a fine field. There is hardly a healthier place in the State.

Winston Sentinel.—A little colored child while picking blackberries in a field near town, one day last week, was bitten in the head by a copperhead snake. The bite was too long, however, beyond of any serious results. —The Greensboro people have styled the Salem branch road the blackberry train, owing to the frequent and lengthy stoppages along the route. The expression strikes us as not altogether inappropriate.

Lenoir Topics.—Dr. Spaulthor has succeeded in obtaining from a Mr. Earnest, who lives on the Yadkin, what he thinks is one of the most valuable aboriginal finds ever picked up in this county. It is a small and rude image of a human being with its arms folded, made of serpentine. The image with the legs broken off is about 7 of an inch long and 1 inch broad. It was picked up by Mr. Earnest while being over and is evidently the hand work of the Indians.

Wilson Advances.—Mr. John Finch, saved 3000 pounds of clover from three farms of an acre, by the first cutting. —E. S. Sheriff, Cochran, of Nash, has left for parts unknown. He was behind in his account \$5,100. His bond is good and the bondsmen will have to make good the losses. —The fastest time ever made on the W. & W. R. R. was made by the fast mail on Monday night by Tom Lawther, of Orange, number thirty four, running the distance of 102 miles, in 3 hours, and 30 minutes. Save His Child. From the News and Observer. Ten years ago the taxable property of Asheville was assessed for taxation at about \$300,000; the next year at \$550,000, and so continuing on, the amount reached \$1,000,000 when it reached a million and more. Last year the increase was over a quarter of a million of dollars, and now the amount of taxable property is a million and a half. The increase of population has been equally as notable and the improvements are even more apparent. Fine buildings, splendid drives, magnificent roads and magnificent bridges at once adorn the city and illustrate the public spirit and enterprise of the residents.

Asheville's Growth. From the News and Observer. Ten years ago the taxable property of Asheville was assessed for taxation at about \$300,000; the next year at \$550,000, and so continuing on, the amount reached \$1,000,000 when it reached a million and more. Last year the increase was over a quarter of a million of dollars, and now the amount of taxable property is a million and a half. As when She was Young. "I have used Packer's Hair Balsam and like it better than any similar preparation I know of," writes Mrs. Ellen Perry, wife of Rev. P. Perry, of Caldwell Springs, Mass. "My hair was almost entirely gray, but a dollar bottle of the Balsam has restored the softness, and the brown color it had when I was young—becoming a gleam of gray hair left. Since I began applying the Balsam my hair has stopped falling out, and I find that it is a perfectly harmless and agreeable dressing."

The Bank of Durham. The much-expected has opened in the town of Durham, N. C., a banking house, under the name and title of "The Bank of Durham," with ample means for the transaction of a general banking business. The rapid and unprecedented growth of Durham justifies us in the hope, then increased banking facilities are demanded, and will greatly add to the general prosperity of our people and to the success of new enterprises, yet to spring up.

Attend the Business College of Kentucky University, Lexington, Ky. This college is the only one of its kind in the South, and it is the only one that has been established since the war. It is the only one that has been established since the war. It is the only one that has been established since the war. It is the only one that has been established since the war.
