

A notable trial suit was tried last week at the superior court of Moore county. The plaintiff was T. Baxter Gunter, formerly of this county, and the defendant was the News and Observer Company, of Raleigh.

"Information is said to be in the possession of the coroner of Chatham county implicating Baxter Gunter in the murder of his mother and sister in that county, about a year ago."

"On the 24th of July, 1885, this item was contradicted by another item in the News and Observer, as follows:—"

"The statement that Baxter Gunter had disappeared and was being sought by law is contradicted. It is said that he can be found at his home, two miles from Sanford, at any time."

And on the 26th of July, the same paper published a letter from Mr. Gunter, contradicting the report that he had disappeared. The letter stated that he was in the county, and that he had been arrested for the murder of his mother and sister, and that he was being held in the county jail.

A Sabbath-observing Railroad.

From the Raleigh Observer.

In this day, when railroad corporations show so little regard for the Sabbath, it is pleasant to note that through our State we have a line of roads that carefully observe the Sabbath day.

This subject of the observance of the Sabbath by the railroads of the State is one of vast importance. The railroads have no more right to run their trains on Sunday than they have to run their trains on Monday.
