SCALES!

Raising Reputation—A Grand Speech—Great Excitement!

Last Saturday was a day long to be remembered in our quiet old town, and was an occasion such as is seldom seen in Chatham. On that day General Scales, the next Governor of North Carolina, arrived here and addressed our countrymen according to previous appointment. This was his first appearance before a Chatham audience, and everybody was anxious to see the man of whom all had heard so much. At 10 o'clock a long procession of horsemen met him about a mile from here, and escorted him into town, and then to the court-house, where the waving of flags and banners. As the procession moved through the streets, the sidewalks were crowded with men, women and children, who cheered most lustily, and the greatest enthusiasm prevailed.

At 12 o'clock the court-house bell was rung and everybody rushed to get a seat in our spacious and comfortable court-room, which was soon completely filled. Just over the Judge's seat were placed several large signs, one of which was a portrait of the man who was to speak, and another was a portrait of the man who was to speak, and another was a portrait of the man who was to speak.

EXPOSITION NOTES.

This is the big week of the Exposition, but not the closing week, for it has been decided to keep open until Sunday, the 1st day of November.

This is the big week of the Exposition, but not the closing week, for it has been decided to keep open until Sunday, the 1st day of November. This further opportunity is afforded those who have not yet visited it to go and see what a grand thing it is. The railroad fare is only one cent a mile, so that the expense of the trip is small. We earnestly urge all our readers who have not yet visited it to be sure to go next week. But from the crowds that have been there within the past few days, it would really seem as if everybody had already visited it. We were there last Friday, which was "Bathurst's Day," and nearly all of Durham was there, and the attendance larger than on any previous day. Last Tuesday was "Fidelity's Day," and the crowd was still larger than ever. The admissions being 12,000. Every day this week visitors have been pouring into Raleigh from every direction, every train being jammed and packed. Nearly everybody in this community has been there, and many are going again next week. And yet with all the immense crowds daily visiting the Exposition there has been no disorder or breach of the peace. It speaks well for the law-abiding spirit of our people.

For the information of our readers, who go on the R. & A. Railroad, we would state that the passenger train does not stop at the Exposition grounds, on its return from Raleigh, but does stop there as it goes to Raleigh.

His enormous size induced him to have the snake cut up in large pieces. On cutting him open a snake measuring 18 inches in length was found.
